

## TCR Process Overview

Certain Networkx transition orders are eligible for credit reimbursement back to the ordering agency. Three charge types are eligible: NRC, MRC, and PIC.

### Basic Tenets (NRC, MRC)

- Agency places a transition order to Networkx contractor
- Contractor installs service and issues SOCN after completion
- Contractor submits invoice for the service which must be > \$0.00

If conditions for NRC or MRC are met, then:

- NRC: TCR pays lesser of SOCN unit price or invoice unit price
- MRC: TCR pays SOCN unit price (one full month amount)

### Basic Tenets (PIC)

- Agency places a service order to Networkx contractor (for ANIs)
- Contractor installs service and issues SOCN after completion
- If there is a PIC charge, Contractor submits invoice for the PIC charge
- Agency must submit claim for each ANI that incurred LEC PIC change charge

If conditions for PIC are met, then:

- TCR pays \$2.30 per ANI

## Glossary

**AHC** – Agency Hierarchy Code (28 digits)

**ANI** – Automatic Number Identifier

**ASRN** – Agency Service Request Number

**C/D** – Centralized-billed or Direct-billed

**FO** – Fair Opportunity

**LEC** – Local Exchange Carrier

**Mapcode** – A 4-digit code related to AHC and which has a reserve dollar amount from which reimbursements are paid.

**MOU** – Memorandum of Understanding (for direct-billed customers)

**MRC** – Monthly-Recurring Charge

**NRC** – Non-Recurring Charge

**OPS** – Operations

**PIC** – Primary Inter-exchange Carrier

**Reserve** – Maximum dollar amount that an agency component can receive in reimbursements without additional approval from the IMC. The reserve dollar amount is based on agency FTS2001 FY06 revenue.

**SOCN** – Service Order Completion Notice

**TBI** – Transition Baseline Inventory

**TCR** – Transition Credit Reimbursement

**TIP** – Transition Information Portal (an agency can track its reimbursements on TIP)

**TOPS** – Telecommunications Ordering and Pricing System used to acquire local services behind GSA consolidated switches.

## For More Information

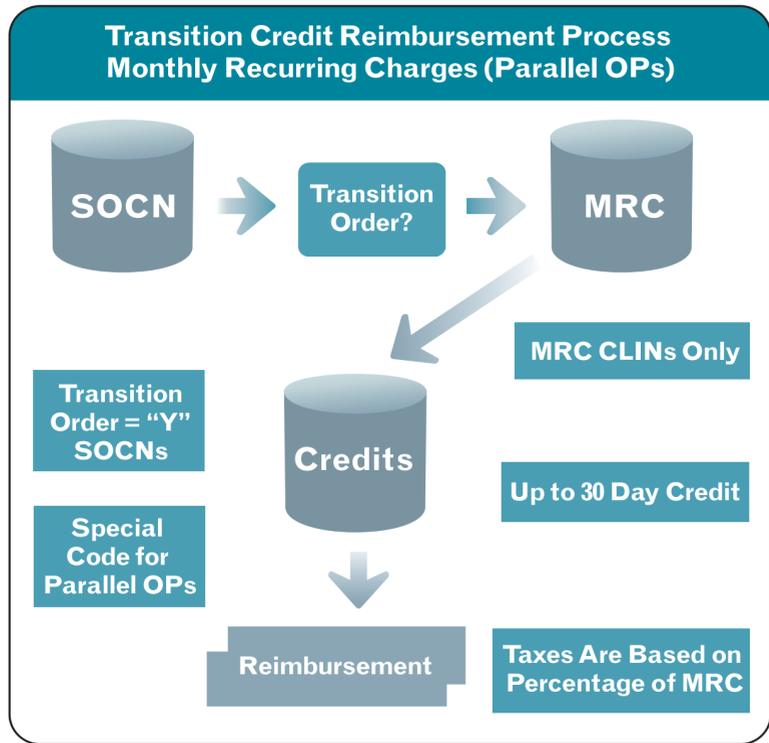

For further information about Networkx, visit [www.gsa.gov/networkx](http://www.gsa.gov/networkx). If you have questions on Networkx Pricing, call (866) 472-0274, email [networkx.support@gsa.gov](mailto:networkx.support@gsa.gov), or contact your designated Technology Service Manager (TSM) listed at [www.gsa.gov/gam](http://www.gsa.gov/gam).

# NETWORX

The Networx Program (Universal & Enterprise) offers comprehensive, best value telecommunications, providing for new technologies, industry partners and ways to achieve a more efficient, and effective government. Networx allows agencies to focus their resources on building seamless, secure operating environments while ensuring access to the best technology industry has to offer.

See *Networx > How to Transition > Networx Transition Library > Taxonomy and Allocation of Transition Costs* at [www.gsa.gov/networxtransition](http://www.gsa.gov/networxtransition) for information on the Transition Credit Reimbursement process and the order-receipt deadline.

## Monthly Recurring Charge (MRC) for Parallel Operations

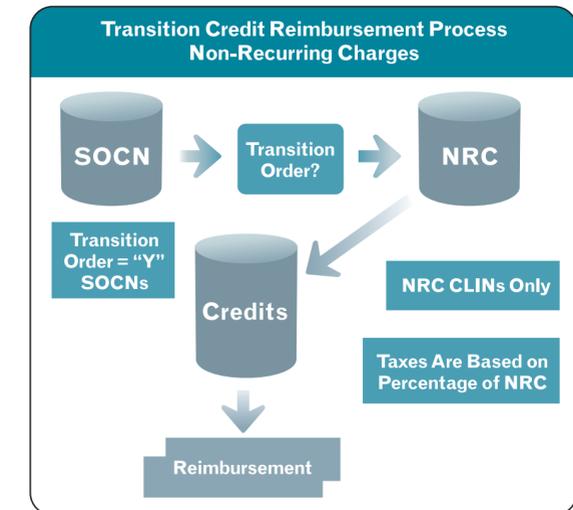

**Note: Does NOT apply to Device MRC (DMRC) for SEDs. TCR does not reimburse DMRC.**

- Based on SOCN
  - Transition = Yes
  - Order type = New
  - ASRN must include "P\_OPS"
- Requires matching invoice entry
- Requires invoice > \$0.00

### Conditions that must be met (including above):

- Is there a valid Mapcode?
- Is order receipt date on SOCN < deadline in Taxonomy?
- Is charge type = MRC?
- Are funds available in Reserve?
- If Direct-billed, is there an MOU?

**TCR pays SOCN unit price amount (covers one full month)**

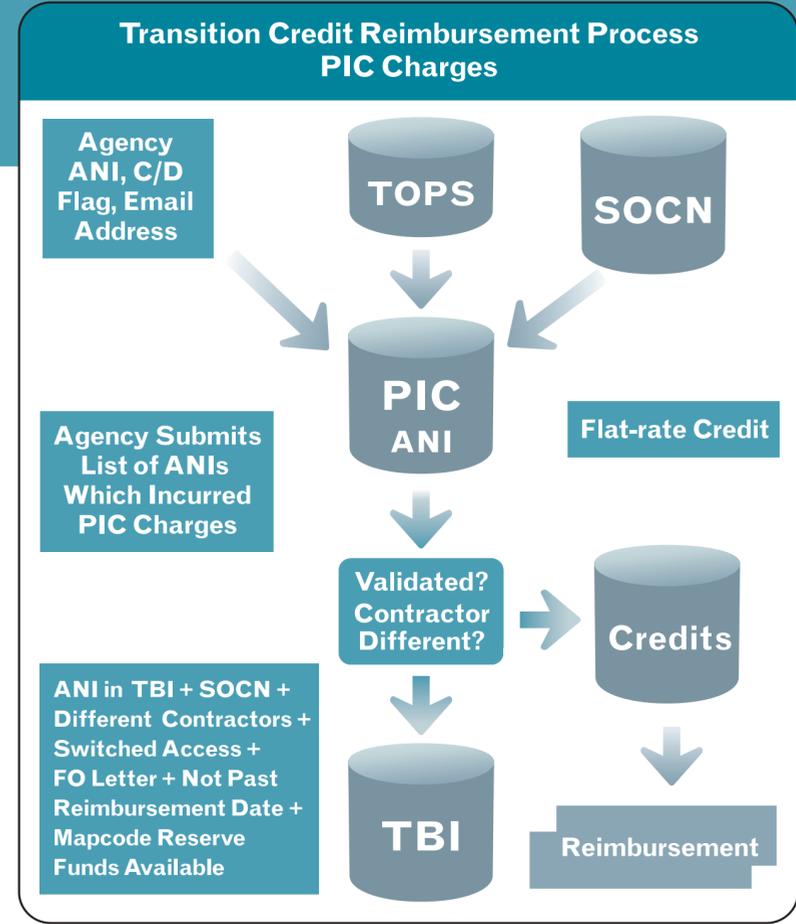

## Non-recurring Charge (NRC), including Device Non-recurring Charge (DNRC) for Service Enabling Devices (SEDs)

- Based on SOCN
  - Transition = Yes
  - Order type = New
- Requires matching invoice entry
- Requires invoice > \$0.00

### Conditions that must be met (including above):

- Is there a valid Mapcode?
- Is order receipt date on SOCN < deadline in Taxonomy?
- Is charge type = NRC (or DNRC for SEDs)?
- Are funds available in Reserve?
- If Direct-billed, is there an MOU?

**TCR pays lesser of SOCN unit price or invoice unit price amount.**

## Primary Inter-exchange Carrier (PIC) Charges

- Based on agency submitting PIC Claim Form (see Taxonomy at [www.gsa.gov/networxtransition](http://www.gsa.gov/networxtransition))
- Requires PIC change charge > \$0.00

### Conditions that must be met by ANI:

- Telephone Number (ANI) must not be a duplicate
- ANI must include exactly 10 digits
- Is the area code valid?
- Is there an associated SOCN available?
- Is there a valid Mapcode?
- Is order receipt date on SOCN < deadline on Taxonomy?
- Is ANI in TBI?
- Is the Networx contractor different than FTS2001 contractor?
- Does the ANI have switched access?
- Are funds available in Reserve?
- If Direct-billed, is there an MOU?

**TCR pays \$2.30 per ANI**
