

New Federal Relay Contract was awarded to Sprint on June 28, 2007

The U.S. General Services Administration today awarded our highly anticipated Federal Relay Service contract to Sprint. This award is the result of much hard work during the acquisition process.

The Federal Relay solicitation was specifically created to ensure that the Deaf, Hard-of-Hearing, and speech impaired community would continue to receive the same high quality of service they have grown to expect. We fully expect that you will find that the Federal Relay Service continues to provide enormous value to the Deaf, Hard-of-Hearing, and speech impaired community.

I have provided an information paper and FAQs with additional detail on the Federal Relay Service and its value to the government. I look forward to continuing our partnership in bringing the best possible service to you and the American Taxpayer in the years ahead.

Best Regards,

John
