

GREATER SOUTHWEST REGION

PROCUREMENT DIRECTORY 2008 - 2009

We appreciate your interest in receiving the latest edition of our Regional Procurement Directory.

The purpose of this directory is to provide you with “leads” to market your products and service(s) to agencies of the Federal Government. In listing the address and telephone number of a particular agency, we have tried to put you in direct contact with the purchasing or buying office. Once you have reached this office, you should take it one step further and seek to learn who, in that organization would be the end user or person who would require your products/services. It is that individual who will decide to buy the particular item. Once you have established contact, the rest is up to you. Find out if they need your product or service and what steps you need to take to sell your products/services to them.

If you learn of any changes or corrections when using this directory, please advise us so that we can update the information. Also, if you have any suggestions on how we can improve this directory, please send those suggestions to r7smallbiz@gsa.gov.

We are responsible for the states of Arkansas, Louisiana, New Mexico, Oklahoma and Texas.

If you need information about procurement offices that are located in states not listed in the directory, I suggest you contact the Regional Small Business Center responsible for your area of interest. These Centers are listed on pages 4 and 5 of this directory.

The Office of Small Business Utilization is the “front door” for contracting opportunities. Our office is responsible for a five-state area. For assistance with your contracting endeavors for the states of Arkansas, Louisiana, New Mexico, Oklahoma, and Texas. You may contact our office at 819 Taylor Street, Room 1E13A, Fort Worth, TX 76102. The telephone number 817-978-0800.

GENERAL SERVICES ADMINISTRATION

The General Services Administration help federal agencies better perform their functions by offering, at best value, superior workplaces, expert solutions, acquisition services and management policies.

GSA handles the contracting for a wide variety of products and services, ranging from food service equipment, security and facility management systems, office supplies, furniture and equipment, household furniture and furnishing, hardware and hand tools, motor vehicles and motor vehicles parts, janitorial supplies, paints, brushes, adhesives, refrigerators, air conditioners and water coolers.

We also contract for design, construction, repair and alteration and maintenance of government-owned buildings and U.S. courthouses, Appraisal, leasing and disposal of real property, Sale of Government-owned surplus personal and real property. Services such as guard, custodial, trash removal, window washing, furniture rehabilitation and maintenance and repair of vehicles and office machines. We have contracts for lease and purchase of ADP and telecommunications equipment, related supplies and services

Each Regional Office of Small Business Utilization is staffed with Business Specialists who can provide business counseling, assistance and marketing strategies concerning current bidding opportunities at GSA.

By participating in such outreach activities as networking sessions, workshops, training and procurement conferences, as well as other public forums, the small business community has the opportunity to meet key contracting experts and be counseled on the procurement process.

The Small Business Program Goals for the Greater Southwest Region for prime contracting for fiscal year 2008-2009 is as follows:

Small Business	54.65%
Small Disadvantaged Business	4.26%
Women-owned Small Business	5.00%
HUBZone Small Business	3.83%
Service-Disabled Veteran Owned Small Business	3.00%

How to Locate Bid Opportunities

Federal Business Opportunities (FedBizOpps) –in October 2001, FedBizOpps was designated as the single source for all federal government procurement opportunities that exceed \$25,000. All federal agencies are required to advertise at this site. To register to receive procurement announcements form FedBizOpps, you can visit the website at <http://www.fbo.gov> . If you need assistance with registering, contact the FedBizOpps Helpdesk at 1-877-472-3779.

GSA Forecast of Contracting Opportunities – is an on-line document that lists GSA’s anticipated contracting opportunities for the current or upcoming fiscal year, giving prospective contractors enough lead time to develop marketing strategies, compile necessary information and prepare proposals. To access the document, go to <http://www.gsa.gov/smallbusiness>, and look for the link entitled **GSA Forecast of Contracting Opportunities**.

GSA Subcontracting Directory – is a listing of large companies who have contracts with GSA for goods or services worth \$500,000 or more (\$1 million or more for construction). **Public Law 95-507** requires these contractors to have subcontracting plans that suggest the dollar value and the percentage of goods and services that may be supplied through subcontracts with small, small disadvantaged, women owned, HUBZone, 8(a), veteran-owned and service-disabled veteran-owned small businesses. The Subcontracting Directory is an online publication located at <http://www.gsa.gov/smallbusiness>.

The Small Business Administration

The U.S. Small Business Administration (SBA) was created as an independent agency of the federal government to aid, counsel, assist and protect the interests of small business concerns, to preserve free competitive enterprise and to maintain and strengthen the overall economy of our nation.

**DOING BUSINESS WITH
THE
DEPARTMENT OF DEFENSE**

Small businesses play an important role in the development and supply of goods and services needed to preserve our national security. The maintenance of a broad base of competent suppliers to the Department of Defense (DOD) is essential to fulfill that need. DOD offers great business opportunities for competent suppliers.

Every DOD purchasing office has at least one person called a Small Business Specialist. These specialists can provide information about contracting and subcontracting opportunities with that office and other DOD contracting offices. Counseling small and disadvantaged businesses on obtaining government contracts is one of the services provided by the region. Advisors are located at Regional Headquarters and in area offices located in Dallas and San Antonio, as listed below.

SMALL PURCHASE PROGRAMS

GSA, like all Federal agencies, has established goals for awarding contracts to small, minority-owned, women-owned, HUBZone, veteran-owned and service-disabled veteran-owned small business owners. To meet these goals, GSA uses “small business programs”. These programs include contact with the small business community, both to inform them about what GSA has to offer, and to help in locating and working with GSA procurement offices. Some small business programs also have “set-asides” under which certain contracts are reserved for competition among small businesses. Information concerning small business programs may be found in the Federal Acquisition Regulation (FAR), which is available electronically on the Acquisition Network-AcqNet at <http://www.arnet.gov/>.

The small business programs, which are described in the following sections, are among the ways of increasing the number of Government contracts awarded to small businesses. In addition to the information provided below, you may contact our office at 817-978-0800.

Procurement Equity Program – Goaling

Consistent with the need to measure performance, the annual goaling program established by Congress and administered through the Small Business Administration, sets forth targets for Federal small business procurement dollars. Prime contract goals are expressed as the percentage of total dollars subcontracted by prime contractors.

Small Business Set Aside Program

Under this program, except for acquisitions set aside for very small businesses, each acquisition of supplies or services that has an anticipated dollar value of over \$2,500, but not over \$100,000, is automatically reserved exclusively for small businesses. The acquisition will be set aside for small business unless the contracting officer determines there is not a reasonable expectation of obtaining offers from two or more responsible small businesses that are competitive in terms of market prices, quality and delivery. Also, the contracting officer shall set aside any acquisition over \$100,000 for small business participation when there is a reasonable expectation that: (1) offers will be obtained from at least two responsible small businesses offering the products of different small business concerns and (2) awards will be made at fair market prices.

Total small business set-asides may be conducted by using simplified acquisition procedures, sealed bids or competitive proposals. If the requirement has an anticipated contract value of \$100,000 or less, simplified acquisition procedures are used, with certain exceptions. However, only small businesses are allowed to compete for these contracts. If the anticipated value is over \$100,000 the

requirement will be solicited under sealed bid or competitive proposal procedures. Partial small business set-asides may be conducted using sealed bids or competitive proposals.

Small Disadvantaged Business Program

To give small disadvantaged businesses (SDBs) an opportunity to participate in Federal procurement activities, eligible SDBs may receive price evaluation adjustments when competing for certain requirements. The U.S. Department of Commerce determines the price adjustments available for use in Federal procurements and identifies the industries that are eligible for price evaluation adjustments. On a case-by-case basis, SBA is authorized to determine whether a firm is owned and controlled by specified individuals claiming to be disadvantaged. FAR 2.101 provide a more detailed definition of a small disadvantaged business.

For additional information concerning the Small Disadvantaged Business Program, contact the U.S. Small Business Administration at 817-684-5500, or visit their website at <http://www.sba.gov/sdb/index.html>.

Women-Owned Small Business Program

GSA establishes goals for the award of contracts to women-owned small businesses each year. The OSBU makes a special effort to advise women on contracting opportunities within GSA and to encourage their participation in competitive procurement programs.

For additional information on the Women-Owned Small Business Program, visit <http://www.womenbiz.gov/>. You can contact the U.S. Small Business Administration's (SBA's) Office of Federal Contract Assistance for Women Business Owners (CAWBO) on 202-205-7797 or visit their website at <http://www.sba.gov/womeninbusiness/>.

Historically Underutilized Business Zone (HUBZone) Program

The HUBZone Empowerment Contracting Program was enacted into law as part of the Small Business Reauthorization Act of 1997. The HUBZone Program provides Federal contracting opportunities for certain qualified small businesses located in eligible historically underutilized business zones. Eligible areas cover more than 7,000 urban census tracts, 900 rural areas and every federally recognized Native American reservation. This helps promote private-sector investments and employment opportunities in urban and rural communities.

Veteran-Owned Small and Service-Disabled Veteran-Owned Small Business Program

Public Law 106-50, the Veterans Entrepreneurship and Small Business Development Act of 1999, amended the Small Business Act. It added small businesses owned and controlled by service-disabled veterans to the categories of small businesses for which the Federal agencies develop prime and subcontracting goals. Federal agencies also establish goals and collect data regarding subcontracts awarded by prime contractors to veteran-owned small businesses.

For more information on the veteran-owned small or service-disabled veteran-owned small business programs, contact the SBA's Office of Veterans Business Development at 202-205-6773, or visit SBA's website at <http://www.sba.gov/vets/>.

Subcontracting Program

Firms with large Government contracts are required by law to establish goals for awarding subcontracts to qualified small, small disadvantaged, women-owned small, HUBZone small, veteran-owned small and service disabled veteran-owned small businesses. Each prime contract of \$500,000 or more (\$1 million for construction) with subcontracting possibilities must include subcontracting goals and a plan for meeting those goals. This subcontracting requirement, however, does not apply to contractors who qualify as small businesses.

One avenue to assist small businesses seeking subcontracting opportunities with GSA's contractors is through the Subcontracting Directory. The Subcontracting Directory lists prime contractors alphabetically by GSA region, products and services, addresses, points of contact and telephone numbers. You may access the Subcontracting Directory from the Office of Small Business Utilization (OSBU) website at <http://www.gsa.gov/smallbusiness> by clicking on Subcontracting Director.
