

## Overview of the E-Gov Travel Service Master Contracts

GSA, with the support and collaboration of over 23 federal agencies, awarded three Firm-Fixed Price (FFP), Indefinite Delivery/Indefinite Quantity (IDIQ) contracts, each with a ten year term, for the provision of web-based, end-to-end travel management services to the Federal Government.

The integrated and collaborative participation of 23 federal agencies served to ensure that the vast majority of government wide travel management needs were met. The 23 federal agencies were intimately involved with the acquisition strategy and planning, development of government wide travel management requirements and objectives, and the evaluation and selection of the awarded ETS solutions.

Because it is a multiple-award, IDIQ contract, ETS falls under the ordering provisions of FAR Subpart 16.5 “Indefinite Delivery Contracts.” Under these guidelines, formal proposals and extensive technical and price evaluation and discussion may not be required to award an ETS task order. However, agencies are required to provide fair opportunity to all vendors. The ETS PMO strongly recommends that at a minimum, vendor interviews and ETS demonstrations be conducted to ensure understand of vendor solutions, determine appropriate implementation service levels and negotiate price reductions fro Contract Line Item Numbers (CLINs) other than the Reservation and Fulfillment and Authorization and Voucher CLINs. The task order issuance process described in this section is FAR compliant for IDIQ contracts.
