What Is AutoChoice?

AutoChoice is GSA's secure on-line ordering application for light vehicles, ambulances, medium/heavy vehicles, buses, wreckers and car carriers. In support of the President's Management Agenda, GSA made a commitment to eliminate the use of paper requisitions. As a result, GSA implemented mandatory use of AutoChoice in October 2004.

With AutoChoice You Can:

- Configure your vehicles and choose vehicle equipment options;
- View side by side comparisons of vehicle models from vehicle manufacturers;
- Calculate actual vehicle prices for your configured vehicle including the GSA 1% surcharge;
- View the GSA contract discounts to the manufacturers suggested retail price (MSRP) and dealers invoice;
- View miles per gallon fuel ratings;
- View GSA's minimum requirements;
- View vehicle manufacturers past performance;
- Select the vehicle that provides the best value for your agency's mission;
- Select a dealership;
- Submit your vehicle orders to GSA online;
- Check vehicle order status; and
- Link to the NHTSA's website to view crash test ratings.

AutoChoice Authorization Levels

AutoChoice is set up with authorization levels to allow organizations to establish user “rights” to the various program modules.

Centralized Agencies - All orders for a bureau/field office are sent to GSA through one office (such as a Headquarters purchasing office).

Decentralized Agencies – Have authority to place orders directly to GSA.

User Authorization Levels	Check Status of Ordered Vehicle	View and Compare Prices	Add Orders to Garage	View/Edit Orders in user’s Garage	View, Edit and Approve Orders	Send Orders to GSA	Administer Users and Authorization Levels
Level 1 – For Vendors.	X	X					
Level 2 – Default for Agencies.	X	X	X	X			
Level 3 – Access to view all agency orders with no procurement authority.	X	X	X	X	X		
Supervisor** - Procurement authority to place orders.	X	X	X	X	X	X	X
Group Admin. – Designated ordering point of contact for agency. Not required.	X	X	X	X	X	X	X
