GSA’s Child Care Program serving federal employee families nationwide

The General Services Administration’s (GSA) Child Care Program supports our national commitment to providing quality child care as a key building amenity and an essential component of a quality work environment. The Child Care Division, within the Public Buildings Service, oversees the program ensuring that working families using child care centers located in GSA managed space receive high quality care for their children.

We work in partnership with federal agencies and boards of directors to select high quality child care providers. We strive to take advantage of the best available child care resources within each local community. Overall program guidance and standards are prioritized in formal licensing agreements.

Title 40 of the United States Code, section 590 gives federal agencies the authority to establish child care centers for federal families. The centers are designed to serve federal families on a priority basis and community participation is welcome. The code also allows federal agencies to use appropriated dollars to improve the affordability of child care for lower income federal employees.
