Question #1: What is the cost of increased bandwidth under FIT?
Answer: FIT does not cover increased bandwidth as it is a service that is paid monthly.

Question #2: Do you have examples of furniture for PO-1 to PO-4?
Answer: Since there are many options based on your requirement please contact dianne.juba@gsa.gov for private office typicals.

Question #3: How quickly after the IDIQ contract is awarded will agencies be able to place an order utilizing this contract?
Answer: Within one week following award.

Question #4: Can you adjust the benching typical’s work surface height according to ergonomic requirements? Are any of the FIT program’s work surfaces adjustable in height?
Answer: Yes. Electronic and counter-weighted adjustable height are both options on 30” deep work surfaces.

Question #5: Why isn’t installation included?
Answer: Through FIT, customers lease equipment, or a capital asset. Because installation is a service, not an asset, it cannot be leased.

Question #6: Is there a matrix that defines FIT versus agency costs?
Answer: Please contact dianne.juba@gsa.gov for the matrix explaining costs & role responsibility.

Question #7: Does GSA assist in developing the furniture requirements? If so, how much detail are the agencies required to provide upfront?
Answer: GSA Regional Workplace Executives and regional designers will assist. Based on Design Intent Drawings, agencies must determine the quantity of each workstation size.

Question #8: Could you approximate the cost of a 6x8 cube?
Answer: The IDIQ’s 6x8 is estimated at $3,800, including task chair and accessories. This does not include delivery and installation, which varies by location.
Question #9: Is maintenance included when buying workstations?
Answer: Agencies will be responsible for future maintenance and reconfiguration costs.

Question #10: When furniture is selected, will there be a library of CAD blocks available for project layout?
Answer: Yes. There will be a CAD or Revit library specific to each vendor for the workplace furniture; see Functional Area 1.

Question #11: Are there options for other ergonomic accessories - keyboard trays, task lights, etc.? Answer: Yes. Monitor arms are also included as options.

Question #12: Are sound masking systems included in FIT?
Answer: No, but many options are available on the GSA schedule and can be funded via FIT.

Question #13: Does the contract allow for reasonable chair accommodations (i.e. specific chairs for those with special needs)?
Answer: Yes. The contract offers many ergonomic features on the task chair, for which there will be a standard size (under 300 lbs) and heavy duty size (over 300 lbs).
