**General Services Administration Acquisition Regulation; Submission for OMB Review; GSA Advantage!® and Electronic Commerce-FACNET**

**AGENCY:** Office of the Chief Acquisition Officer, GSA.

**ACTION:** Notice of a request for comments regarding a new OMB clearance.

**SUMMARY:** Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the General Services Administration will be submitting to the Office of Management and Budget (OMB) a request to review and approve a new information collection requirement regarding GSA Advantage!® and Electronic Commerce-FACNET. A request for public comments was published in the **Federal Register** at 74 FR 4596, January 26, 2009. No comments were received.

Public comments are particularly invited on: Whether this collection of information is necessary and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected.

**DATES:** Submit comments on or before: April 19, 2010.

**FOR FURTHER INFORMATION CONTACT:** Warren Blankenship, Procurement Analyst, Contract Policy Division, at telephone (202) 501-1900 or via e-mail at [warren.blankenship@gsa.gov](mailto:warren.blankenship@gsa.gov).

**GENERAL SERVICES ADMINISTRATION**

**Notice of Intent To Prepare an Environmental Impact Statement (EIS) for the Sale of Plum Island, NY**

**AGENCY:** Office of Real Property Utilization & Disposal; General Services Administration.

**ACTION:** Notice.

**SUMMARY:** Pursuant to the requirements of the National Environmental Policy Act (NEPA) of 1969, and the President's Council on Environmental Quality Regulations (40 CFR 1500-1508), as implemented by the U.S. General Services Administration (GSA) Order PBS P 1095.4C, GSA, as the operational Joint Lead Agency, announces its Notice of Intent (NOI) to prepare an EIS for the anticipated sale of Plum Island, New York and an ancillary support facility at Orient Point, New York. The US Department of Homeland Security (DHS) will act as a Joint Lead Agency in ongoing consultation with GSA for the NEPA and associated regulatory compliance activities.

**ADDRESSES:** Written comments may be sent to: Mr. Phil Youngberg, Environmental Manager c/o Mr. John Dugan, General Services Administration (GSA), 10 Causeway Street, Room 925, Boston, MA 02222. All comments received by GSA in response to the Plum Island NEPA process, including commenter's name and state of

residence, will be public information and may be released by GSA.

**FOR FURTHER INFORMATION CONTACT:** Mr. Phil Youngberg via FAX at 617-565-5720 or e-mail: [phil.youngberg@gsa.gov](mailto:phil.youngberg@gsa.gov).

**SUPPLEMENTARY INFORMATION:**

*Background:* Plum Island is an 840-acre island located approximately 1.5 miles off the northeast tip of Orient Point, Long Island, New York. DHS, in cooperation with the U.S. Department of Agriculture (USDA), operates the Plum Island Animal Disease Center (PIADC) on the island. Plum Island is formerly the home of the U.S. Army's Fort Terry and was transferred to the USDA in 1954 to establish a research facility for foot-and-mouth disease. In 2003, Plum Island was transferred to DHS. PIADC is comprised of buildings, industrial facilities and equipment, roadways, utilities, specialized facilities, easements, and rights of way. Additional assets on Plum Island include natural undeveloped land, the Plum Island Lighthouse constructed in 1869, and buildings and structures associated with the former Fort Terry. DHS also owns and operates transportation assets and a 9.5-acre facility to support PIADC at Orient Point, New York which includes buildings, utilities, and ferry docking facilities.

*Statutory Authority:* The purpose of this EIS is to examine the effects associated with the anticipated sale of Plum Island, New York and its support facility at Orient Point, New York including all real and related personal property and transportation assets (the "Property"). The need for this proposed action is mandated in Section 540 of the Consolidated Security, Disaster Assistance, and Continuing Appropriations Act of 2009; United States Public Law 110-329 (the "Act"), which directs the Secretary of the DHS to liquidate the Plum Island asset by directing the Administrator of the General Services to sell through public sale all real and related personal property and transportation assets which support Plum Island operations, subject to such terms and conditions as necessary to protect government interests and meet program requirements. The Act mandates the sale as a result of the determination by DHS to construct and operate a new National Bio and Agro-Defense Facility (NBAF) in Manhattan, Kansas and move its operations from the PIADC to the NBAF (Record of Decision dated 01/16/2009)

*Scoping and Request for Comments:* The EIS will address the potential impacts to the environment of two

alternatives: sale of the Property (the "Action Alternative"), and continued Federal ownership (the "No-Action Alternative"). The Action Alternative will be further refined into a series of reasonably foreseeable land use options. Because the federal government has no authority to regulate future land uses, a precise statement of the specific land use-related environmental and socioeconomic effects that could result from reuse would be largely speculative. In response to the lack of certainty concerning future reuse of the Property, the EIS will identify reasonable land use options that could result upon the sale of the Property. When the Property leaves federal ownership, proposed uses would be subject to local and state environmental and land use regulation.

The primary purpose of the scoping process is for the public to assist the GSA and DHS in developing the EIS by identifying important issues and alternatives related to the sale of the Property. Scoping meetings in Southold, New York and Old Saybrook, Connecticut will allocate time for presentations by the GSA and DHS, followed by an opportunity for the public to comment. Land use and development scenarios will be developed with input from the local community through the scoping process. It is anticipated that these public scoping meetings will be held in the spring of 2010. GSA will provide public notice of these and all subsequent public meetings in local newspapers approximately two weeks prior to the event.

After the scoping is completed, a Draft EIS will be published that identifies and evaluates potential land use options developed to assess impacts of the Action Alternative. The Draft EIS will identify potentially significant direct, indirect, and cumulative impacts on historical and biological resources, land use, air quality, water quality, water resources, and socioeconomics, as well as other environmental issues that could occur as a result of the Action Alternative. For potentially significant impacts, the EIS may identify avoidance, minimization, or mitigation measures to reduce these impacts, where feasible. After the Draft EIS is issued, there will be a 45-day comment period. GSA will hold public meetings in Southold, New York and Old Saybrook, Connecticut during the comment period to solicit input from the public. GSA anticipates this comment period will occur in summer 2010. After the Draft EIS, GSA will issue a Final EIS.

*Reasonable Accommodations:* Persons needing reasonable

accommodations in order to attend and participate in public meetings should contact John Dugan, General Services Administration Property Utilization & Disposal Division, 10 Causeway Street, Room 925, Boston, MA 02222 or e-mail [john.dugan@gsa.gov](mailto:john.dugan@gsa.gov). In order to allow sufficient time to process requests, please call no later than one week before the public meeting. Information regarding this proposed action is available in alternative formats upon request.

Dated: March 9, 2010.

forth and let them see the area, see the water, see the beauty of the house and the back entry," he said.

To Joan Bischoff, managing director of the North Fork for Town & Country Real Estate, who helped come up with the concept, Mattituck Inlet and its creeks are "underestimated" — another reason why tours from the water are important during a tough time in real estate.

"Mattituck Inlet is a great area, but it's underutilized," Mr. Bischoff said. "But when you go out on a boat, you see all the phenomenal houses on the inlet that are difficult to see from the land."

Henry Silverman, a retired school-teacher who said he was in the process of selling his recently built waterfront home in Aquebogue, was one of the potential buyers on the first boat out Friday morning. He said that he was looking at houses all over the East End and the boat ride "just looked like a neat way to look at houses from the different side."

Pat Stegner was also looking at the property as a possible purchase. She's owned a house on the bay in Southold since 1976 and has lived

there full-time since 1992.

"I wanted something that was higher up on the water like this," she said, cheese and cracker in hand. "I'm thinking about it."

"The water is exactly what it's all about," said Rudy Bernhardt, a salesman for Premium Wines in Mattituck who was providing a tasting at the open house. "I'm an outdoor, beach type of person, and the view is fantastic. Keep the house, I'll take the decks and the garden."

Mr. Planamento said he made it a point to get local businesses like Premium Wines and Capt. Bob's Fishing Fleet involved in the waterfront showing to "foster a sense of cooperation" — essential in a smaller market like the North Fork, he said.

"Having lived here for a while, I know how to cross-promote," said Mr. Planamento, who for years also ran the boutique retail store La Ferme De La Mère on Love Lane in Mattituck, which he recently sold. "Not only did I want to promote this house to breathe new life into it, I wanted to cooperate with my colleagues at the same time."

"And take a boat ride on a beautiful day."

**Public Notice**  
**Public Scoping Meetings for the Sale of Plum Island, New York**

Two meetings have been scheduled to solicit public comments on the proposed public sale of the 840-acre Plum Island and the 9 1/2-acre Orient Point, NY, facility. The sale is mandated in Section 540 of the Consolidated Security, Disaster Assistance, and Continuing Appropriations Act of 2009; United States Public Law 110-329. The US General Services Administration (GSA) and the US Department of Homeland Security (DHS) invite public participation to promote open communication, provide accurate information to the community, and to solicit comments. GSA will prepare an Environmental Impact Statement to analyze and address issues that may be identified. All persons and organizations are urged to participate. Comments may also be provided via mail, Fax, or email to: Phil Youngberg c/o John Dugan, GSA, 10 Causeway Street, Room 925, Boston, MA 02222, emails: phil.youngberg@gsa.gov or john.dugan@gsa.gov or Fax: 617-565-5720. Comments should be mailed, faxed, or emailed to GSA, and should be received by GSA no later than June 2, 2010.

### Public Notice

#### Public Scoping Meetings for the Sale of Plum Island, New York

Two meetings have been scheduled to solicit public comments on the proposed public sale of the 840-acre Plum Island and the 9 1/4-acre Orient Point, NY, facility. The sale is mandated in Section 540 of the Consolidated Security, Disaster Assistance, and Continuing Appropriations Act of 2009; United States Public Law 110-329. The US General Services Administration (GSA) and the US Department of Homeland Security (DHS) invite public participation to promote open communication, provide accurate information to the community, and to solicit comments. GSA will prepare an Environmental Impact Statement to analyze and address issues that may be identified. All persons and organizations are urged to participate. Comments may also be provided via mail, Fax, or email to: Phil Youngberg c/o John Dugan, GSA, 10 Causeway Street, Room 925, Boston, MA 02222, emails: [phil.youngberg@gsa.gov](mailto:phil.youngberg@gsa.gov) or [john.dugan@gsa.gov](mailto:john.dugan@gsa.gov) or Fax: 617-565-5720. Comments should be mailed, faxed, or emailed to GSA, and should be received by GSA no later than June 2, 2010.

## Protest: Boys affected, too: No athletic sandals allowed

Continued from A1

sneakers she said some girls wear to school.

"You can run in flip flops, but not in 5-inch heels, and they're not banned," she said.

Students and staff were banned from wearing backless shoes, which include flip-flops, at the start of the 2009-2010 school year. Board members said a directive was issued from Superintendent of Schools MaryAnne Mascolo about the ban last June, but it was never officially voted on by the board's policy committee. Students didn't think much about the ban when the weather is cooler, but now many said they're ready to ditch their socks and sneakers and expose their feet.

"They're very convenient, and they cost a lot less than shoes and sneakers," Cabrera said. "We would appreciate if the board would allow us to wear flip-flops. It's come to a point where teachers are spending more time talking at our feet rather than teaching."

Uison Garman, 17, said she enjoys the ease of sliding into flip flops, or athletic sandals, especially after a game.

They're great because they don't cause blisters," she said. Students said if they're caught wearing flip flops, they could get in-school suspension if they don't have another pair of shoes to change into.

Cabrera said out of 22 area high schools she researched, 16 told students to wear flip-flops to school. She said the other schools that don't allow the footwear were either technical, public or private schools, the majority of which requires students to wear uniforms.

Cabrera said she can understand why flip-flops would not be allowed at most technical schools, due to the nature of equipment in those schools' machine and automotive shops, but at a regular high school, she believes flip-flops are fine.

Saffo agreed that flip-flops are a lot more convenient and cooler to wear to school this time of year than hot, stuffy sneakers.

"Even the guys at our school support it, because they can't wear their Adidas (athletic) sandals to school either," Saffo said.

Several other students said flip-flops are also much easier on their feet, and don't cause blisters.

Students also noted that they couldn't recall any specific incidents in which students wearing flip-flops, which were previously allowed in the high school, were injured. There was one girl who was wearing flip-flops, they said, who did slip, but it was because there was water on the floor.

Board member Fred Stanek said he sees nothing wrong with flip-flops at school.

"I don't have a problem with students and staff wearing backless shoes," he said.

Board Chairman Ed Strumello said the matter will be referred to the policy committee for further discussion, but he said his mind has been made up.

He said backless shoes have no place in the classroom.

"I'm always worried about the safety of our students and staff," he said.

Mascolo said she issued the ban following an undisclosed number of incidents involving both students and staff whom she said slipped while wearing backless shoes at school. She

said the district had \$150,000 worth of workmen's compensation claims due to staff members who slipped in school.

Mascolo said the Board of Education's dress code states that "students must wear proper and safe footwear; any footwear deemed dangerous to the student or others will be prohibited." She sent a reminder letter to parents earlier this year about the ban on backless shoes, that in part, read:

"It is important that your children dress appropriately for the remainder of the school year ... flip flops or any shoe without a back is prohibited. Sandals with backs are considered appropriate footwear."

Superintendents in Ansonia, Derby and Shelton said backless shoes are allowed in their districts.

Derby Superintendent of Schools Steve Tracy said while there used to be such a policy, it no longer exists.

"We got rid of it a couple of years ago," Tracy said.

In Shelton, Assistant Superintendent of Schools Lorraine Rossner said, "Currently, flip flops are not banned from student dress. High school students do have to abide by certain dress, however, that would be counterproductive to the educational process or unsafe — some items being hats, sunglasses, outerwear like coats and jackets, spiked or studded bracelets-belts-jewelry."

Ansonia Superintendent of Schools Carol Merlone said her district has no policy on its books either regarding flip flops.

"No, we do not have a policy about backless shoes, however, I would think the reason for banning them would be safety," Merlone said.

Hazel Soares, 94, center, gets her picture taken with some of her classmates before the start of commencement exercises at Mills College, in Oakland, Calif., Saturday.

## Grad, 94, proves it's never too late

**OAKLAND, Calif. (AP)** — It's never too late to earn your college degree. Just ask Hazel Soares. The 94-year-old woman was among roughly 500 students to pick up their diplomas at the Mills College commencement on Saturday. She is believed to be the world's second oldest person to graduate from college. The Guinness Book of World Records says Nola Ochs of Kansas became the oldest when

she graduated from Fort Hays State University three years ago at age 95. Born in 1915, Soares received a special congratulations from House Speaker Nancy Pelosi, who delivered the keynote speech at the women's college in Oakland. The art history major now hopes to find work as a docent at a San Francisco Bay area museum.

## Boy who survived plane crash returns home

Associated Press

**AMSTERDAM** — The 9-year-old Dutch boy who miraculously survived a plane crash in Libya returned to the Netherlands aboard an airborne ambulance Saturday and was whisked away to a hospital in his hometown, where he must begin to rebuild his life without his parents or brother. Ruben van Assouw was the sole survivor, pulled unconscious from the wreckage of an Afriqiyah Airways jetliner that plunged into the desert less than a mile from the runway in

include 70 Dutch nationals. Ruben returned with an aunt and uncle aboard a flight to a military air base in Eindhoven, then was taken to St. Elizabeth Hospital in nearby Tilburg, the hometown of the Van Assouws. Patrick, 40, Trudy, 41, and their son Enzo died in the crash. Ruben underwent more than four hours of surgery to repair multiple fractures to his legs Wednesday, but doctors say he has been recovering well. A statement by close relatives said the extended family will care for Ruben, and asked the media not to contact them while they

his breath peacefully in the arms of relatives," Tilburg mayor Ivo Opstelten said on Dutch television. The boy and his relatives need to find "a kind of balance with each other, so they can start sketching a future." The story of the boy's improbable survival and tragic loss has moved people around the world. Hundreds offered condolences and wished the boy well on a blog set up by his father to chronicle the family's vacation to South Africa. They were returning home when their flight from Johannesburg to Tripoli crashed.
