a written real estate lending policy that
is reviewed and approved by the bank’s
board of directors at least annually.
Also, these banks must identify in their
loan records loans in excess of the
Board’s supervisory loan-to-value (LTV)
limits.

Legal authorization and
confidentiality: The Board has
determined that section 304 of Federal
Deposit Insurance Corporation
Improvement Act of 1991 (12 U.S.C.
1828(o)) authorizes the Federal Reserve
to require the recordkeeping
requirements associated with the
Board’s Regulation H (12 CFR 208.51).
The obligation of state member banks to
comply with the Reg H recordkeeping
requirements is mandatory. Since the
information is not collected by the
Federal Reserve, no issue of
confidentiality under the Freedom of
Information Act (FOIA) normally arises.
However, information gathered by the
Federal Reserve during examinations of
state member banks would be deemed
exempt from FOIA disclosure by
exemption 8 (5 U.S.C. 552(b)(8)). In
addition, exemptions (b)(4) and (b)(6) of
FOIA, (5 U.S.C. 552(b)(4) and (b)(6)) also
may exempt from disclosure certain
data (specifically, individual loans
identified as in excess of supervisory
LTV limits) collected in response to
these requirements if gathered by the
Federal Reserve, depending on the
particular circumstances. These
additional exemptions relate to
confidential commercial and financial
information and personal information,
respectively. Applicability of these
exemptions would be determined on a
case-by-case basis.

Current actions: On September 27,
2017, the Board published a notice in the
Federal Register (82 FR 45025)
requesting public comment for 60 days
on the extension, without revision, of the
Recordkeeping Requirements
Associated with the Real Estate Lending
Standards Regulation for State Member
Banks (Reg H–5). The comment period
for this notice expired on November 27,
2017. The Board did not receive any
comments.

SUPPLEMENTARY INFORMATION:

Background

Oty Mesa is located approximately
17 miles southeast of downtown San
Diego, just north of the U.S. border and
the Baja California Peninsula of Mexico.

The Otay Mesa LPOE is one of the ten
busiest LPOE’s in the country and is the
busiest commercial port on the
California/Mexico border. Ever-
increasing traffic loads and new security
initiatives require increased capacity
and new inspection technology to be
installed and implemented at existing
facilities.

Alternatives

The EIS will consider two “action”
alternatives and one “no action”
alternative. The two “action”
alternatives consist of renovation and
expansion activities at the existing Otay
Mesa LPOE. These activities could
include the construction of additional
primary inspection and exit booths; the
construction of a new commercial annex
building for enrollment and processing
facilities; and the relocation of the
existing hazardous materials docks.

Improvements could also include
modifications to inspection stations and
work areas, including the construction
of a new Customs and Border Protection
(CBP) regional training center.
Enhancements could also include the
construction and operation of secondary
inspection areas, holding rooms, as well
as the expansion of pedestrian and
commercial lanes.

The “no action” alternative assumes
that modernization and expansion of the
existing LPOE would not occur and that
a new facility would not be constructed
adjacent to the existing LPOE. The
LPOE would continue to operate under
current conditions.

Dated: January 17, 2018.

Director, Portfolio Management Division,
Pacific Rim Region, Public Buildings Service.
