Leading by example

GPG accelerates market acceptance by assessing innovative building technologies in real world environments and deploying those that deliver

---

GPG helps technology bridge the valley of death and accelerates market acceptance by:

- Selecting promising technologies at the edge of commercialization
- Piloting technology installations within GSA’s real estate portfolio
- Partnering with Department of Energy national laboratories to evaluate real-world performance
- Identifying technologies with broad deployment potential for GSA

---

GPG results provide actionable data to enable GSA to make sound investment decisions
