

PILOT TO PORTFOLIO

P2P supports GSA deployment of proven innovative technologies

Process influence

Advocate and support the introduction of next-generation technologies at key lifecycle entry points— new construction, retrofits, end of life replacement

Portfolio analysis

Utilize existing GSA databases to identify buildings with:

Aging, inefficient equipment

Tenant comfort issues

Project initiation support

Support project and property managers with:

Selecting innovative technologies

Technology specifications

IT security approval

Dynamic training

Provide dynamic training resources for architects, engineers, asset managers

MONTHLY

WEBINARS & NEWSLETTERS

INTERACTIVE

DATA VISUALIZATIONS

REGIONAL

PRESENTATIONS

Emerging Building Technologies' two programs — Green Proving Ground (GPG) and Pilot to Portfolio (P2P) enable GSA to make sound investment decisions in next generation building technologies based on their real world performance www.gsa.gov/gpg
