

**PROSPECTUS - ALTERATION  
CONSOLIDATION ACTIVITIES PROGRAM  
VARIOUS BUILDINGS**

Prospectus Number: PCA-0001-MU22

**FY 2022 Project Summary**

The General Services Administration (GSA) proposes the reconfiguration and renovation of space within Government-owned and leased buildings during fiscal year (FY) 2022 to support GSA's ongoing consolidation efforts to improve space utilization, optimize inventory, decrease reliance on leased space, and reduce the Government's environmental footprint.

Since the inception of the Consolidation Activities Program in FY 2014, GSA has received \$327,334,000 in support of the program and, through FY 2021, has funded 87 projects. When complete, these 87 projects will result in more than a 1.8 million usable square foot space reduction, thereby reducing agency rental payments to GSA by \$76 million annually and generating more than \$163,000,000 in annual Government lease cost avoidance. These projects will more than recover the initial capital investment after just two years of project completion and will continue to accrue additional savings over the life of these assets.

**FY 2022 Committee Approval and Appropriation Requested .....\$25,000,000**

**Program Summary**

As part of its ongoing effort to improve space utilization, optimize inventory, decrease reliance on leased space, and reduce the Government's environmental footprint, GSA is identifying consolidation opportunities within its inventory of real property assets. These opportunities are presented through surveys and studies, partnering with customer agencies and agency initiatives. Projects will vary in size by location and agency mission and operations; however, no single project will exceed \$20 million in GSA costs. Funds will support consolidation of customer agencies and will not be available for GSA internal consolidations. Preference will be given to projects that result in an office utilization rate of 130 USF per person or less and a total project payback period of 10 years or less.

Typical projects include the following:

- Reconfiguration and alteration of existing Federal space to accommodate incoming agency relocation/consolidation. (Note: may include reconfigurations of existing occupied Federal tenant space); and
- Incidental alterations and system upgrades, such as fire sprinklers or heating, ventilation, and air conditioning, needed as part of relocation and consolidation.

Projects will be evaluated using the following criteria:

- Preference will be given to projects that are identified as a reduction opportunity by both GSA and the subject agency, and that meet the other criteria.

**PROSPECTUS - ALTERATION  
CONSOLIDATION ACTIVITIES PROGRAM  
VARIOUS BUILDINGS**

Prospectus Number: PCA-0001-MU22

---

- Proposed consolidation projects will result in a reduction in annual rent paid by the impacted customer agency.
- Preference is given to consolidations within or into federally owned buildings over consolidations within or into leased space.
- Consolidation of expiring leases into federally owned buildings will be given preference over those business cases for lease cancellations that include a cancellation cost.
- Co-location with other agencies with shared resources and special space will be given preference.
- Links to other consolidation projects will be given preference.

**Justification**

GSA continually analyzes opportunities to improve space utilization and realize long-term cost savings for the Government. Funding for space consolidations is essential so that GSA can execute those opportunities.

Projects funded under this program will enable agencies to consolidate within Government-controlled leased space or relocate from either Government-controlled leased or federally owned space to federally owned space that more efficiently meets mission needs. These consolidations will result in improved space utilization, cost savings for the American taxpayers and a reduced environmental impact.

**PROSPECTUS - ALTERATION  
CONSOLIDATION ACTIVITIES PROGRAM  
VARIOUS BUILDINGS**

Prospectus Number: PCA-0001-MU22

**Certification of Need**

Current administration and congressional initiatives call for improved space utilization, lower costs for the Government and a reduced environmental footprint. GSA has determined that the proposed consolidation program is the most practical solution to meeting those goals.
