AMENDED PROSPECTUS – CONSTRUCTION
U.S. LAND PORT OF ENTRY
CALExico, CA

Prospectus Number: PCA-BSC-CA19
Congressional District: 51

FY 2019 Project Summary

The General Services Administration (GSA) requests additional approval and funding for construction of Phase II of a two-phase project to reconfigure and expand the existing land port of entry (LPOE) in downtown Calexico, CA. The project includes new pedestrian processing and privately owned vehicle (POV) inspection facilities, a new head house to provide supervision and services to the non-commercial vehicle inspection area, new administration offices, and a parking structure. The expanded facilities will occupy both the existing inspection compound and the site of the former commercial inspection facility, decommissioned in 1996 when commercial traffic was redirected to the newly completed LPOE six miles east of downtown Calexico.

This prospectus amends Prospectus No. PCA-BSC-CA15. GSA is requesting approval of an additional $27,687,000 to account for cost escalations and design refresh.

FY 2019 Committee Approval Requested

(Additional Design and Construction) $14,192,000

FY 2019 Appropriation Requested

(Additional Design, Construction, Management & Inspection) $275,900,000

Overview of Project

The existing LPOE is a pedestrian and vehicle inspection facility constructed in 1974. It comprises a main building and a decommissioned commercial inspection building. The project includes the creation of new pedestrian and POV inspection facilities, and expansion of the port onto the site of the former commercial inspection facility. The commercial inspection operation was moved to Calexico East in 1996. POV inspection facilities will include expanded northbound inspection lanes, new southbound inspection lanes, and a parking structure. There will be new administration space, a new head house

1 The amount approved for Management & Inspection in Prospectus No. PCA-BSC-CA11 by the House and Senate committees includes $1,625,000 more than the current estimate. The approval requested in this FY 2019 amended prospectus reflects the balance needed for the project, assuming reallocation of the previously approved $1,625,000 from Management & Inspection to Construction.

2 GSA works closely with Department of Homeland Security program offices responsible for developing and implementing security technology at LPOEs. This prospectus contains funding for infrastructure requirements known at the time of prospectus development. Additional funding by a reimbursable work authorization may be required to provide for as yet unidentified security technology elements to be implemented at this port.
and design guide-mandated secondary inspection stations serving both northbound and southbound traffic. The project will be constructed in two phases.

The first phase included a head house, 10 of the project’s northbound POV inspection lanes, all southbound POV inspection lanes with temporary asphalt paving, and a bridge across the New River for southbound POV traffic.

The second phase will include the balance of the project, including the remaining northbound POV lanes, southbound POV inspection islands, booths, canopies and concrete paving, an administration building, an employee parking structure, a pedestrian processing building with expanded northbound pedestrian inspection stations, and a photovoltaic generation facility.

Site Information

| Government-Owned | 13.5 acres |
| Acquired as part of Phase I | 4.3 acres |

Building Area

| Building (including canopies and indoor parking) | 333,719 GSF |
| Building (excluding canopies and indoor parking) | 162,015 GSF |
| Outside parking spaces | 79 |
| Structured parking spaces | 264 |

---

1 Gross square feet (GSF) in this Amended Prospectus was developed from the final construction drawings. It reflects a 2.63 percent increase in total GSF from that listed in Prospectus No. PCA-BSC-CA15 (where the square footage was developed from the concept drawings). The parking structure is not included in GSF.

Project Budget

**Site Acquisition**
- Site Acquisition (FY 2007) ................................................................. $2,000,000
- Additional Site Acquisition (FY 2010) .............................................. 3,000,000
- **Total Site Acquisition** .................................................................... $5,000,000

**Design**
- Design (FY 2007) ............................................................................ $12,350,000
- Additional Design (FY 2010) .............................................................. 6,437,000
- Additional Design ................................................................................... 970,000
- **Total Design** ................................................................................... $19,757,000

**Estimated Construction Cost (ECC)**
- Phase I (2015) ................................................................................... $90,838,000
- Phase II ........................................................................................... 255,660,000
- **Total ECC** .................................................................................... $346,498,000
- Site Development Costs ............................................................... $146,550,000
- Building Costs (includes inspection canopies) ($599/GSF) ........ $199,948,000

**Management & Inspection (M&I)**
- Phase I (2015) ................................................................................... $7,224,000
- Phase II ........................................................................................... $19,270,000
- **Total M&I** ....................................................................................... $26,494,000

**Estimated Total Project Cost (ETPC)** ................................................. $397,749,000

* Tenant agencies may fund an additional amount for alterations above the standard normally provided by GSA.

**Location**
The site is located at 200 East 1st Street, Calexico, CA.

---

ECC is broken into two parts – Site Development Costs and Building Costs.
Schedule

Design
Start: FY 2007
End: FY 2013
Design Refresh
Start: FY 2019
End: FY 2020

Construction
Phase I
Start: FY 2015
End: FY 2018
Phase II
Start: FY 2019
End: FY 2023

Tenant Agencies
Department of Homeland Security - Customs and Border Protection, and Immigration and Customs Enforcement; GSA

Justification
On an average day, 12,000 POVs and approximately 11,000 pedestrians enter the U.S. through this LPOE. The existing facilities are undersized relative to existing traffic loads and obsolete in terms of inspection officer safety and border security. The space required to accommodate modern inspection technologies is not available in the existing facility. When completed, the project will provide the port operation with adequate operational space, reduced traffic congestion, and a safe environment for port employees and visitors.

Summary of Energy Compliance
This project will be designed to conform to requirements of the Facilities Standards for the Public Buildings Service. GSA encourages design opportunities to increase energy and water efficiency above the minimum performance criteria.

Approvals to Date: $383,557,000

Alternatives Considered

GSA has jurisdiction, custody, and control over and maintains the existing facilities at this LPOE. No alternative other than Federal construction was considered.

Recommendation

CONSTRUCTION
Certification of Need

The proposed project is the best solution to meet a validated Government need.

Submitted at Washington, DC, on February 12, 2018

Recommended: Commissioner, Public Buildings Service

Approved: Administrator, General Services Administration
