28. Contractor is required to sign this document and return copies to issuing office. Contractor agrees to furnish and deliver all items set forth or otherwise identified above and on any additional sheets subject to the terms and conditions specified.

SECTION B – SUPPLIES OR SERVICES AND PRICES/COSTS

B.1 Description of Services

1. The contract carrier shall furnish the services specified herein in accordance with the same services the carrier provides commercially to the general public in scheduled service, subject to the rules and procedures published in the air carrier’s tariffs on file with the Airline Tariff Publishing Company, and/or contained in the contract carrier’s contract of carriage (a copy of which shall be provided to the Government upon request). The terms and conditions included in this solicitation apply to all services provided. In any event of inconsistency between the provisions of this solicitation/contract and the rules and procedures published in the air carrier’s tariffs on file with the Airline Tariff Publishing Company and/or contained in the contract carrier’s contract of carriage, the provisions of this solicitation/contract will take precedence.

2. For domestic, international, fifth freedom of the air, and international business class line items, the contract carrier shall make available all service on its own metal (aircraft), not merely the service submitted for offer evaluation purposes. For example, if the minimum requirement is connect service, and the carrier offers both connect and nonstop service commercially, both connect and nonstop service shall be made available to the Government CPP passenger, not just the connect service.

   ● For domestic line items, the contract carrier shall make available all service on the offered codeshare partner(s).

   ● For international and international business class line items, the contract carrier shall make available all service on the offered codeshare partner(s) proposed on a line-item-by-line-item basis. If a codeshare partner is offered but no specific line item is identified, the offeror shall make available all service on the offered codeshare partner in all awarded line items where the codeshare exists.

   ● For fifth freedom of the air line items, the contract carrier shall utilize its own metal (aircraft) to transport travelers between two (2) foreign countries on a flight originating from or ending in the United States.

   ● Reservations on both contract carrier and codeshare carrier flights shall be made on the same basis as for commercial travelers and shall not discriminate in favor of commercial travelers.

B.2 Definitions

Throughout this solicitation, the following terms shall have the meanings as set forth below:

Airport Code - The three-letter International Air Transport Association (IATA) code that identifies the specific points of origin and destination airports for each line item. Compare City Code.
**Airport Pair** - The origin and destination points of a flight. An airport pair has a domestic airport point of origin and a domestic airport point of destination. Compare City Pair.

**Auto-cancellation** - The cancellation of an un-ticketed coach class City Pair Program reservation (i.e., YCA and _CA) 48 hours prior to departure time and date applies only to reservations booked 72 hours or more before departure. Reservations made 72 hours or less prior to departure time may be exempt and may require ticketing six (6) hours before departure at the carrier’s discretion. The cancellation of an un-ticketed business class City Pair Program reservation (i.e., _CB) seven (7) calendar days prior to departure time and date applies only to reservations booked eight (8) calendar days or more before departure. Reservations made seven (7) calendar days or less prior to departure time may be exempt and may require ticketing six (6) hours before departure at the carrier’s discretion. There are no fees or penalties associated with auto-cancellation of a reservation or rebooking a reservation that was subjected to auto-cancellation.

**Average Elapsed Flight Time** - Average elapsed flight time is based on the scheduled (published) flight time expressed in minutes and calculated as follows: The minimum number of required flights shall be used. The average of the shortest flights meeting the minimum shall be the basis of the calculation. For example, in a line item requiring four (4) flights in each direction, total flight time from origin to destination/destination to origin of the four (4) shortest flights in each direction will be averaged. If a carrier meets the minimum with fewer flights, e.g., two (2) nonstop flights in a four (4) flight minimum connecting line item, the average of the two shortest outbound nonstop flights plus the two (2) shortest inbound flights will be used to calculate the average elapsed flight time.

**Capacity-Controlled Fare (_CA)** - A fare that does not have ticketing time limits, advance purchase requirements, minimum or maximum stay requirements, travel time limits, blackout periods, or flight-specific service. Where awarded, the _CA inventory must be made available to all flights in a line item. No administrative fee/penalty shall apply for rebooking, re-ticketing, or cancellation. Domestic, international, and fifth freedom of the air _CA fares may be subject to auto-cancellation of all un-ticketed reservations 48 hours prior to departure time and date (See Auto-cancellation). A Capacity-Controlled Fare is only restricted by the availability of seats. Compare Unrestricted Coach Fare.

**Centrally Billed Account** - A Government travel account, established by a travel charge card services contractor under contract with GSA, at the request of a participating agency/organization. These may be card/cardless accounts.

**Churning** - The excessive changing, rebooking, and canceling of the same itinerary in the same Passenger Name Record (PNR) in order to hold the reservation.

**Circuity** - Circuity is the ratio of the actual flight mileage to the great circle (direct) mileage, typically expressed as a percentage. See §C.3.B(4)(c) Maximum Circuity.

**City Code** - The three-letter International Air Transport Association (IATA) code that identifies the cities of origin and destination associated with each line item. International line items are solicited on the basis of city codes, unless noted otherwise. Compare Airport Code.
City Pair - The city origin and destination points of a flight. A city pair has a city point of origin and a city point of destination. Compare Airport Pair.

Civil Reserve Air Fleet (CRAF) Program - A program managed by the United States Transportation Command (USTRANSCOM) that provides for airlift services for the Department of Defense (DoD).

Codeshare - A marketing arrangement in which an airline places its designator code on a flight operated by another airline, and sells tickets for that flight.

Connecting Service - Service between origin and destination points with only one (1) stop and that stop involves changing planes. The exception is for service to extended connection line items listed in Attachment 4 and Attachment 5 where up to two (2) stops that may involve a change of planes will be allowed. Compare Nonstop Service and Direct Service.

Contract Business Fare (_CB) - Contract fare offered by carriers in some domestic and international line items for business class service. No administrative fee/penalty shall apply for rebooking, re-ticketing, or cancellation. Domestic and international _CB fares may be subject to auto-cancellation of all un-ticketed reservations seven (7) calendar days prior to departure time and date applies only to reservations booked eight (8) calendar days or more before departure. Reservations made seven (7) calendar days or less prior to departure may be exempt and may require ticketing six (6) hours before departure at the carrier’s discretion. Compare Nonstop Service and Direct Service.

Contract Fare - The Federal Government awarded airfares as it pertains to the City Pair Program Contract. Contract fares include Unrestricted (YCA), Capacity Controlled (_CA) and Contract Business (_CB) fares.

Debit Memo(s) - An accounting tool used by all airlines to collect amounts or make adjustments to agent transactions with respect to the issuance and/or use of traffic documents issued by or at the request of a travel agency. No debit memo(s) shall be issued for churning YCA, _CA, or _CB fare type bookings. All other booking(ticketing violations within the Travel Management Center (TMC) airline commercial ticketing agreements will remain intact. The contract carrier shall not issue debit memos to Commercial Travel Offices (CTOs) or TMCs for churning contract fares. Compare Churning.

Direct Service - Service between origin and destination points with only one (1) stop and that stop does not include a change of plane. The exception is for service to extended connection line items listed in Attachment 4 and Attachment 5 where one (1) connect point involving a change of planes and one (1) stop not involving a change of planes, or two (2) stops not involving a change of planes will be allowed. Compare Nonstop Service and Connecting Service.

Domestic Route - A line item within the fifty states, the District of Columbia, U.S. Territories, and Possessions. Guam (GUM) and American Samoa (APW) are considered International for the purposes of this contract.
Double Connect - Service between origin and destination points with two (2) stops and those stops involve changing planes.

Extended Connection (E/C) Line Item - Service between origin and destination points with up to two (2) stops and those stops involve changing planes or for a maximum connection time of up to 300 minutes for domestic line items and 420 minutes for international line items. Compare Connecting Service. (See Attachment 4 and Attachment 5).

Fifth Freedom of the Air – A scheduled air service right or privilege, granted by a foreign country to American carriers to put down and take on passengers in its territory, where the American carrier flies between two (2) foreign countries on a flight which either originated in or is ending in the United States (e.g., an American carrier moving traffic between Japan and Thailand on scheduled service from the United States to Japan to Thailand). The use of the terms “freedom” and “right” confer entitlement to operate such scheduled air passenger services only within the scope of the multilateral and bilateral treaties (air service agreements) that allow them and which carriers have authority.

Fuel Surcharge - A fee for increased fuel costs that carriers have been authorized to impose on awarded fares based on commercial practice and other requirements specified under §C.11 Taxes, Fees, and Fuel Surcharges.

Full Published Y Fare - (Also known as the Y, Full Y, Standard Full Y fare). This fare is the highest published Y fare in a line item. Published in the tariff guides, this fare is used to establish prorate shares for interline price computations and handling of rerouted distressed passengers. This fare shall not be used as the market fare from which discounts are offered for the YCA/_CA fares.

Go/No Go - “Go” denotes that the proposed product and/or service conforms to the specifications; when it does not, it is “no go.”

Government Transportation Request (GTR) - Optional Form 1169 (electronic or paper format), the Government document used to buy transportation services. GTRs are issued and used only for officially authorized passenger transportation for the account of the United States. GTRs may be used to pay for international air travel. For domestic air travel, GTRs may be used under special circumstances and for travel related expenses. Special domestic circumstances are defined as acts of God, emergency situations, and when purchasing a domestic ticket in the U.S. in conjunction with travel that originated overseas.

Great Circle Mileage - The actual one-way mileage between two (2) given points taking into account the curvature of the Earth. See §C.3.B(4)(c) Maximum Circuity.

Group (See §C.14 Arranging for Group Travel) - 10 or more passengers traveling together on the same day, on the same flight, for the same mission requiring group integrity, and identified as a group by the travel management service upon booking.
**Inbound** - Service from the designated point of destination to the designated point of origin, *i.e.*, from the airport/city listed second to the airport/city listed first. See **Outbound**.

**International Route** - A line item between a domestic city point of origin and a foreign city point of destination. These routes will not be airport specific. For the purpose of this contract, Guam (GUM) and American Samoa (APW) are considered international.

**International Business Class Line Items** - International line items for which a contract business (_CB) fare will be solicited and included in the calculation of the composite (evaluated) fare. For the purposes of this contract, international business class line items will either be identified as with extended connection (International Extended Connection with Business Class) or non-extended connection (International Non-Extended Connection with Business Class). (See Attachment 4). An agency may authorize/approve business-class accommodations if one of the exceptions identified in the Federal Travel Regulation (FTR) 301-10.123(b) applies. Offerors must submit a _CB fare for these line items to be considered for award. See **Extended Connection (E/C) Line Item**.

**Jet (or Full Jet)** - A jet driven aircraft, not including propeller planes, turboprops, or Regional Jets.

**Last Seat (Inventory) Availability** - Last seat (inventory) availability means as long as there is coach class inventory available to sell on the plane, the Government traveler can purchase it. No reference to a specific Seat Assignment (Seat Choice) is implied. See **Seat Assignment (Seat Choice)**. ¹

**Leg** - Any time an airplane takes off or touches down during a trip. For example, a one-way trip between DCA to SAN with a connection in DFW has two (2) legs.

**Line Item** - An airport or city pair, which when solicited is identified by a line item number.

**Market Fare** - (also known as the Full Economy Fare, Lowest Published Y Fare, Lowest Unrestricted Coach Fare, Lowest Logical Unrestricted Economy Fare, the Walk-Up Fare or the Selling Y Fare). This fare is the lowest logical fully-refundable air fare with no restrictions or capacity controls. The market fare shall be used as the fare from which discounts are offered for the YCA/_CA fares. The codes for the market fare may vary by carrier and can be identified, for example, as Y2, Y26, YBV and/or B.

**Minimum Service Standard** - The Minimum Service Standard identifies the minimum level of service required in Groups 1, 2, and 3. As an example, service standards may include but are not limited to:

- Nonstop or connecting service

¹ A seat that is designated as coach inventory by the contract carrier, regardless of (a) where the seat is located on the aircraft and (b) the commercial nomenclature used by the contract carrier to describe the seat, shall be considered coach for the purposes of a Government traveler that booked either a YCA or _CA contract fare. See FTR §§301-10.121 & 301-10.124.
▪ No more than one connect point (if applicable). Up to two (2) connect points (or one (1) connect and one (1) direct flight) are allowed to extended connection line items listed in Attachment 4 and Attachment 5.

▪ Applicable connect time limitations

▪ Circuity limitations

▪ Timeband limitations

**Nonstop Service** - Service between origin and destination points without any stops. Compare **Connecting Service** and **Direct Service**.

**Outbound** - Service from the designated point of origin to the designated point of destination, *i.e.*, from the airport/city listed first to the airport/city listed second. Compare **Inbound**.

**Passenger Level Code** - Identifies the Government’s estimated number of passengers per year.

**Prepaid Ticket Advice**² - (Also known as a prepaid ticket) is a ticket that is purchased in one (1) location for a traveler to pick up at another location.

**Propeller Plane** - An airplane that is driven by a propeller.

**Regional Jet** - An airplane with a total capacity of fewer than 70 seats, including all classes of service. This is also referred to as a commuter jet.

**Required Flights** - For purposes of this solicitation, in Group 1 and 2 domestic line items, a contract carrier must have daily service Monday through Friday, including at least one inbound and one outbound flight for each of its five days of service, for it to be counted as weekly service. In Group 1 and 2 international and fifth freedom of the air line items, a contract carrier must have service a minimum of three (3) days per week, including at least one inbound and one outbound flight for each of its three days of service, for it to be counted as weekly service. For Group 3 domestic line items, a contract carrier must have service at least one (1) day per week, Monday through Friday, including at least one inbound and one outbound flight for the one day it has service, for it to be counted as weekly service. In Group 3 international line items, a contract carrier must have service at least one day per week on any day of the week, including at least one inbound and one outbound flight for the one day it has service, for it to be counted as weekly service.

**Route Restrictions** - A contract carrier that limits the flights traveled on a particular line item.

**Seat Assignment (Seat Choice)** - A contract carrier’s practice of assigning a specific seat to Government travelers will follow the same access and process as it does for commercial

---

customers in the same fare class of service.

**Segment** - All portions of flight (nonstop, direct, connecting, or double connect) necessary to complete the Origin to Destination (O&D) purchased YCA, _CA, or _CB fare. Each segment is flown on the same carrier or its codeshare partner. For example, a one-way trip between DCA to SAN with a connection in DFW is one (1) segment.

**Ticket** - The paper or paperless (i.e., electronic) instrument identifying the transportation to which the traveler is entitled.

**Timeband** - The time period in which the flight is scheduled to depart. Timebands are 5:00 AM - 9:30 AM (timeband 1), 9:31 AM - 2:59 PM (timeband 2), 3:00 PM - 7:00 PM (timeband 3), 7:01 PM - 11:59 PM (timeband 4), and 12:00 AM - 4:59 AM (timeband 5).

**Trade Criteria** - In connect line items, each nonstop flight counts as two (2) flights for purposes of meeting the minimum number of required flights.

**Travel Card** - A GSA contractor-issued travel charge card to be used by travelers to pay for passenger transportation services, subsistence expenses, and other travel and transportation related expenses incurred in connection with official travel away from the official duty station.

**Travel Management Centers/Commercial Travel Offices** - Travel Management Centers (TMCs)/Commercial Travel Offices (CTOs) are travel agencies under contract to the Government.

**Turboprop** - A propeller driven aircraft that uses a jet turbine engine to turn the propellers rather than a piston engine.

**Unrestricted Coach Fare** - (Also known as the Full Economy Fare, Lowest Published Unrestricted Coach Fare, Lowest Published Y Fare, Lowest Unrestricted Coach Fare, Lowest Logical Unrestricted Economy Fare, the Walk-Up Fare, or the Selling Y Fare). This is the lowest full “Y” fare at which every coach seat is available for sale and may be purchased for one-way travel. An unrestricted coach fare is fully refundable and not subject to capacity controls, ticketing time limits, advance purchase requirements, minimum or maximum stay requirements, travel time limits, blackout periods, or penalty. For purposes of this definition, an administrative fee for re-booking, re-ticketing, or cancellation is not considered a penalty. This fare is also referred to as the “Market Fare” in this contract.

**Valid Connect Point** - Actual point at which passengers change planes between origin and destination airports and which meets the connecting time frames [of 300 minutes domestic and 420 minutes international] and maximum circuitry limits as applicable.

**Valid Exception** - One of the exceptions to the mandatory use requirement is applicable. See §C.2.C.

**YCA Fare** - A three-letter code used to designate unrestricted coach class contract fares for Government contract carriers. “CA” means “contract award.” YCA fares are higher in cost than
_CA fares, and offer last seat (inventory) availability (unless a flight is already sold out). No
administrative fee/penalty shall apply for rebooking, re-ticketing, or cancellation. Domestic,
international, and fifth freedom of the air YCA fares may be subject to auto-cancellation of all
un-ticketed reservations 48 hours prior to departure time and date. See Auto-cancellation and
Unrestricted Coach Fare.

_CA Fare - A three-character code used to identify capacity-controlled coach class contract
fares for Government contract carriers. _CA fares are lower in cost than the YCA Fare, with the
same conditions (no administrative fee/penalty shall apply for rebooking, re-ticketing, or
cancellation) except that _CA fares do not offer last seat (inventory) availability. The first letter
of the three-letter fare basis code will vary by airline, e.g., QCA, LCA, etc. Early booking
increases the likelihood of reserving a _CA fare. Domestic, international, and fifth freedom of
the air _CA fares may be subject to auto-cancellation of all un-ticketed reservations 48 hours
prior to departure time and date. See Auto-cancellation and Capacity Controlled Fare (_CA).

_CB Fare - A three-character code used to identify capacity-controlled Government contract
business class fares. The first letter of the three-letter fare basis code will vary by airline. No
administrative fee/penalty shall apply for rebooking, re-ticketing, or cancellation. Domestic and
international _CB fares may be subject to auto-cancellation of all un-ticketed reservations
seven (7) calendar days prior to departure time and date applies only to reservations booked
eight (8) calendar days or more before departure. Reservations made seven (7) calendar days
or less prior to departure time may be exempt and may require ticketing six (6) hours before
departure at the carrier’s discretion. See Auto-cancellation and Contract Business Fare (_CB).

*Passenger count (PAX) levels are subject to change on a yearly basis based on data analysis of audited data and new requirements.

Passenger volume for Group 1 international business class line items is estimated at approximately 96,151 total passengers yearly. This data is based on historical passenger volumes for international line items where a business class fare was offered.

Estimated passenger count data is derived from the following sources: DoD and other Federal agencies, as well as the travel card services and other contractors under contract with GSA. These counts are estimates only and are not guaranteed under any resulting contract.

NOTE: PAX figures contained in Attachment 4 (Group 1), Attachment 5 (Group 2), and Attachment 6 (Group 3) are not guaranteed and should not be considered as anything other than estimates.

To avoid duplication of estimates, GSA takes the highest estimate of the sources for each line item (market) (between the aggregated agency line item (market) data provided and the GSA SmartPay®/ARC data). GSA is always interested in improving its data quality to better represent future requirements and bring efficiencies to the program. All contract carriers are encouraged to provide any data determined to better improve the requirements development process. This includes, but is not limited to, Federal and military passenger volume information by line item, nonsensical line items, evolving trends, etc.

³ DG or Discounted Government fares and CatZ or Category Z fares are non-contract Government fares. Guidelines for Government travelers’ utilization of these types of fares fall under FTR 301-10.107-108.
B.4 Pricing Schedule for Group 1, Group 2, and Group 3 Line Items

1. The offeror shall propose a fixed-price fare for scheduled air passenger transportation services as specified herein in accordance with the same services the offeror provides commercially to the general public in scheduled service. Additionally, during the contract period and any exercised option periods, an economic price adjustment for a fuel surcharge may be assessed as part of a domestic, international, and/or fifth freedom of the air contract fare at the time of ticketing under conditions outlined in §I.2 I-FBG-LS001 Economic Price Adjustment for Fuel Surcharges – City Pair Program (CPP) (JAN 2016).

2. The Contractor shall provide only one-way fares under this solicitation. The fare shall apply in either direction of travel for the line item. Contract fares are not applicable to or from intermediate points in connecting service line items.

3. For the below line items, the basic offered price is an unrestricted coach fare (YCA fare designator) with Last Seat (inventory) Availability. In addition, a fare restricted only for capacity (_CA fare designator) may also be offered in every Group 1, 2, 3 line item.

4. For international business class line items, the basic offered price is an unrestricted coach fare (YCA fare designator) with Last Seat (inventory) Availability, and a contract business fare (_CB). In addition, a fare restricted only for capacity (_CA fare designator) may also be offered.

5. A capacity-controlled (_CA) fare may be offered only in conjunction with an YCA fare.

All awarded _CA fares shall be placed above the bottom third of the carrier’s commercial fare classification code structure to be identified in the offer. These fares shall be made available on all flights for the fare classification in which the _CA fare is placed. If the fare class employed for the Government contract fare has seats available for sale, it shall be provided to Government travelers. Advanced ticketing requirements shall not apply to _CA fares except as permitted by §C.3.A(7). If the contract carrier closes the fare class employed for the Government contract fare, the Government understands that the _CA fare may not be available for sale to Government travelers at the time of reservation. If the _CA fare bucket changes during the term of the contract, it is anticipated that Government passengers both booked and/or ticketed at time of change will be protected in the new bucket.

The contract carrier shall notify the Contracting Officer of any changes in the commercial fare classification code structure that affect the awarded bucket/class no later than five (5) business days after the change. The awarded bucket/class shall be revised as needed to ensure that the original proportional relationship of the awarded bucket/class to the other buckets/classes within the contract carrier’s commercial fare classification code structure

---

4 Group 1 line items are CLINs that are awarded on a best overall value basis using a price/technical tradeoff analysis.

5 Group 2 and 3 line items are CLINs that are awarded to the technically acceptable, lowest priced offeror; however technical requirements for Groups 2 and 3 differ.
is maintained. The intent is that the Government shall receive _CA fares at least 60% of the time in domestic and international line items and the Government reserves the right to audit accordingly.

Last seat (inventory) availability applies to the service on a carrier’s own flights as well as all offered domestic codeshare partner(s). On international line items, last seat (inventory) availability applies to the service on a carrier’s own flights, as well as all offered codeshare partner(s) proposed on a line item-by-line item basis or proposed with no specific line item identification. On fifth freedom of the air line items, last seat (inventory) availability applies to the service on a carrier’s own flights.

6. All fares shall include the cost of meals and baggage handling services normally and customarily provided by scheduled carriers to the same class of commercial passengers.

7. Government Business Fares:

   (a) With the exception of international business class line items, offers may include a Government business class fare in addition to the basic fare(s) offered. Business class fares shall be coded as “_CB” (capacity-controlled contract business fares). Business class fares will only be awarded to the offeror awarded the YCA fare for a specific line item.

   (b) In those contracts that include business fares for Government travelers, carriers shall provide such fares when authorized by the using agency in accordance with the Federal Travel Regulation, Chapter 301 (Travel Allowances), the Joint Travel Regulations, and the Foreign Affairs Manual.

(END OF SECTION B)
SECTION C – DESCRIPTIONS/SPECIFICATIONS/STATEMENT OF WORK (SOW)

C.1 BACKGROUND

Since July 1980, GSA has contracted for scheduled air passenger transportation services for Government civilian and military employees traveling on official business. B. **Non-Mandatory Users:** Non-mandatory users may request contract service on an optional basis. Contract carriers may, but are not required to, furnish any requested service to non-mandatory users. Non-mandatory users are—
(1) All members and employees of the U.S. Congress; employees of the Judicial Branch of the Government; employees of the U.S. Postal Service; U.S. Foreign Service Officers; and employees of any agencies who are not subject to the provisions of 5 U.S.C. 5701-5711.

C. Exceptions to the mandatory use requirement. Mandatory users are not required to use coach and/or business class contract fares when—

(1) Space on a scheduled contract flight is not available in time to accomplish the purpose of travel or use of contract service would incur unnecessary overnight lodging costs which would increase the total cost of the trip;

(2) The contract carrier’s flight schedule is inconsistent with explicit policies of the specific Federal department or agency or other mandatory user with regard to scheduling travel during normal working hours;

(3) A non-contract carrier offers a lower fare to the general public that, if used, will result in a lower total trip cost to the Government or other mandatory user (the combined costs of transportation, lodging, meals, and related expenses considered);

Note to paragraph (3): This exception does not apply if the contract carrier offers the same or lower fare and has seats available at that fare, or if the fare offered by the non-contract carrier is restricted to Government and military travelers performing official business and may be purchased only with a contractor-issued travel charge card, centrally billed account (e.g., YDG, MDG, QDG, VDG, and similar fares) or GTR where the two (2) previous options are not available;

(4) Cost effective rail service is available and is consistent with mission requirements; or

(5) Smoking is permitted on the contract flight and the non-smoking section of the contract aircraft is not acceptable.

Note 1: Any group of ten (10) or more passengers traveling together on the same day, on the same flight, for the same mission, requiring group integrity and identified as a group by the travel management service upon booking is not a mandatory user of the Government’s contract city-pair fares. For group travel, agencies are expected to obtain air passenger transportation service that is practical and cost effective to the Government.
Note 2: Contractors are not authorized to use contract city-pair fares to perform travel under their contracts.

Note 3: If the Government contract city-pair carrier offers a lower cost capacity-controlled coach class contract fare (MCA, QCA, VCA, etc.) in addition to the unrestricted coach class contract fares (YCA), the traveler should use the lower cost capacity-controlled fare when it is available and meets mission needs.

C.3 TECHNICAL REQUIREMENTS

A. REQUIREMENTS

(1) Any award(s) resulting from this solicitation will be a requirements contract for the services specified in the Schedule of Line Items (Attachments 4, 5, and 6), and effective for the period of performance. The quantities of services specified in the schedule are estimates only and are not guaranteed under any resulting contract. Except as this contract may otherwise provide, if the Government’s requirements do not result in orders in the quantities described as “estimated” or “maximum” in the schedule, that fact shall not constitute the basis for an equitable price adjustment.

(2) Offers received for a contract line item specified in the Schedule of Line Items (Attachments 4, 5, and 6) that do not meet the minimum requirements contained in Sections C.3.B, C.3.C, C.3.D, and C.3.E will not be considered for contract award.

(3) Delivery or performance shall be made only upon the purchase of tickets in accordance with the terms and conditions of the resultant contract. Subject to any limitation elsewhere in this contract, the contract carrier shall furnish to the Government all services specified in the schedule.

(4) Except as this contract otherwise provides, the Government shall order from the contract carrier all the services specified in the schedule that are required to be purchased by the Government activities specified as mandatory users in §C.2.

(5) The Government is not required to purchase from the contract carrier requirements that meet the exceptions to mandatory use in §C.2.

(6) Tickets shall not be sold under this contract for passenger transportation services after the end of the contract period or any extension to the contract period.

(7) Contract carriers may auto-cancel an un-ticketed coach City Pair Program reservation (i.e., YCA and _CA fares) 48 hours prior to departure time and date only to reservations booked 72 hours or more before departure. Reservations made 72 hours or less prior to departure time may be exempt or may require ticketing six (6) hours before departure at the carrier’s discretion. There shall be
no fees or penalties assessed by the contract carrier associated with auto-cancellation of a reservation or rebooking a reservation that was subjected to auto-cancellation.

(8) Contract carriers may auto-cancel an un-ticketed business class City Pair Program reservation (i.e., _CB fare) seven (7) calendar days prior to departure time and date only for reservations booked eight (8) calendar days or more before departure. Reservations made seven (7) days or less prior to departure time may be exempt or may require ticketing six (6) hours before departure at the carrier’s discretion. There shall be no fees or penalties assessed by the contract carrier associated with auto-cancellation of a reservation or rebooking a reservation that was subjected to auto-cancellation.

B. DOMESTIC ROUTES (LINE ITEMS)

(1) Contract Line Item Number (CLIN): Each line item number in the Schedule of Items (Attachments 4, 5, and 6) is contained in the City Pair Offer Preparation System (COPS) identified as:

(a) Group 1

(b) Group 2

(c) Group 3

(2) Description of Requirements: Requirements are listed in the Schedule of Items (Attachments 4, 5, and 6) and described as follows:

(a) The following codes indicate whether either nonstop or connect service is required for each line item:

N – Nonstop

C - Connecting service

Note 1: For all line items, connecting service shall have no more than one (1) connecting point en route. Group 1 and 2 line items connect time shall not exceed 120 minutes. Group 3 has no connection time limit. Extended Connection (E/C) line items listed in Attachment 4 and Attachment 5 with up to two (2) connecting points (or one (1) connect point and one (1) direct flight) and total connecting time shall not exceed 300 minutes (origin/destination). The offeror shall only list valid connect points. No change of airports at connecting points is allowed for domestic routes.

6 Line items that include Guam and American Samoa shall not exceed 180 minutes, unless listed as extended connection line items in Attachment 4 and Attachment 5 where total connecting time shall not exceed 300 minutes.
(b) Identified Passenger Level Code.

(c) Required number of flights.

(i) **Group 1 and 2 line items:** The required number of daily flights (at a minimum, service each day Monday through Friday), in each direction is listed separately from the passenger count estimates. The number required is 1, 2, 3, 4, 5, or 6 flights in each direction and is based on the minimum requirements of the Government.

(ii) **Group 3 line items:** The required number of flights in each direction is listed separately from the passenger count estimates. The number required is 1 flight in each direction one (1) day per week, Monday through Friday.

(3) Offered Line items

(a) For line items listed in Group 1, offerors shall indicate whether or not they meet the minimum requirements for each line item offered in the “Meet Min” field. Offerors shall list all required information including the number of nonstop, direct, and connecting flights available in each direction in each of the five (5) timebands. Offerors that do not meet the Government minimum requirements on a line item are not allowed to submit an offer for that line item.

(b) For line items listed in Group 2 and 3, offerors shall indicate whether or not they meet the minimum requirements for each line item offered. Offerors shall list all required information including the total number of nonstop, direct, and connecting flights available in each direction. Offerors that do not meet the Government minimum requirements on a line item are not allowed to submit an offer for that line item.

(4) Connecting Service:

(a) In determining the number of connecting flights in a specific line item, the same leg shall not be counted as more than one (1) connecting flight in that line item.

(b) In connecting service line items, the minimum number of daily flights required will be “traded” for a higher level of service by weighting the levels of service:

(i) Each connecting (C) flight and each direct (D) flight counts as one (1) flight; and

(ii) Each nonstop (N) flight counts as two (2) flights. For example, in a line item requiring six (6) connecting service flights (six (6) flights...
in each direction), the requirement can be met with three (3) nonstop flights or any combination of nonstop, direct or connecting flights that produces a total number of 6 or more flights in each direction.

Two examples in a line item with a minimum requirement of 6 connecting service flights in each direction

**Example One:**

<table>
<thead>
<tr>
<th></th>
<th>Inbound</th>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>No. C</td>
<td></td>
<td>No. D</td>
<td></td>
<td>No. N</td>
</tr>
<tr>
<td>3</td>
<td></td>
<td>0</td>
<td></td>
<td>2</td>
</tr>
</tbody>
</table>

Equate to $3 + 0 + 2(2) = 7$

<table>
<thead>
<tr>
<th></th>
<th>Outbound</th>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>No. C</td>
<td></td>
<td>No. D</td>
<td></td>
<td>No. N</td>
</tr>
<tr>
<td>3</td>
<td></td>
<td>1</td>
<td></td>
<td>2</td>
</tr>
</tbody>
</table>

Equate to $3 + 1 + 2(2) = 8$

Under the “trade” criteria, both inbound and outbound flights above meet the requirement.

**Example Two:**

<table>
<thead>
<tr>
<th></th>
<th>Inbound</th>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>No. C</td>
<td></td>
<td>No. D</td>
<td></td>
<td>No. N</td>
</tr>
<tr>
<td>3</td>
<td></td>
<td>1</td>
<td></td>
<td>1</td>
</tr>
</tbody>
</table>

Equate to $3 + 1 + 1(2) = 6$

<table>
<thead>
<tr>
<th></th>
<th>Outbound</th>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>No. C</td>
<td></td>
<td>No. D</td>
<td></td>
<td>No. N</td>
</tr>
<tr>
<td>1</td>
<td></td>
<td>2</td>
<td></td>
<td>1</td>
</tr>
</tbody>
</table>

Equate to $1 + 2 + 1(2) = 5$

In example two, although inbound flights are sufficient, outbound flights are **insufficient**; therefore, the offer for this line item does not meet the minimum requirement. “Trading” of connecting flights applies only for purposes of calculating whether the minimum number of flights is met (§M.3 Evaluation Criteria, Factor One) “Trading” of connecting flights does not apply to calculating the actual number of flights. As an example, if a line item requires 4 connecting flights, and a carrier has two (2) nonstop flights the minimum has been met. For purposes of §M.3 Evaluation Criteria, Factor Two, Subfactor 3, this shall count as two (2) flights, not as four (4) flights.
(c) Maximum Circuity:

(i) **Group 1 and 2 line items:** The Government will not accept flights above the following maximum variances over the great circle mileage between each city pair to meet the required number of flights:

<table>
<thead>
<tr>
<th>Great Circle Mileage</th>
<th>Maximum Circuity</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 – 600 miles</td>
<td>185%</td>
</tr>
<tr>
<td>601 – 1,000 miles</td>
<td>175%</td>
</tr>
<tr>
<td>1,001 - 1,400 miles</td>
<td>140%</td>
</tr>
<tr>
<td>1,401 - 2,000 miles</td>
<td>135%</td>
</tr>
<tr>
<td>2,001 - 3,000 miles</td>
<td>130%</td>
</tr>
<tr>
<td>3,001 miles or more</td>
<td>125%</td>
</tr>
</tbody>
</table>

(ii) **Group 3 line items:** There are no circuity limitations for flights between each city pair.

(d) Timeband:

(i) **Group 1 and 2 line items:** Except for flights departing from Alaska and Hawaii, only flights departing on or after 5:00 AM and prior to 12:00 AM that meet the **minimum service standard** shall count towards meeting the minimum number of flights as specified in the Schedule of Items (Attachments 4 and 5). However, for purposes of calculating the total number of flights, all flights meeting the minimum service standard shall count regardless of time of day.

(ii) **Group 3 line items:** All offered flights departing at any time of day that meet the minimum service standard shall count towards meeting the minimum number of flights as specified in the Schedule of Items (Attachment 6).

(e) Only valid connect points (one (1) connection per flight) shall be used to meet the required number of flights except in selected Alaska and Hawaii line items where there may be two (2) connect points.

(f) Nonstop service. In nonstop line items, each nonstop flight counts as one (1) flight.

(g) Connect Line items. For connect line items, only a single stop is permitted, except to Extended Connection line items listed in Attachment 4 and Attachment 5 (where up to two (2) stops are allowed). A connect plus a direct does not meet the minimum requirements except to the extended connection line items listed in Attachment 4 and Attachment 5.
No change of airports at connecting points is allowed in offers for domestic routes.

Extended Connection line items listed in Attachment 4 and Attachment 5 where total connecting time (origin/destination) shall not exceed 420 minutes and up to two (2) connect points (or one (1) connect point and one (1) direct flight) are allowed. C.5 PREPAID TICKET ADVICE (PTA)

When prepaid ticket advice (PTA) service is requested by authorized travelers for contract fares (YCA/_CA/_CB) or a combination of contract and non-contract legs, the contract carrier may charge a fee ONLY IF BOTH of the following conditions apply:

1. The reservation is booked at least 24 hours prior to departure (exclusive of weekends and Federal holidays); AND

2. The ticket can be delivered by any means in time for the traveler to receive and utilize the ticket.

The fee charged shall not exceed:

1. The current commercial fee; OR

2. The fee charged under any non-contract Government fares, e.g., Discounted Government (DG) Fares, whichever is lower.

The contract carrier may, at its option, waive the PTA fees.

C.6 STOPOVERS FOR TRAVEL ORIGINATING OR TERMINATING OUTSIDE THE UNITED STATES

For travel originating or terminating outside the United States, Puerto Rico, and the U.S. Virgin Islands, each fare (YCA, _CA, or _CB) shall allow (at any connect point) at least one (1) free stopover of a duration to be determined by the Government but not to exceed seven (7) calendar days. Stopover points will be unrestricted, with the exception of a stopover point in
Hawaii, which may be capacity controlled, up to 50% of coach class (per flight), at the option of the airline.

See §K.6 to submit offeror information on stopovers.

C.7 USAGE OF CONTRACT FARES

Contract fares may be used in conjunction with other published fares, including other contract and non-contract fares, if necessary. Under this provision, authorized travelers are permitted to construct contract fares to comprise the best total fare and in doing so contract carriers shall accept the constructed fare for ticketing and service provided, except where otherwise prohibited by applicable statute or regulation.

C.8 DISSEMINATION OF CONTRACT FARES

The contract carrier shall file contract fares under the “YCA”, “_CA”, or “_CB” designator. Under no circumstances shall the contract carrier use “YCA”, “_CA”, or “_CB” designator codes for any line item in which the carrier is not the Government contract carrier. Airport codes shall be used in conjunction with “YCA”, “_CA”, and “_CB” contract air fare designators where applicable. When two airport codes are required (e.g., YCAJFKDCA), the last character shall be dropped (e.g., YCAJFKDC).

The contract carrier shall ensure that contract fares are disseminated and operational in a timely fashion and in accordance with the contract carrier’s commercial means of providing fare information (and ticket availability) throughout all distribution and reservation systems it commercially utilizes. Reservation services shall be operational within twenty (20) calendar days after the date of contract award, and within two (2) business days after the date of any contract modifications.

GSA will conduct an audit of commercial reservation and distribution systems to ensure contract fares and rules are properly loaded and available for purchase.

C.9 PASSENGER FACILITY CHARGES/SEGMENT FEES

1. The collection, handling and remittance of all Passenger Facility Charges (PFC) shall be processed in accordance with the Federal Aviation Administration (FAA) Regulations at 14 CFR Part 158, Subpart C, §158.45 and §158.47.

2. PFCs and segment fees shall not be included as a component of the offered prices. PFCs and segment fees will not be included in the price evaluation.

3. PFCs will not be included in the awarded fares and shall be printed, in accordance with FAA regulations cited in paragraph (1) above, on the ticket at the time of issuance.

4. Segment fees will not be included in the awarded fares and shall be documented on the ticket at the time of issuance.
C.10 PASSENGER SECURITY SERVICE FEES

1. The collection, handling, and remittance of all Passenger Security Service Fees shall be processed in accordance with the Aviation and Transportation Security Act of 2001 (49 U.S.C. 44940).

2. Passenger Security Service Fees shall not be included as a component of the offered prices. Passenger Security Service Fees will not be included in the price evaluation.

3. Passenger Security Service Fees will not be included in the awarded fares and shall be documented on the ticket at the time of issuance.

C.11 TAXES, FEES, AND FUEL SURCHARGES

(a) All fares for domestic line items include all existing Federal, state, and local taxes. Airport maintenance fees, administrative fees (e.g., fees charged for route and schedule changes), fuel surcharges currently in place commercially, and other similar charges are to be included in all fares offered, where applicable. Passenger facility charges (PFC), segment fees, and passenger security service fees are not included in the offered fares, but are listed separately on the ticket at the time of issuance.

(b) For international, fifth freedom of the air, and international business class line items, all fares are exclusive of taxes. Fuel surcharges are to be included in all fares offered. All line items included under the international tariff of the International Air Transport Association may be treated as international line items for purposes of this section.

(c) Fuel surcharges are governed by §I.2 I-FBG-LS001 Economic Price Adjustment for Fuel Surcharges - City Pair Program (CPP) (JAN 2016).

C.12 METHOD OF PAYMENT

1. The GSA contracts for commercial travel card services to provide individual travel cards (contractor-issued travel cards) to Federal employees to cover transportation and other related expenses incurred during official travel. The GSA travel card contract(s) also provide(s) for the use of centrally billed accounts by Federal agencies to purchase airline tickets. THE ONLY CHARGE CARD(S) OR CENTRALLY BILLED ACCOUNT(S) THE CONTRACT CARRIER(S) IS (ARE) OBLIGATED TO ACCEPT ARE THOSE AWARDED under a GSA contract for travel card services. If there are any questions as to the offered form of payment, the contract carrier’s contract administrator (as listed in §K.2 Contact for Contract Administration) should contact the GSA Contracting Officer.

2. The contract carrier agrees to accept payment through all of the following methods: 1) individually or centrally billed Government travel accounts issued under a GSA contract (see Federal Travel Regulation (FTR) 301-72.3 (41 CFR 301-72.3)); and 2) Government Transportation Requests (GTRs) in electronic or paper format. GTRs may be used to pay for international air travel and other travel related expenses. For domestic air travel (other than §C.12(4)), GTRs may be used only under special circumstances and for travel
related expenses. Special domestic circumstances are defined as acts of God, emergency situations, and when purchasing a domestic ticket in the USA in conjunction with travel that originated overseas.

Individually or centrally-billed travel account charge transactions shall be processed by carriers in the same manner as commercial charge transactions. GTRs shall be processed according to the Federal Management Regulation (FMR) Part 102-118 (41 CFR Part 102-118).

3. The American Red Cross National Sector shall pay for services only through the use of a centrally billed account established under a GSA contract for commercial travel card services in effect during the term of this contract.

4. Members and employees of the U.S. House of Representatives and Senate pay for services with a travel card or centrally-billed account established under a GSA contract for commercial travel card services, a GTR, cash, money order, or personal credit card (the acceptance of non-GSA contractor issued travel cards, cash, or money orders for payment is at the option of the contract carrier).

5. Employees of a tribe or tribal organizations performing travel necessary to carry out a contract, grant, funding or cooperative agreement under the Indian Self-Determination and Education Assistance Act, pursuant to 25 U.S.C. 5324(k), shall pay for services only through the use of a travel card or a centrally billed account established under a GSA contract for commercial travel card services in effect during the term of this contract.

6. Military reservists traveling to and from inactive duty training when authorized by the Department of Defense shall pay for services through the use of a travel card established under a GSA contract for commercial travel card services in effect during the term of this contract. The Government does not reimburse airline travel costs to military reservists.

7. Employees of and participants in the Eisenhower Exchange Fellowship Program when performing travel necessary to carry out the provisions of 20 U.S.C. 5201 shall pay for services through the use of a travel card or a centrally billed account established under a GSA contract for commercial travel card services in effect during the term of this contract.

8. Employees of the foundations established by Acts of Congress to solicit private sector funds on behalf of Federal land management agencies, shall pay for services through the use of a centrally billed account established under a GSA contract for commercial travel card services in effect during the term of this contract.

9. Employees of a tribe or tribally-designated housing entity performing travel necessary to carry out a block grant under the Native American Housing Assistance and Self-Determination Act, pursuant to 25 U.S.C. 4111(j), shall pay for services only through the use of a travel card or a centrally billed account established under a GSA contract for commercial travel card services in effect during the term of this contract.
C.13 REFUNDS

Upon presentation of proper documents as specified in the U.S. Government Passenger Transportation Handbook, Federal Travel Regulation, or an alternative that has been mutually agreed upon with GSA’s Transportation Audits Division, the contract carrier shall fully and promptly refund all unused and partially unused portions of any Government contract fare ticket to the activity paying for the ticket, the travel management center issuing the ticket, or the individual traveler, as appropriate.

C.14 ARRANGING FOR GROUP TRAVEL (See Group Definition)

Groups are ten (10) or more passengers traveling together on the same day, on the same flight, for the same mission requiring group integrity, and identified as a group by the travel management service upon booking. Groups are non-mandatory users of the contract fares. If the contract carrier ordinarily arranges group travel through a group desk, then group reservations are to be handled through the contract carrier’s group desk. The contract carrier shall identify its contact information for groups.

Transportation offices are the initial points of contact for resolution of questions/disputes for locally arranged group travel. If the civilian agency/DoD and the contract carrier cannot reach resolution regarding the definition of a group, the matter is to be referred to the GSA Contracting Officer.

C.15 GROUP TRAVEL CANCELLATION POLICIES AND FEES

Groups of ten (10) or more passengers (traveling together on the same day, on the same flight, for the same mission requiring group integrity, and identified as a group by the travel management service upon booking) are non-mandatory users of this contract. Groups may therefore choose the carrier that best meets their travel needs. Groups of ten (10) or more passengers will be booked through the carrier’s group booking procedures and follow that carrier’s commercial group reservation, ticketing, and cancellation policies.

C.16 CARRIERS UNDER A CODE-SHARING OR OTHER ARRANGEMENT

For domestic line items, the contract carrier shall make available all service on offered codeshare partner(s).

For international line items, the contract carrier shall make available all service on offered codeshare partner(s) proposed on a line item-by-line item basis. If a codeshare partner(s) is (are) offered and no specific line item is identified, the offeror shall make available all service on the offered codeshare partner(s) in all awarded line items where the codeshare exists.

The offeror shall list in §K.7 Carriers Under A Code-Sharing Arrangement, all airlines providing service over any portion of a line item under a code-sharing arrangement relative to this offer. The offeror shall certify in §K.7 Carriers Under A Code-Sharing Arrangement that its offered codeshare is included in the IATA Bilateral Interline E-ticketing Agreements Table (BIETA). DoD
approval is required for all offerors and their U.S. air carrier codeshare partners proposed for service on offered line items prior to award.

SECTION D

SECTION E
NOT APPLICABLE
SECTION F – DELIVERIES OR PERFORMANCE

F.1 PERIOD OF PERFORMANCE

The contract period of performance begins October 1, 2021 or Date of Award (whichever is later) through September 30, 2022, plus two (2) option periods as follows:

Option 1: October 1, 2022 – November 30, 2022
Option 2: December 1, 2022 – December 31, 2022

The Government reserves the right to unilaterally exercise option periods. See §I.2 Clause 52.217-9 Option to Extend the Term of the Contract (MAR 2000).

F.2 CONFIRMATION OF SERVICE AT THE TIME OF AWARD AND MODIFICATION

Within ten (10) business days after contract award, and at time of a modification, contract carriers shall confirm in writing that they continue to meet the minimum requirements for all line items awarded for the period of performance beginning October 1, 2021 through September 30, 2022. Contract carriers shall itemize any line items where they no longer meet the minimum requirements for the contract period of performance beginning October 1, 2021 through September 30, 2022. For line items that are awarded to a carrier with nonstop service, but where the minimum requirement is connect service, the contract carrier shall re-confirm nonstop service. See §C.3.B, §C.3.C, §C.3.D, and §C.3.E regarding minimum requirements.

F.3 QUESTIONS REGARDING CONTRACT CARRIER PERFORMANCE

If, at any time, an offeror believes that the contract carrier no longer meets the minimum requirements for a specific line item(s), the offeror may report this to the Contracting Officer in writing by listing the specific line item(s) in question in an Excel spreadsheet using the below format. Prior to submission, the offeror shall confirm that a specific line item(s): 1) does not meet the minimum requirements; 2) has not been deleted from the contract carrier’s contract; and 3) has not been re-awarded to another contract carrier. The Contracting Officer shall, within a reasonable time period, investigate this allegation and, in writing, inform the offeror of the result of the investigation. GSA also reserves the right to monitor schedules to ensure carriers meet minimum requirements.

F.4 SERVICE BELOW THE MINIMUM

1. Except where the contract carrier enters into bankruptcy proceedings, the contract carrier is placed into DoD nonuse status (temporary nonuse or suspension), or temporarily reduces or temporarily ceases service, each of which is specifically addressed in (a) through (c) below, the contract may be cancelled (in whole or in part) and re-awarded when the contract carrier no longer provides service meeting all of the contract requirements in the awarded line item, or ceases to provide nonstop service in a connect line item, when the nonstop service was the basis for award.

   (a) Bankruptcy. In cases involving a contract carrier entering into bankruptcy proceedings, if the contract carrier ceases service in an awarded line item, GSA may re-award the affected contract line item(s) for service until such time as the initial contract carrier resumes service. If the carrier does not resume service, the re-award is valid for the duration of the contract period.

   (b) DoD Nonuse status. In cases involving a contract carrier for a route being placed into DoD nonuse status (temporary nonuse or suspension), GSA may re-award the affected contract line item(s) until such time as the initial contract carrier is placed back into DoD use status.

   (c) Temporary Reduction or Temporary Cessation of Service. In cases where a contract carrier no longer provides service meeting all of the contract requirements in the awarded line item after the period of performance (October 1, 2021 through September 30, 2022) has begun, and the Government anticipates that the situation will continue for a period greater than fourteen (14) calendar days but less than one hundred and twenty (120) calendar days, GSA may re-award the affected contract line item(s) for service until such time as the initial contract carrier resumes service meeting all of the contract requirements. GSA will not typically apply this subsection (c) when the contract carrier no longer provides service meeting all of the contract requirements in the awarded line item due to regularly scheduled reduction of service (e.g., seasonal discontinuance of flight service) or due to suspension/cancellation of airport operations. GSA may rely on any reasonable source of data to determine whether or not a carrier continues to meet the minimum service requirements.

F.5 DISCONTINUANCE OF SERVICE WITHIN A LINE ITEM

If a contract carrier ceases to provide at least the minimum level of service required by the contract to any line item, the contract carrier shall provide the Government thirty (30) calendar days written notice to the extent practicable prior to reducing or discontinuing the service.

The contract carrier shall notify the Government in the above stated manner when the carrier discontinues nonstop service in a connect line item. Though the contract carrier may still provide the minimum level of service required with connect service, the basis of award may have changed. In such situations, the Government reserves the right to reevaluate all offers in
that line item. The Contracting Officer may re-award the line item to a carrier whose offer represents the best value to the Government. Contract carriers shall implement modification changes in commercial distribution and reservation systems within two (2) business days of the modification’s effective date.

F.6 AUTO-CANCELLATION

A completed auto-cancellation profile document shall be submitted to GSA within twenty (20) calendar days after award if the contract carrier chooses to participate in auto-cancellation.

The template can be found in the following document:

[FY22 Auto Cancellation Template]

Carriers shall also submit reports of all Passenger Name Records (PNRs) cancelled during the period of performance, upon request by the CO. The report should be an MS Excel document consistent with the following template. The Excel workbook should contain three (3) separate worksheets, one (1) for Domestic reservations, one (1) for International reservations (to include International Business Class Line Items), and another for Fifth Freedom of the Air reservations. Each line item should represent a unique PNR and outbound segment that was never ticketed or cancelled prior to the auto-cancellation. Inbound segments should not be included since they should be automatically cancelled consistent with the requirement.

### F.7 EDUCATION AND COMPLIANCE

GSA endeavors to ensure that travelers and their agencies are using CPP properly and maximizing the benefits of the program. Carriers are urged to identify travelers and their agencies that can benefit from educational outreach efforts. In instances where the carrier has concerns about the usage of CPP, the circumstance and any attendant documentation should be brought to the attention of the Contracting Officer for prompt resolution.

(END OF SECTION F)
SECTION G – CONTRACT ADMINISTRATION DATA

G.1 ORDERING OF SERVICES

(a) For travelers governed by the scope of this contract (See §C.2), a request for coach class service and/or business class service will be construed to mean a request for the contract fare, unless the traveler specifies otherwise. If there is no contract fare, then the request will be construed to mean a request for a combination of contract fares and/or any other available fare that results in the lowest cost alternative to the Government and meets the traveler’s needs.

(b) Business Class - A request for business class service will be construed to mean a request for the business class contract fare, unless the traveler specifies otherwise. If there is no business class contract fare, then the request will be construed to mean a request for business class fare that results in the lowest cost alternative to the Government and meets the traveler's needs.

(c) Method of Ordering - Service will be ordered with one (1) of the payment methods identified in the Method of Payment section. The various procedures for ordering services are as follows:

(1) A Travel Management Service as defined under FTR § 300-3.1 is the usual means of ordering services.

(2) All American Red Cross (Red Cross) travel reservations, including travel for overseas activities or U.S. activities that support the organization’s overseas operations, will be made through the Red Cross corporate travel agency. Each Red Cross user will have an employee picture identification card. The corporate travel agency will receive authorization to use contract fares via an International Services Department Travel Authority form.

(3) Members and employees of the U.S. House of Representatives and the Senate may order services directly by using an individually or centrally-billed Government travel account issued under a GSA contract; cash, money order, personal credit card (the acceptance of non-GSA contractor issued travel cards, cash, or money orders for payment is at the option of the contract carrier); or GTR.

(4) Employees of tribes or tribal organizations performing travel necessary to carry out a contract, grant, or funding or cooperative agreement under the Indian Self-Determination and Education Assistance Act, pursuant to 25 U.S.C. 5324(k), may order services through a TMC or through a CTO.

(5) Employees of and participants in the Eisenhower Exchange Fellowship Program when performing travel necessary to carry out the provisions of 20 U.S.C. 5201 may order services through the Eisenhower Fellowships’ corporate travel agency.
(6) Employees of the foundations, established by Acts of Congress to solicit private sector funds on behalf of Federal land management agencies, may order services through a corporate travel agency.

(7) Employees of a tribe or tribally designated housing entity performing travel necessary to carry out a block grant under the Native American Housing Assistance and Self-Determination Act, pursuant to 25 U.S.C. 4111(j), may order services through a TMC or through a CTO.

G.2 AUDIT OF CONTRACT FARES

A. AUDITS BY GSA’S TRANSPORTATION AUDITS DIVISION

2. The Government reserves the right to issue overcharges whenever the lowest fully refundable coach fare or business class fare charged is greater than the applicable awarded contract fare for the same class of service and routing, provided that reservations were obtained through the proper Government distribution channels and payment was made using a GTR, contractor-issued travel card, or centrally billed account.

3. The Government reserves the right to issue overcharges whenever the fare charged is greater than any unrestricted lowest fully refundable coach fare offered by the contract carrier to the general public that is lower than the contract fare, for the same class of service and routing, provided that reservations were obtained through the proper Government distribution channels and payment was made using a GTR, contractor-issued travel card, or centrally billed account.

4. Prior to the post-payment audit, the contract carrier may voluntarily reimburse the ordering activity by the amount of any money due the Government. This should be done through the normal refund process associated with the travel card contractor, or directly to the ordering agency’s finance office when other payment means are used. The contract carrier shall maintain documentation of this refund.

B. AUDIT OF VENDOR PERFORMANCE

GSA, or its designee, will conduct routine audits of all commercial distribution and reservation systems to ensure vendor performance. Audits may include, but not be limited to:

- Proper dissemination, display, and loading of fares and rules. The Contractor shall correct any improperly filed or displayed contract fare or rule within two (2) business days of notification. Failure to correct improperly filed or displayed contract fares may result in termination for cause of the awarded line item. Any of these terminated line items can be subsequently re-awarded to another carrier that offers the best value to the Government, at the Government’s discretion.

- Availability of _CA/_CB fares

- Minimum service requirements in line items

- Fuel surcharges

- Codeshares and route restrictions

G.3 PRICE REDUCTION

If, after award, the contract carrier offers an unrestricted coach fare available to the general public that is lower than the contract fare, the contract carrier shall provide the lower fare to Government travelers in lieu of the contract fare.

If, after award, the contract carrier offers a commercial fare, other than an unrestricted coach fare that is lower than the contract fare, the traveler can request the lower commercial fare. The contract carrier shall provide the lower fare in lieu of the contract fare, if the traveler qualifies for the lower fare and space is available at the time of booking.

In addition, on or after the effective date of this contract, the Contract carrier may at any time reduce the contract fare of the service(s) to the Government, either temporarily or permanently. Any price reduction offered by a contract carrier shall be for a minimum of thirty (30) calendar days. The contract carrier shall notify the Contracting Officer and the price reductions will be implemented by contract modification.

(END OF SECTION G)
SECTION H – SPECIAL CONTRACT REQUIREMENTS

H.1 NONDISCRIMINATION AGAINST HANDICAPPED TRAVELERS

The Air Carrier Access Act of 1986 and all implementing regulations issued by the Department of Transportation are applicable to this contract, and are specifically incorporated by reference herein: (e.g., 14 CFR Part 382, 49 CFR Part 27, 49 U.S.C. 41705, etc.).

H.2 DEPARTMENT OF TRANSPORTATION AND TRANSPORTATION SECURITY ADMINISTRATION

The contract carrier shall comply with all provisions of the Federal Aviation Act of 1958 (as amended), as well as relevant rules, regulations, and policies issued by the Department of Transportation (DOT) and the Transportation Security Administration (TSA).

H.3 AIR CARRIER QUALITY AND SAFETY

Prior to award, in accordance with the provisions of 32 CFR 861.4, DoD Air Transportation Quality and Safety Requirements, DoD approval is required for all offerors and their U.S. air carrier codeshare partners proposed for service on offered line items. All offerors and their U.S. air carrier codeshare partners proposed for service on offered line items shall remain in an approved status throughout the period of performance for the contract.

In accordance with 32 CFR 861.6(b), foreign air carriers performing any portion of a line item awarded to a U.S. air carrier under this solicitation pursuant to a code-sharing agreement with that U.S. air carrier, are generally not subject to DoD survey and approval under Sections 861.4 and 861.5. However, DoD will periodically review the performance of such foreign carriers. This review may consist of recurring performance evaluations, periodic examination of the U.S. code-sharing carrier’s operational reviews and assessments of the foreign carrier, and, where appropriate and agreed to by the air carriers concerned and DoD, on-site surveys of the foreign air carrier. Such carriers must also meet the 12 months prior experience requirement of 32 CFR 861.4(e)(1).

See §K.8 to submit offeror certification of air carrier quality and safety.

H.4 DOD TEMPORARY NONUSE STATUS OR SUSPENSION

1. If at any time during the term of the contract, a carrier serving an awarded line item(s) is placed in temporary nonuse status by the DoD, or suspension by the DoD in accordance with 32 CFR 861.4(e)(1)(iv), the Government may, with no cost or liability to the Government or any department, agency, entity, or official therein:

   (a) Discontinue DoD use of services under the contract for the duration of the period of temporary nonuse/suspension in the case of a U.S. air carrier in such status; and/or
(b) Discontinue Government use of services under the contract for the duration of the period of temporary nonuse/suspension in the case of a foreign codeshare air carrier in such status.

2. If, during the term of this contract, such period of temporary nonuse and/or suspension is terminated by DoD, through reinstatement or otherwise, use of services will resume in accordance with the terms of the contract.

H.5 CIVIL RESERVE AIR FLEET (CRAF) PROGRAM

(a) In order to receive a contract award under this solicitation, all offerors shall participate in the CRAF Program or, in the alternative, receive a Letter of CRAF Technical Ineligibility from the United States Transportation Command (USTRANSCOM), Directorate of Acquisition, Airlift Division (TCAQ-C).

(b) CRAF eligible carriers are Federal Aviation Regulations Part 121 certified carriers with international over water or domestic only capability. For a copy of the solicitation, or to determine technical eligibility, contact:

The Government may require repair or replacement of nonconforming supplies or reperformance of nonconforming services at no increase in contract price. I-FBG-LS001 ECONOMIC PRICE ADJUSTMENT FOR FUEL SURCHARGES - CITY PAIR PROGRAM (CPP) (JAN 2016)

During the contract period and any exercised option periods, a fuel surcharge may be assessed as part of a contract fare at the time of ticketing under the following conditions:

(1) A fuel surcharge is allowed on a line item (market) where a fuel surcharge has been imposed commercially to all customers in the booking inventories (buckets) in either the fares or as miscellaneous fees. The changes shall correspond to the YCA, _CA and _CB contract fares for a minimum of 14 consecutive days. A fuel surcharge that has been imposed and terminated can only be re-instated after being imposed commercially for 14 consecutive days. Fuel surcharge requests may be submitted to GSA at any time after contract award and throughout the contract period. Fuel surcharge requests submitted after contract award and before the start of the contract period will be effective on the effective date of the contract or 14 days after the fuel surcharge was imposed commercially, whichever date is later and after approval by the Contracting Officer. A fuel surcharge may be applied to contract fares if the fuel surcharge was imposed commercially after submission of offers but before the effective date of the contract. Any fuel surcharge commercially in place at the time of offer submission must be included in the offered fare. To the extent possible, all anticipated fuel surcharges should be included in the fare offered at the time of offer submission.

(2) A carrier shall report to the GSA Contracting Officer in writing when a fuel surcharge is imposed, identifying the start date of that commercial fuel surcharge and the amount of the fuel surcharge on a line item (market) by line item (market) basis. A carrier shall also identify the booking inventories (buckets) corresponding to the YCA, _CA and _CB to which the fuel surcharge applies commercially. When notifying GSA of fuel surcharge implementation, for any fuel surcharge that was initiated after the date of submission of the carrier’s offer to GSA but before the contract effective date, the carrier shall include
in its submission a written representation that the original offer price did not include any amount for anticipated fuel surcharges. If the offered price did include an amount to offset anticipated fuel surcharge, the carrier must state the dollar amount included in the offer, and GSA will address the matter with the carrier. When notifying GSA of a new (or updated) fuel surcharge, the carrier must submit the fuel surcharge information in a spreadsheet of the following format (enter 0 for no fuel surcharge) and obtain written approval, prior to imposing fuel surcharges on CPP fares, from the CPP Contracting Officer that the fuel surcharge application is verified and acceptable:

**Note:** Where applicable, domestic is always first when listing origin city/airport code, and international is always second when listing destination city/airport code.

Whenever a fuel surcharge is updated (whether an increase or a decrease), the complete spreadsheet must be submitted in its entirety. The spreadsheet must include both changed fuel surcharge amounts and effective dates and also unchanged fuel surcharge amounts and effective dates. In addition, the carrier shall provide substantiating documentation that the fuel surcharge has been applied commercially for the 14-day period. Upon receipt of the documents, the GSA Contracting Officer shall acknowledge receipt of the required materials within 2 business days, and complete the review of the fuel surcharge request within 10 business days, unless otherwise notified by the GSA Contracting Officer. If the Government requires more time for review, it shall indicate so in the receipt acknowledgement what the alternative review schedule will be. A carrier shall not impose any fuel surcharge unless written approval from the Contracting Officer is received.

(3) A carrier must cease any fuel surcharge on contract fares when the fuel surcharge is no longer imposed commercially. The carrier must also notify the GSA Contracting Officer in writing when the fuel surcharge is removed, identifying the end date of the fuel surcharge. In no instance shall the Government be charged a higher fuel surcharge than that imposed commercially.

(4) Should a carrier not comply with the above terms, the Government may terminate for cause the line item(s) (market(s)) for which the carrier failed to comply with the provisions of §C.11. Audits of contract fares will include a review of fuel surcharges. Improperly assessed surcharges on contract fares shall be reimbursed to the Government, or, if not, subject to the issuance of an overcharge under §G.2, Audit of Contract Fares.

For line items covered by the WTO GPA, the Government will evaluate offers of U.S.-made or designated country end products without regard to the restrictions of the Buy American statute. (h) Certification Regarding Responsibility Matters (Executive Order 12689). (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals—

(1) □ Are, □ are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) □ Have, □ have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(3) □ Are, □ are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and
(4) □ Have, □ have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds the threshold at 9.104-5(a)(2) for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) Examples. (A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

(i) Certification Regarding Knowledge of Child Labor for Listed End Products (Executive Order 13126). [The Contracting Officer must list in paragraph (i)(1) any end products being acquired under this solicitation that are included in the List of Products Requiring Contractor Certification as to Forced or Indentured Child Labor, unless excluded at 22.1503(b).]

[The contracting officer is to check a box to indicate if paragraph (k)(1) or (k)(2) applies.]

(1) Maintenance, calibration, or repair of certain equipment as described in FAR 22.1003-4(c)(1). The offeror □ does □ does not certify that—

(iv) The compensation (wage and fringe benefits) plan for all service employees performing work under the contract is the same as that used for these employees and equivalent employees servicing commercial customers.

(3) If paragraph (k)(1) or (k)(2) of this clause applies—

(i) If the offeror does not certify to the conditions in paragraph (k)(1) or (k)(2) and the Contracting Officer did not attach a Service Contract Labor Standards wage determination to the solicitation, the offeror shall notify the Contracting Officer as soon as possible; and

(ii) The Contracting Officer may not make an award to the offeror if the offeror fails to execute the certification in paragraph (k)(1) or (k)(2) of this clause or to contact the Contracting Officer as required in paragraph (k)(3)(i) of this clause.

(I) Taxpayer Identification Number (TIN) (26 U.S.C. 6109, 31 U.S.C. 7701). (Not applicable if the offeror is required to provide this information to the SAM to be eligible for award.)

L.4 SOLICITATION PROVISIONS INCORPORATED BY FULL TEXT

52.212-1 Instructions to Offerors—Commercial Items (JUN 2020)

(a) North American Industry Classification System (NAICS) code and small business size standard. The NAICS code(s) and small business size standard(s) for this acquisition appear elsewhere in the solicitation. However, the small business size standard for a concern which submits an offer in its own name, but which proposes to furnish an item which it did not itself manufacture, is 500 employees.

(b) Submission of offers. Submit signed and dated offers to the office specified in this solicitation at or before the exact time specified in this solicitation. Offers may be submitted on the SF 1449, letterhead stationery, or as otherwise specified in the solicitation. As a minimum, offers must show—

(1) The solicitation number;
(2) The time specified in the solicitation for receipt of offers;
(3) The name, address, and telephone number of the offeror;
(4) A technical description of the items being offered in sufficient detail to evaluate compliance with the requirements in the solicitation. This may include product literature, or other documents, if necessary;
(5) Terms of any express warranty;

(6) Price and any discount terms;

(7) "Remit to" address, if different than mailing address;

(8) A completed copy of the representations and certifications at FAR 52.212-3 (see FAR 52.212-3(b) for those representations and certifications that the offeror shall complete electronically);

(9) Acknowledgment of Solicitation Amendments;

(10) Past performance information, when included as an evaluation factor, to include recent and relevant contracts for the same or similar items and other references (including contract numbers, points of contact with telephone numbers and other relevant information); and

(11) If the offer is not submitted on the SF 1449, include a statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation. Offers that fail to furnish required representations or information, or reject the terms and conditions of the solicitation may be excluded from consideration.

(c) Period for acceptance of offers. The offeror agrees to hold the prices in its offer firm for 30 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.

(d) Product samples. When required by the solicitation, product samples shall be submitted at or prior to the time specified for receipt of offers. Unless otherwise specified in this solicitation, these samples shall be submitted at no expense to the Government, and returned at the sender’s request and expense, unless they are destroyed during preaward testing.

(e) Multiple offers. Offerors are encouraged to submit multiple offers presenting alternative terms and conditions, including alternative line items (provided that the alternative line items are consistent with subpart 4.10 of the Federal Acquisition Regulation), or alternative commercial items for satisfying the requirements of this solicitation. Each offer submitted will be evaluated separately.

(f) Late submissions, modifications, revisions, and withdrawals of offers.

(1) Offerors are responsible for submitting offers, and any modifications, revisions, or withdrawals, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that offers or revisions are due.
(2) (i) Any offer, modification, revision, or withdrawal of an offer received at the Government office designated in the solicitation after the exact time specified for receipt of offers is "late" and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and-

(A) If it was transmitted through an electronic commerce method authorized by the solicitation, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of offers; or

(B) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government’s control prior to the time set for receipt of offers; or

(C) If this solicitation is a request for proposals, it was the only proposal received.

(ii) However, a late modification of an otherwise successful offer, that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(3) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the offer wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(4) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(5) Offers may be withdrawn by written notice received at any time before the exact time set for receipt of offers. Oral offers in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile offers, offers may be withdrawn via facsimile received at any time before the exact time set for receipt of offers, subject to the conditions specified in the solicitation concerning facsimile offers. An offer may be withdrawn in person by an offeror or its authorized representative if, before the exact time set for receipt of offers, the identity of the person requesting withdrawal is established and the person signs a receipt for the offer.

(g) Contract award (not applicable to Invitation for Bids). The Government intends to evaluate offers and award a contract without discussions with offerors. Therefore, the offeror’s initial offer should contain the offeror’s best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if later determined by the
Contracting Officer to be necessary. The Government may reject any or all offers if such action is in the public interest; accept other than the lowest offer; and waive informalities and minor irregularities in offers received.

(h) Multiple awards. The Government may accept any item or group of items of an offer, unless the offeror qualifies the offer by specific limitations. Unless otherwise provided in the Schedule, offers may not be submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit prices offered, unless the offeror specifies otherwise in the offer.

(i) Availability of requirements documents cited in the solicitation.

(1) (i) The GSA Index of Federal Specifications, Standards and Commercial Item Descriptions, FPMR Part 101-29, and copies of specifications, standards, and commercial item descriptions cited in this solicitation may be obtained for a fee by submitting a request to GSA Federal Supply Service Specifications Section Suite 8100 470 East L’Enfant Plaza, SW Washington, DC 20407 Telephone (202) 619-8925 Facsimile (202) 619-8978.

(j) Unique entity identifier. (Applies to all offers that exceed the micro-purchase threshold, and offers at or below the micro-purchase threshold if the solicitation requires the Contractor to be registered in the System for Award Management (SAM).) The Offeror shall enter, in the block with its name and address on the cover page of its offer, the annotation "Unique Entity Identifier" followed by the unique entity identifier that identifies the Offeror's name and address. The Offeror also shall enter its Electronic Funds Transfer (EFT) indicator, if applicable. The EFT indicator is a four-character suffix to the unique entity identifier. The suffix is assigned at the discretion of the Offeror to establish additional SAM records for identifying alternative EFT accounts (see FAR subpart 32.11) for the same entity. If the Offeror does not have a unique entity identifier, it should contact the entity designated at www.sam.gov for unique entity identifier establishment directly to obtain one. The Offeror should indicate that it is an offeror for a Government contract when contacting the entity designated at www.sam.gov for establishing the unique entity identifier.

(END OF SECTION L)
SECTION M – EVALUATION FACTORS FOR AWARD

M.1 SOLICITATION PROVISION(S) INCORPORATED:

52.212-2 EVALUATION—COMMERCIAL ITEMS (OCT 2014)

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers:

**Group 1 Offers (See §M.3):**

Factor 1: Meet Minimum Requirements

Factor 2: Quality of Service

- Subfactor (1) – Timeband/Service Distribution
- Subfactor (2) – Average Elapsed Flight Time
- Subfactor (3) – Number/Type of Flights

Factor 3: Price

For Group 1 offers, award may be made to other than the low priced offer where the technical superiority of that offer outweighs the price differential from the lower priced offers and where the price has been deemed fair and reasonable. For Group 1 passenger level A-D line items, technical and non-price related factors are more important than price, but as proposals become more equal in technical merit, price becomes more important. For Group 1 passenger level E-F line items, technical and non-price related factors are approximately equal to price. As proposals become more equal in technical merit, price may become the ultimate determining factor for award. The Government may reject any or all offers if such action is in the public interest.

**Group 2 and Group 3 Offers (See §M.4):**

Factor 1: Meets Minimum Requirements

Factor 2: Price

For Group 2 and Group 3 offers, award will be made using a lowest price technically acceptable (LPTA) methodology. Award will be made on a line-item-by-line-item basis to the technically acceptable offeror (meets Factor 1) offering the lowest fare to the Government.

(b) **Options.** The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may
determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

(c) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer’s specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(End of Provision)

M.2 EVALUATION CRITERIA - GENERAL INFORMATION

Award will be made on a line-item-by-line-item basis. Each line item has been assigned to one (1) of three (3) evaluation groups. Separate evaluation criteria apply for Group 1, Group 2, and Group 3. The methods of award are the same for Group 2 and Group 3, but are different for Group 1.

The technical evaluation will be conducted based on service effective for the week of July 19, 2021, through July 25, 2021, and planned service between July 26, 2021, and September 30, 2021 in accordance with Section L.2 of this RFP.

The Government may award some or all items without discussions. The Contracting Officer reserves the right to issue or not issue award(s) for any line item(s) if it is determined to be in the best interest of the Government to do so. All awards must be deemed fair and reasonable by the Contracting Officer.

M.3 METHOD OF EVALUATION/AWARD FOR GROUP 1

The CPP Team will evaluate the offers submitted in accordance with the evaluation criteria as set forth in this solicitation.

The Contracting Officer may consult with a Special Board (SB) comprised of personnel working in the area of travel and transportation from GSA, other civilian agencies, and the DoD. The SB will be responsible for evaluating technical and price proposals for select Group 1 line items and providing the Contracting Officer with award and negotiation recommendations. However, the Contracting Officer is not bound by the findings, scoring, and/or recommendations of the SB.

Evaluation Criteria

Technical proposals will be evaluated based on the following two (2) factors:

1. Factor 1 - Meet Minimum Requirements; and
2. Factor 2 - Quality of Service.
Factor 1, Meet Minimum Requirements: Will be evaluated on a go/no go basis on the minimum requirements stated in §C.3 that includes Attachment 4 of the Schedule of Items.

Under Factor 1, in calculating whether the minimum requirements are met and in calculating the average elapsed flight time under Factor 2, subfactor 2, nonstop flights count as 2 flights in domestic connecting line items. However, for purposes of Factor 2, subfactors 1 and 3, one (1) nonstop flight shall always count as one (1) flight (as shall each direct and connecting flight).

Under Factor 1, flights departing on or after 12:00 AM and 4:59 AM or earlier do not count towards meeting the minimum on domestic routes, except for flights departing from Alaska and Hawaii, and international flights when all timebands count. However, under Factor 2, subfactors 2 and 3, flights departing on or after 12:00 AM and 4:59 AM or earlier will be counted.

Flights not meeting the other minimum service requirements specified in this solicitation will not be counted. For example:

1. In a nonstop minimum line item, connecting flights will not be counted.
2. In domestic connecting line items, flights with connecting times exceeding 120 minutes will not be counted. In extended connection line items listed in Attachment 4, flights with total connecting times (origin/destination) exceeding 300 minutes and two (2) connecting points will not be counted.
3. In international line items, flights with connecting times exceeding 180 minutes, and international flights to destinations in Canada and Mexico exceeding 150 minutes, will not be counted. In extended connection line items listed in Attachment 4, flights with total connecting times (origin/destination) exceeding 420 minutes and two (2) connecting points will not be counted.

Factor 2, Quality of Service, contains the following three (3) subfactors:

Subfactor 1 - Timeband/Service Distribution

Subfactor 2 - Average Elapsed Flight Time

Subfactor 3 - Number/Type of Flights

Points will be automatically assigned for each line item in Group 1 for subfactors 1, 2, and 3 based on the following point schematic:

Subfactor 1: Timeband/Service Distribution

Points are allocated based on the timeband and service distribution for offered flights in a solicited line item. All flights inbound and outbound will be counted until the maximum point threshold described below is met. For domestic line items, more points will be allocated to flights in more desirable timebands.
FLIGHTS ABOVE THE MAXIMUM POINT THRESHOLD FOR INBOUND AND OUTBOUND FLIGHTS WILL NOT BE COUNTED UNDER THIS SUBFACTOR.

DOMESTIC ROUTES (LINE ITEMS): (1) Nonstop Service:
   (a) For line items where nonstop is the minimum service required, direct or connecting points will not be calculated.
   (b) An offeror with non-stop flights in every timeband will receive a more favorable evaluation than an offeror with direct or connecting flights in every timeband.
   (c) For Passenger Level A-D Line Items, the maximum nonstop points under this subfactor is 100 (50 outbound points and 50 inbound points).
   (d) For Passenger Level E-F Line Items, the maximum nonstop points under this subfactor is 40 (20 outbound points and 20 inbound points).

**Nonstop— All east to west flights and all west to east flights**

(2) Direct or Connecting Service:
   (a) For line items where direct or connecting service is the minimum service required, nonstop service will also be counted. Points will be allocated for both the nonstop and direct or connecting service until the offeror has reached the maximum point threshold for nonstop and direct or connecting service.

   (b) For Passenger Level A-D Line Items, the maximum point threshold for nonstop service is 100 (50 points outbound and 50 points inbound). The maximum point threshold for direct or connecting service is 60 points (30 points outbound and 30 points inbound). The total maximum points allocated to an offeror in a minimum direct or connecting service line item is 160 points (100 points for nonstop service and 60 points for direct or connecting service).

   (c) For Passenger Level E-F Line Items, the maximum point threshold for nonstop service is 40 (20 points outbound and 20 points inbound). The maximum point threshold for direct or connecting service is 20 points (10 points outbound and 10 points inbound). The total maximum points allocated to an offeror in a minimum direct or connecting service line item is 60 points (40 points for nonstop service and 20 points for direct or connecting service).

Based on the maximum point thresholds established under this subfactor for A-D line items, the offeror would be allocated the following points:

Nonstop Points: **100 (50 pts outbound + 50 pts inbound)**  
Total Allocated Points: **100**

(4) Sample Direct or Connecting Distribution Profile:

* OB = Outbound; IB = Inbound; N = Nonstop; D/C = Direct/Connecting

Below is an example of how points would be allocated for an offer in a domestic line item with a passenger level of E-F with a minimum connecting service requirement:
Based on the maximum point thresholds established under this subfactor for E&F line items, the offeror would be allocated the following points:

Nonstop Points: **29 (20 pts outbound + 9 pts inbound)**

Direct/Connecting Points: **20 (10 pts outbound + 10 points inbound)**

Total Allocated Points: **49**

### A. INTERNATIONAL AND INTERNATIONAL BUSINESS CLASS LINE ITEMS

(a) For international and international business class line items, flights in every timeband will be evaluated equally. Points will be allocated for both nonstop and direct or connecting service until the offeror has reached the maximum point threshold.

For Passenger Levels A-D, the maximum point threshold for nonstop service is 100 (50 points outbound and 50 points inbound). The maximum point threshold for direct or connecting service is 60 points (30 points outbound and 30 points inbound). Points will be allocated for both outbound and inbound flights based on the chart below. Flights above the maximum point threshold will not be counted.

For Passenger Levels E-F, the maximum point threshold for nonstop service is 40 (20 points inbound and 20 points outbound). The maximum point threshold for direct or connecting service is 20 (10 points inbound and 10 points outbound). Points will be allocated for both outbound and inbound flights based on the chart below. Flights above the maximum point threshold will not be counted.

(b) For line items where nonstop is the minimum service required, direct or connecting points will not be calculated. For line items where direct or connecting service is the minimum service required, nonstop service will also be counted.

B. FIFTH FREEDOM OF THE AIR LINE ITEMS

(a) For fifth freedom of the air line items, flights in every timeband will be evaluated equally. Points will be allocated for nonstop service until the offeror has reached the maximum point threshold. The maximum point threshold for nonstop service is 100 (50 points outbound and 50 points inbound). Points will be allocated for both outbound and inbound flights based on the chart below. Flights above the maximum point threshold will not be counted.

Subfactor 2: Average Elapsed Flight Time

The average elapsed flight time is to be calculated as follows: The minimum number of required flights shall be used. The average of the shortest flights meeting the minimum in each direction will be used. For example, in a line item requiring four (4) flights, the average of the four (4) shortest inbound and the four (4) shortest outbound flights will be used. If a carrier meets the minimum with fewer flights (e.g., two (2) nonstop flights in a minimum four (4) connecting flight line item), the average of the two (2) nonstop inbound plus the two (2) nonstop outbound flights will be used to calculate the average elapsed flight time.

Points will be assigned based on the number of flights required for the city pair as follows:

<table>
<thead>
<tr>
<th>Line Item Type (Minimum Number of Flights)</th>
<th>Shortest Average Elapsed Flight Time (SAEFT) In the Line Item</th>
<th>Within 30 mins of SAEFT</th>
<th>31 - 45 mins greater than SAEFT</th>
<th>46 - 60 mins greater than SAEFT</th>
<th>61 - 75 mins greater than SAEFT</th>
<th>76 - 90 mins greater than SAEFT</th>

In evaluating connecting or direct service against connecting or direct service, or nonstop against nonstop, flights with a difference in the average elapsed flight time of up to 30 minutes will be considered equal. Because of minimum ground time requirements, in evaluating nonstop service against connecting or direct service, the first 30 minutes of the difference in the average elapsed flight time will be evaluated. In passenger level A-D line items an additional 20 points will be added for any carrier with any nonstop service when compared to a carrier with connecting or direct service. In passenger level E-F line items an additional 5 points will be added for any carrier with any nonstop service when compared to a carrier with connecting or direct service.

**Subfactor 3: Number/Type of Flights**

Points are scored both outbound and inbound and will be calculated based on the chart below.

All flights meeting the minimum requirements will be counted under this subfactor. Offerors will receive credit for the highest score possible based on a maximum of 12 outbound and 12 inbound flights per day. For connecting service, only service through valid connect points will be considered.

For Extended Connection Line Items listed in Attachment 4, connect and direct flights will receive the same point value.

**M.4 METHOD OF EVALUATION/AWARD FOR GROUP 2 AND GROUP 3**

Award in Groups 2 and 3 will be made on a line-item-by-line-item basis to the technically acceptable offeror (meets Factor 1) offering the lowest fare to the Government. The Government reserves the right to conduct discussions. All lowest price and technically acceptable awards must also be determined fair and reasonable. The SB may be called upon to review certain Groups 2 and/or 3 line items, if the Contracting Officer determines assistance is required for such a determination. However, the Contracting Officer is not bound by the findings, scoring, and/or recommendations of the SB. The Government may reject any or all offers if such action is in the public interest. Tie bids will be decided by random lot.
In domestic connecting line items, flights with connecting times exceeding 120 minutes will not be counted. In extended connection line items listed in Attachment 5, flights with total connecting times (origin/destination) exceeding 300 minutes and two (2) connecting points will not be counted.

In international line items, flights with connecting times exceeding 180 minutes, and international flights to destinations in Canada and Mexico exceeding 150 minutes, will not be counted. In extended connection line items listed in Attachment 5, flights with total connecting times (origin/destination) exceeding 420 minutes and two (2) connecting points will not be counted.

For Extended Connection Line Items listed in Attachment 5, connect and direct flights will receive the same point value.

M.5 PRICE EVALUATION FOR GROUP 1

In domestic, international, and fifth freedom of the air Group 1 line items, the YCA and _CA fares will be solicited; therefore, the composite fare will be the evaluated price. If no _CA fare is offered, then the YCA fare is the evaluated price.

a. In domestic line items where both a YCA fare and _CA fare are offered, the price for the line item will be calculated based on the composite fare computed in accordance with the following formula:

\[ \text{Composite Fare} = (0.40 \times \text{YCA Fare}) + (0.60 \times \text{CA Fare}) \]

b. In international and fifth freedom of the air line items, where both a YCA fare and _CA fare are offered, the price for the line item will be calculated based on the composite fare computed in accordance with the following formula:

\[ \text{Composite Fare} = (0.40 \times \text{YCA Fare}) + (0.60 \times \text{CA Fare}) \]

In international business class Group 1 line items, the YCA, _CA, and _CB fares will be solicited; therefore the composite fare will be the evaluated price. If no _CA fare is offered, then the YCA and _CB fares are the evaluated price. Offerors must submit a _CB fare for international business class line items to be considered for award.

a. International non-extended connection with business class line items

i. In the international non-extended connection with business class line items, where a YCA fare, _CA fare, and _CB fare are offered, the price for the line item will be calculated based on the composite fare computed in accordance with the following formula:

\[ \text{Composite Fare} = (0.35 \times \text{YCA Fare}) + (0.60 \times \text{CA Fare}) + (0.05 \times \text{CB Fare}) \]

ii. In the international non-extended connection with business class line items, where a YCA fare and _CB fare are offered, the price for the line item will be calculated based on the composite fare computed in accordance with the following formula:
Composite Fare = (.95 * YCA Fare) + (.05 * _CB Fare)

b. **International extended connection with business class line items**

i. In the **international extended connection with business class line items**, where a YCA fare, _CA fare, and _CB fare are offered, the price for the line item will be calculated based on the composite fare computed in accordance with the following formula:

\[
\text{Composite Fare} = (.34 \times \text{YCA Fare}) + (.51 \times \text{_CA Fare}) + (.15 \times \text{_CB Fare})
\]

ii. In the **international extended connection with business class line items**, where a YCA fare and _CB fare are offered, the price for the line item will be calculated based on the composite fare computed in accordance with the following formula:

\[
\text{Composite Fare} = (.85 \times \text{YCA Fare}) + (.15 \times \text{_CB Fare})
\]

All composite fares are rounded off to the nearest whole dollar amount. The composite fare is used for evaluation purposes only. The Government reserves the right to use all pricing information in its evaluation.

For all line items, excluding international business class line items, business class fares (_CB) are not part of the award decision for coach service. After the award decision based on offered coach fare(s) has been made, business class fares offered by the proposed awardee will be evaluated for price reasonableness only.

**GROUP 1 PRICE/TECHNICAL TRADEOFF**

For Group 1 line items, the price/technical tradeoff process will be used. As stipulated in FAR 15.101-1(c), “this process permits tradeoffs among cost or price and non-cost factors and allows the Government to accept other than the lowest priced proposal. The perceived benefits of the higher priced proposal shall merit the additional cost”.

For Group 1 passenger level A-D line items, technical and non-price related factors are more important than price. Award may be made to other than the low priced offeror where the technical superiority of that offer outweighs the price differential from the lower priced offers and where the price has been deemed fair and reasonable. As proposals become more equal in technical merit, price becomes more important. For Group 1 passenger level E-F line items, technical and non-price related factors are approximately equal to price. As proposals become more equal in technical merit, price may become the ultimate determining factor for award.

Following the technical evaluation and the price evaluation, a price/technical tradeoff will be conducted in which the value of the service offered will be measured against the price and the following price-related considerations, in descending order and relative importance:

1. Nonstop service
(a) Costs associated with one (1) level of service compared to another will be considered; e.g., the possibility of cost savings resulting from the decreased risk of delayed or cancelled flights on nonstop service.

(b) Due to the complexity of international travel, the additional value of nonstop service in international line items will be considerably higher than in domestic line items.

(c) The possibility for completion of travel in one (1) day and the possibility of maximizing the travelers’ workday will be considered; e.g., possible cost savings from lodging, meals, and incidental expenses (M&IE) (based on average current lodging and M&IE rates for the two (2) locations specified in the line item). The likelihood of completion of travel in one (1) day decreases as average elapsed flight time increases. The possible opportunities for cost savings increase with larger differences in available numbers of flights.

2. Average elapsed flight time

The average elapsed flight time will be examined to consider the value of the traveler’s time en route. When examining nonstop service against nonstop service, or direct/connecting service against direct/connecting service, flight differences of up to 30 minutes are considered equal (to account for routine schedule changes, etc.). For example, if the shortest average elapsed flight time for a connecting flight is 181 minutes and another is 221 minutes, the evaluated difference is 10 minutes (Factor 2, Subfactor 2). Each offeror’s time will be measured against the offeror with the shortest average elapsed flight time in the line item.

When evaluating nonstop service against direct/connecting service, the actual difference in the average elapsed flight time will be considered. For example, if one (1) nonstop flight is 181 minutes and one (1) connecting flight is 221 minutes, the evaluated difference is 40 minutes (Factor 2, Subfactor 2). Each offeror’s time will be measured against the offeror with the shortest average elapsed flight time in the line item.

3. Timeband/Service Distribution

Timeband/Service distribution will be examined to consider the value of inbound and outbound flights. When examining timeband/service distribution, flight offerings in Timebands 1 (5:00 AM – 9:30 AM) and 3 (3:00 PM – 7:00 PM) will carry more value than flights in Timebands 2 (9:31 AM – 2:59 PM), 4 (7:01 PM – 11:59 PM) and 5 (12:00 AM – 4:59 AM). For example, 3 flights per day in Timeband 1 will be more valuable than 4 flights per day in Timeband 2.

4. Additional Flights

The value for additional flights will be evaluated as follows:

Additional nonstop flights carry more value than additional connecting/direct flights.
The value of additional flights increases as average elapsed flight time decreases. For example, additional flights for an airport pair with an average elapsed flight time of 50 minutes is considerably greater than additional flights for an airport pair with an average elapsed flight time of 240 minutes.

The value of additional flights decreases as the total number of flights available increases. For example, the additional value for a third nonstop flight over a second is greater than the additional value of a seventh nonstop flight over a sixth.

The value of additional flights increases as the number of passengers for the line item increases. For example, 6 flights per day in a B line item are more valuable than 6 flights per day in an F line item.

5. Capacity volume in Group 1 and high volume line items

In high passenger volume line items within Group 1, additional value may be given based on the capacity available (number of seats, cargo capacity, Full Jet vs. Propeller/Turboprop/Regional Jet, etc.). Additional value will be given to service on full jet aircraft where there are full jet and propeller/turboprop/regional jet (RJ) service differences (e.g., one carrier offers all full jet and another carrier offers service on propeller aircraft). As the number of flights and flight times become closer, the relative importance of capacity volume increases.

6. Baggage Fee Consideration

When evaluating a contract carrier that imposes a first (1st) checked baggage fee against a carrier that does not impose a first (1st) checked baggage fee, additional value shall be given to the carrier that does not impose a first (1st) checked baggage fee if the proposed composite fare is within 2% (rounded to the nearest whole dollar\(^8\)) of the lower priced composite fare. If an offeror indicates that it will not impose a first (1st) checked baggage fee, and that offeror is awarded a line item with that designation, the contract carrier must maintain that it will not impose a first (1st) checked baggage fee for the awarded line item throughout the entire performance period of the contract, including any option periods. If the awarded contract carrier does not maintain the waived first (1st) checked baggage fee during the performance period of the contract, the contract carrier shall provide the Government with written notice a minimum of ten (10) calendar days prior to imposing a baggage fee to the awarded line item(s). In such situations, the Government reserves the right to re-evaluate all offers and re-award the line item.

---

\(^8\) If after calculating the 2% difference a composite fare has a difference of $0.49 or less, the fare will be rounded down to the nearest whole dollar (Example: $125.35 would be rounded to $125.00).

If after calculating the 2% difference a composite fare has a difference of $0.50 or above, the fare will be rounded up to the nearest whole dollar (Example: $125.55 will be rounded up to $126.00).
M.6 PRICE EVALUATION FOR GROUP 2 AND GROUP 3

In domestic and international Group 2 and 3 line items, the YCA and _CA fares will be solicited; therefore, the composite fare will be the evaluated price. If no _CA fare is offered, then the YCA fare is the evaluated price.

In domestic line items where both a YCA fare and _CA fare are offered, the price for the line item will be calculated based on the composite fare computed in accordance with the following formula:

\[
\text{Composite Fare} = (.40 \times \text{YCA Fare}) + (.60 \times \text{CA Fare})
\]

In international line items, where both a YCA fare and _CA fare are offered the price for the line item will be calculated based on the composite fare computed in accordance with the following formula:

\[
\text{Composite Fare} = (.40 \times \text{YCA Fare}) + (.60 \times \text{CA Fare})
\]

All composite fares are rounded off to the nearest whole dollar amount. The composite fare is used for evaluation purposes only. The Government reserves the right to use all pricing information in its evaluation.

All lowest price and technically acceptable awards must also be fair and reasonable. The Government may reject any or all offers if such action is in the public interest.

After the award decision has been made based on offered coach fare(s), business class fares offered by the proposed awardee will be evaluated for price reasonableness only. Business fares are not part of the award decision for coach service.

TO:
Period for acceptance of offers. The offeror agrees to hold the prices in its offer firm from the date specified for receipt of offers to the end of the contract period or any option periods exercised.
In accordance with FAR 12.302 Tailoring of Provisions and Clauses for the Acquisition of Commercial Items, the following sub-paragraphs of FAR 52.212-4 Contract Terms and Conditions—Commercial Items (OCT 2018) are hereby stricken from the solicitation as they are not applicable to the procurement of scheduled air passenger transportation services under the City Pair Program:

(n) *Title*.

(o) *Warranty*.
