

GSA's Electric Vehicle Supply Equipment Blanket Purchase Agreement

In February 2017, GSA Fleet awarded a Blanket Purchase Agreement (BPA) for electric vehicle supply equipment (EVSE) to include data services. Two vendors received awards for five different EVSE manufacturer products: Apollo Sunguard (BPA# GS-30F-GA082) was awarded for ChargePoint branded equipment and data subscriptions. Pacific Lighting Management, Inc. also referred to as PLEMCo, (BPA# GS-30F-GA083) was awarded for Efacec, EVSE LLC, Juice Bar, and Telefonix brands of equipment. The BPA is available for all agencies authorized to lease or purchase from GSA Fleet in

accordance with the Federal Acquisition Regulation 8.405-3. Installation is not included.

The BPA provides level 1, level 2, and DC fast charge units with options for wall or pedestal mounting. In addition to equipment, Apollo Sunguard was awarded data services for the ChargePoint network. Agencies can utilize the BPA to purchase data services for up to four additional years. The table below summarizes the awarded EVSE by manufacturer: More information including how to order can be found at gsa.gov/evse

Brand								
EVSE LLC	2	3703-1000-W-21-36	2	Wall / Pedestal	\$4,089/\$4,838	Greenlots	N/A through BPA	\$2,769/ \$3,241
ChargePoint	2	CT4023/CT4021	2	Wall / Pedestal	\$6,884/\$7,363	ChargePoint	\$22.69/port	N/A
