Part E—Executive Summary

E.1—Executive Summary: Mission

The mission of the U.S. General Services Administration (GSA) is to deliver value and savings in real estate, acquisition, technology, and other mission-support services across government. GSA provides centralized procurement for the Federal Government, offering products, services, and facilities worth billions of dollars that Federal agencies need to serve the American public. GSA’s acquisition solutions supply Federal purchasers with cost-effective high-quality products and services from commercial vendors. GSA also helps Federal agencies build and acquire office space, products and other workspace services, and oversees the preservation of historic Federal properties. Its policies covering travel, and property management practices promote efficient government operations.

Part E.2—Executive Summary: Essential Elements A-F

HIGHLIGHT: -GSA demonstrated strength in four elements: Demonstrated Commitment from Agency Leadership, Management and Program Accountability, Program Efficiency, and Responsiveness and Legal Compliance. Deficiencies were identified in two elements: Integration of EEO into the Agency’s Strategic Mission, and Proactive Prevention of Unlawful Discrimination.

This Equal Employment Opportunity (EEO) Program Status Report for fiscal year (FY) 2019 outlines the state of activities undertaken by GSA pursuant to its EEO program

EEOC MD-715, at PART A, II. A-F, and PART B, III. A-F, describes six elements as essential for the establishment of a “model” EEO program:

A. Demonstrated Commitment from Agency Leadership
B. Integration of EEO into the Agency’s Strategic Mission
C. Management and Program Accountability
D. Proactive Prevention of Unlawful Discrimination
E. Program Efficiency
F. Responsiveness and Legal Compliance

The EEOC has established specific measures for each of the six elements of a model EEO program. In FY 2019, GSA reviewed its EEO and personnel programs, policies, and performance in light of these elements. The results of GSA’s review are detailed in Part G, Agency Self-Assessment Checklist of the MD-715, to this report. Overall, the Agency’s self-assessment indicates program strength in four essential elements (A, C, E and F) and some deficiencies in two other elements (B and D).

FY 2019 EEO Program Deficiencies

HIGHLIGHT: GSA will correct the deficiencies identified below in FY 2020.

The EEO program deficiencies that GSA detected in its MD-715 self-assessment relate to the following three areas:

• Lack of senior official involvement in the barrier analysis process (Essential Element B, Measures B.6.b, B.6.c., and B.6.d.)
• Lack of analysis of identified triggers to find potential barriers to EEO. (Essential Element D, Measures D.2.a., D.2.b., D.2.c., and D.2.d.)

• Lack of action plans to remove identified barriers (Essential Element D, Measures D.3.a., D.3.b., and D.3.c.) Essential Element B: Integration of EEO into Agency’s Strategic Mission

Status: Measures B.6.b, B.6.c, and B.6.d. ask agencies whether senior managers participate in the barrier analysis process and whether senior managers participate in the development and implementation EEO action plans when barriers are identified. It further asks whether EEO plan objectives are incorporated into agency strategic plans.

GSA, through its affirmative employment program, seeks to regularly and systematically identify potentially discriminatory policies and practices, deficient program areas, and other barriers to the advancement of protected groups; however, little to no barrier analysis occurred in FY 2019. FY 2019 was unusual in that the Agency’s Office of Civil Rights (OCR) was reorganizing and both OCR and the Agency’s Office of Human Resources Management (OHRM) had staffing shortages and vacancies that impacted the Agency’s ability to execute the affirmative employment program and devote resources to conducting barrier analysis throughout the year. Consequently, GSA has answered no to most self-assessment questions related to the barrier analysis process and any associated action plans for EEO barrier removal.

Action: GSA will hire a new affirmative employment program manager and re-establish a process to conduct barrier analysis review by the end of FY 2020. An outline of actions that will be taken to address this deficiency during FY 2020 is in Part H.

Essential Element D: Proactive Prevention of Unlawful Discrimination

Status: Sub-elements of Element D (Measures D.2.a., D.2.b., D.2.c., D.2.d., D.3.a., D.3.b., and D.3.c.) ask whether the Agency has a process to analyze identified triggers and whether it systematically and regularly reviews its employment policies and practices to identify potential barriers. As mentioned, due to unforeseen circumstances, GSA did not conduct barrier analysis during FY 2019.

Action: Once the affirmative employment program is re-established GSA will resume work to analyze triggers and identify potentially discriminatory policies and practices. An outline of actions that will be taken to address deficiencies under Element D during FY 2020 is in Part H.

Resolved Deficiencies from the MD-715 Report for FY 2018
In FY 2019, GSA resolved all three of the program deficiencies identified in its FY 2018 MD 715 report, as follows.

Element C: Demonstrated Commitment from Agency Leadership

Status: Resolved. Sub-elements of Element C (Measure C.3.a and C.3.b.) asked agencies whether all managers and supervisors had performance plans that evaluated their commitment to EEO policies and principles as well as their participation in the EEO program. At the time, GSA had no mandatory measures on EEO policies or participation for non-senior executive service supervisors’ and managers’ performance plans.

Action: In November 2019, GSA implemented a policy requiring all managers’ and supervisors’ performance plans to include a performance measure that evaluates their commitment to EEO principles and to leading a diverse workforce.

Essential Element D: Proactive Prevention

Status: Resolved. Measure D.1.c. asked whether the Agency conducted exit interviews or surveys that included questions on how the Agency could improve the recruitment, hiring, inclusion, retention and advancement of persons with disabilities. At the time of the FY 2018 program review, GSA did not conduct exit interviews or surveys that included disability-related questions.

Action: In August 2019, GSA made available on its internal website an exit survey that includes disability-related questions. GSA invites all employees who are separating from the Agency to voluntarily participate in the exit survey.

Essential Element F: Responsiveness and Legal Compliance:

Status: Resolved. Measure F.3.a. asked whether the Agency timely submitted to the EEOC an accurate and complete No FEAR Act report.1 GSA’s No FEAR Act Report for FY 2018 was submitted one day after the deadline.

Action: GSA submitted an accurate and complete FY 2020 No FEAR Act Report to the EEOC on March 26, 2020, two days before the deadline.

1 The Notification and Federal Employee Antidiscrimination and Retaliation Act of 2002 (No FEAR Act).

2 Employees may voluntarily self-identify their race, gender and ethnicity in HR Links.

E.3—Executive Summary: Workforce Analysis and Complaint Activity
HIGHLIGHTS:

Workforce Analysis

• The data for FY 2019 presented in this report indicates the same potential triggers as the FY 2018 data.

• OCR was reorganizing in FY 2019 and its affirmative employment program was unstaffed due to staff departures. Lacking the necessary manpower, GSA was unable to complete trigger identification or address barriers to EEO as required by MD-715.

Complaint Activity

• GSA’s complaint activity in FY 2019 dropped 21 percent from FY 2018 levels.

• The Agency’s FY 2019 Alternative Dispute Resolution Rate (ADR) rate was 64 percent.

Data Sources

GSA conducted a statistical analysis of its workforce data for trigger identification. Figures One and Two represent a summary view of GSA’s workforce by gender, race, and disability status. The tables consolidate statistics to show how the demographics of the GSA workforce compare to established benchmarks. These data are based on voluntary self-identification by employees and derived from GSA’s human resources system of record, HR Links. 2

For benchmarking, GSA compared its workforce data to the National Civilian Labor Force (NCLF) and to the GSA Relevant Civilian Labor Force (RCLF), which is a subset of the NCLF calculated from aggregated employment availability statistics associated with the specific occupational groups within GSA’s workforce. Detailed statistical data on GSA’s workforce may be found in the attached workforce tables.

The following is a summary of GSA’s workforce data as of September 30, 2019:

• GSA had a total workforce of 11,326 employees:

  - 10,814 permanent
  - 512 temporary

GSA’s workforce increased by 275 (2.8 percent) from 11,051 in FY2018.

  - 10,743 permanent
The workforce is:

- 11,240 (99 percent) employees in the General Schedule and Related pay systems, including 125 senior executives, and 86 (1 percent) employees in the Wage Grade System.

- 6,100 (53.8 percent) men and 5,266 (46.1 percent) women. (Figure One)

- 1,200 (10.6 percent) self-identified persons with disabilities (PWD) and 233 (2.06 percent) persons with targeted disabilities (PWTDs). (Figure Two)

HIGHLIGHTS:

- Overall, all groups are better represented in the GSA workforce than in the RCLF with the exception of White women and Hispanics. With a workforce that is 58.4 percent White and 41.6 percent minority employees, GSA is a diverse agency with overall demographic distributions that are largely in line with expected employment rates.

The GSA total workforce is:

- 6.3 percent Hispanic or Latino (721)

- 26.5 percent Black or African American (3,016)

- 6.5 percent Asian (751)

- 0.2 percent Native Hawaiian or Pacific Islander (30)

- 0.9 percent American Indian or Alaska Native (94)

- 0.7 percent Two or more Minority Races (87).

White women and Hispanics are better represented in the GSA-specific RCLF than in the GSA workforce. Hispanics represent 6.3 percent of the workforce compared to 7.4 percent in the GSA RCLF. Despite an increase in the employment of White women to
2,593 in FY 2019, from 2,577 in FY 2018, GSA lags behind the RCLF for this group. White women represent 22.8 percent of the workforce compared to 37.2 percent of the RCLF in 2019. Overall, women represent 46.1 percent of the workforce compared to 50.2 of the RCLF. Certain groups of women—Black, Asian, and Native Hawaiian or Pacific Islander—exceeded their representation in the RCLF.

HIGHLIGHTS:

• GSA’s PWD participation rate is 10.6 percent compared to the Federal goal of 12 percent.

• The PWTD participation rate is 2.1 percent compared to the Federal goal of 2 percent.

Including all veterans hired using the 10-Point 30 Percent Compensable Disability Preference would increase the PWD participation rate to 18 percent. GSA’s analysis of FY 2019 demographic workforce data revealed a small gap in participation rates compared with the Federal 12 percent participation goal for PWDs. However, GSA for the first time exceeded the two percent Federal participation goal for PWTD. As shown in Figure Two, PWD participation was 10.6 percent (1,200), which is 5 percent (58 persons) above the FY 2018 rate (10.3 percent, 1,142). By contrast, PWTD participation was 2.1 percent (233), over the Federal goal, and 12.5 percent over FY 2018 participation (1.9 percent, 207).

GSA saw its first significant increase in PWD participation rates between FY 2017 and FY 2018, after a large-scale effort by GSA that leveraged EEOC changes to Standard Form 256, Self-Identification of Disability, by resurveying employees with disabilities. As shown in Figure Two, between FY 2014 and FY 2019, GSA achieved almost a four percent gain in disability participation. This increase is primarily due to a change in self-
identification, resulting in more accurate identification of PWDs. GSA will continue to survey and encourage self-identification.

To further support that a lack of self-reporting understates the number of PWDs employed at GSA, the GSA examined the number of veterans who were hired under a 10-Point 30 Percent Compensable Disability Preference. As of September 30, 2019, veterans represented 22 percent (2,423 employees) of GSA’s workforce. The percentage of veteran’s in GSA workforce that were hired under 10-Point 30 Percent Compensable Disability Preference is 11 percent (1,223). However, of these disabled veterans, 69 percent (844) report on their SF-256 at onboarding that they either did not have a disability or did not wish to identify a disability. Inclusion of all veterans who were hired using this preference would result in an additional 844 employees, or an 18 percent (2,044) disability employment rate, exceeding the 12 percent Federal goal.

Action: GSA recognizes the need to ensure that disabled veterans are accurately identified and will continue to work to improve data quality in this area. GSA’s plan of action to further recruit, hire and advance PWD and PTWD generally is at Part J.

Mission-Critical Occupations

Introduction

At the end of FY 2019, 105 different job series were represented in the GSA workforce. For the purposes of this report and corresponding workforce and barrier analyses, EEOC requires that agencies identify significant, “mission-critical” occupations; determine appropriate benchmarks, and note significant triggers (i.e., data anomalies) that may point to EEO issues. The eight mission-critical occupational series at GSA, based on EEOC guidance, are reflected by overall population size in Figure Three and are identified in the A6P and B6P workforce tables attached to this report. The following are key observations:

3 The definition for “mission critical occupations” is provided in MD-715 guidance as occupations that are mission-related with career advancement potential and heavily populated; these are singled out for special analysis. See: Instructions to Federal Agencies for EEO MD-715: Barrier Identification and Elimination. These are not the same “major” or “mission critical occupations” identified by human resources for personnel-management purposes and definitions unrelated to barrier analysis.

• Ninety-five point four percent (7,887) of the workforce population is employed in the eight mission critical job series.
• Contracting (1102 Series) and General Business and Industry (1101 Series) comprise 29.3 percent (3,317) of the total permanent GSA workforce population, and are considered a driver for workforce trends in GSA.

Disability Employment in Mission-Critical Series

Disability employment in each of the mission-critical occupations is reflected in Figure Four. • One of the major occupation series (1176) reached the overall agency disability employment rate of 12.2 percent (112). Two other mission critical series (0343 and 1170) are close to the 12 percent goal.

• The targeted disability rates for the most populated series (1101 and 1102) are lower than the overall agency rate of 2.1 percent, at 1.7 percent (31 and 27 persons), respectively.

• The general attorney series has the lowest overall rate of disability employment, at 4.4 percent (7 persons) and lowest targeted disability among the mission-critical occupations, at 1.2 percent (2 persons).

Notable Elements by Mission Critical Series

Contracting: 1102 Series.

• Contracting is the largest occupation at GSA for the seventh year.

• Women outnumber men, 57.7 percent to 42.2 percent (1,029 to 754), which is 4 percent over the RCLF benchmark for contracting work.

• The workforce in contracting is 25.9 percent (463) White women and their participation rate is 22 percent below the RCLF benchmark (47.9 percent).

• Black and Asian women’s employment rates are above their availability, and Hispanic and White men’s participation rates are below their availability.

General Business and Industry: 1101 Series.

• Hispanic/Latino men are employed at a rate higher than their availability rate in the RCLF, 3.9 percent to 2.9 percent.
• Men outnumber women in this field (867 to 667).

• White women (383) are employed at a rate below their availability (24.9 percent to 43.9 percent).

• Hispanic/Latina women (39) are employed at a rate below their availability, 2.5 percent to 5.9 percent.

Management and Program Analysis: 0343 Series. • Women are prevalent in this series. Their representation exceeds the RCLF figures for the occupation, with the participation rate of every group except White women, either close to, or above, the expected occupational-availability.

• Black women are participating in this job series at a rate of 25.3 percent (238), over their availability rate of 3.8 percent.

Miscellaneous Administration: 0301 Series.

• This job series is a “miscellaneous” program administration catch-all, with hundreds of potential job titles and roles; consequently, benchmarking in this series is imprecise for drawing conclusions.

• This series offers greater high-grade opportunities, especially senior executive positions.

• Hispanic/Latina and White women are the furthest from their availability in this series, 2.2 percent (24) to 5.9 percent, and 30.2 percent (325) to 43.9 percent.

Building Management: 1176 Series.

• Building management is in the same “job family” group with Contracting (1102) and General Business and Industry (1101).

• Hispanic/Latina and White women are employed in this series below their expected participation rates, at 2.2 percent (24) and 13.0 percent (120).
• One of only a few categories where Hispanic/Latino men’s employment level of 4.8 percent (44) is near the expected rate of 4.0 percent.

Information Technology Specialists: 2210 Series.
• This is a predominantly male field, and the GSA workforce deviates little from the expected population for men versus women of 69.2 percent (481) to 30.7 percent (214); on a national level, 70 percent of IT specialists are men.

• Prior workforce analyses regarding the 2210 series indicates that GSA has a significant, high-graded population of technology specialists and these persons perform web development and data architecture responsibilities that do not fall within the 2210 series classification per Office of Personnel Management (OPM) standards. These persons are classified in the 0301 series within the Agency’s Technology Transformation Services Division.

Realty: 1170 Series.
• Men and women are almost equal at 50.9 percent to 49.0 percent (309 and 298).

• Hispanic/Latina women are at 5.6 percent (34), slightly higher than their expected rate of 5.3 percent

General Attorney: 0905 Series.
• Attorneys comprise 1.3 percent of the overall population.

• White women participate in this series at 37.3 percent (59), higher than their availability of 36.4 percent.

• Hispanic/Latina women and men are employed at the rate of 1.9 percent (3), higher than the benchmark for attorneys of 0.62 percent.

Triggers and Barrier Analysis

HIGHLIGHT: During FY 2019, GSA was unable to perform barrier analysis of identified triggers.

Trigger Analysis
Introduction

GSA looked for EEO triggers (statistical anomalies) through an analysis of data on gender and race, disability employment and mission critical occupations in the GSA workforce. Although GSA employs a diverse workforce with participation rates in line with the RCLF, the data show that the same four triggers found in FY 2018 existed in FY 2019.

Trigger 1 – Lower than Expected Female Participation in the GSA Workforce.

• Women represent 46.6 percent (5,041 employees) of the 10,814 permanent GSA employees.

• Women are 3.6 percent (389 employees) below the RCLF of 50.2 percent (5,429 employees)

• Inherent in the lower than expected participation rate, is that—
  o White women represent 23.2 percent (2,505 employees) of the workforce, which is 14.0 percent (1,514 employees) below the RCLF of 37.17 percent.
  o Hispanic/Latina women represent 2.8 percent (305 employees) of the workforce, which is 1.2 percent (130 employees) below the RCLF of 4.0 percent.

Trigger 2 — Lower than Expected Hispanic Participation in the GSA Workforce.

• Hispanic or Latino employees represent 5.7 percent (616 employees) of the permanent GSA workforce.

• Hispanic or Latino employee representation is 1.7 percent (184 employees) below the RCLF of 7.4 percent (800 employees). This is driven by lower than expected rates for both Hispanic or Latina women and Hispanic or Latino men.

• Hispanic/ Latina women represent 2.8 percent (305 employees) of the workforce, which is 1.2 percent (130 employees) below the RCLF.
  o Hispanic/ Latino men represent 2.9 percent (311 employees) of the workforce, which is 0.5 percent (54 employees) below the RCLF.

Trigger 3 – Lower than Expected Inclusion of Women in Leadership Positions.

• Women represent 31.2 percent (39) of the 125 SES positions, which is 18.9 percent (24 employees) below the expected inclusion rate. This is largely attributable to underrepresentation of minority groups.
The representation of Asian women is 0.80 percent (1 employee), which is 1.3 percent (2 employees) below the expected inclusion rate.

The representation of Hispanic/Latina women is 0.80 percent (1 employee), which is 3.2 percent (4 employees) below the expected inclusion rate.

The representation of Black or African American women is 5.60 percent (7 employees), which is 0.12 percent above the expected inclusion rate.

The representation of White women is 24.0 percent (30 employees), which is 13.2 percent (16 employees) below the expected inclusion rate.

Trigger 4 – Lower than Expected Participation of PWD.

- As discussed earlier in Disability Employment (page 11), GSA believes that PWD and PWTD are participating at a higher rate based on veterans who were hired under a 10-Point 30 Percent Compensable Disability Preference and that the challenge is in the self-reporting/identification of the data.

Barrier Analysis

This report does not evaluate the root causes of the identified triggers because GSA did not perform any barrier analysis during FY 2019. The affirmative employment program manager position in OCR became vacant as the office was reorganizing. OHRM was similarly reorganizing and had vacant positions. GSA has therefore deferred investigating triggers until after the affirmative employment program manager position is filled. GSA’s FY 2020 report will detail actions taken by the agency to reboot the affirmative employment program and to identify and remove barriers to equal employment opportunity at GSA. (See the GSA’s plan in Part H to this report.)

Complaint Activity in the Workforce

HIGHLIGHTS:

- Sixty-five formal complaints were filed in FY 2019, a 21-percent drop from FY 2018’s total of 84. • In FY 2019, alternative dispute resolution (ADR) was elected in 86 out of 134 informal cases (64 percent).
In FY 2019, 4,125 informal complaints were initiated, which was a 1.57 percent decrease from FY 2018. Of those, 65 formal complaints were filed by 58 complainants. The number of formal complaints represents a 22 percent decrease from FY 2018, when 84 formal complaints were filed.

Additional statistics are in Figure Five.

Bases and Issues of Discrimination

The most frequently cited basis of discrimination alleged in the 65 formal complaints in FY 2019 was reprisal/retaliation (29), followed by race (27), age (22), and sex (21), as reflected in Figure Six.

Of the 65 formal complaints filed in FY 2019, the issue most frequently alleged was harassment-non-sexual (21), followed by promotion/non-selection (11), terms/conditions of employment (8) and termination (8), as reflected in Figure Seven, below.

Top bases and issues in GSA's formal complaint filings in FY 2019 were consistent with Government-wide statistics as reported by the EEOC.

Alternative Dispute Resolution

GSA offers ADR to 100 percent of individuals initiating pre-complaints as well as those initiating formal complaints of discrimination. Of the 134 informal completed cases, 86 aggrieved persons elected ADR, resulting in a 64 percent participation rate. Settlement was achieved in 5 percent (4) of the informal cases where ADR was used. Of the 65 formal cases filed, 8 complainants elected ADR, resulting in a 12 percent participation rate. Settlement was achieved in 20 percent (2) of the formal cases where ADR was used.

Findings of Discrimination

As stated in the Agency’s annual EEOC Form 462 Report for FY 2019, GSA had no findings of discrimination. GSA had the following agency actions in FY 2019:

• 41 final agency decisions on the merits
• 23 final orders fully implementing an EEOC administrative judge’s decision

E.4—Executive Summary: Accomplishments
The steps taken by GSA towards becoming a model EEO agency during FY 2019 include the following:

Equal Opportunity Policy Statement: Pursuant to MD-715, on October 4, 2019, the GSA Administrator issued the Agency’s annual statement on GSA EEO policy to all employees. The policy affirmed GSA’s commitment to a work environment that is free of discrimination and harassment. In addition to reinforcing GSA’s zero tolerance for discrimination and retaliation, the policy also emphasized GSA’s commitment to diversity and its workforce in all GSA programs and activities. Administrator Murphy concluded the statement with the following:

Every one of us at GSA—no matter the profession, organization, or geographic location—shares in the responsibility to help create and foster a discrimination-free workplace. This starts with me as the Administrator, but it requires the support of us all. (GSA, 2019)

Reorganization. OCR reorganized in October 2019 after a yearlong planning process that emanated from a program review in FY 2018. Designed to reduce costs and streamline operations, the reorganization reduced the staff-to-supervisor ratio by 33 percent. It also repositioned OCR’s staff from being dual-hatted, under an inefficient matrix model, to fully dedicated to key mission areas. New goals for performance management were achieved through new position descriptions and performance plans for OCR staff. Further, as part of staffing changes, OCR secured an in-house attorney to serve exclusively as firewall counsel for OCR and devoted resources to employee training and development.

Training. GSA piloted civility in the workplace training offered by the EEOC. Seventy-five GSA employees, including managers, supervisors, and senior executives, learned valuable information on how to prevent or mitigate harassment and cultivate a respectful workplace. OCR also conducted an extensive training and outreach campaign, training over 200 employees in unconscious bias and other EEO-related topics.

Performance Elements Related to EEO Principles. Fulfilling a commitment from its FY 2018 Management Directive 715 annual report, GSA implemented in November 2019 a policy requiring all supervisors’ performance plans to include a performance measure that evaluates their commitment to EEO principles and to leading a diverse workforce.

Increased ADR Participation Rates. GSA offers ADR to all aggrieved persons and complainants. In FY 2019, GSA actively promoted ADR during all phases of the complaint process and in EEO-related training for GSA employees. ADR was elected in 86 out of 134 informal cases (64 percent).
Reporting.

• OHRM provided each Head of Service and Staff Office (HSSO) with monthly workforce analytic reports which are used in making strategic, data-driven decisions on workforce planning. The reports provide relevant human capital data, featuring information on accessions, reassignments, promotions, separations, race/national origin, gender, and veteran status.

OHRM developed enterprise-wide workforce plans to help GSA deliver a mission-ready workforce and operating plan, including strategies to recruit and retain persons with disabilities.

• OHRM developed a robust recruitment calendar for FY 2018 based on the needs of the HSSOs. A focus was placed on targeting Hispanic-serving institutions. OHRM conducted virtual and in-person recruiting to maximize GSA’s visibility and promote the Agency as a model employer.

E.5—Executive Summary: Planned Activities

In addition to addressing the program deficiencies outlined in Part E.2, in FY 2020 GSA will undertake several activities to further move the agency toward being a model EEO agency.

Reconstitution of the Barrier Analysis Workgroup: As a result of OCR’s focus on completing the reorganization/restructure, and the affirmative employment program manager position being vacant, OCR did not engage OHRM or GSA program directorate staff to participate in the barrier analysis review major agency personnel policies and procedures as contemplated in its FY 2018 report. Reforming the barrier analysis workgroup (BAW) and rebooting a robust affirmative employment program will be a primary focus of OCR during FY 2020. OCR expects to hire a new affirmative employment program manager and begin conducting barrier analysis again by the end of FY 2020.

Reinforcing the EEO Program: One result of the reorganization was that OCR hired a new director to oversee EEO case processing, the affirmative employment program, and external programs. During FY 2020, OCR will fill other critical vacant positions, including that of affirmative employment program manager. OCR has begun the recruitment process and expects to have the new affirmative employment program manager onboard by the fourth quarter of FY 2020. Additional areas of focus include the following:
• Developing a five-year strategic plan aimed at enhancing OCR’s efficiency and effectiveness under the new structure. • Expanding OCR’s capability to offer a range of EEO-related training topics and delivery options agency-wide.

Support of Special Emphasis Programs: Since FY 2019, OHRM has lost staff that supported GSA’s diversity and inclusion program. During FY 2020, OHRM will work to fill the open positions within OHRM and then collaborate with OCR to reconstitute the BAW and re-engage affinity groups such as the Veterans Employee Resource Association, and the Lesbian, Gay, Bisexual and Transgender and Allies Employee Association in BAW discussions.

EEO Plan for Attaining the Essential Elements of a Model EEO Program

Essential Element

Deficiency Category

Description of Program Deficiency

Deficiencies Identified in GSA MD-715 Report for FY 2018’s C.3—The agency evaluates managers and supervisors on their efforts to ensure equal opportunity.
C.3.a. Pursuant to 29 CFR §1614.102(a)(5), do all managers and supervisors have an element in their performance appraisal that evaluates their commitment to agency EEO policies and principles and their participation in the EEO program?

C.3.b. Does the agency require rating officials to evaluate the performance of managers and supervisors based on the following activities:

C.3.b.1 …Resolve EEO problems/disagreements/conflicts, including the participation in ADR proceedings? [see: MD-110, Ch. 3.I]

C.3.b.2 …Ensure full cooperation of employees under his/her supervision with EEO officials, such as counselors and investigators? [see: 29 CFR §1614.102(b)(6)]

C.3.b.3 … Ensure a workplace that is free from all forms of discrimination, including harassment and retaliation? [see: MD-715,II(C)]

C.3.b.4 …Ensure that subordinate supervisors have effective managerial, communication, and interpersonal skills to supervise in a workplace with diverse employees? [see: MD-715 Instructions, Sec. I]

C.3.b.5 …Provide religious accommodations when such accommodations do not cause an undue hardship? [see 29 CFR §1614.102(a)(7)]

C.3.b.6 …Provide disability accommodations when such accommodations do not cause an undue hardship? [see 29 CFR §1614.102(a)(8)]

C.3.b.7…Support the EEO program in identifying and removing barriers to equal opportunity. [see MD-715, II(C)]

C.3.b.8…Support the anti-harassment program in investigating and correcting harassing conduct. [see Enforcement Guidance, V.C.2]

C.3.b.9…Comply with settlement agreements and orders issued by the agency, EEOC, and EEO-related cases from the Merit Systems Protection Board, labor arbitrators, and the Federal Labor Relations Authority? [see MD-715, II(C)]

Essential Element C:

Management and Program Accountability:

This collection of sub-elements is a new addition to the EEOC’s “model program elements,” and was not part of last year’s report for this reason. GSA requires elements related to EEO and diversity principles for inclusion in all SES performance appraisals. Furthermore, GSA does include suggested language under one of its critical element for
supervisors, under the heading of “Leading People.” This category contains a number of phrases related to the above-referenced principles, and according to the agency’s human resources division, this language is used widely. However, there is no such formal requirement or mechanism to guarantee that every manager and supervisor at GSA has performance elements related to these principles in their plans, since the language is optional. GSA has made this optional thus far to ensure flexibility for managers to make the standards appropriate based on position. Changes to make this standard required, without the option to modify the text, would require the approval of the Office of the Administrator.

Special Program Plan for the Recruitment, Hiring, Advancement, and Retention of Persons with Disabilities

To capture agencies’ affirmative action plans for persons with disabilities (PWD) and persons with targeted disabilities (PWTD), EEOC regulations (29 C.F.R. § 1614.203(e)) and MD-715 require agencies to describe how their plan will improve the recruitment, hiring, advancement, and retention of applicants and employees with disabilities. All agencies must complete this Part of the MD-715 report.

Section I:

Efforts to Reach Regulatory Goals
EEOC regulations (29 C.F.R. § 1614.203(d)(7)) require agencies to establish specific numerical goals for increasing the participation of persons with reportable and targeted disabilities in the federal government.

1. Using the 12% goal, does your agency have a trigger involving IWD by grade cluster in the permanent workforce?

GS-1/10: Yes/No
GS-11-SES: Yes/No

The rate of representation is 10.5%.

2. Using the 2% goal, does your agency have a trigger involving PWTD by grade cluster in the permanent workforce?

GS-1/10: Yes/No
GS-11-SES Yes/No

The rate of representation is 1.5%.

3. Describe how the agency has communicated numerical goals to hiring managers/recruiters.

Managers and supervisors take a complement of required courses when they become new supervisors, and the hiring goals related to disability are in reference material thereafter.

Section II:

Model Disability Program

Pursuant to (29 C.F.R. § 1614.203(d)(1), agencies must ensure sufficient staff, training, and resources to recruit and hire PWD and PWTD, administer the reasonable accommodation program and special emphasis program, and oversee any other disability hiring and advancement program the agency has in place.

A. Plan to Provide Sufficient and Competent Staffing for the Disability Program

1. Has the agency designated sufficient personnel for its disability program? If “no,” describe the plan to improve staffing. Yes/No

2. Identify all staff responsible for implementing the agency’s disability employment program by the office, staff employment status, and responsible official.

Section V:
Plan to Improve Retention of Persons with Disabilities

To be a model employer for PWD, agencies must have policies and programs in place to retain employees with disabilities. In this section, agencies should: (1) analyze workforce separation data to identify barriers; (2) describe efforts to ensure accessibility of technology and facilities; and (3) provide information on the RA program and workplace PAS.

A. Voluntary and Involuntary Separations
1. In this reporting period, did the agency convert all eligible Schedule A employees into the competitive service after two years of satisfactory service (5 C.F.R. § 213.3102(u) (6)(i))? If “no” please explain why the agency did not convert. Yes/No.

2. Using inclusion rate as a benchmark, did the percentage of PWD among separations exceed that of persons without disabilities? If yes, please describe the trigger(s).
   Voluntary: Yes/No
   Invol.: Yes/No

3. Using inclusion rate as a benchmark, did the percentage of PWTD among separations exceed that of persons without disabilities? If yes, please describe the trigger(s).
   Voluntary: Yes/No
   
   15.5% PWTD separated; 6.2% inclusion rate
   Invol.: Yes/No

4. If a trigger exists involving the separation rate of PWD and/or PWTD, please explain why they left the agency using exit interview results and other data sources.
   Employees voluntarily left the agency by resignation or retirement.
B. Accessibility of Technology and Facilities

Pursuant to 29 C.F.R. § 1614.203(d)(4), agencies are required to inform applicants/employees of their rights under Section 508 of the Rehab Act of 1973 (29 U.S.C. § 794(b), concerning the accessibility of agency technology, and the Architectural Barriers Act of 1968 (42 U.S.C. § 4151-4157), concerning the accessibility of agency facilities. In addition, agencies are required to inform individuals where to file complaints if other agencies are responsible for a violation.

1. Provide internet address on the agency’s public site for notice explaining employees/applicants’ rights under Sect. 508, including how to file a complaint.

2. Provide internet address on the agency’s public site for notice explaining employees/applicants’ rights under the Architectural Barriers Act, including how to file a complaint.

https://www.gsa.gov/real-estate/design-construction/accessible-facility-design

3. Describe any programs, policies, or practices that the agency has undertaken, or plans on undertaking over the next fiscal year, designed to improve accessibility of agency facilities and/or technology.

GSA’s Office of Administrative Services provides the Center for IT Access (CITA), a centrally funded program that provides assistive technology needs assessments and expertise for all employees with disabilities as well as their management. CITA also maintains an inter-agency agreement with the Department of Defense’s Computer Accommodation Program, which provides many kinds of assistive technology and related training. In addition, there are centralized funds provided by the Office of
Administrative Services (OAS) to cover these same items when CAP is unable to for any reason. OAS also provides workplace modifications when needed from a centralized budget.

C. Reasonable Accommodation Program

Pursuant to 29 C.F.R. § 1614.203(d)(3), agencies must adopt, post on their public website, and make available to all job applicants and employees, reasonable accommodation procedures.

1. Provide the average timeframe for processing initial requests for reasonable accommodations during the reporting period.

29.5 days.

2. Describe the effectiveness of the policies, procedures, or practices to implement the agency’s RA program. Some examples of an effective program include timely processing requests, timely providing accommodations, training for managers and supervisors, and monitoring for trends.

GSA’s accommodation procedure was re-written and finalized June 6, 2018. The provision of a complete data set related to accommodation this year, after enhancements to the tracking mechanism, enabled the agency to make definitive statements about timeliness and approval rates, and determine how often requests are modified or denied, and what kinds of disability categories, and products and services, are requested. Training for managers and supervisors is required every other year. Complaint files and settlement-finding data indicates that issues related to RA management exist, but last year’s complaint and findings activities indicate the issue was far less prevalent this past year.

3. Describe any programs, policies, or practices that the agency has undertaken, or plans on undertaking over the next fiscal year, designed to improve accessibility of agency facilities and/or technology.
The Office of Administrative Services works closely with the Public Buildings Service to ensure compliance with all applicable accessibility standards, from the requirements gathering phase through the delivery phase for all technology purchases and development.

D. Personal Assistance Services Allowing Employees to Participate in the Workplace.

Pursuant to 29 C.F.R. § 1614.203(d)(5), Federal agencies are required to provide personal assistance services (PAS) to employees who need them because of a targeted disability, unless doing so would impose an undue hardship on the agency.

Describe effectiveness of policies, procedures, or practices to implement PAS requirement. Some examples include timely processing requests for PAS, timely providing approved services, conducting training for managers and supervisors, and monitoring trends.

The PAS requirement is understood by the cohort of RACs, and OHRM coordinated with a program analyst from OCR to obtain a sample job description/PD from another agency (one that has provided PAS as RA before it was required) as an example of a PAS/administrative assistant contract person to use at GSA when the need arises, since it is typical for such persons to be hired as specialized, contract staff and to multitask for these functions. GSA has no requests for PAS at this time.

Section VI:
