Introduction

The General Services Administration's Domestic 500A (GSA500A) Tariff (Tariff) serves as the principal domestic Tariff that governs the transportation of household goods (HHG), personal effects, property and other similarly defined articles between points in the United States (U.S.) (including the District of Columbia and Alaska but excluding Hawaii) and between points in the U.S. (including District of Columbia and Alaska but excluding Hawaii) and points in Canada for the account of the U.S. Government – GSA – in accordance with the terms and conditions of GSA's Centralized Household Goods Traffic Management Program (CHAMP). This Tariff is published and maintained by GSA. It contains two components: 1) the Tariff rules, regulations and governing provisions as published in this electronic document, and 2) a Microsoft Excel Workbook shown in the Baseline Rate Tariff Files (Appendix B), listing the applicable baseline rates and charges applicable for transportation and accessorial (additional) services. References to this Tariff include both components.

GSA does not endorse any 3rd party software or products that utilize information or data found in either this Tariff and/or Appendix B to compute shipment costs. GSA is not responsible for any discrepancies between such 3rd party software or products and those contained in this Tariff and/or Appendix B. Only the rates, charges and provisions provided by GSA will be the final authority for payment.

Distance-based rates and charges between points in the U.S. are determined by PC*Miler issued by ALK Technologies, Inc. based on the applicable **5-digit postal zip codes** obtained from the National 5-Digit Zip Code and Post Office Directory issued by the United States Postal Service (USPS). However, for shipments with an origin and/or destination within Canada, mileage distances will be determined by the Rand McNally Mileage Guide 19, in lieu of ALK Technologies, Inc.

To simplify the application of charges, this Tariff incorporates many of the commonly applied individual Additional Services charges into a single Origin/Destination Service Charge that applies in addition to the transportation charges. The Service Areas and their associated Services Cost Schedules and other non-mileage based rates and charges for services performed at points in the U.S. are determined based on the applicable **3-digit postal zip code** issued by the USPS. Services performed at points in Canada are based on a single cost schedule for all points in Canada.

The shipment charges are based on the shipment weight, the distance the shipment is transported and the additional services provided at each location. To determine the distance, first, use the 5-digit postal zip code applicable at the points of origin and destination to determine the mileage between the two points. Second, use the 3-digit postal zip code to determine the appropriate origin and destination Service Areas and their associated Services Cost Schedules to determine the rates and charges applicable for additional services performed at each location.

Transportation Charges **(Refer to Section 2 for Application of Transportation Charges)**

The transportation charges in this Tariff include one shipment loading at the point of origin, vehicle transportation to the point of destination and shipment unloading at destination. Transportation charges do not include the additional services listed in Section 1 and 2 of this Tariff.

Transportation charges named apply for the transportation of HHGs:

1. Between points in the U.S. (including the District of Columbia and Alaska but excluding Hawaii); and
2. Between points in the U.S. (including District of Columbia and Alaska but excluding Hawaii) and points in Canada.

Unless otherwise specifically provided in this Tariff, all rules, rates and charges in effect on the date the shipment is picked up shall apply. In addition, any transportation and storage discounts that apply are based on the date the shipment is picked up, unless otherwise specifically provided in this Tariff.

Additional Services **(Refer to Section 2 for Application of Additional Services)**

Additional Services rates and charges apply for services that are requested by the Bill of Lading Issuing Officer (BLIO) as necessary to complete the shipment. Appendix B of this Tariff names the applicable Additional Services rates and charges.

Limitation of Action

All claims and actions at law by the issuing Transportation Service Provider for recovery of its charges on shipments subject to the provisions of this Tariff will be filed in accordance with 49 U.S.C. Sec. 14705.

Section 1: Rules and Regulations

Item 1 Application of Tariff

1. This Tariff applies for the transportation of household goods (HHG) shipments between all points in the United States (U.S.) (including the District of Columbia and Alaska but excluding Hawaii) and between points in the U.S. (including District of Columbia and Alaska but excluding Hawaii) and points in Canada transported under the General Services Administration's (GSA's) Centralized Household Goods Traffic Management Program (CHAMP). **This Tariff has no application for shipments that are not transported under GSA's CHAMP program.**

This Tariff is published and made available to all users. It contains two components: 1) the Tariff rules, regulations and governing provisions as published in this electronic document, and 2) a Microsoft Excel Workbook shown in the Baseline Rate Tariff Files, Appendix B (Appendix B), listing the applicable baseline rates and charges applicable for transportation and accessorial (additional) services. References to this Tariff include both components.

2. In submitting a rate offer(s), the Transportation Service Provider (TSP) represents to the Federal Government that services shall be performed in accordance with the rules and regulations of this Tariff, the applicable GSA Household Goods Tender of Service (HTOS) and applicable GSA Request for Offers (RFO), each as amended or superseded. By submitting a rate offer, the TSP also affirms that it possesses the required Operating Authority to transport HHG shipments from, to or between places set forth in the TSPs individual rate offer(s). The GSA's Employee Relocation Resource Center (ERRC) reserves the right to place in temporary non-use or to revoke any TSP's participation in CHAMP, to include all or some accepted rate offers, if found to have filed a rate offer(s) in a location in which they do not possess the appropriate authority.

Item 2 Available for Future Use

Item 3 Prior Rates

For rates in effect prior to the effective date of the implementation of this Tariff, please refer to the GSA Government Rate Tender Number GSA01, supplements and reissues thereto. Items not brought forward, revised or renumbered are hereby cancelled and designated as *Available for Future Use*.

Item 4 Weighing and Weights

1. TSPs transporting shipments shall determine the weight of each shipment transported prior to the assessment of any charges depending on the shipment weight. Except as otherwise provided in this Item, the weight shall be obtained on a scale meeting the definition of a certified scale as provided in 49 CFR 375.103.

2. Weighing Procedure

a. Except as otherwise provided in this Item, the weight of each shipment shall be obtained by determining the net weight – the difference between the tare weight of the vehicle on which the shipment is to be loaded prior to the loading and the gross weight of this same vehicle after the shipment is loaded; or, the difference between the gross weight of the vehicle with the shipment loaded and the tare weight of the same vehicle after the shipment is unloaded.

b. At the time of both weighings the vehicle shall have installed or loaded all pads, dollies, hand trucks, ramps and other equipment required in the transportation of such shipments. Neither the driver nor any other persons shall be on the vehicle at the time of either weighing unless the scale facility where the weighing occurs requires that the driver remain on the vehicle. In those instances, the driver must remain on the vehicle during all weighings of the shipment.

c. The fuel tanks on the vehicle shall be full at the time of each weighing or, in the alternative, no fuel may be added between the two weighings when the tare weighing is the first weighing performed.

d. The trailer of a tractor-trailer vehicle combination may be detached from the tractor and the trailer weighed separately at each weighing providing the length of the scale platform is adequate to accommodate and support the entire trailer at one time.

e. Containerized shipments or shipments weighing 1,000 pounds or less, may be weighed on a certified platform or warehouse scale prior to loading for transportation or subsequent to unloading. The net weight of shipments transported in containers shall be the difference between the tare weight of the container, including all pads, blocking and bracing used or to be used in the transportation of the shipment and the gross weight of the container with the shipments loaded therein (49 CFR 375.509(d)).

f. The Owner (or his/her designated representative) or the Bill of Lading Issuing Officer (BLIO) (or his/her designated representative) shall have the right to observe all weighings of the shipment. If requested by the Owner or the BLIO, the TSP must advise said party of the time and specific location where each weighing will be performed and must give that party a reasonable opportunity to be present to observe the weighing or reweighing. Waiver of the opportunity to observe any weighing or reweighing does not affect any right of the Owner or the Agency under applicable regulations or otherwise.

g. TSPs may substitute manufacturer's weight for automobiles, trucks, vans, motorcycles, campers and boats in lieu of obtaining separate weight tickets on these articles whenever such articles are included within a shipment. Manufacturer's weight will be obtained from either the Branham Automobile Reference Book, the National Automobile Dealers Association (N.A.D.A.) Official Used Car Guide (the "Guide"), or from other appropriate reference sources of manufacturer's weight or the Owner may provide the TSP with copies of manufacturer's documents evidencing the weight of the article included in the shipment, unless otherwise weighed as part of the gross weight of the shipment.

h. Professional Books, Papers and Equipment (PBP&E) shall be weighed separately on a platform or other type scales. Where an adequate scale is unavailable, a constructive weight of 7 pounds per cubic foot will apply for approved PBP&E.

3. Weight Tickets

a. TSP shall obtain a separate weight ticket for each weighing required under this Item except when both weighings are performed on the same scale, one weight ticket may be used to record both weighings. Every weight ticket must be signed by the weigh master performing the weighing and must contain the following information:

- 1) The complete name and location of the scale;
- 2) The date each shipment was weighed;
- 3) Identification of the weight entries (tare, gross, and/or net weights);
- 4) Company or TSP identification of the vehicle;
- 5) Owner's last name as it appears on the Bill of Lading; and
- 6) The TSP's shipment registration or Bill of Lading number.

b. The original weight ticket or tickets relating to the determination of the weight of a shipment must be retained by the TSP as part of the file on the shipment. All invoices presented to collect any shipment charges dependent on the weight transported must be accompanied by true copies of all weight tickets obtained in the determination of the shipment weight. This also applies to weight tickets to support reweighs as identified in Paragraph 4 of this Item.

4. Reweighing of Shipments

a. TSPs, upon request of the Owner or the BLIO, must accomplish requested reweighs prior to the actual commencement of unloading the shipment for delivery or into storage. TSP must inform the Owner and BLIO of the reweigh and allow either party the opportunity to witness the reweigh. Waiver of the opportunity to observe any weighing or reweighing does not affect any right of the Owner or Agency under these regulations or otherwise. Reweighing of the shipment shall be performed on a scale different from the one on which the original weighing occurred.

b. When the initial weighing of a shipment results in a weight which exceeds 18,000 pounds, the TSP MUST reweigh the shipment prior to the actual commencement of unloading the shipment for delivery to residence or into storage. If a reweigh is not performed, the TSP MAY NOT invoice for more than 18,000 pounds.

c. When a shipment is reweighed in accordance with Paragraph 4.a. or b. of this Item, the lower of the two net scale weights shall be used for determining the applicable charges and copies of both sets of weight tickets must be submitted to the Agency responsible for the payment of the charges prior to invoicing for charges.

d. The TSP may bill the Agency for the cost of the reweigh scale charge but no reweigh service charge will apply.

Item 5

Expedited Service, Exclusive Use of Vehicle or Space Reservation for a Portion of Vehicle

When the BLIO or Agency orders a specific vehicle service, i.e., Expedited Service, Exclusive Use of Vehicle or Space Reservation for a Portion of Vehicle, the TSP will provide the service in accordance with the provisions below:

1. Expedited Service:

a. Expedited Service as used herein means tendering delivery of a shipment of less than 5,000 pounds on or before a specified date.

b. Expedited Service is subject to the availability of equipment for a particular service desired. An Agency may obtain expedited service on a shipment of less than 5,000 pounds and transportation charges shall be computed on the basis of 5,000 pounds and Tariff rates applicable to 5,000 pounds. The TSP shall not be required to provide Exclusive Use of Vehicle under this Paragraph. For exclusive use of vehicle, refer to Paragraph 2 of this Item.

Bill of Lading to be marked or stamped:

() EXPEDITED SERVICE ORDERED BY AGENCY
DELIVER ON OR BEFORE _____

c. Except in case of the fault of the Owner, BLIO or Agency, in the event the shipment is not tendered for delivery on or before the delivery date, this Item shall not apply. In such case, the charges for the shipment shall be subject to all other applicable rules and provisions of this Tariff.

2. Exclusive Use of a Vehicle:

a. Subject to the availability of equipment, the BLIO or Agency may order Exclusive Use of a Vehicle of specific cubic capacity, for transportation of a shipment. Transportation charges shall be based on actual weight subject to minimum charges as

follows:

1) If the capacity of vehicle ordered is 1,400 cu.ft. or less, the minimum charge shall be based on 9,800 pounds.

2) If the capacity of vehicle ordered is in excess of 1,400 cu. ft., the minimum charge shall be based on 7 pounds per cubic foot of total vehicle space ordered.

b. If at time of loading such shipment, the TSP does not have available a vehicle of capacity ordered, the TSP may substitute a vehicle or vehicles of an equivalent or greater capacity. Transportation charges and minimum therefore shall be the same as would apply had the TSP furnished a vehicle of the capacity ordered.

Bill of Lading to be marked or stamped:

() EXCLUSIVE USE OF A _____ CU.FT. VEHICLE ORDERED

3. Space Reservation for Portion of Vehicle:

Subject to availability of equipment, the BLIO or Agency may reserve a portion of the capacity of a vehicle by ordering a specific quantity of space and accepting transportation charges based on the actual weight of the shipment subject to the minimum weights as follows:

300 cu.ft. or less	2,100 Pounds
More than 300 cu. ft.	700 Pounds per each 100 cu. ft. or fraction thereof ordered

Bill of Lading to be marked or stamped:

() SPACE RESERVATON _____ CU.FT. ORDERED

Item 6 Consolidation of Shipments

The term "shipment" means property tendered by one Agency, and accepted by the TSP for loading the same day or consecutive days, at one place or origin (except as otherwise provided in Item 28), for one Owner, at one destination (except as otherwise provided in Item 28), and covered by one Bill of Lading. The name of only one Agency and one Owner shall appear on the Bill of Lading, but the Bill of Lading may also specify the name of a party (or more than one party when Item 28 is applicable) to notify of the arrival of the shipment at destination(s). (Refer to Item 17 for computation of charges on a portion of a shipment stored in transit.)

Item 7
GSA Approved Transportation Service Providers (TSPs)

TSPs participating in this Tariff must be approved to participate in GSA's CHAMP. Refer to [Approval Requirements](#) for additional information.

Item 16 Fuel Policy

1. Except as specified below, the amount of the Fuel Surcharge to apply will be calculated (as provided herein) based on the distance between the origin address as identified on the Bill of Lading and the destination address as identified on the Bill of Lading, and if applicable, the distance between the Storage-in-Transit (SIT) facility and the shipment origin as identified on the Bill of Lading (when SIT is performed at origin) or the distance between the SIT facility and the shipment destination address as identified on the Bill of Lading (when SIT is performed at destination) as determined by using the governing distance guide(s) identified in Item 18.

a. The provisions of this Item shall apply on any applicable transportation segment transported by truck between points in the U.S. (including the District of Columbia and Alaska but excluding Hawaii) and between points in the U. S. (including the District of Columbia and Alaska but excluding Hawaii) and Canada (excluding mileage traversed through Canada on shipments traveling between Alaska and the Lower 48 states via all-motor service) (refer to NOTE 1).

b. The amount of the Fuel Surcharge will be based on the mileage specified by ALK Technologies, Inc. However, for shipments originating from or destined to points in Canada, the amount of the Fuel Surcharge will be based on the mileage specified by Rand McNally (refer to Item 18).

c. For shipments originating in or destined to other international points, the amount of the Fuel Surcharge will be calculated as provided in Paragraph 1 of this Item based on the distance between the port of embarkation or debarkation and the origin or destination of the shipment within the U.S.

2. The “national U.S. average” price per gallon of diesel fuel will be determined based on the price stated by the U. S. Department of Energy (DOE), U. S. Energy Information Administration’s (EIA’s) survey of “Retail On-Highway Diesel Prices on the first Monday of each calendar month.” This price will be obtained by calling the DOE Fuel Hot Line at 202-586-6966 or via the DOE website at:

<http://www.eia.gov/petroleum/gasdiesel/>

3. If the first Monday of the calendar month is a Federal holiday, the price will be determined based on the stated DOE price that is available on the next subsequent business day.

4. The applicable Fuel Surcharge will be subject to the adjustment each month as provided in Paragraphs 2 and 3 of this Item and the applicable diesel fuel price obtained from the DOE will apply on the fifteenth (15th) day of the same month. The Fuel Surcharge will apply for shipments loaded beginning on the 15th day of the month and

remain in effect through the 14th day of the following month.

For example, if the reported price of self-service diesel fuel determined on Monday, June 4th is \$3.499 per gallon, the Fuel Surcharge based on that price would apply for shipments loaded as of June 15th through July 14th. Then, if the reported price of diesel fuel on Monday, July 2nd increased to \$3.699 per gallon, the Fuel Surcharge based on the new amount would apply for shipments loaded as of July 15th through August 14th.

5. The amount of the Fuel Surcharge to apply will be calculated based on the per gallon price of diesel fuel, determined as provided herein, that **exceeds \$2.999 per gallon** multiplied by the billable distance (miles) and factored by the miles-per-gallon amount under the following formula:

**Total Billable Miles DIVIDED by 5.0 Miles-Per-Gallon MULTIPLIED BY
An amount equal to the DOE National U.S. Average Diesel Fuel Price LESS \$2.999
EQUALS the amount of the Fuel Surcharge to apply.**

Example:

Miles: 750	$750/5 = 150$ gallons
DOE Fuel: \$4.595	$\$4.595 - 2.999 = 1.59$
Fuel Surcharge:	$150 \times \$1.59 = \238.50

6. To eliminate rounding issues, calculations will be truncated at 2 decimals for the gallons consumed, the difference in the cost of fuel, and the calculation of the charge. No rounding up or down will take place in determining the calculation.

Examples:

Gallons Consumed

1194 miles	$1194/5 = 238.80$	238.80 will be used
------------	-------------------	---------------------

Fuel Cost

DOE price \$4.711	$\$4.711 - \$2.999 = \$1.712$	\$1.71 will be used
-------------------	-------------------------------	---------------------

Calculation

$\$1.71 \times 238.80 = \408.348	\$408.34 will be used
------------------------------------	-----------------------

7. Notwithstanding any other provisions of this Tariff, the Fuel Surcharge as identified in this Item WILL APPLY on SIT shipments when such shipments are delivered to or removed from the SIT location during the period that a Fuel Surcharge was in effect. At the time of billing, the TSP must provide documentation of the distance between the SIT facility and the shipment origin as identified on the Bill of Lading (for SIT at origin) or the distance between the SIT facility and the shipment destination as identified on

the Bill of Lading (for SIT at destination), using the billable mileage as identified in the appropriate distance/mileage guide as identified in Item 18. The TSP must also provide documentation identifying the date of the pickup to SIT or the date of the delivery out of SIT.

NOTE 1: Shipments to/from Alaska are only authorized a Fuel Surcharge for the portion driven in Alaska if they are picked up/delivered over 50 miles from the named Alaskan points. Shipments from/to Fairbanks, Alaska are not authorized additional transportation charges between Anchorage, Alaska and Fairbanks, Alaska and TSPs are not authorized a Fuel Surcharge when the shipment is picked up/delivered 50 miles or less from Fairbanks, Alaska. For these shipments, the waterhaul charge includes transportation between Tacoma, Washington and Fairbanks, Alaska. Shipments that are picked up/delivered over 50 miles from the nearest named Alaskan point are authorized a Fuel Surcharge if applicable.

NOTE 2: If a Privately Owned Vehicle (POV) is transported on the same truck with the household goods, the TSP will not be entitled to charge a separate Fuel Surcharge for the POV. If the POV is not going to be transported with the household goods, then prior to the commencement of loading, the TSP must notify the Agency responsible for payment of the charges that a separate Fuel Surcharge may be required and written approval from the Agency must be obtained. If the POV is transported via a car hauler and the car hauler charges a Fuel Surcharge, that Fuel Surcharge can be passed through to the Agency as a separate line item. The TSP must provide a copy of the original bill to the Agency for reimbursement. If the POV is transported via a separate household goods truck/trailer, the TSP may calculate a Fuel Surcharge using the standard procedures identified in this Item.

NOTE 3: In the event the shipment is transported from origin to port or port to destination on an ocean line through Bill of Lading, the TSP is not entitled to a Fuel Surcharge in accordance with this Item and can only pass through any fuel surcharge amount that may be generated from the ocean line. The TSP must provide a copy of the original bill to the Agency for reimbursement.

Item 17

Storage-in-Transit (SIT)

1. Storage-In-Transit (SIT) of property covered by this Tariff is the holding of the shipment or portion thereof in the facilities or warehouse used for storage by the TSP or its agent pending further transportation and will be effected only at specific request of the BLIO and as shown on the Bill of Lading or under the conditions specified in Paragraph 15 of this Item. The facilities or warehouses used by the TSP or its agent for SIT shall be commercial facilities or warehouses used by the TSP or its agent in the normal course of business for receipt and storage of household goods awaiting further transportation. Unless approved by the BLIO in writing, the use of trailers, vans, public warehouses and self-storage units is prohibited.

2. The TSP must provide SIT at destination unless SIT at origin is specified on the Bill of Lading or authorized in writing by the BLIO. Shipments shall not be placed in SIT at a location in excess of fifty (50) miles from the destination address as identified on the Bill of Lading (or origin address as identified on the Bill of Lading if SIT at origin is specified on the Bill of Lading or approved in writing by the BLIO) and shall be at the TSPs' or agent's nearest available SIT facility or warehouse to the destination address as identified on the Bill of Lading unless otherwise specified on the Bill of Lading or authorized by the BLIO in writing. Placing a shipment in SIT does not constitute a delivery or completion of service. Delivery of the shipment to the final destination and completion of destination services shall be performed after the goods are removed from SIT as part of the through service.

3. All SIT and related charges shall be based on the **destination address** as identified on the Bill of Lading (or origin address as identified on the Bill of Lading if SIT at origin is specified on the Bill of Lading or approved in writing by the BLIO) without regard to the actual storage location.

4. A shipment or portion thereof may be placed in SIT one or more times for an aggregate period not to exceed 150 days. When not removed from SIT at midnight of the 150th day, liability of the TSP shall terminate after such time, the interstate or intrastate character of the shipment or portion thereof shall cease, the warehouse location shall be considered the destination of the property, the warehouseman shall become the agent for the Owner, the property shall then be subject to the rules, regulations and charges of the warehouseman and the Owner shall be responsible for all future storage charges (refer to Item 17-2).

5. When SIT is at origin (as either specified on the Bill of Lading or with written approval of the BLIO), charges may be billed after SIT is effected as follows:

a. Transportation charges between the origin address as identified on the Bill of Lading and warehouse location where SIT is effected (refer to Item 210).

b. Storage charges due at time of billing.

c. Charges for additional services, third party charges and other lawful charges.

6. When SIT is at other than origin, charges must be billed at the time SIT is effected, as follows:

a. Transportation charges between the origin address as identified on the Bill of Lading and the destination as identified on the Bill of Lading, regardless of where the shipment is actually stored.

b. At the time of billing under this Paragraph, storage charges due the TSP may be billed. Storage charges for subsequent days of storage that property remains in SIT may be billed as they become due.

c. Charges for additional services, third party charges and other lawful charges.

7. Delivery of shipments to residence from SIT at origin, en route or at destination will be made on the date requested, if possible. If the TSP is unable to perform delivery on that date, every effort will be made to deliver as soon as possible subject to the following:

a. If shipment is not removed from storage by the 5th working day (excluding Saturday, Sunday and Holidays) after the requested delivery date(s), storage charges will cease to accrue after such date.

b. If shipment is removed from storage prior to the 5th working day after the requested delivery date(s), storage charges will cease to accrue the day the shipment is removed.

8. The transportation charges to apply on a shipment when only a portion of a shipment is stored in transit en route to destination will be the applicable transportation rate based on the total weight of the entire shipment, for total distance between pickup and delivery as identified by the origin and destination addresses specified on the Bill of Lading, plus additional service charges applicable to each portion of the shipment, as applicable. The total charges for any picked-up and/or delivered portions shall apply from the point of origin to destination address as identified on the Bill of Lading regardless of the storage locations.

9. The transportation charges to apply on a portion of a SIT shipment delivered from storage location to destination will be the applicable transportation rate based on the actual weight of such portion, subject to the minimum weights provided in this Tariff and Paragraph 13.

10. On property consigned to SIT where an overflow of property requires a split shipment delivered to the storage location on different dates, the charges for such property shall be as follows:

a. Transportation charges from initial point of pickup to delivery address as identified on the Bill of Lading based on the combined weight of the property stored in transit and computation of transportation charges will be as provided herein.

b. Storage charges in effect on the date of initial pickup will be assessed separately on each portion of shipment stored in transit, except the 1,000 minimum weight will apply to the combined weight of property stored in transit. Storage will be rated separately for each portion added, subject to the provisions of this Item and Item 185.

c. All subsequent charges will be based on the combined weight of the property stored in transit.

11. When the BLIO provides notice to the TSP that the destination has changed from the original Bill of Lading, such change must be recorded on the Bill of Lading (Correction Notice) and a copy provided to the TSP. When the interstate character of the shipment is terminated at the storage location before expiration of the time limit specified in Paragraph 4 of this Item, transportation and other lawful charges shall apply per Paragraph 5 or 6 of this Item, whichever is applicable.

12. When household goods have been placed into SIT at the TSP's or agent's storage location, both the TSP and the warehouseman must have in their possession records showing the following:

- a. An itemized list of the property with the Bill of Lading number noted thereon.
- b. The shipment's point of origin and destination.
- c. The condition of each article when received at and forwarded from the storage location.
- d. The dates when all charges, advances or payments were made or received.
- e. Dates property was delivered to and forwarded from the storage location.

13. During the SIT period, the Owner may withdraw a portion of the property. When the selection of items requires un-stacking and/or re-stacking of the shipment or a portion of the shipment, charges for such handling shall be assessed in accordance with Item 120. Charges for transportation furnished, if any, for the portion selected for delivery shall be assessed on same basis as would apply to that portion as an individual shipment. With reference to the portion of the shipment, which remains at the storage location, the BLIO may elect in writing to terminate the SIT service and place the remaining property in storage with the warehouseman in possession, in which event the storage location will be considered the destination of the property. If the Owner elects to have the remaining portion remain in SIT, the following shall be applicable:

- a. Storage charges shall continue to apply on the weight of remainder of the property.
- b. Charges for transportation furnished, if any, for the delivery of the remainder of the property shall be assessed on the same basis as would apply to that portion as an individual shipment.

14. During the SIT period, the Owner, if approved in writing by the BLIO, may add property to that already in SIT. Charges for such property added shall be as follows:

- a. Transportation charges on the addition apply from the initial point of pickup and warehouse location.
- b. Storage charges as provided in Item 185 will apply on the addition, subject to a 1,000 pound minimum charge.
- c. All subsequent charges including SIT will be based on the total weight of the combined property.

15. If delivery cannot be made at the address specified on the Bill of Lading because of impractical operation as defined in Item 33, or for any reason other than the fault of the TSP, and neither the Owner or BLIO designates another address at which delivery can be made, TSP will place the property in SIT pursuant to the provisions of this Item and the BLIO must be promptly notified accordingly.

16. When property is placed in SIT, the TSPs limitations on liability also apply to the party in possession of the property.

Refer to Item 210 for the Application of SIT Pickup and Delivery Transportation Charges

NOTE 1: When property is placed in SIT in segments on different dates, the transportation rates and additional service charges in effect on the date of the pick-up of the initial shipment will apply to each property segment placed in SIT.

NOTE 2: When property is removed from SIT and extra pick-ups are ordered, the transportation rates and additional service charges in effect on the date of the pick-up of the initial shipment will apply based on the weight of the property removed from SIT or constituting the extra pick-up.

NOTE 3: Each portion of the shipment will be rated at the applicable rate in effect on the date of the pickup of the initial shipment, based on the total weight of the entire shipment.

NOTE 4: Refer to Item 17-2 for provisions governing Notification by TSP When Status of a SIT Shipment Changes.

**Item 17-1
Attempted Delivery to Residence from SIT**

(17-1A) – Attempted Delivery – 50 Miles or Less

(17-1B) – Attempted Delivery – Over 50 Miles

(17-1C) – Attempted Delivery – 1st Day

(17-1D) – Attempted Delivery – 50 Miles or Less – Overtime

(17-1E) – Attempted Delivery – Over 50 Miles – Alaska

TSP compensation for attempted delivery to residence from SIT when failure to deliver is not the fault of the TSP will be as follows:

1. Round Trip distance from the storage facility to residence and return:
 - a. If total mileage is 50 miles or less, Item 210, Pickup or Delivery Transportation Charges on SIT Shipments will apply.
 - b. If total mileage is greater than 50 miles, the transportation rate in the applicable linehaul rate section will apply.
2. **SIT:** A second first day storage charge will apply when the shipment is returned to SIT at the warehouse location and the same SIT control number will apply. Storage

charges will continue to apply at the additional daily rate until shipment is removed or delivered from storage, except as provided in Item 17, Paragraph 7.

3. **Waiting Time:** The provisions of Item 120 WILL APPLY if TSP is required to wait at residence.

NOTE 1: If the shipment remains on the same vehicle until delivered the second first day storage charge as identified in Paragraph 2 of this Item will not apply.

NOTE 2: The provisions of this Item **will not** apply;

a. When the delivery is attempted after 5:00 p.m. or before 8:00 a.m. unless prior approval is received in writing from the BLIO; or

b. When the delivery is attempted between the hours of 8:00 a.m. and 5:00 p.m. but at a time other than that previously requested or agreed to by the Owner; or

c. If delivery is not attempted or Owner is not otherwise contacted, within 90 minutes of the prearranged and agreed to delivery time.

Item 17-2 Notification by TSP When Status of a SIT Shipment Changes

1. The TSP rendering SIT shall, no less than 10 days prior to the expiration of either the specified period of time during which the goods are to be held in such SIT or the maximum period of time provided in Item 17 for SIT, notify the Owner in writing of:

a. The date of conversion to extended storage.

b. The existence of a 9-month period subsequent to the date of conversion to extended storage during which the Owner may file claims against the TSP for loss and/or damage which occurred to the goods in transit or during the SIT period.

c. The fact that at midnight on the date of conversion the liability of the TSP shall terminate and the property shall be subject to the rules, regulations and charges of the warehouseman.

2. The required notification shall be made by facsimile transmission; email; overnight courier; or certified mail, return receipt requested. TSPs holding goods for SIT for a period of time less than 10 days shall, no less than 1 day prior to the expiration of the specified time during which the goods are to be held in such storage, give notification to the Owner of the information specified in Paragraph 1.a., b. and c. of this Item and maintain a record thereof as part of its record of the shipment. Failure or refusal of a TSP to notify the Owner in accordance with the foregoing shall automatically effect a continuance of the TSP liability pursuant to the applicable Tariff provisions with respect to SIT until the end of the day following the date upon which notice is given.

3. When converted to extended storage, it must be done so in the name of the Owner and the Owner must be provided with the contact information of the extended storage location to include the telephone number, mailing address and/or email address. Once converted to extended storage, the Agency may not revive the TSP's liability under the original Bill of Lading or reinstate the original Bill of Lading. If the Agency wishes to continue the funding of the shipment and pay for continued storage and/or for delivery of the shipment, it must enter into a new contract with the warehouseman and/or the delivering entity.
4. For shipments converted to Owner's expense, the TSP will refund any prepayments due to the non performance of the service (i.e. Item 105A (Unpacking), 135B, etc...).
5. The provisions of this Item will apply and take precedence over corresponding provisions of Item 17.

Item 18 Governing Publications

This Tariff is governed by the following publications:

Title of Publication	Issuing Agency or Entity
GSA Approved TSPs and their Respective Approved Scopes of Operations	GSA
All GSA Governing Publications (i.e. HTOS, RFO, etc.)	GSA
National 5-Digit Zip Code and Post Office Directory	United States Postal Service (USPS)
PC*Miler issued by ALK Technologies, Inc. – for Distances between Domestic Points (refer to NOTES)	ALK Technologies, Inc.
Mileage Guide Number 19 – for Distances between Points in the United States and Canada (refer to NOTES)	Rand McNally

The application of this Tariff is governed by the postal zip code of each area or place within the U.S. as assigned by the U.S. Postal Service (USPS) in the National 5-Digit Zip Code and Post Office Directory. The first three (3) digits of the applicable postal zip code define the applicable geographic service areas for rate application purposes and the determination of non-mileage related charges (refer to Appendix B). For Canada,

the Province is used to determine the applicable geographic service areas for determination of non-mileage related charges (refer to Appendix B).

NOTE 1: This Tariff uses mileage distances specified by PC*Miler issued by ALK Technologies, Inc. to rate shipments between points in the U.S. All mileage determinations are based on the applicable 5-digit zip code as obtained from the National 5-Digit Zip Code and Post Office Directory issued by the USPS.

NOTE 2: For shipments with an origin and/or destination within **Canada**, mileage distances specified in Mileage Guide Number 19 issued by Rand McNally will be used in lieu of ALK Technologies, Inc.

NOTE 3: If the USPS changes a 3-digit code area of a postal zip code after the effective date of this Tariff, the old 3-digit code area shall continue to apply for shipment rating purposes until a new corresponding 3-digit code area is incorporated into a revised edition or supplement to this Tariff.

NOTE 4: References to specific publications also refers to the subsequent reissues and/or amendment of/to these publications.

2. An interest penalty will be paid to the TSP for the period commencing on the day after the required payment date as specified in Paragraph 1 of this Item and ending on the date on which payment of the applicable transportation charges are made, except that no interest penalty shall be paid if applicable transportation charges are paid on or before the 15th day after the required payment date.
3. The interest penalty payment will be computed based on the percentage interest rate determined by the Secretary of the Treasury for interest payments pursuant to the Contract Disputes Act of 1978 (41 U.S.C. § 7109(b)).
4. Interest penalty amounts which remain unpaid at the end of any 30 day period shall be added to the initial applicable transportation bill and, thereafter, additional applicable interest penalties shall apply to an amount equal to the transportation bill plus remaining unpaid penalties.

Item 21
Available for Future Use

Item 22

1. When the time involved is 15 minutes or less, the charge shall be for one quarter of an hour.
2. When in excess of 15 minutes but not more than 30 minutes, the charge shall be for one half hour.
3. When in excess of 30 minutes but not more than 45 minutes, the charge shall be for three quarters of an hour.
4. When in excess of 45 minutes, the charge shall be for one hour.

Items 23 – 24
Available for Future Use

Item 25

Except as otherwise specifically provided for in this Tariff, or as amended, shipments transported under the provisions of this Tariff weighing less than 1,000 pounds shall be accepted only at a weight of 1,000 pounds and applicable rates and charges based on weight shall be subject to a 1,000 pound minimum.

NOTE: All shipments subject to weighing provisions as provided in Item 4.

Item 26
Available for Future Use

Item 27

Warehouse Pickup and Delivery Service

1. When a shipment is delivered to or picked up from a warehouse (including third party warehouse and self-storage/mini-warehouse locations), the charges for transportation include only the unloading or loading at door, platform, or other point convenient or accessible to the vehicle.
2. Refer to Item 225 for application of charges to apply when the TSP enters the warehouse (including third party warehouse and self-storage/mini-warehouse locations) at the BLIO's request, for the purpose of removing items stored from or placing items into the warehouse (including third party warehouse and self-storage/mini-warehouse locations) (refer to Item 17 for application of SIT charges).

Item 28

Stopoffs (Extra Pickups and Extra Deliveries) and Diversions

(28A) – Stopoff - Extra Pickup

(28B) – Stopoff - Extra Delivery

(28C) – Diversion Charges

1. Self-storage/mini-warehouse locations. Extra pickup charges will not apply when the only pickup/delivery is from a self-storage or mini-warehouse.
2. **Stopoffs and Diversions.** This Item contains the provisions that apply when a shipment is diverted or when additional stops are made to perform extra pickups or deliveries.
3. **Stopoffs.** At the request of the BLIO, in writing and/or on the Bill of Lading, extra stops or calls will be made at locations necessary to accomplish the extra pickup or extra delivery of portions of the shipment.
 - a. Extra stops or calls are additional pickups made after the first pickup or additional deliveries made prior to the final delivery of the shipment. Each such extra stop or call shall constitute an extra pickup or delivery. An extra stopoff fee will apply for each extra pickup or delivery that is performed, in addition to the transportation and additional service charges provided in Paragraph 3. b. and c. of this Item.
 - b. Transportation charges on shipments with extra pickups or extra deliveries are determined based on the weight of the total shipment, including any additional weight picked-up or delivered at any stopoff(s), and will be rated based on the mileage from the origin address identified on the Bill of Lading to the destination address identified on the Bill of Lading VIA any stopoff point(s).

c. The rates for additional services performed in conjunction with any extra pickup(s) will be based on the additional service rates applicable at the shipment origin address as identified on the Bill of Lading. The rates for additional services performed in conjunction with any extra delivery(s) will be based on the additional service rates applicable at the shipment destination address as identified on the Bill of Lading.

4. **Diversions.** Upon instructions made and confirmed in writing by the BLIO, a shipment will be diverted subject to the following terms and conditions:

a. The term “diversion” as used herein means either:

1) A change in the destination (while en route) to a destination outside of a 30 mile radius of the original destination address as identified on the Bill of Lading; or

2) A change in the route at the request of the BLIO.

b. When the TSP receives an order for diversion, diligent effort will be made to locate the shipment and effect the change desired, but the TSP is not responsible for failure to effect the change ordered unless such failure is due to error or negligence on the part of the TSP.

c. The transportation charges on shipments diverted to a new destination, while the vehicle is en route to or upon arriving at the original destination as identified on the Bill of Lading will be based on the total transportation charge from the shipment origin as identified on the Bill of Lading to the point where the shipment was diverted, plus the transportation charge from the point where the shipment was diverted to the final destination.

d. On shipments diverted to a warehouse for SIT at a location other than the original destination as identified on the Bill of Lading, the warehouse will be considered the destination point and transportation charges to the warehouse will be assessed under the provisions of Paragraph 4. c. of this Item. Charges for storage and further transportation will apply based on the rates and charges named in this Tariff.

e. These provisions are not applicable if diversion instructions are received prior to the movement of the shipment or if the shipment is in SIT at destination. For delivery out of destination SIT, shipments will be rated according to charges for further transportation in Item 210 and subject to the discounts in effect on the Bill of Lading that brought the shipment into SIT.

Refer to Appendix B for Stopoff and Diversion Charges

Items 29 – 31 Available for Future Use

Item 32 Prohibited and Restricted Articles

1. TSP will not accept for shipment property liable to contaminate or otherwise damage equipment or other property, nor will TSP accept for shipment articles which cannot be taken from the premises without damage to the article or the premises. TSP will not accept perishable articles including frozen foods, articles requiring refrigeration or perishable plants except as provided in Paragraphs 2, 3 or 4 of this Item.
2. Frozen food will be accepted for transportation provided;
 - a. The food is contained in a freezer, which at time of loading is at normal deep freeze temperature;
 - b. The shipment is to be transported not more than 150 miles and/or delivery accomplished within twenty-four hours from time of loading;
 - c. No storage of shipment is required; and
 - d. No preliminary or en route servicing by use of dry ice, electricity or other preservative methods is required of the TSP.
3. Perishable plants will be accepted for transportation provided:
 - a. The shipment is to be transported not more than 150 miles and/or delivery accomplished within twenty-four hours from time of loading;
 - b. No storage is required; and
 - c. No preliminary or en route servicing or watering or other preservative methods are required of the TSP.
4. TSP will not be responsible for any perishable article included in a shipment without the TSP's knowledge.
5. TSP WILL NOT ACCEPT for shipment under any circumstances tanks or bottles designed to contain butane or propane, including tanks and containers for gas barbecue grills, torches, tools or appliances. This prohibition also includes tanks or bottles that have been certified as empty.

Item 33 Impractical Operations and Application of Shuttle Service

1. **Impractical Operations.** Nothing in this Tariff shall require the TSP to perform any service at any point or location where, through no fault or neglect of the TSP, the furnishing of such services is impractical because:

a. Conditions of roads, streets, driveways, alleys or approaches thereto would subject operations to unreasonable risk of loss or damage to life or property;

b. Loading or unloading facilities are inadequate;

c. Any force majeure, war, insurrections, riot, civil disturbance, strike, picketing or other labor disturbance would:

1) Subject operations to unreasonable risk of loss or damage to life or property,
or

2) Jeopardize the ability of the TSP to render linehaul or pickup or delivery or any other service from, to or at other points or locations;

d. TSP's hauling contractors, TSP's employees or TSP's agents are precluded, for reasons beyond TSP's control, from entering premises where pickup or delivery is to be made; or

e. Local, state or Federal restrictions, regulation or laws prohibit performance of such services by linehaul equipment.

When service is impractical for reasons stated in this rule and service can be completed through the employment of services of a third party, refer to Item 35.

2. Application of Shuttle Service. Refer to Item 125 for details on shuttle service charges and/or extra labor charges which shall be in addition to all other transportation or accessorial charges.

a. It is the responsibility of the Owner to make the shipment accessible to the TSP or accept delivery from TSP at a point at which the normally assigned linehaul vehicle /equipment may be safely operated.

b. When it is physically impossible for the TSP to perform pickup of a shipment at origin address or to complete delivery of shipment at destination address with normally assigned linehaul vehicle/equipment due to the structure of the building, its inaccessibility by highway, inadequate or unsafe public or private road, overhead obstructions, narrow gates, sharp turns, trees, shrubbery, the deterioration of roadway due to rain, flood, snow, or nature of an article or article's included in the shipment, the TSP shall hold itself available at point of pickup or tender delivery at destination at the nearest point of approach to the desired location where the linehaul vehicle/equipment can be made safely accessible (which may be the TSP's nearest warehouse or storage facility).

c. If the conditions detailed in Paragraph 2.b. of this Item occur and, in the opinion of the TSP, constitute the need for shuttle service, the TSP must submit a request in writing to the BLIO identifying the reason(s) why shuttle service is needed. The request must then be approved in writing by the BLIO prior to the performance of shuttle service.

d. When so approved in writing by the BLIO, the TSP will use or engage smaller equipment than its normal linehaul equipment or provide extra labor for the purpose, if possible, of transferring the shipment between the origin or destination address and the point of transfer (which may be the TSP's nearest warehouse or storage facility) **TO OR FROM the TSP's linehaul equipment.**

e. Charges for the shuttle service to cover labor and the additional vehicle will be as provided in Item 125 and shall be in addition to all other transportation or additional service charges.

f. If shuttle service is approved and performed in accordance with this Item, the TSP must submit the following documentation when billing for shuttle service:

- 1) Copy of the request submitted to the BLIO as to why shuttle service was requested;
- 2) Copy of the written approval from the BLIO approving the use of a shuttle;
- 3) Copy of the document containing the signature of the Owner specifically identifying that shuttle service was performed; and
- 4) Additional documentation verifying that the shuttle did occur (**an additional loading/unloading took place**), which could include:
 - a) Equipment rental receipts, if appropriate; or
 - b) Dispatch logs identifying the equipment and driver that were used to perform the transfer to or from the TSP's linehaul equipment, with dates; or
 - c) Weight tickets from a larger vehicle and not the smaller vehicle; or
 - d) Reweigh ticket if one was requested.

g. In accordance with this Item, shuttle service is defined as a truck to truck transfer. If, however, and in rare and/or unique circumstances only, it is determined that a shipment or portions thereof moved via the use of smaller equipment only and without a transfer to a TSP's linehaul equipment will best meet the needs of the Agency, then the TSP must submit a request in writing to the BLIO identifying the specific reason(s) why the use of smaller equipment without a shuttle component will best meet the needs of the Agency. The request must then be approved in writing by the BLIO prior to the performance of service. When billing for the use of smaller equipment only, the TSP must submit the documentation identified in 33.2.f.1), 2) and 3) as it applies to the use of smaller equipment. The copy of the request submitted to the BLIO (33.2.f.1)), with the signature of the BLIO as acknowledgement and approval (33.2.f.2)) must specifically identify the reason(s) for the use of smaller equipment only and that a shuttle (truck to truck transfer) will not be provided. The copy of the document containing the signature of the Owner (33.2.f.3)) specifically identifying that the service was performed must also be submitted.

h. If the Owner does not accept the shipment at the nearest point of safe approach by the TSP's linehaul vehicle/equipment to the destination address and shuttle service is not approved, the TSP may place the shipment or any part thereof not reasonably possible for delivery in SIT at the nearest commercial facility or warehouse used by the TSP or its agent in the normal course of business for receipt and storage of household goods awaiting further transportation. The liability on the part of the TSP will cease

when the shipment is unloaded into the warehouse and the shipment shall be considered as having been delivered. All accrued charges on the shipment shall be due and payable upon delivery to the warehouse. Any subsequent movement from the warehouse shall constitute a new shipment.

Item 35 Third Party Charges

(35A) – Third Party Service

(35B) – Service Charge – Florida Keys and Points in Canada

1. This Item applies, unless otherwise specified herein, when prior approval has been provided in writing by the BLIO for the TSP to obtain services of others (companies not owned by the TSP or its Agent or their personnel, drivers or crew) for the completion of the move or as may be required by Federal, State or Local law. These services include, but are not limited to third party service charges, parking permits, agricultural inspections and any other services not otherwise identified in this Tariff but requested and approved in writing by the BLIO as necessary for the completion of the move. All such Third Party Charges must be supported by paid receipts and will apply in addition to all other applicable Tariff charges provided that prior approval for services has been authorized in writing by the BLIO.

2. Exception: Prior approval is NOT REQUIRED for the payment of toll (bridge and ferry) charges advanced by the TSP for expenses incurred by the TSP as a result of transiting bridges or ferries that are subject to officially assessed Federal, state, county or local use fees (refer to NOTE 1). All such charges must be supported by paid receipts and will apply in addition to all other applicable Tariff charges.

Refer to Appendix B for Service Charges

NOTE 1: Except as otherwise specifically provided herein, tolls are restricted to bridges or ferries that are subject to officially assessed Federal, state, county or local use fees. Third Party Charges will not apply for highway, turnpike or other related service charges. The charges for these costs must be included in a TSP's transportation charge. Shipments, however, transported from or to Plantation Key, FL or Islamorada, FL and points south and west in the Florida Keys and the Canadian points identified in Appendix B, will be subject to a transportation service charge. This charge shall apply in addition to any applicable bridge and ferry charges, based on the weight at which the linehaul transportation charges are computed. Tolls should be based on the weight of the shipment, subject to the applicable minimum weights.

NOTE 2: When only a portion of a shipment is transported over a bridge or ferry, the charge will be based on the weight of such portion, subject to applicable minimum weights.

NOTE 3: When the origin or destination of the shipment, or a portion thereof, is located at a point accessible only by the use of a ferry, the following provisions apply:

a. The actual ferry charges will be billed by the TSP to the Agency as Third Party Charges as provided herein.

b. When TSP's normal linehaul vehicle/equipment cannot be accommodated by the ferry system, shuttle service will be provided, subject to the charges and provisions named in Item 33, Paragraph 2 and Item 125.

c. Waiting time charges as provided in Item 120 will apply commencing with the arrival of the TSP's vehicle/equipment at the ferry point of embarkation, during the vehicle/equipment crossing and terminating when the vehicle/equipment disembarks from the ferry. The allowable free waiting time provisions provided in Item 120 will not apply during the ferry waiting and transportation period described herein.

NOTE 4: Fuel surcharge is not authorized and shall not be billed or paid on Third Party Services.

NOTE 5: Third Party Charges do not apply to servicing washers and other household articles that require bracing/stabilization (and debracing/destabilization) of moveable parts IN or ON such appliances. The cost of this service is considered to be part of the TSP's transportation charge. Refer to Item 120, Paragraph 6 for an exception to front load washing machines and associated pedestals.

NOTE 6: Crating is not authorized as a Third Party charge (refer to Item 105, Part 3 for exceptions). When crating is accomplished in combination with a Third Party Service (i.e. pool table disassembly), the TSP will be reimbursed for the cost of the crate, not to exceed the authorized cost for same size crate utilizing Item 105. The TSP must provide documentation identifying the crate dimension and separate costing for the crate. TSPs will only be paid according to the charges in Item 105. Crating DOES NOT APPLY to flat screen televisions with screen sizes 60 diagonal inches and below (refer to Item 105).

Items 36 – 39 Available for Future Use

Item 40 Annual General Price Adjustment

1. This Item provides for the mechanism by which GSA may choose to apply a General Price Adjustment (GPA) to the rates and charges contained in this Tariff.

2. Unless otherwise provided, effective November 1st of each calendar year, the rates and charges in this Tariff shall, upon taking other factors into consideration, as appropriate, be subject to a GPA as determined by the specified U. S. Department of Labor indices for a preceding 12 month annual basing period, April to April. GSA will provide notification to TSPs on changes, if any, to the rates and charges contained in Appendix B in conjunction with such adjustment.

3. Applicable U.S. Department of Labor indices are as reported on the Bureau of Labor Statistics (www.bls.gov) website as follows:

a. **CPI Index** information is based on the Consumer Price Index, for All Urban Consumers (CPI-U). Not seasonally adjusted, U.S. City Average, for All Items (less Food and Energy), Series ID cuur0000SA0L1E.

b. **CEU Index** information is based on the average hourly earnings of production workers in the National Employment Index for Hours and Earnings, Not seasonally adjusted, for Transportation and Warehousing, specialized freight trucking, under NAICS Code 4842, Series ID ceu4348420008.

4. The GPA will be based on the increase in the CEU times .41 (representing the labor portion of TSP’s expenses) plus the increase in the CPI times .59 (representing the reciprocal of .41) as specified in Paragraph 3 of this Item.

5. To determine the GPA to apply, if any:

a. First, determine the unadjusted indexes for each index (CPI and CEU) applicable at the beginning and at the end of the specified 12 month basing period (April to April).

b. Second, to determine the percentage increase in the CEU, subtract the ending CEU from the beginning CEU and divide that answer by the beginning CEU and then multiply that answer times .41.

c. Third, to determine the percentage increase in the CPI, subtract the ending CPI from the beginning CPI and divide that answer by the beginning CPI and then multiply that answer times .59.

d. Finally, add the two weighted subtotals together to determine the GPA percentage increase/decrease that may apply. The GPA and background calculations will be rounded to the 9th decimal place. All final costs will be rounded to the second decimal place (i.e. background data is \$1.245343423, will round to \$1.25).

For example (X = index number to be determined as provided herein):

	<u>April</u>	<u>to</u>	<u>April</u>	<u>% Change</u>	<u>times</u>	<u>Factor</u>	=	<u>GPA</u>
CPI Index =	X		X	X		.59		X
CEU Index =	X		X	X		.41		X

6. The GPA, if applicable, will apply for all shipments loading beginning November 1st through the following October 31st, based on the April-to-April annual basing period; for

example, the April 2016 to April 2017 basing period will be applied on November 1, 2017.

7. Notwithstanding any other provisions of this Tariff, the GPA WILL NOT APPLY to the charges advanced for the performance of Third Party Services, Item 35 or Full Value Protection Service, Item 190.

Transit time will be measured in calendar days from the date loading is completed to the date on which the shipment is offered for delivery at the residence, except when the last day of the transit time falls on a Saturday, Sunday or Federal Holiday, then the next Government working day will be considered the last day of transit, subject to Section 8.4.1., Late Delivery Reduction of GSA's applicable HTOS.

If the BLIO requests and TSP agrees to the removal or placement of property from or to such areas not readily accessible, Item 120, Extra Labor charges, will apply for this service. Approval in writing by the BLIO is required prior to the performance of service.

Item 100 Classification of Articles (Commodity Description)

1. The description of property to which rates, charges, rules and regulations apply is that class of property defined by 49 U.S.C. Section 13102 (10) (A) and (B), as amended.

similar property if the transportation of such effects or property is:

- a. Arranged and paid for by the householder, except such term does not include property moving from a factory or store, other than property that the householder has purchased with the intent to use in his or her dwelling and is transported at the request of, and the transportation charges are paid to the carrier, by the householder; or
- b. Arranged and paid for by another party.

SECTION 2: TRANSPORTATION CHARGES AND ADDITIONAL SERVICES

Application of Transportation Charges

Transportation charges in this Tariff include the loading of the shipment at the point of origin, vehicle transportation to the point of destination and the unloading of the shipment at destination **but do not include** the Additional Services identified in Sections 1 and 2 of this Tariff.

The Transportation Charges are shown in three (3) separate Sections contained in the Baseline Rate Tariff Files, Appendix B (Appendix B):

- 1) **Section 3** contains the Linehaul transportation charges applicable between all points in the United States (U.S.) (including the District of Columbia but excluding Alaska and Hawaii) and between all points in the U.S. (including the District of Columbia and Alaska but excluding Hawaii) and Canada.
- 2) Sections 4 and 5 are Reserved and Available for Future Use.
- 3) **Section 6** contains Waterhaul (Ocean) transportation charges applicable between the Port of Tacoma, Washington and any point within a 50 mile radius of the TSP's Port Facility at the named point(s) in Alaska.
- 4) **Section 7** contains transportation charges applicable between the named points in Alaska identified in Section 6 and points in Alaska that are more than a 50 mile radius of the TSP's Port Facility at the named point(s) in Alaska.

Transportation charges apply for shipments of household goods (HHG) consisting entirely of articles embraced in Item 100 and apply based on the actual weight of the shipment plus the weight additives named in Item 130, when applicable, subject to the minimum weights provided in the rules of the Tariff.

Distance-based rates and charges between points in the U.S. are determined by PC*Miler issued by ALK Technologies, Inc. based on the applicable **5-digit postal zip codes** obtained from the National 5-Digit Zip Code and Post Office Directory issued by the U.S. Postal Service (USPS).

Exception: For shipments with an origin and/or destination within Canada, mileage distances will be determined by the Rand McNally Mileage Guide 19, in lieu of ALK Technologies, Inc.

Unless otherwise specifically provided in this Tariff, all rules, rates and charges in effect on the date the shipment is picked up shall apply. In addition, any transportation and storage discounts that apply are based on the date the shipment is picked up,

unless otherwise specifically provided in this Tariff.

NOTE 1: Compensation methodology for all shipments between U.S. (including the District of Columbia but excluding Hawaii) and Alaska will be based on the Ocean Waterhaul table utilizing the port of Tacoma, WA.

NOTE 2: TSPs electing to use the Alcan Highway will be compensated based on compensation methodology identified in NOTE 1, above.

NOTE 3: Refer to Item 227 for the application of shipments to and from Alaska.

Application of Additional Services

Additional Services rates and charges apply for services that are requested by the Agency and/or the Bill of Lading Issuing Officer (BLIO) or are necessary to complete the shipment. Appendix B of this Tariff names the applicable Additional Services rates and charges.

Except as may otherwise be specifically provided for, the Additional Services rates and charges provided for in this Section 2 apply throughout the U.S. (including the District of Columbia and Alaska but excluding Hawaii) and Canada and are in addition to all other rates and charges in this Tariff.

All shipments moving pursuant to GSA's CHAMP under the provisions of this Tariff are deemed to be released at an amount equal to \$6.00 times the weight of the shipment (in pounds) or the declared lump sum value, whichever is greater (refer to Item 190 for provisions to apply).

To simplify the application of charges, this Tariff incorporates many of the commonly applied individual Additional Services charges into a single Origin/Destination Service Charge that applies in addition to the transportation charges. The Service Areas and their associated Services Cost Schedules and other non-mileage based rates and charges for services performed at points in the U.S. are determined based on the applicable **3-digit postal zip code** issued by the USPS. Services performed at points in Canada are based on a single cost schedule for all points in Canada.

If the USPS changes a 3-digit code area of a postal zip code after the effective date of this Tariff, the old 3-digit code area shall be used for rating purposes until a new corresponding 3-digit code area is incorporated into a revised edition or a supplement to this Tariff, including Appendix B.

Packing

1. This Item applies when the TSP furnishes the cartons and performs the packing of some or all of the articles in the shipment. This Item applies on a hundredweight basis for complete (full-pack jobs) shipments. Overtime labor rates will only apply after the TSP has the pre-approval in writing from the BLIO. Regular time and overtime rates apply, based on the time of the day and day of the week that the service is performed. The rates contained in Appendix B include the containers, cartons and packing materials.

2. The Agency will pay for Full Packing and Unpacking Service only when packing is performed and the TSP has provided the applicable service at origin and destination. TSP's rates/discounts off the Tariff will apply to the total of full pack/unpack service.

3. For shipments that are terminated after packing has begun but before shipment departs the origin pickup address:

a. In order to be paid for services rendered, the TSP is required to submit a legible inventory, signed by the Owner or his/her designated representative and approved by the BLIO, of all items packed, disassembled, or prepared for movement. TSP will be compensated for packing/unpacking charges based on all items packed, disassembled or prepared for movement and listed on the inventory by cubic foot of the Items. The cubic feet will be converted to a weight basis using 7 pounds per cubic foot.

b. Unpacking charges (if applicable) will apply based on the destination address as identified on the Bill of Lading.

**Refer to Appendix B for the Applicable Charges
Defined in Parts 1, 2, and 3 of this Item**

Except as otherwise provided, the charges for the services provided in this Item apply based on the location where the service is provided as identified by the origin or

destination address shown on the Bill of Lading and the TSP performs packing, unpacking, debris removal, crating or uncrating service described herein for the shipment.

Part 1: Full Packing and Unpacking Service

Full Packing and Unpacking Service includes all of the cartons, containers and packing service required and provided by the TSP to pack the shipment for transportation (refer to NOTE 7 of this Item).

Full Packing and Unpacking Service rates apply based on the net weight of the shipment and include all cartons and containers (refer to NOTE 9 of this Item) furnished by the TSP. Full Packing and Unpacking Service consists of packing and unpacking of all such cartons and containers and debris removal on the day of delivery. Owner is authorized to retain all cartons and containers, but may elect to surrender all or a portion of cartons and containers to the TSP at delivery for removal. Debris removal of such cartons and containers for up to 30 days after delivery will only be performed when authorized by the BLIO and must be pre-approved in writing (refer to Part 2 of this Item).

Full Packing and Unpacking Service charges do not include crating service (refer to Part 3 of this Item) and will not apply on shipments that the TSP does not pack (e.g. shipments released from extended storage, shipments from SIT where the Bill of Lading has been terminated). In lieu of Full Packing Service, an inspection fee per actual net cwt will apply for shipments that pickup from storage warehouse and are already packed (refer to Appendix B, Item 105J for the charge to apply).

The charges in this Part 1 apply based on the net shipment weight. The weight of motor passenger vehicles (automobiles, pick-up trucks, vans, sport utility vehicles and dune buggies) and any weight additives applicable in Item 130 will be deducted from the shipment weight prior to determining the Full Packing and Unpacking Service charges contained in this Part.

Part 2: Debris Removal Service

a. Debris Removal Charges apply when BLIO requests in writing that the TSP perform debris removal of cartons unpacked by the Owner subsequent to the date of delivery and the service is performed.

b. Debris Removal Service applies in conjunction with Owner-unpacked cartons; a debris removal charge WILL NOT APPLY for the cartons unpacked by the TSP at the time of delivery.

c. Debris removal service performed after delivery must be performed within thirty (30) days of delivery date and be preapproved in writing by the BLIO.

Part 3: Crating Service

a. Crating Service charges apply when the TSP is requested in writing by the BLIO to provide crates (specially constructed for mirrors, paintings, glass or marble tops and

similar fragile articles) based on the gross measurement of the crate (subject to a minimum charge based on four (4) cubic feet). The packing service charge for crates applies per cubic foot and includes the construction and packing of such crates, which remain the property of the Owner. Separate charges apply for the unpacking of crates.

b. When the Owner furnishes crate(s) for TSP to pack items, TSP may only charge labor for the sealing of crate and for uncrating.

c. In the event the TSP does not possess qualified personnel to construct such crates (specially constructed for mirrors, paintings, glass or marble tops and other similar fragile articles), TSP may request written preapproval from the BLIO to obtain Third Party Services to perform the construction of such crates; the request to the BLIO must include an estimate of the anticipated crating charge. If written preapproval from the BLIO is received, TSP may engage a Third Party for the construction of such crate(s) and the charges of the Third Party Provider, as supported by the paid receipt, will apply in lieu of the charges provided in Appendix B. However, the BLIO has the right to negotiate the crating charges, in whole or in part, based on the circumstances of the use of Third Party Services.

NOTE 1: When Item 105J (Reinspection Fee) applies in lieu of Full Packing Service of Item 105A (Full Pack), the appropriate full unpack amount due will be based on the applicable rate named for unpacking service in Appendix B.

NOTE 2: Unless prior written authorization is obtained from the BLIO, all crating shall be done at the origin residence as identified on the Bill of Lading. All uncrating shall be done at destination residence as identified on the Bill of Lading.

NOTE 3: Extra Stops. On shipments picked up or delivered at more than one location, the requested pickup address as identified on the Bill of Lading and the requested delivery address as identified on the Bill of Lading shall be the basis for determination of rates and charges under this Item.

NOTE 4: Overtime Hours. The TSP must have prior, written approval from the BLIO for overtime hours. Container Service charges for packing, unpacking, debris removal and crating/uncrating apply when service is performed during regular service hours, which, for purposes of this Item, are defined between 8:00 a.m. and 5:00 p.m. Monday through Friday (excluding holidays). When service is performed on Saturdays, Sundays or holidays, or between the hours of 5:00 p.m. and 8:00 a.m. Mondays through Fridays, charges for overtime service will apply subject to written preapproval by the BLIO. When performed for the TSP's convenience, overtime shall not apply. Overtime for debris removal or crating service, if applicable, will be paid in accordance with overtime labor rates in Item 120D. Overtime for Full Pack/Unpack Service will be paid under the labor rates in Item 175.

NOTE 5: Determining Weights. TSPs may substitute the manufacturer's weight for automobiles, pick-up trucks, vans, motorcycles, sport utility vehicles, dune buggies and specialty motor vehicles in lieu of obtaining separate weight tickets on these articles

whenever such articles are included within a shipment. Manufacturer's weight will be obtained from either the Branham Automobile Reference Book, the N.A.D.A.'s Official Used Car Guide, or from other appropriate reference sources of manufacturer's weight, or the Owner may provide the TSP with copies of manufacturer's documents evidencing the weight of the article included in a shipment.

NOTE 6: Cartons Furnished by Owner. Container Service rates in this Item apply ONLY for cartons and containers that are furnished by the TSP.

NOTE 7: Rates Not Applicable for Cartons or Containers ONLY. The rates provided DO NOT APPLY for any containers that are supplied but not packed by the TSP.

NOTE 8: Repacking Shipper Cartons and/or Containers Under Full Packing Service. When the TSP, to ensure safe transportation, determines it necessary to unpack and repack cartons and/or containers that have been packed by the Owner, no additional labor, unpacking and/or additional re-packing charges will apply beyond the applicable Full Packing Service rates.

NOTE 9: No additional compensation will be provided for Flat screen television cartons and/or containers. Subject to written authorization by the BLIO, crating charges may apply only to flat screen televisions in excess of a 60 inch diagonal screen size. TSPs may utilize the Owner's previously used shipping container, if available and serviceable, at no cost to the Agency. The Owner shall be responsible for the servicing of such televisions at origin and destination, including all associated connection and disconnection and mounting and unmounting costs. (Flat screen televisions include Plasma, LED, Liquid Crystal Display (LCD) and other types of televisions which are four inches or less in depth and incapable of standing alone without a form of support.)

NOTE 10: Memory Foam, Tempur-Pedic or comparable mattresses, will be shipped utilizing best commercial practices and in accordance with the Manufacturer's instructions. Crating is not authorized for shipping mattresses unless prior written authorization is obtained from the BLIO.

NOTE 11: When awarded a Code C shipment, unless authorized and preapproved in writing by the BLIO, any crating performed is at the discretion of the TSP and at no additional cost to the Agency.

For Bath Tubs, Hot Tubs, Spas, Whirlpool Baths and Jacuzzis, the determination of dimension will be arrived at by measuring the outside of the Item and multiplying the Item's width times the length times the height (in inches) and dividing the result by 1728 (the number of cubic inches in a cubic foot); round the total up to the next whole number to determine the total number of cubic feet.

For example, 74 inches wide times 84.5 inches long times 33 inches high equals 206349 inches divided by 1728 equals 119.41 cubic feet, which rounds up to 120 cubic feet.

NOTE 4: The length of boats, canoes, skiffs, rowboats, kayaks, sailboats or jet skis shall be determined by the straight center line distance between the top center point of the transom and a point perpendicular with the foremost part of the bow. Manufacturer's "length overall" or "center line length" shall apply as the correct length for the purposes of this Item in lieu of physical measurement by TSP.

NOTE 5: On shipments having movement via water, a loading or unloading from TSP's vehicle may be required at the Alaskan port of transportation by the ocean vessel, and a further loading or unloading of TSP's vehicle at Tacoma, WA.

NOTE 6: Unless otherwise specifically provided, the Bulky Article Charge or Weight additive WILL APPLY for any of the articles contained in this Item either whole or in a disassembled or partially disassembled condition. NOTE 7: Bulky Article charges are not authorized for flat screen televisions (refer to Item 105, NOTE 9).

EXCEPTION 1: Unless waived in writing by the BLIO, the provisions of this Item WILL NOT apply when Items are crated by the TSP; the crating charges will apply in lieu of the charges in this Item.

Item 225
Pickup and Delivery Service Applicable to Third Party and Self-Storage Warehouses

(225A) – Pickup/Delivery Self/Mini Storage

(225B) – Pickup/Delivery Self/Mini Storage – Overtime

1. Except as otherwise provided herein, when TSP picks up or delivers a shipment to/from a third party warehouse (including self-storage/mini-warehouse locations), a charge will apply when the TSP is requested by the BLIO to enter the warehouse for the purpose of removing items stored from, or placing items into, the warehouse space rented/controlled by the Owner or the Agency. 3. When Overtime Pickup or Delivery Service is requested and approved in writing by the BLIO, overtime charges will apply when service is performed between 5:00 p.m. and 8:00 a.m. Monday through Friday, or at any time on Saturdays, Sundays and holidays. Overtime charges will not apply when service is performed for TSP's convenience.

Item 227
Alaska Shipments

This Item applies to the transportation of HHG shipments BETWEEN all points in the U.S. (including the District of Columbia but excluding Hawaii) AND the named Alaskan

points including intra-state Alaska.

1. The applicable Transportation Charges and related Sections are identified below and are contained in Appendix B:

- 1) **Section 6** contains Waterhaul (Ocean) transportation charges applicable between the Port of Tacoma, Washington and any point within a 50 mile radius of the TSP's Port Facility at the named point(s) in Alaska.
- 2) **Section 7** contains transportation charges applicable between the named points in Alaska identified in Section 6 and points in Alaska that are more than a 50 mile radius from the TSP's Port Facility at the named point(s) in Alaska.

2. Compensation methodology for all shipments between U.S. (including the District of Columbia but excluding Hawaii) and Alaska will be based on the Ocean Waterhaul table utilizing the port of Tacoma, WA.

3. TSPs electing to use the Alcan Highway will be compensated based on compensation methodology identified in Paragraph 2 of this Item.

4. Shipments to/from Alaska must utilize the point in Section 6 that is nearest to the requested pickup address and/or the requested delivery address as identified on the Bill of Lading.

5. Shipments traveling Intra-state Alaska will be based on linehaul mileage compensation (Section 7) and will not be compensated based on Ocean Waterhaul tables.

6. A TSP may charge as a separate line item a fuel surcharge for bunker charges on shipments moving from/to Alaska. The TSP must provide a copy of the original bill to the Agency for reimbursement.

Item 228 Shorthaul Factor

1. A shorthaul factor will apply for shipments moving 800 miles or less (via all modes combined).

2. Shorthaul distance is computed by determining the mileage between the origin address as identified on the Bill of Lading and destination address as identified on the Bill of Lading and is measured as hundred weight-miles (CWT-M).

3. CWT-M is determined by multiplying total shipment MILES times CWT.

Refer to Appendix B for Shorthaul Charges

NOTE 1: TSP shall not bill for a Shorthaul Factor until final delivery of the shipment.

NOTE 2: Exclusions apply such as changes prior to pickup and diversions.

NOTE 3: In order to determine if a shorthaul factor is applicable, TSP must factor in all transportation segment miles. If a shorthaul factor is paid and a shipment moves greater than 800 miles, the TSP MUST reimburse the Government the total shorthaul amount paid.

NOTE 4: Excludes all Alaska Interstate shipments.

Appendix A: How to use this Tariff

Appendix A How to Use this Tariff

This Appendix A of the General Services Administration's (GSA's) Domestic 500A (GSA500A) Tariff (Tariff) provides instructions and examples for rating shipments transported under GSA's Centralized Household Goods Traffic Management Program (CHAMP) utilizing this Tariff.

The Baseline Rate Tariff Files, Appendix B (Appendix B), of this Tariff names the baseline Linehaul/Transportation and the Additional Services rates and charges which are then subject, as appropriate, to the accepted linehaul/transportation and Storage-in-Transit (SIT) percentage discounts in effect for each Transportation Service Provider (TSP). These discounts can be found in GSA's Transportation Management Services Solution System (TMSS) and are based on the date a shipment was picked up.

NOTE 1: TSPs file discounts as a percentage off of the Tariff; however, when displayed in TMSS they are shown as a percentage of the Tariff. When applying the linehaul/transportation discount and/or the SIT discount, use the percentage of the Tariff. To determine this, take 1.00 minus the filed discount where the discount is expressed as a fraction (for example a 55% discount is 0.55). So if a 55% linehaul/transportation discount was filed by a TSP, you would multiply the charges by 45% ($1.00 - .055 = .45$) to determine the discounted charges. In this Appendix A, the percentage to apply to calculate discounted charges (45% in our example) will be referred to a TSP's Linehaul/Transportation Discount Factor (LDF) or a TSP's SIT Discount Factor (SDF).

NOTE 2: For terms, conditions and application of rates and charges when shipping Privately Owned Vehicles (POVs) and/or Unaccompanied Air Baggage (UAB) (Alaska and Canada only), please refer to the applicable CHAMP Request for Offers (RFO). Refer to TMSS for accepted rate offers and discounts.

Determining Linehaul/Transportation (LH) Charges

The LH charges are the charges associated with loading, transporting and unloading a shipment. The LH charges are distance-based and are applicable between points in the United States (U.S.) (including the District of Columbia and excluding Hawaii) as determined by PC*Miler issued by ALK Technologies, Inc. Mileage determination are based on the applicable **5-digit postal zip codes** obtained from the National 5-Digit Zip Code and Post Office Directory issued by the U.S. Postal Service (USPS).

Exception: For shipments with an origin and/or destination within Canada, mileage distances will be determined by the Rand McNally Mileage Guide 19, in lieu of ALK Technologies, Inc.

Formula: $LH = (BLH + OLF + DLF + SH) \times LDF$

NOTE: Shorthaul (SH) may or may not apply. Refer to the Tariff for additional information.

Example Information			
Origin Zip (Davenport, IA)	52804	Destination Zip (Oklahoma City, OK)	73104
Origin Service Area No.	292	Destination Service Area No.	636
Origin Services Cost Schedule	2	Destination Services Cost Schedule	3
Estimated Weight	8,500	Linehaul/Transportation Discount	55%
Shipment Hundredweight (cwt)	85	Linehaul/Transportation Discount Factor (LDF)	45% (1.00 - .55)
Miles	682	Pickup Date	12/22/16

- 1) Determine the **Base Linehaul (BLH)** charge by going to the “Linehaul” tab of Appendix B to view Section 3 – Linehaul. Using the applicable mileage (based on the origin and destination addresses as identified on the Bill of Lading) and the weight of the shipment, locate the BLH.

In our example, BLH = \$9,362.00

- 2) Determine the **Origin Linehaul Factor (OLF)** and **Destination Linehaul Factor (DLF)** by going to the “City Reference” tab of Appendix B. Using the first three digits of the origin zip (528 in our example) and the destination zip (731 in our example), find the applicable Service Areas (292 for the origin and 636 for the destination in our example).

Next go to the “Geographic Schedule” tab in Appendix B and find the row for the Origin Service Area to identify the applicable OLF (\$1.68 per cwt in our example) and then find the row for the Destination Service Area to identify the applicable DLF (\$0.22 per cwt in our example). Multiply each factor by the shipment cwt.

In our example:

The OLF would be $\$1.68 \text{ times } 85 = \142.80

The DLF would be $\$0.22 \text{ times } 85 = \$ 18.70$

- 3) In accordance with the Tariff, determine if a **Shorthaul (SH)** factor applies to the shipment. If it does, the SH factor is determined by multiplying the shipment cwt times the miles (CWT-M or $85 \times 682 = 57,970$ in our example). Go to the “Additional Rates” tab of Appendix B and find Item 228. Then find the row that corresponds with the CWT-M.

In our example, SH = \$245.71

- 4) Determine the **LH** by adding together the BLH, the OLF, the DLF, and the SH (if applicable) and then multiplying by the TSP’s LDF.

In our example, it would be:

$(\$9,362.00 + \$142.80 + \$18.70 + \$245.71) \times .45 = \$4,396.14$

Determining Linehaul/Transportation (LH) Charges for Shipments From and To Alaska

The LH charges are the charges associated with loading, transporting and unloading a shipment. The LH charges are distance-based and are applicable between points in the United States (U.S.) (including the District of Columbia and excluding Hawaii) as determined by PC*Miler issued by ALK Technologies, Inc. Mileage determinations are based on the applicable **5-digit postal zip codes** obtained from the National 5-Digit Zip Code and Post Office Directory issued by the U.S. Postal Service (USPS).

Exception: For shipments with an origin and/or destination within Canada, mileage distances will be determined by the Rand McNally Mileage Guide 19, in lieu of ALK Technologies, Inc.

The Linehaul charges for shipments from and to Alaska are determined from three separate rate tables contained in Appendix B:

- a) Linehaul/Transportation charges applicable between all points in the U.S (including the District of Columbia but excluding Alaska and Hawaii) and the Port of Tacoma, Washington (refer to Section 3);
- b) Waterhaul (ocean) transportation charges applicable between the Port of Tacoma, Washington and any named point within a 50 mile radius of the TSP's Port Facility at the named point(s) in Alaska (refer to Section 6); and
- c) Linehaul/Transportation charges applicable between the named points in Alaska identified in Section 6 and points in Alaska that are more than a 50 mile radius of the TSP's Port Facility at the named point(s) in Alaska (refer to Section 7).

Formula: $LH = (BLH + WH + OLF + DLF + SH) \times LDF$

NOTE: SH may or may not apply. Refer to the Tariff for additional information.

Example Information			
Origin Zip (Casper, WY)	82601	Destination Zip (Fairbanks, AK)	99705
Origin Service Area No.	880	Destination Service Area No.	22
Origin Services Cost Schedule	2	Destination Services Cost Schedule	4
Estimated Weight	10,000	Linehaul/Transportation Discount	55%
Shipment Hundredweight (cwt)	100	Linehaul/Transportation Discount Factor (LDF)	45% (1.00 - .55)
Miles (from origin/destination to Port of Tacoma, Washington)	1,086	Pickup Date	12/22/16

- 1) Determine the **Base Linehaul (BLH)** charge by going to the “Linehaul” tab of Appendix B to view Section 3 – Linehaul. Using the applicable mileage (based on the origin or destination address as identified on the Bill of Lading and the Port of Tacoma, Washington) and the weight of the shipment, locate the BLH Charge.

In our example, BLH = \$13,006.00

- 2) Determine the **Waterhaul (WH)** charge by going to the “Accessorials” tab of the Appendix B to view Section 6 – AK Waterhaul. Using the applicable named point in Alaska and the weight of the shipment, locate the WH charge.

In our example, WH = \$17,073.00

- 3) Determine the **Origin Linehaul Factor (OLF) and Destination Linehaul Factor (DLF)** by going to the “City Reference” tab of Appendix B. Using the first three digits of the origin zip (826 in our example) and the destination zip (997 in our example), find the applicable Service Areas (880 for the origin and 22 for the destination in our example).

Next go to the “Geographic Schedule” tab in Appendix B and find the row for the Origin Service Area to identify the applicable OLF (\$1.02 per cwt in our example) and then find the row for the Destination Service Area to identify the applicable DLF (\$5.23 per cwt in our example). Multiply each factor by the shipment cwt.

In our example:

The OLF would be \$1.02 times 100 = \$102.00

The DLF would be \$5.23 times 100 = \$523.00

- 4) In accordance with the Tariff, determine if a **Shorthaul (SH)** factor applies to the shipment. In our example, it does not.
- 5) Determine the **LH** by adding together the BLH, the WH, the OLF, the DLF, and the SH (if applicable) and then multiplying by the TSP’s LDF.

In our example, it would be:

$(\$13,006.00 + \$17,073.00 + \$102.00 + \$523.00) \times .45 = \$13,816.80$

Determining Non-Linehaul Rate/Additional Services Rates and Charges

The Service Areas and their associated Services Cost Schedules and other non-mileage based rates and charges for services performed at points in the U.S. (including the District of Columbia and excluding Hawaii) are determined based on the applicable **3-digit postal zip code** (the first 3-digits of the 5-digit Zip Code) issued by the USPS. Use the 3-digit postal zip code to determine the appropriate origin and destination Service Areas and their associated Services Cost Schedules for the rates and charges applicable for the Additional Services performed. Additional Services performed at points in Canada are based on a single cost schedule for all points in Canada.

Example Information				
Origin Zip (Davenport, IA)	52804		Destination Zip (Oklahoma City, OK)	73104
Origin Service Area No.	292		Destination Service Area No.	636
Origin Services Cost Schedule	2		Destination Services Cost Schedule	3
Origin SIT P/D Schedule	3		Linehaul/Transportation Discount	55%
Estimated Weight	8,500		Linehaul/Transportation Discount Factor (LDF)	45% (1.00 - .55)
Shipment Hundredweight (cwt)	85		SIT Discount	47%
Miles	682		SIT Discount Factor (SDF)	53% (1.00 - .47)
Crate	4.30 cubic feet		SIT Days (total)	30
Pickup Date	12/22/16		Destination SIT P/D Schedule	3

1) Determine Origin Service Charge (OSC) and Destination Service Charge (DSC)

a) Determine OSC (135A)

Formula: $135A = (135A \text{ rate} \times \text{shipment cwt}) \times \text{TSP's LDF}$

i. Determine the OSC by first referring to the “City Reference” tab of Appendix B. Using the first three digits of the origin zip as identified on the Bill of Lading (528 in our example), find the applicable Origin Service Area (292 in our example).

ii. Next go to the “Geographic Schedule” tab in Appendix B and find the row for the Origin Service Area to identify the applicable OSC (\$5.02 per cwt in our example).

iii. Using this number, compute the charge by using the 135A rate x the shipment cwt and then multiply that by the TSP’s LDF.

In our example, the OSC would be $(\$5.02 \times 85) \times .45 = \192.02

b) Determine DSC (135B)

Formula: $135B = (135B \text{ rate} \times \text{shipment cwt}) \times \text{TSP's LDF}$

i. Determine the DSC by first referring to the City Reference tab of Appendix B. Using the first three digits of the destination zip as identified on the Bill of Lading (731 in our example), find the applicable Destination Service Area (636 in our example).

ii. Next go to the “Geographic Schedule” tab in Appendix B and find the row for the Destination Service Area to identify the applicable DSC (\$5.01 per cwt in our example).

iii. Using this number, compute the charge by using the 135B rate x the shipment cwt and then multiply that by the TSP’s LDF.

In our example, the DSC would be $(\$5.01 \times 85) \times .45 = \191.63 .

2) Determine Full Packing and Unpacking Service (105A)

Formula: $105A = ((\text{Full Packing rate} \times \text{shipment cwt}) + (\text{Full Unpacking rate} \times \text{shipment cwt})) \times \text{TSP's LDF}$

NOTE: Before determining Full Packing and Unpacking Service charges, use the Origin Service Area (292 in our example) and go to the “Geographic Schedule” tab of Appendix B to identify the appropriate Origin Services Cost Schedule (2 in our example). Then use the Destination Service Area (636 in our example) to identify the appropriate Destination Services Cost Schedule (3 in our example). Then refer to the "Additional Rates" tab of Appendix B.

a) Determine Full Packing (105A)

i. Look up the Full Packing rate for the Origin Services Cost Schedule (2 in our example) and the weight bracket (16,000 lbs and under in our example). (Note - there are 4 service areas so make sure to use the one that applies to the appropriate Origin Services Cost Schedule). In our example, the rate would be \$58.98 per cwt.

ii. Multiply the rate by the shipment cwt

In our example, Full Packing would be $\$58.98 \times 85 = \$5,013.30$.

b) Determine Full Unpacking (105A)

i. Look up the Full Unpacking rate for the Destination Services Cost Schedule (3 in our example) and the weight bracket (Note - there are 4 service areas so make sure to use the one that applies to the appropriate Destination Services Cost Schedule. And there is only one Unpacking rate per Destination Services Cost Schedule regardless of the weight). In our example, the rate would be \$6.78 per cwt.

ii. Multiply the rate by the shipment cwt

In our example, Full Unpacking would be $\$6.78 \times 85 = \576.30 .

c) Determine Full Packing and Unpacking Service Charge (105A)

Add the Full Packing charge and the Full Unpacking Charge together and then multiply the total by the TSP's LDF.

In our example, the Full Packing and Unpacking Service Charge would be $(\$5,013.30 + 576.30) \times .45 = \$2,515.32$

3) Determine Crating/Uncrating Regular Crate Rates (105B and 105E)

Formula: Crating = (Crating rate (per schedule) x cubic foot) x TSP's LDF
Uncrating = (Uncrating rate (per schedule) x cubic foot) x TSP's LDF

NOTE: Crating and uncrating is charged by cubic foot and is subject to four cubic feet minimum. Crating is based on the rate per cubic foot at the Origin Services Cost Schedule and uncrating is based on the Destination Services Cost Schedule.

a) Determine Crating (Regular Crate) (105B)

i. In the "Additional Rates" tab of Appendix B, look up the rate for Item Code 105B for the Origin Service Cost Schedule (2 in our example). (Note - there are 4 service areas so make sure to use the one that applies to the appropriate Origin Services Cost Schedule). In our example, the rate would be \$28.29 per cubic foot.

ii. Multiply the rate by the cubic feet of the crate (4.30 in our example) and then multiply that by the TSP's LDF.

In our example, Crating would be $(\$28.29 \times 4.30) \times .45 = \54.74 .

b) Determine Uncrating (Regular Crate) (105E)

i. In the "Additional Rates" tab of Appendix B, look up the rate for Item Code 105E for the Destination Services Cost Schedule (3 in our example). (Note - there are 4 service areas so make sure you use the one that applies to the appropriate Destination Services Cost Schedule). In our example, the rate would be is \$7.17 per cubic foot.

ii. Multiply the rate by the cubic feet of the crate (4.30 in our example) and then multiply that by the TSP's LDF.

In our example, Uncrating would be $(\$7.17 \times 4.30) \times .45 = \13.87 .

4) Determine SIT CHARGES (185A and 185B)

Formula: 185A = (1st Day SIT Charge x shipment cwt) x TSP's SDF
185B = (Addl SIT Charge x shipment cwt x Days) x TSP's SDF

NOTE: SIT rates are based on the origin or destination address as identified on the Bill of Lading and are NOT determined by the address of the SIT facility.

To calculate SIT charges, refer to the "Geographical Schedule" tab of Appendix B and apply the SIT rates shown based on the Origin or Destination Service Area of the shipment.

a) Determine SIT First Day & Warehouse Charges (185A)

i. In the "Geographic Schedule" Tab of Appendix B, look up the "185A SIT First Day and WHouse (per cwt)" rate applicable to the Origin Service Area (if SIT is at origin) or Destination Service Area (if SIT is at destination) of the shipment (in our example, SIT is at destination so the rate is \$15.80 per cwt)

ii. Multiply the rate by the shipment cwt and then multiply that by the TSP's SDF.

In our example, SIT would be $(\$15.80 \times 85) \times .53 = \711.79

b) Determine SIT Additional Days (185B)

i. In the "Geographic Schedule" Tab of Appendix B, look up the "185B SIT Addl Days (per cwt)" rate applicable to the Origin Service Area (if SIT is at origin) or Destination Service Area (if SIT is at destination) of the shipment (in our example, SIT is at destination so the rate is \$0.67 per cwt)

ii. Multiply the rate by the shipment cwt to get the additional day SIT rate $(\$0.67 \times 85 = 56.95)$.

iii. Take the additional day SIT rate and multiply it by the number of additional days and then multiply that by the TSP's SDF.

In our example, SIT Additional Days would be $(56.95 \times 29) \times .53 = \875.32

5) Determine P/D SIT - 50 Miles or Less (210A)

Formula: $210A = 210A \text{ table charge} \times \text{TSP's SDF}$

NOTE: SIT rates are based on the origin or destination address as identified on the Bill of Lading and are NOT determined by the address of the SIT facility.

To calculate SIT charges, refer to the "Geographical Schedule" tab of Appendix B and apply the SIT rates shown based on the Origin or Destination Service Area of the shipment.

Determine P/D SIT - 50 Miles or Less (210A)

i. In the "Geographical Schedule" of Appendix B, identify the "SIT P/D Schedule" based on the Origin Service Area (if SIT is at origin) or the Destination Service Area (if SIT is at destination) (in our example, SIT is at destination and the SIT P/D Schedule is 3).

ii. In the "Accessorials" tab of Appendix B, look up "Item 210A P/D SIT – 50 Miles or Less" and identify the applicable Services Cost Schedule (3 in our example) and the weight being delivered to locate the rate (\$3,579 in our example).

iii. Multiply that rate by the TSP's SDF.

In our example, P/D SIT–50 Miles or Less would be $\$3,579 \times .53 = \$1,896.87$
