EXECUTIVE SUMMARY: MISSION

The mission of the U.S. General Services Administration (GSA) is to deliver the best value in real estate, acquisition, and technology services to the government and ultimately save money for the American taxpayer. GSA's four strategic goals--savings, efficiency, technology modernization and shared services--align the agency's mission, set direction and guide operational planning.

GSA's two main lines of business are the Federal Acquisition Service and the Public Buildings Service. Various staff offices (including the Office of Civil Rights) support GSA's operations and eleven regional offices serve federal customers nationwide.

GSA is the government landlord, creating a 21st century workplace across government to drive down costs and increase productivity. GSA is also the premier source for equipment, supplies, telecommunications, and integrated information technology to federal agencies. GSA has an annual contract volume of over \$60 billion, manages over 200,000 fleet vehicles, assists tens of thousands of federal travelers through GSA's electronic travel system, and serves as the focal point for data, information, and services offered by the federal government to its citizens. About 11,500 employees provide valuable support to other federal agencies and the general public.

EXECUTIVE SUMMARY: ESSENTIAL ELEMENT A-F

Background:

GSA conducted its fiscal year 2020 (FY20) Equal Employment Opportunity Commission (EEOC) Management Directive 715 (MD-715) Self-Assessment in two iterations. The first iteration was completed prior to the hire of the new Affirmative Employment Program Manager (AEPM). After onboarding in March 2021, the AEPM conducted a second iteration of targeted assessments, focusing on Part G measures with objective criteria in order to validate key compliance measures in the limited time available before the deferred submission deadline for the FY20 Annual Agency EEO Program Status Report (a.k.a. MD-715 Report). The AEPM will conduct a comprehensive validation of all compliance measures as part of the FY21 reporting cycle.

Summary:

GSA showed strength in FY20 in the genuine leadership commitment and engagement of the Acting Administrator, senior staff, and senior executives; the exceptional collaboration between the Office of Human Resources Management (OHRM) and Office of Civil Rights (OCR); and in its systematic progress toward correcting identified deficiencies. Additionally, the agency made significant improvements in its participation rates of both People with Disabilities (PWD) and People with Targeted Disabilities (PWTD), with both rates likely to exceed key Federal Goals for the very first time. Those specific improvements were made after the FY20 data tables were developed and will not be reflected in the MD-715 Report data tables until the FY21 submission.

The agency resolved a major gap in its Affirmative Employment Program (AEP) through its hire of a new AEPM and reestablishment of related program activities. The absence of an AEPM previously resulted in identified deficiencies (e.g., associated with barrier analysis resources and activities), as well as previously unidentified deficiencies (due primarily to the lack of trained personnel to conduct effective assessments and analyses). All AEP-related deficiencies have since been resolved. Rapid progress has been made toward developing and executing AEP goals and significant results have already been achieved. Appropriate, meaningful barrier analysis activities were ongoing at the time this report was drafted, and although no barriers have yet been identified, related plans are progressing and all relevant parties have been engaged and are collaborating well, including senior leaders, OHRM (e.g., Talent Development, Human Capital Analytics, Workforce Relations), and other programs, initiatives, and teams (e.g., Special Emphasis Programs (SEPs), affinity groups, the GSA Equity Team, and staff working on GSA's Diversity, Equity, Inclusion, and Accessibility (DEIA) initiatives).

Not including the AEP-related deficiencies (which were resolved after the end of the fiscal year), GSA identified six other deficiencies as part of its FY20 MD-715 Self-Assessment, including (1) untimely processing of requests for reasonable accommodations; (2) untimely counselling of equal employment opportunity (EEO) complaints; (3) untimely issuing of final agency decisions; (4) GSA strategic plan lacking EEO, diversity, or inclusion principles; (5) GSA organization chart not clearly showing the reporting chain from the EEO Director to the agency head; and (6) the GSA Exit Survey lacking disability-related questions. Relevant program strengths, deficiencies, and accomplishments are listed below according to the Equal Employment Opportunity Commission's (EEOC's) "Six Essential Elements of Model EEO Programs."

Breakdown by the Six Essential Elements of Model EEO Programs:

A. Within the Essential Element "Demonstrated Commitment from Agency Leadership," GSA demonstrated strength through the top-down communications of the Acting Administrator and the direct engagement of a significant portion of its senior leaders in various aspects of EEO, AEP, SEPs, affinity groups, and DEIA-related initiatives. Additionally, other strengths include GSA's dissemination of relevant policies and procedures to all employees and the effectiveness of its efforts to ensure all employees are regularly informed of key information relating to EEO.

B. Within the Essential Element "Integration of EEO into the Agency's Strategic Mission" there were two deficiencies due to the lack of EEO, diversity, and inclusion principles in the agency strategic plan, and because the agency organization chart does not accurately show that the EEO Director reports directly to the agency head. GSA did, however, make significant improvements in several areas of mandatory compliance:

1. GSA hired an AEPM and conducted comprehensive trigger identification analyses and prioritized barrier investigations, with the assistance and engagement of senior managers.
2. Simultaneously, GSA made progress with identifying executive sponsors and managers for affinity groups and SEPs at both the agency level and subcomponents, and in ensuring collaboration between the AEPM, SEP Managers, affinity groups, and Executive Sponsors, in order to support both the AEP and SEPs, as well as GSA's DEIA-related initiatives.
3. GSA also initiated analyses of its demographic data system, Reasonable Accommodations Program data system, and Anti-Harassment Program data.
4. The OHRM Talent Development Division implemented a detailed program for monitoring and encouraging compliance with manager and supervisor training requirements, including mandatory training topics identified in MD-715 Part G.

EXECUTIVE SUMMARY: ESSENTIAL ELEMENT A-F

C. Within the Essential Element "Management and Program Accountability," there were two notable positive outcomes: First, GSA published revised Anti-Harassment policy and procedures, incorporating technical guidance provided by EEOC to address identified deficiencies. Second, strong collaboration between OCR and OHRM was instrumental to both the successful resolution of many previous shortfalls affecting the MD-715 Report and to achieving systemic progress on barrier analysis efforts. The agency had one deficiency in this Essential Element due to untimely processing of requests for reasonable accommodations.

D. GSA made excellent progress in the Essential Element "Proactive Prevention of Discrimination." Most of the progress was made after the end of the fiscal year reporting cycle, resulting in resolution of many previously identified deficiencies:

1. A new AEPM was hired, enabling progress on identification and prioritization of key triggers and initiation of barrier investigations, with excellent collaboration of senior managers and OHRM major factors contributing to many related achievements.

2. GSA also made progress on disability-related surveys, initiating revisions to the GSA Exit Survey to add additional questions on how to improve the recruitment, hiring, inclusion, retention, and advancement of PWD, as well as initiation of re-survey efforts encouraging self-identification of disability status and race/ethnicity. Because the Exit Survey updates are still pending, this issue shows up as a reported deficiency in Part H.

3. In addition to disability-related surveys, significant progress was made in several areas relating to "steps reasonably designed to increase the number of PWD and PWTD employed at the agency," details of which are provided in the accomplishments section. By systematically identifying and correcting and improving employee data, encouraging self-identification, and taking full advantage of PWD classification through requests for reasonable accommodation and records relating to appointments under hiring authorities that take disability into account, GSA is poised to achieve substantial overall increases in both its PWD and PWTD participation rates. PWD participation will increase by more than 15%, from 10.95% to 12.62% and PWTD participation will increase by over 48%, from 2.1% to 3.12%. Due to the ongoing nature of the improvements, which occurred after the production of the FY20 data tables, these increases will not be reflected in the B tables until FY21.

E. Within the Essential Element "Program Efficiency," GSA achieved an 89% increase in the timeliness of its EEO counseling, compared to FY19; however, 1 of 113 FY20 counseling events was not timely, which is technically a reportable deficiency. Untimely final agency decisions (FADs) (3 of 28) was also a technical deficiency; however, there were mitigating circumstances, as they were processed in accordance with the EEOC Office of Federal Operations guidance in response to COVID-19.

F. GSA fulfilled all measures within the Essential Element "Responsiveness and Legal Compliance."

Other Relevant Deficiencies, Potential Issues, and EEOC Requests:

In addition to the deficiencies identified as part of the FY20 MD-715 Self-Assessment process, other deficiencies were identified by the EEOC during its triennial technical assistance review (TAR) of the GSA. In the EEOC's TAR letter, it acknowledged previously identified deficiencies (which had not yet been resolved at the time of the TAR), as well as new issues which collectively include:

1. Failure to conduct barrier analyses

2. Non-compliant Anti-Harassment procedures

3. Shortfalls in the agency's efforts to achieve federal goals for participation of PWD and PWTD (e.g., the lack of regular resurveys of the GSA workforce)

4. The lack of an agency-wide career development program (with emphasis on the lack of GSA use and/or centralized tracking of details and job assignments as developmental tools for PWD and PWTD)

5. The need to provide an update to EEOC on progress in adding disability-related questions on the GSA Exit Survey

After the EEOC TAR, GSA made progress on all the identified issues. The agency hired an AEPM and restarted its ongoing program of barrier analyses; issued compliant revisions to its Anti-Harassment procedures, achieved noteworthy gains in PWD and PWTD participation; developed communications to facilitate an agency-wide resurvey effort; established baseline Career Development Program data and relationships between OCR and OHRM Talent Management to broaden the data to include details, internships, and mentoring; and developed revisions to the GSA Exit Survey to fulfill relevant regulatory requirements.

In addition to the deficiencies identified in its self-assessment and during the EEOC TAR, GSA also identified other potential issues that will require further analysis, including issues relating to alignment of workforce and applicant data with business rules outlined in the EEOC

Instructions to Federal Agencies for EEO MD-715. Lastly, more comprehensive reviews of data from other relevant programs (e.g., Anti-Harassment, Reasonable Accommodations, Alternative Dispute Resolution, career development, EEO-related training) are also warranted, in order to ensure accurate Part G Assessment results.

EXECUTIVE SUMMARY: WORKFORCE ANALYSES

As part of its corrective plans for FY19, GSA developed and implemented a comprehensive Trigger Identification Tool and used it to complete a detailed analysis of all available FY20 workforce and applicant flow data. Twelve particularly notable data table triggers were identified as candidates for FY21 barrier investigations.

With the assistance of senior managers, and in alignment with EEOC guidance from their 2020 TAR, five data table triggers were prioritized for FY21 root cause analysis. Those include:

1. Low participation of PWD and PWTD in all Mission Critical Occupations (MCOs). Within GSA, there has been an upward trend in overall participation of both groups for each of the past five years; however, those trends do not translate into commensurate participation rates in any of GSA's eight MCOs, which together comprise 72% of the workforce.
2. Low participation of PWD and PWTD in high grade levels. PWD and PWTD both have very high participation rates in the grade levels GS4 thru GS10 (GSA has no employees in grade levels GS1 thru GS3); however, at GS13 and above, both groups have lower than expected participation rates.
3. Low participation of Hispanic Males and Hispanic Females in high grade levels, following an identical grade-level profile as PWD and PWTD, above.
4. Low participation of Black Males and Black Females in high grade levels, also following an identical grade-level profile as PWD and PWTD, above. Notably, both Black Males and Black Females have very high participation in every GSA subcomponent and every MCO. Grade level distribution is baselined against actual overall participation within GS4 thru SES (Senior Executive Service).
5. Closely related to Triggers 2 thru 4, above, the root causes of the demographic distribution of the SES and Other Senior Pay categories will also be analyzed, as many groups show lower than expected participation levels.

In addition to those triggers, seven other data table triggers were assessed as warranting closer tracking and potential future root cause analyses:

1. Low selection rates of Black Males and Black Females in Internal Competitive Promotions to most MCOs.
2. Low selection rates of Hispanic Males and Hispanic Females in Internal Competitive Promotions to certain MCOs.
3. Low selection rates of Black Males and Black Females in New Hires to certain MCOs.
4. Low application rates of White Females to New Hires to every MCO.
5. Low participation of all non-White demographic groups in Executive Management positions.
6. Low participation of Black Males, Black Females, and Asian Males in Time-Off Awards.
7. Low participation of Hispanic Males/Hispanic Females, Black Males/Black Females, and PWD/PWTD in high-level Cash Awards. Notably, this condition shows a strong correlation to grade-level distribution, which is the focus of Triggers 2 thru 4, above.

In addition to data table triggers, the agency also assessed other sources of information, including complaints data, affinity group inputs, and organizational climate survey information from the Federal Employee Viewpoint Survey, and is correlating relevant information from those sources with the data table triggers, as part of the planned FY21 barrier investigations.

GSA is evolving its Barrier Analysis Workgroup (BAW) framework, so that it has greater flexibility to adapt to various analysis topics by tailoring individual workgroup memberships using relevant subject matter experts. To that end, the AEPM met with each of the SEPMS and their Executive Sponsors, and in separate forums with Affinity Groups and their Executive Sponsors, as well as with members of other constituent groups. The purpose of those meetings was to provide everyone who might be involved in future barrier analyses with a common understanding of the AEP, MD-715, EEOC Instructions to Federal Agencies for EEO MD-715, barrier analysis procedures, and FY20 findings. Additionally, the AEPM also briefed members of OHRM's Office of Human Capital Strategy's Analytics and Strategy Division and Human Capital Analytics Branch to facilitate refinement of initial data analyses, in order to narrow trigger findings and make future root cause analyses more efficient and effective.

Separate from barrier analyses, GSA also intends to assess its statistics and trends relating to self-identification during the application process (via the SF-181 and SF-256). The goals of that effort are to (1) understand and improve the rates of applicant/employee self-identification and (2) to develop the capability to differentiate between artificially designated demographics (such as when the SF-181 and/or SF-256 forms are left blank) and demographics that are genuinely self-identified by agency employees.

Furthermore, in alignment with the recommendations from the EEOC's 2020 TAR, GSA also initiated development of mechanisms to improve upon self-identified data by using information derived from requests for reasonable accommodations and hiring authorities that take disability into account, in accordance with 29 CFR § 1614.203.d.6.ii. Key components of this effort will include:

1. Establishment of procedures so that data from all three sources can be accurately and consistently compiled, so that PWD/PWTD are neither overlooked nor double or triple-counted.
2. Establishment of relevant time constraints for considering disability status information generated from reasonable accommodations requests and use of relevant hiring authorities.

General Services Administration

For period covering October 1, 2019 to September 30, 2020

EXECUTIVE SUMMARY: WORKFORCE ANALYSES

3. Establishment of relevant event-driven constraints for considering disability status information (e.g., how to address disability status derived from hiring authorities, after Schedule A(u) hires are converted).

4. Establishment of precedence for conflicting information from different sources.

Preliminary analysis of data from reasonable accommodations and disability-related hiring authorities identified 109 employees who were hired under Schedule A(u) in FY20 and/or submitted requests for reasonable accommodations in FY20, but have status within the personnel data system of record (HR Links) as either No Disability (Code 05) or Not Identified (Code 01).

EXECUTIVE SUMMARY: ACCOMPLISHMENTS

1. The agency resolved a major gap in its Affirmative Employment Program (AEP) through its hire of a new AEPM and reestablishment of related program activities. The absence of an AEPM previously resulted in many identified deficiencies (e.g., associated with barrier analysis resources and activities) as well as previously unidentified deficiencies (due primarily to the lack of trained personnel to conduct effective assessments and analyses). All AEP-related deficiencies have since been resolved. Rapid progress has been made toward developing and executing program goals and significant results have already been achieved. Appropriate, meaningful barrier analysis activities were ongoing at the time this report was drafted. Senior manager engagement in the process was furthered by progress made on identifying Executive Sponsors and managers for Affinity Groups and SEPs at both the agency level and subcomponents, and ensuring collaboration between the AEPM, SEPMs, Affinity Groups, and Executive Sponsors, in order to support both the AEP and SEPs, as well as GSA's DEIA-related initiatives.

2. The agency incorporated guidance from the EEOC 2020 TAR to generate and issue compliant revisions to its Anti-Harassment procedures.

3. Career Development data was obtained by OHRM's Talent Development Division and merged with employee demographic data and eligibility data developed by the Analytics and Strategy Division Human Capital Analytics Branch, enabling relevant table data to be generated for the first time in two years. That success resolved a compliance deficiency and improved GSA's ability to perform key barrier analyses directly related to several FY20 triggers. In addition to establishing baseline Career Development Program data, collaborative relationships were established between OCR and OHRM Talent Management to broaden the FY20 data to include details, internships, and mentoring programs, to better support disability program management and improve Part J data.

4. Employee disability statistics were significantly improved, through many independent efforts:

(a) Revision of employee records by the Processing/Personnel Records Management Center. A total of 93 personnel records were found to have retained outdated disability codes, predating the 2017 code revisions by the Office of Personnel Management (OPM). As a result, 93 PWTB (and PWD) were not counted among GSA's relevant statistics between 2018 and 2020. This error was identified and resolved after completion of the FY20 data tables and just prior to the report submission. Given the level of effort required to generate new B Tables with the corrected data, the FY20 tables were not revised; however, preliminary analyses indicate that the code revisions will have significant positive impacts on overall statistics, increasing PWD by 7%, from 10.95% to 11.68%, and PWTB by 34%, from 2.10% to 2.82%. Incorporating those corrections will all but certainly enable GSA to meet the 2% Federal Goal for PWTB participation in the high (GS10 to SES) tier.

(b) Collaboration between OCR and OHRM's Workforce Relations Division yielded similar benefits to PWD data, using requests for reasonable accommodations (RA). Analysis of FY20 non-recurring RA requests showed that 100 out of 138 employees (72.5%) who requested RA have not self-identified as having a disability. As with the coding changes in the previous paragraph, the RA-related disability data was analyzed after the tables were developed, and associated changes have not been incorporated into the FY20 tables. Even without accounting for PWTB (which historically account for roughly 21 percent of GSA PWD), and without considering prior-year RA requests, addition of these 100 PWD will raise the overall PWD rate by 7.4%, to 12.54%, above the 12% Federal Goal for the first time. In combination with the revised disability codes, this may also be sufficient to achieve the 12% Federal Goal for PWD participation in the GS10 to SES tier for the first time, as well.

(c) Further assistance from the Human Capital Analytics Branch produced statistics on FY20 use of hiring authorities that take disability into account. Data from four different hiring authorities was obtained; however, preliminary analyses focused on 59 Schedule A(u) hires, of which 9 employees did not self-identify a disability within the HR Links system of record. Incorporation of those employees into relevant categories will further improve GSA's PWD and PWTB rates. Analysis of hires made under both the Veterans' Recruitment Appointment (VRA) and Veterans Employment Opportunities Act (VEOA) could not be completed prior to report submission, due to the need to identify which specific provisions under those authorities were used by the 50 employees hired under VRA or VEOA in FY20. Analysis of VRA and VEOA will be conducted in FY21.

Collectively, these three data improvements will result in very substantial overall increases in both PWD and PWTB participation rates. PWD participation will increase by more than 15%, from 10.95% to approximately 12.6% and PWTB participation will increase by over 48%, from 2.1% to roughly 3.1%. Due to the ongoing nature of the improvements, which occurred after the production of the FY20 data tables, these increases will not be reflected in the B tables until FY21. Furthermore, expansion of data beyond FY20 and incorporation of VRA and VEOA statistics will also serve to increase PWD and PWTB participation even further.

5. GSA made progress on disability-related surveys, including initiating revisions to the GSA Exit Survey to add questions on how to improve the recruitment, hiring, inclusion, retention, and advancement of PWD, as well as initiation of an FY21 Self-Identification Campaign to encouraging self-identification of disability status and race/ethnicity. The AEP will be monitoring the agency's disability statistics throughout the resurvey process to better understand participation in the Campaign and changes in GSA's disability status data.

6. The OHRM Talent Development Division implemented a detailed program for monitoring and encouraging compliance with Manager and Supervisor training requirements, including mandatory training topics identified in MD-715 Part G.

General Services Administration

For period covering October 1, 2019 to September 30, 2020

EXECUTIVE SUMMARY: ACCOMPLISHMENTS

7. An Alternative Benchmark template was implemented to use Occupational Civilian Labor Force (OCLF) data to produce a Relevant CLF more applicable than the National Civilian Labor Force (NCLF). The template uses the OCLFs of the most populous GSA Occupational Series to account for 99.2% of the workforce and produce an aggregated OCLF based on actual populations within each GSA occupation. In the future, GSA intends to supplement this with State CLF data to provide more relevant baselines for EEO barrier analyses and to support EEO and DEIA-related initiatives undertaken by GSA's Affinity Groups and SEPs.

8. Strong collaboration between the Analytics and Strategy Division Human Capital Analytics Branch and OCR resulted in numerous enhancements to GSA's ability to analyze its workforce data:

- (a) Narrative eligibility information was used to develop eligibility pools for seven different Competitive Development Programs to support development of MD-715 data tables needed for FY21 barrier investigations.
- (b) Subcomponent data elements (GSA Regions, Offices, and Services) were added to enable more refined barrier analyses.
- (c) Outdated disability codes were quickly revised immediately after their discovery.
- (d) Schedule A(u) data was generated and analyzed to build MD-715 tables and assess means of incorporating data on hiring authorities that take disability into account.
- (e) Grade level data was incorporated to enable development of missing MD-715 data elements and improve analysis of MCOs.

EXECUTIVE SUMMARY: PLANNED ACTIVITIES

The Affirmative Employment Program has eight primary plans for FY21 and beyond:

1. Completing a comprehensive assessment of agency compliance with all Part G measures, using and/or establishing objective criteria, where possible, to ensure accurate, consistent measurement and reporting. Where relevant, documenting and correcting (and where necessary, reporting) identified areas of deficiency, including current Part G deficiencies in timeliness of Reasonable Accommodations, counseling, and FADs.
2. Establishing and maintaining effective ongoing programs of barrier investigation by broadening outreach to appropriate subject matter experts and members of relevant constituent groups, providing tailored training to barrier analysis teams, and using effective program management to establish and systematically achieve investigative goals.
3. Improving GSA workforce and applicant data systems to provide complete and accurate data to support MD-715 data tables and Part J requirements in accordance with EEOC *Instructions to Federal Agencies for EEO MD-715*. Secondly, improving the data systems in order to automate production of relevant data tables and/or trigger analysis tools. Lastly, enhancing the systems to enable generation of automated data tables for key subordinate components (e.g., Regions, Offices, and Services) in order to facilitate more focused root cause analyses.
4. Developing and implementing protocols for incorporating data from requests for reasonable accommodations and usage of disability-related hiring authorities into disability status information derived from the self-identification process.
5. Reinvigoration of the Special Program Plan for PWD, with emphasis on both establishing mechanisms for supplying all mandatory data and answering all Part J questions, and developing and implementing relevant plans to improve recruitment, hiring, advancement, and retention of PWD.
6. Establishing a core group of contacts within OHRM to support barrier analyses with direct information and/or to facilitate identification of subject matter experts relevant to the triggers being analyzed.
7. Broadening of contacts within SEPs and Affinity Groups, to support barrier analyses for specific demographic groups.
8. Expansion of career development data, to incorporate programs such as details, internships, mentoring, and other relevant programs and training opportunities.

The agency has conducted an annual self-assessment of Section 717 and Section 501 programs against the essential elements as prescribed by EEO MD-715. If an essential element was not fully compliant with the standards of EEO MD-715, a further evaluation was conducted and, as appropriate, EEO Plans for Attaining the Essential Elements of a Model EEO Program, are included with this Federal Agency Annual EEO Program Status Report.

The agency has also analyzed its work force profiles and conducted barrier analyses aimed at detecting whether any management or personnel policy, procedure or practice is operating to disadvantage any group based on race, national origin, gender or disability. EEO Plans to Eliminate Identified Barriers, as appropriate, are included with this Federal Agency Annual EEO Program Status Report.

I certify that proper documentation of this assessment is in place and is being maintained for EEOC review upon request.

2020	<p>Immediately after hiring the new AEPM, GSA completed a comprehensive analysis of FY20 workforce and applicant data, both to identify any data shortfalls or issues and to identify relevant triggers. Several key shortfalls that could be addressed quickly (i.e., in time to meet the FY20 submission extension deadline) were systematically resolved, with the assistance/support of senior managers. Examples include adding career development data, Quality Step Increase (QSI) data, and grade-level data for Mission Critical Occupations. Corrections for data-related issues that could not be addressed by the FY20 deadline were still initiated and were showing progress at the time this report was drafted. Examples include updating of outdated disability codes of 93 employees and expansion of career development data to include information on a broader range of categories necessary to support Part J (e.g., details, internships, and mentoring programs, etc.).</p> <p>Identified FY20 triggers were briefed to senior leaders, including the Acting Administrator, Chief of Staff, and heads of staff offices, key executive-level councils and groups, as well as senior executives serving as Executive Sponsors for GSA's SEPs and Affinity Groups. Twelve trigger areas were identified as being particularly notable, of which five trigger areas were prioritized by senior leadership to be further analyzed as part of the FY21 barrier analysis program. Relevant subject matter experts (including senior leaders) were identified for each of the five trigger topics and root cause analyses were immediately initiated. Barrier analysis efforts were ongoing at the time this report was drafted.</p>

PART H.6

Brief Description of Program Deficiency:	C.2.b.5. Does the agency process all initial accommodation requests, excluding ongoing interpretative services, within the time frame set forth in its reasonable accommodation procedures? [see MD-715, II(C)] If "no", please provide the percentage of timely-processed requests, excluding ongoing interpretative services, in the comments column.
--	---

The agency does not process all initial accommodation requests within the time frame set forth in its Reasonable Accommodations (RA) procedures. Additionally, it is difficult to calculate accurate Days in Process figures for accommodations requests due to issues with data used to track RA statistics. Lastly, GSA RA statistics are maintained by two separate offices (OHRM and the Office of the Inspector General (OIG)); however, the FY20 report does not include OIG RA data.

Objectives for EEO Plan

Date Initiated	Target Date	Date Modified	Date Completed	Objective Description
05/17/2021	09/30/2021			Timely process all reasonable accommodation requests by (1) identifying all RA data, agency-wide (including both OHRM and OIG), (2) resolving all currently untimely requests, and (3) developing and implementing mechanisms to help prevent future requests from being untimely processed.

PART H.7

Brief Description of Program Deficiency: D.2.b. Does the agency regularly examine the impact of management/personnel policies, procedures, and practices by race, national origin, sex, and disability? [see 29 CFR §1614.102(a)(3)]

During FY19 and FY20, the agency lacked an AEPM and did not regularly examine the impacts of policies, procedures, and practices on EEO groups.

Objectives for EEO Plan

Date Initiated	Target Date	Date Modified	Date Completed	Objective Description
04/15/2020	09/30/2020	09/30/2021	05/15/2021	Regularly examine the impacts of management/personnel policies, procedures, and practices by race, national origin, sex, and disability status.

Responsible Officials

09/30/2021	OHRM to review proposed exit survey questions, incorporate them into the GSA Exit Survey, and disseminate the new survey (e.g., update links, etc.).	Yes		

Accomplishments

Fiscal Year	Accomplishment
2020	In April, 2021, the OCR reviewed the GSA Exit Survey for compliance, developed seven relevant questions to be included in the next survey revision, and provided business rules to govern the survey format, response options, and processing of EEO-related questions. The revised questions were forwarded to OHRM on May 24, 2021.

09/01/2020	Establish Barrier Analysis Working (BAW) Group by identifying key individuals within OHRM and OCR.	Yes	09/30/2021	02/01/2021

Accomplishments

Fiscal Year	Accomplishment
2020	An AEPM was hired on March 13, 2021. The AEPM utilized effective templates and procedures to conduct a comprehensive analysis of GSA MD-715 data from FY16 thru FY2020. Triggers were identified for all available data elements and correlated across employment milestones and according to EEO demographic groups. Twelve major trigger areas were identified as being particularly notable, of which five were prioritized by senior leadership for FY21 barrier investigations.

PART H.10

Brief Description of Program Deficiency:	D.2.d. Does the agency regularly review the following sources of information to find barriers: complaint/grievance data, exit surveys, employee climate surveys, focus groups, affinity groups, union, program evaluations, anti-harassment program, special emphasis programs, and/or external special interest groups? [see MD-715 Instructions, Sec. I]] If “yes”, please identify the data sources in the comments column.
--	--

During FY19 and FY20, the agency lacked an AEPM and did not regularly review relevant sources of information to find barriers (e.g., complaint/grievance data, exit surveys, employee climate surveys, focus groups, affinity groups, union, program evaluations, anti-harassment program, special emphasis programs, etc.).

Accomplishments

Fiscal Year	Accomplishment
2020	The AEPM was able to identify points of contact and review data for many sources of information (beyond the MD-715 tables), including complaints data, exit surveys, Federal Employee Viewpoint Survey (FEVS) climate surveys, Affinity Groups, and SEPs. Focus groups will be utilized to assist in relevant barrier investigations, as appropriate.

Accomplishments

Fiscal Year	Accomplishment
2020	Analysis of the circumstances of the three untimely FADs determined that two were delayed due to COVID-19, when EEOC requested agencies to temporarily postpone issuing of FADs while new COVID-related business rules were developed and implemented. The third FAD was untimely due to miscommunication regarding how business days and holidays factor into the processing calculation when the complainant fails to elect either a hearing or final agency decision by the last day of the 30-day election period. Clarified procedures have been implemented.

**MD-715 – Part J
Special Program Plan
for the Recruitment, Hiring, Advancement, and
Retention of Persons with Disabilities**

To capture agencies' affirmative action plan for persons with disabilities (PWD) and persons with targeted disabilities (PWTD), EEOC regulations (29 C.F.R. § 1614.203(e)) and MD-715 require agencies to describe how their affirmative action plan will improve the recruitment, hiring, advancement, and retention of applicants and employees with disabilities.

Section I: Efforts to Reach Regulatory Goals

EEOC regulations (29 CFR §1614.203(d)(7)) require agencies to establish specific numerical goals for increasing the participation of persons with disabilities and persons with targeted disabilities in the federal government

1. Using the goal of 12% as the benchmark, does your agency have a trigger involving PWD by grade level cluster in the permanent workforce? If “yes”, describe the trigger(s) in the text box.

- | | | |
|-------------------------------|--------|-----|
| a.Cluster GS-1 to GS-10 (PWD) | Answer | No |
| b.Cluster GS-11 to SES (PWD) | Answer | Yes |

The participation rate of PWD in the high cluster is 10.45 percent, which is below the 12 percent goal; however, a comprehensive analysis of workforce data conducted in May 2021 identified 93 PWD (all PWTD) who were not being accounted for, because they retained old disability codes that should have been revised in 2017. Corrections to those coding errors were still underway at the time that this Part J data analysis was completed, so it does not include the total populations of PWD . cursory analysis of the corrections suggest overall PWD participation rates will increase by approximately 6 percent (i.e., from 10.95 percent to 11.65 percent); however, the exact impact on this trigger cannot be ascertained until the corrections are completed. The FY21 submission will include the corrected data.

*For GS employees, please use two clusters: GS-1 to GS-10 and GS-11 to SES, as set forth in 29 C.F.R. § 1614.203(d)(7). For all other pay plans, please use the approximate grade clusters that are above or below GS-11 Step 1 in the Washington, DC metropolitan region.

2. Using the goal of 2% as the benchmark, does your agency have a trigger involving PWTD by grade level cluster in the permanent workforce? If “yes”, describe the trigger(s) in the text box.

- | | | |
|--------------------------------|--------|-----|
| a.Cluster GS-1 to GS-10 (PWTD) | Answer | No |
| b.Cluster GS-11 to SES (PWTD) | Answer | Yes |

The participation rate of PWTD in the high cluster is 1.92 percent, which is below the 2 percent goal; however, a comprehensive analysis of workforce data conducted in May 2021 identified 93 PWTD who were not being accounted for, because they retained old disability codes that should have been revised in 2017. Corrections to those coding errors were still underway at the time that this Part J data analysis was completed, so it does not include the total populations of PWTD. cursory analysis of the corrections suggest overall PWTD participation rates will increase by approximately 34 percent (i.e., from 2.10 percent to 2.82 percent); however, the exact impact on this trigger cannot be ascertained until the corrections are completed. The FY21 submission will include the corrected data. Given that the current (uncorrected) figure is very close to the 2 percent goal, and the significant increase in overall PWTD being achieved through correction of the coding error, it is anticipated that this trigger will not be present after the data is corrected.

3. Describe how the agency has communicated the numerical goals to the hiring managers and/or recruiters.

Managers and supervisors take a complement of required courses when they become new supervisors, and the hiring goals related to disability are in reference material thereafter.

Section II: Model Disability Program

Pursuant to 29 C.F.R. § 1614.203(d)(1), agencies must ensure sufficient staff, training and resources to recruit and hire persons with disabilities and persons with targeted disabilities, administer the reasonable accommodation program and special emphasis program, and oversee any other disability hiring and advancement program the agency has in place.

A. PLAN TO PROVIDE SUFFICIENT & COMPETENT STAFFING FOR THE DISABILITY PROGRAM

1. Has the agency designated sufficient qualified personnel to implement its disability program during the reporting period? If “no”, describe the agency’s plan to improve the staffing for the upcoming year.

Answer No

During Fiscal Year 2020, the agency did not have sufficient qualified personnel designated to implement its disability program. The agency did not have a SEPM for the People with Disabilities Program (PWDP), sufficient qualified personnel to effectively administer and oversee the Reasonable Accommodations Program, or an AEPM to develop and execute the Special Program Plan for the Recruitment, Hiring, Advancement, and Retention of PWD . In March, 2021, GSA hired an AEPM. In April, 2021, GSA identified two Co-SEPMs for the PWDP, along with a senior executive to serve as an Executive Sponsor. Lastly, at the time of the drafting of this Part J, the GSA Workforce Relations Division was in the process of hiring an Employee Relations (ER) Program Manager to provide oversight of the Reasonable Accommodations Program (among other responsibilities). That individual is planned to be in place by July, 2021.

2. Identify all staff responsible for implementing the agency's disability employment program by the office, staff employment status, and responsible official.

Disability Program Task	# of FTE Staff By Employment Status			Responsible Official (Name, Title, Office Email)
	Full Time	Part Time	Collateral Duty	
Processing applications from PWD and PWTD	0	0	1	Taunya Stewart Special Program Placement Coordinator taunya.stewart@gsa.gov
Answering questions from the public about hiring authorities that take disability into account	0	0	1	Taunya Stewart Special Placement Program Coordinator taunya.stewart@gsa.gov
Section 508 Compliance	0	0	23	Evelyn Britton Branch Chief, External Programs evelyn.britton@gsa.gov
Architectural Barriers Act Compliance	0	0	2	Evelyn Britton/Rex Pace EP Branch Chief/Architect evelyn.britton@gsa.gov; rex.pace@gsa.gov
Special Emphasis Program for PWD and PWTD	0	0	4	Taunya Stewart Special Placement Program Coordinator taunya.stewart@gsa.gov
Processing reasonable accommodation requests from applicants and employees	0	0	20	Alexandra Vernacchio Reasonable Accommodation Coordinator alexandra.vernacchio@gsa.gov

3. Has the agency provided disability program staff with sufficient training to carry out their responsibilities during the reporting period? If “yes”, describe the training that disability program staff have received. If “no”, describe the training planned for the upcoming year.

Answer Yes

All staff members with disability-related responsibilities receive annual training within their respective specialties (e.g., Human Resources, Information Technology, Facilities Management, etc.).

B. PLAN TO ENSURE SUFFICIENT FUNDING FOR THE DISABILITY PROGRAM

Has the agency provided sufficient funding and other resources to successfully implement the disability program during the reporting period? If “no”, describe the agency’s plan to ensure all aspects of the disability program have sufficient funding and other resources

Answer Yes

Section III: Plan to Recruit and Hire Individuals with Disabilities

Pursuant to 29 C.F.R. §1614.203(d)(1)(i) and (ii), agencies must establish a plan to increase the recruitment and hiring of individuals with disabilities. The questions below are designed to identify outcomes of the agency's recruitment program plan for PWD and PWTD

A. PLAN TO IDENTIFY JOB APPLICATIONS WITH DISABILITIES

1. Describe the programs and resources the agency uses to identify job applicants with disabilities, including individuals with targeted disabilities.

GSA uses OPM's Shared Register of Candidates with Disabilities, the Workforce Recruitment Program (WRP), and targeted recruitment.

2. Pursuant to 29 C.F.R. §1614.203(a)(3), describe the agency's use of hiring authorities that take disability into account (e.g., Schedule A) to recruit PWD and PWTD for positions in the permanent workforce

A Special Placement Program Coordinator (SPPC) coordinates special placement. When qualified candidates are located, the SPPC works with local Human Resources specialists to effect the hires and coordinate onboarding and, where applicable, to coordinate Reasonable Accommodations.

3. When individuals apply for a position under a hiring authority that takes disability into account (e.g., Schedule A), explain how the agency (1) determines if the individual is eligible for appointment under such authority; and, (2) forwards the individual's application to the relevant hiring officials with an explanation of how and when the individual may be appointed.

Applicants who apply under Schedule A(u) via USAJOBS have eligibility determined via the same evaluation process as other candidates; however, they are placed on a separate certificate for hiring managers' consideration.

4. Has the agency provided training to all hiring managers on the use of hiring authorities that take disability into account (e.g., Schedule A)? If "yes", describe the type(s) of training and frequency. If "no", describe the agency's plan to provide this training.

Answer Yes

Managers and supervisors take a complement of required courses when they become new supervisors, and the hiring goals related to PWD/PWTD are in reference material thereafter, in a course titled "Hiring, Retaining, and Including People with Disabilities," which is required for managers to complete every two years.

B. PLAN TO ESTABLISH CONTACTS WITH DISABILITY EMPLOYMENT ORGANIZATIONS

Describe the agency's efforts to establish and maintain contacts with organizations that assist PWD, including PWTD, in securing and maintaining employment.

GSA maintains a PWDP and various related Affinity Groups, as well as an SES champion to serve as an advocate at the senior level to act as catalyst for change and to provide strategic direction and leverage. GSA intends to continue to engage executive champions by implementing a diversity and inclusion council. The council will focus on GSA's internal policies and practices, talent recruitment and development, education and training, identifying barriers, building partnerships with rehab agencies, measuring the effectiveness of the diversity initiative process, and ensuring transparency of its operations. Externally, GSA engages with other agencies on PWD-related issues (e.g. use of disability-related hiring authorities, coding, self-identification, use of the Workforce Recruitment Program, etc.).

C. PROGRESSION TOWARDS GOALS (RECRUITMENT AND HIRING)

1. Using the goals of 12% for PWD and 2% for PWTD as the benchmarks, do triggers exist for PWD and/or PWTD among the new hires in the permanent workforce? If "yes", please describe the triggers below.

- a. New Hires for Permanent Workforce (PWD) Answer Yes
- b. New Hires for Permanent Workforce (PWTD) Answer Yes

PWD and PWTD participation rates among New Hires to the Permanent Workforce are 10.17 percent and 1.19 percent, respectively.

2. Using the qualified applicant pool as the benchmark, do triggers exist for PWD and/or PWTD among the new hires for any of the mission-critical occupations (MCO)? If "yes", please describe the triggers below. Select "n/a" if the applicant data is not available for your agency, and describe your plan to provide the data in the text box.

- a. New Hires for MCO (PWD) Answer Yes
- b. New Hires for MCO (PWTD) Answer Yes

Series 0301 had Qualification rates of 6.8 and 2.4 percent for PWD and PWTD, respectively, but zero External Selections of either PWD or PWTD. Series 0343 had a Qualification rate of 1.7 percent for PWTD, but zero Selections. Series 0905 had a Qualification rate of 5 percent for PWTD, but zero Selections. Series 1101 had Qualification rates of 11.5 and 6.3 percent for PWD and PWTD, respectively, but Selection rates were 8 percent and 0 percent for PWD and PWTD, respectively. Series 1102 had Qualification rates of 11 percent and 5.4 percent for PWD and PWTD, respectively, but Selection rates were 9 percent and 0 percent for PWD and PWTD, respectively. Series 1170 had Qualification rates of 10 and 3.4 percent for PWD and PWTD, respectively, but zero External Selections. Series 2210 had Qualification rates of 7.3 and 4.5 percent for PWD and PWTD, respectively, but zero External Selections. Series 1176 was the only MCO without a trigger among New Hires. The highest priority barrier analysis for FY 2020 is low participation of PWD and PWTD among all MCOs.

3. Using the relevant applicant pool as the benchmark, do triggers exist for PWD and/or PWTD among the qualified internal applicants for any of the mission-critical occupations (MCO)? If “yes”, please describe the triggers below. Select “n/a” if the applicant data is not available for your agency, and describe your plan to provide the data in the text box.

- a. Qualified Applicants for MCO (PWD) Answer Yes
- b. Qualified Applicants for MCO (PWTD) Answer Yes

Series 0301 had a Relevant Applicant Pool (RAP) of 14.7 percent for PWD but Qualified Internal Applicants were 11 percent PWD. Series 0343 had a RAP of 14.1 percent and 3.2 percent for PWD and PWTD, respectively, but Qualified Internal Applicants were 11.8 percent and 3.1 percent PWD and PWTD, respectively. Series 1101 had a RAP of 12 percent for PWD, but Qualified Internal Applicants were 9.6 percent PWD. Series 1102 had a RAP of 12.4 percent and 2.4 percent for PWD and PWTD, respectively, but Qualified Internal Applicants were 6.1 percent and 2.1 percent PWD and PWTD, respectively. Series 1170 had a RAP of 17.1 percent for PWD, but Qualified Internal Applicants were 12.5 percent PWD. Series 2210 had a RAP of 11.4 percent and 2.2 percent for PWD and PWTD, respectively, but Qualified Internal Applicants were 10 percent and 0 percent PWD and PWTD, respectively.

4. Using the qualified applicant pool as the benchmark, do triggers exist for PWD and/or PWTD among employees promoted to any of the mission-critical occupations (MCO)? If “yes”, please describe the triggers below. Select “n/a” if the applicant data is not available for your agency, and describe your plan to provide the data in the text box.

- a. Promotions for MCO (PWD) Answer Yes
- b. Promotions for MCO (PWTD) Answer Yes

Series 0301 had a Qualification rate of 7.6 percent for PWTD, but Internal Selections were 6.7 percent for PWTD. Series 0343 had a Qualification rate of 12.5 percent for PWD and 3.0 for PWTD, but Internal Selections were 8 percent for PWD and 0 percent for PWTD. Series 1101 had a Qualification rate of 9.6 percent for PWD and 7.6 for PWTD, but Internal Selections were 5.4 percent for PWD and 2.7 percent for PWTD. Series 1102 had a Qualification rate of 6.1 percent for PWD and 2.1 for PWTD, but Internal Selections were 3.9 percent for PWD and 0 percent for PWTD. Series 1170 had a Qualification rate of 18.3 percent for PWD and 8.5 for PWTD, but Internal Selections were 14.3 percent for PWD and 7.1 percent for PWTD. Series 2210 had a Qualification rate of 10 percent for PWD, but zero PWD among Internal Selections.

Section IV: Plan to Ensure Advancement Opportunities for Employees with Disabilities

Pursuant to 29 C.F.R. §1614.203(d)(1)(iii), agencies are required to provide sufficient advancement opportunities for employees with disabilities. Such activities might include specialized training and mentoring programs, career development opportunities, awards programs, promotions, and similar programs that address advancement. In this section, agencies should identify, and provide data on programs designed to ensure advancement opportunities for employees with disabilities.

A. ADVANCEMENT PROGRAM PLAN

Describe the agency’s plan to ensure PWD, including PWTD, have sufficient opportunities for advancement.

GSA provides opportunities for career development through seven Competitive Development Programs (CDPs), including a New Leader Program, Executive Potential Program, Executive Leadership Program, Partnership for Public Service – Leadership Excellence in Acquisition Program, Partnership for Public Service – Excellence in Government Fellows Program, Harvard Kennedy School: Senior Executive Fellows Program, and Federal Executive Institute (FEI) Leadership for a Democratic Society. The programs have different eligibility criteria, focus areas, and develop different competencies, up to and including Senior Executive Service candidate development. In FY20, analysis was limited to CDP eligibility, nominations/applications, and separations. In FY21, GSA plans to expand capture of data to include details, mentoring, internships, and other non-CDP programs, to facilitate analyses of usage and potential barriers. Preliminary analysis showed lower than expected participation and anecdotal information suggests that opportunities are mostly offered as nominations from supervisors or managers, rather than through unsolicited applications from employees. This suggests that there are opportunities for multiple approaches to increasing both nominations, through education of supervisors and managers, and applications, through improved outreach and communications. Additionally, it is planned that future analyses will consider subcomponent data, to identify participation characteristics of decentralized opportunities. That approach will be more difficult, as program statistics may not be readily available and/or may be more difficult to compile; however, that data will likely be more expansive than the relatively limited set of nominations and selections to the CDPs, and provide information that is more apt to guide corrective measures to improve advancement of PWD.

B. CAREER DEVELOPMENT OPPORTUNITIES

1. Please describe the career development opportunities that the agency provides to its employees.

GSA provides opportunities for career development through many different programs. The GSA Learning and Development Council develops annual slates of Competitive Development Programs (CDPs), of which the Fiscal Year 2020 slate included seven agency-level CDPs: (1) New Leader Program, (2) Executive Potential Program, (3) Executive Leadership Program, (4) Partnership for Public Service – Leadership Excellence in Acquisition Program, (5) Partnership for Public Service – Excellence in Government Fellows Program, (6) Harvard Kennedy School Senior Executive Fellows Program, and (7) Federal Executive Institute (FEI) Leadership for a Democratic Society. The programs have different eligibility criteria, focus areas, and develop different competencies, up to and including Senior Executive Service candidate development. In addition to the agency-level CDPs, GSA also maintains the following other offerings: (1) GSA Start Program; (2) Targeted Leadership Development Program; (3) Mentoring Program; (4) Coaching services; and (5) Enterprise Emerging Leaders Program. In October, 2021, GSA is also launching a Mid-Career Leadership Development (Pilot) Program. GSA's Mentoring Program establishes professional relationships in which an experienced person (the mentor) supports and encourages employees to develop specific skills and knowledge that will maximize their business potential and improve their performance. The program includes a Resource Library, virtual training through GSA's Online University, self-assessments, tips, templates, and videos. In addition to managing the agency-level program, the Mentoring Program also helps subordinate organizations to create Mentoring Pilots, connects employees with Regional Mentoring Programs, and provides Mentoring Essentials training for new employees. Additionally, GSA's Phased Retirement Guidelines and Procedures (HRM 9900.1) contains a requirement for a phased retiree to spend at least 20 percent of his/her working hours mentoring. GSA Coaching is a confidential, voluntary service available to all employees within GSA, intended to maximize potential and enhance personal and professional effectiveness. GSA offers three primary types of coaching, including: (1) Individual Coaching - Traditional coaching designed to occur over multiple sessions, set up through a standard coaching agreement; (2) Situational Coaching - A targeted approach (usually 1 or 2 sessions) available to senior leaders or executives when coaching related to a specific situation or decision is desired; and (3) Group (or Team) Coaching - When two or more people are working together to solve a problem or deal with related issues or concerns. Group coaching is different than facilitation and is often related to interpersonal or team dynamics. GSA Coaching is a service, rather than a program, and requires neither competition nor supervisory approval to participate. During FY20, a total of 87 GSA employees (GS7 thru SES) utilized centrally-managed coaching services through one of three available avenues for coaching: (1) internal/trained GSA coaches; (2) the Federal Coach Network database; or (3) coaching services that are offered (for GS14 thru SES) by the Treasury Executive Institute (TEI). Additional coaching also takes place, beyond the centrally-coordinated services, through subcomponent efforts. Use statistics for subcomponent services is not reported centrally or included in the data. The Enterprise Emerging Leaders Program (EELP) is a two-year development program that provides entry level talent (recently hired GS7-GS9 employees on a career ladder promotion track to GS12) with rotational opportunities, core technical and professional leadership training, and mentoring to ensure that new hires gain the knowledge, skills, and abilities required to successfully perform in mission critical positions across the agency. The program gives employees a strong foundation for their careers, making them well-rounded employees, capable of serving the agency in a wide range of offices. The purpose of the Enterprise Emerging Leaders Program is to provide the necessary training, experiences, and support to selected entry level employees so that, upon completion of the program, they are prepared for permanent placement in a GSA office. The GSA Start Program is an enterprise-wide developmental training curriculum for new, entry-level employees in grades GS7 through GS11 and in various occupational series. The virtual, one-year training provides new employees with professional development training focused on core competencies and offers additional learning opportunities. The

GSA Start Program supports new employees in building foundational GSA business knowledge, essential professional skills, and developing relationships during the training and beyond. Core competencies include Communication Skills; Conflict Management; Continual Learning; Influencing/Negotiating; Integrity/Honesty; Interpersonal Skills; Problem Solving; Public Service Motivation; and Team Building. At the individual level, every GSA employee is afforded the opportunity to complete Individual Development Plans (IDPs), which are guides to help employees reach career goals within the context of organizational objectives. IDPs are developmental "action" plans to move employees from where they are to where they want to be, and to provide the systematic steps to improve in areas that are not strengths and to build on strengths as individuals improve job performance and pursue career goals. IDPs serve many potential objectives, including: Learning new skills and competencies to improve current job performance; Maximizing current performance in support of organizational requirements; Assisting employees in reaching career development goals; Increasing interest, challenge, and satisfaction in current positions; and/or obtaining knowledge, skills, and abilities necessary for a change in grade level (i.e., promotion), Occupational Series, or fields. IDPs require supervisor approval and may require higher-level authorization. While not a competitive program or directly associated with career development, GSA also maintains a comprehensive Leadership Development Framework derived from OPM Executive Core Qualifications (ECQs) that allows employees to focus on leadership competencies throughout the various stages of their careers, in preparation for future opportunities. That Framework identifies 28 leadership competencies, divided into five ECQs: (1) Leading Change; (2) Leading People; (3) Results Driven; (4) Business Acumen; and (5) Building Coalitions, along with the Fundamental Competencies of Integrity/Honesty; Interpersonal Skills; Written Communication; Oral Communication; Continual Learning; and Public Service Motivation. Furthermore, the Framework is divided into five major roles, each aligned to particular grade levels, including: (1) Leading Self – Team Member (GS13 and below); (2) Leading Teams – Supervisor (GS13-GS14); Leading Organizations – Manager (GS14-GS15); Leading Strategy – Executive (SES); and (5) Fundamental Programs (all GSA employees).

2. In the table below, please provide the data for career development opportunities that require competition and/or supervisory recommendation/approval to participate.

Career Development Opportunities	Total Participants		PWD		PWTD	
	Applicants (#)	Selectees (#)	Applicants (#)	Selectees (#)	Applicants (#)	Selectees (#)
Other Career Development Programs	161	71	13	2	1	0
Training Programs	0	0	0	0	0	0
Internship Programs	0	0	0	0	0	0
Fellowship Programs	0	0	0	0	0	0
Mentoring Programs	0	0	0	0	0	0
Coaching Programs	0	0	0	0	0	0
Detail Programs	0	0	0	0	0	0

3. Do triggers exist for PWD among the applicants and/or selectees for any of the career development programs? (The appropriate benchmarks are the relevant applicant pool for the applicants and the applicant pool for selectees.) If “yes”, describe the trigger(s) in the text box. Select “n/a” if the applicant data is not available for your agency, and describe your plan to provide the data in the text box.

- a. Applicants (PWD) Answer Yes
 b. Selections (PWD) Answer Yes

Looking collectively at the seven CDPs, Non-PWD participated in overall Applications at a rate of 0.53 percent, compared to a rate of 0.45 percent for PWD. Benchmarking against the Applicant pools, Non-PWD participation in Selections was 44 percent, compared to 15 percent for PWD.

4. Do triggers exist for PWTD among the applicants and/or selectees for any of the career development programs? (The appropriate benchmarks are the relevant applicant pool for the applicants and the applicant pool for selectees.) If “yes”, describe the trigger(s) in the text box. Select “n/a” if the applicant data is not available for your agency, and describe your plan to provide the data in the text box.

- a. Applicants (PWTD) Answer Yes
 b. Selections (PWTD) Answer Yes

Looking collectively at the seven CDPs, Non-PWD participated in overall Applications at a rate of 0.53 percent, compared to a rate of 0.21 percent for PWTD. Benchmarking against the Applicant pools, Non-PWD participation in Selections was 44 percent, compared to zero (0) Selections of PWTD.

C. AWARDS

1. Using the inclusion rate as the benchmark, does your agency have a trigger involving PWD and/or PWTD for any level of the time-off awards, bonuses, or other incentives? If “yes”, please describe the trigger(s) in the text box.

- a. Awards, Bonuses, & Incentives (PWD) Answer Yes
 b. Awards, Bonuses, & Incentives (PWTD) Answer Yes

Within Time-Off Awards, there are triggers for PWD in all award-levels, except for awards of between 31 to 40 hours. For PWTD, there are triggers in the three lowest award levels (1-10 hours, 11-20 hours, and 21-30 hours), but not for awards of 31 hours or more. For Time-Off Awards between 1-10 hours, the Inclusion Rate (IR) for People Without Disabilities (IR PWD) is 6.9 percent, compared to 6.2 percent for PWD and 6.1 percent for PWTD. For Time-Off Awards of 11-20 hours, the IR PWD is 2.8 percent, compared to 2.5 percent for PWD and 1.7 percent for PWTD. For Time-Off Awards of 21-30 hours, the IR PWD is 0.5 percent, compared to 0.2 percent for PWD and 0 percent for PWTD. For Time-Off Awards over 40 hours, the IR PWD is 5 percent, compared to 4.3 for PWD.

2. Using the inclusion rate as the benchmark, does your agency have a trigger involving PWD and/or PWTD for quality step increases or performance-based pay increases? If “yes”, please describe the trigger(s) in the text box.

- a. Pay Increases (PWD) Answer Yes
 b. Pay Increases (PWTD) Answer Yes

The IR PWD was 1.05 percent; however, the Inclusion Rates for PWD and PWTD were 0.71 percent and 0.82 percent, respectively.

3. If the agency has other types of employee recognition programs, are PWD and/or PWTD recognized disproportionately less than employees without disabilities? (The appropriate benchmark is the inclusion rate.) If “yes”, describe the employee recognition program and relevant data in the text box.

- a. Other Types of Recognition (PWD) Answer N/A
- b. Other Types of Recognition (PWTD) Answer N/A

Data on other types of employee recognition programs was not available at the time that the FY20 EEO Program Status Report was drafted.

D. PROMOTIONS

1. Does your agency have a trigger involving PWD among the qualified internal applicants and/or selectees for promotions to the senior grade levels? (The appropriate benchmarks are the relevant applicant pool for qualified internal applicants and the qualified applicant pool for selectees.) For non-GS pay plans, please use the approximate senior grade levels. If “yes”, describe the trigger(s) in the text box. Select “n/a” if the applicant data is not available for your agency, and describe your plan to provide the data in the text box.

- a. SES
 - i. Qualified Internal Applicants (PWD) Answer Yes
 - ii. Internal Selections (PWD) Answer No
- b. Grade GS-15
 - i. Qualified Internal Applicants (PWD) Answer No
 - ii. Internal Selections (PWD) Answer No
- c. Grade GS-14
 - i. Qualified Internal Applicants (PWD) Answer Yes
 - ii. Internal Selections (PWD) Answer Yes
- d. Grade GS-13
 - i. Qualified Internal Applicants (PWD) Answer Yes
 - ii. Internal Selections (PWD) Answer Yes

For SES, the Relevant Applicant Pool was 5.9 percent for PWD; however, no Internal Applications, Qualifications, or Selections included PWD. For GS14, the Relevant Applicant Pool was 8.8 percent for PWD; however, the Qualification rate for PWD was 6.7 percent and the Selection rate was 3.9 percent. For GS13, the Relevant Applicant Pool was 14.6 percent for PWD; however, the Qualification rate for PWD was 12.1 percent and the Selection rate was 6.4 percent.

2. Does your agency have a trigger involving PWTD among the qualified internal applicants and/or selectees for promotions to the senior grade levels? (The appropriate benchmarks are the relevant applicant pool for qualified internal applicants and the qualified applicant pool for selectees.) For non-GS pay plans, please use the approximate senior grade levels. If “yes”, describe the trigger(s) in the text box. Select “n/a” if the applicant data is not available for your agency, and describe your plan to provide the data in the text box.

- a. SES
 - i. Qualified Internal Applicants (PWTD) Answer Yes
 - ii. Internal Selections (PWTD) Answer No
- b. Grade GS-15
 - i. Qualified Internal Applicants (PWTD) Answer No
 - ii. Internal Selections (PWTD) Answer No
- c. Grade GS-14
 - i. Qualified Internal Applicants (PWTD) Answer No
 - ii. Internal Selections (PWTD) Answer Yes
- d. Grade GS-13
 - i. Qualified Internal Applicants (PWTD) Answer No
 - ii. Internal Selections (PWTD) Answer Yes

For SES, the Relevant Applicant Pool was 1.3 percent for PWTD; however, no Internal Applications, Qualifications, or Selections included PWTD. For GS14, the Qualification rate for PWTD was 4.3 percent; however, the Selection rate was 0 percent. For GS13, the Qualification rate for PWTD was 5.8 percent; however, the Selection rate was 2.6 percent.

3. Using the qualified applicant pool as the benchmark, does your agency have a trigger involving PWD among the new hires to the senior grade levels? For non-GS pay plans, please use the approximate senior grade levels. If “yes”, describe the trigger(s) in the text box. Select “n/a” if the applicant data is not available for your agency, and describe your plan to provide the data in the text box.

- | | | |
|-----------------------------|--------|-----|
| a. New Hires to SES (PWD) | Answer | Yes |
| b. New Hires to GS-15 (PWD) | Answer | Yes |
| c. New Hires to GS-14 (PWD) | Answer | Yes |
| d. New Hires to GS-13 (PWD) | Answer | Yes |

For SES, the Qualified Applicant Pool was 8.1 percent for PWD; however, no External Selections included PWD. For GS15, the Qualified Applicant Pool was 10.8 percent for PWD; however, no External Selections included PWD. For GS14, the Qualified Applicant Pool was 10.9 percent for PWD; however, the Selection rate was 6.9 percent. For GS13, the Qualified Applicant Pool was 11.5 percent for PWD; however, the Selection rate was 10 percent.

4. Using the qualified applicant pool as the benchmark, does your agency have a trigger involving PWTD among the new hires to the senior grade levels? For non-GS pay plans, please use the approximate senior grade levels. If “yes”, describe the trigger(s) in the text box. Select “n/a” if the applicant data is not available for your agency, and describe your plan to provide the data in the text box.

- | | | |
|------------------------------|--------|-----|
| a. New Hires to SES (PWTD) | Answer | Yes |
| b. New Hires to GS-15 (PWTD) | Answer | Yes |
| c. New Hires to GS-14 (PWTD) | Answer | Yes |
| d. New Hires to GS-13 (PWTD) | Answer | Yes |

For SES, the Qualified Applicant Pool was 3.3 percent for PWTD; however, no External Selections included PWTD. For GS15, the Qualified Applicant Pool was 4.9 percent for PWTD; however, no External Selections included PWTD. For GS14, the Qualified Applicant Pool was 4.9 percent for PWTD; however, the Selection rate was 4.2 percent. For GS13, the Qualified Applicant Pool was 5.2 percent for PWTD; however, the Selection rate was 3.9 percent.

5. Does your agency have a trigger involving PWD among the qualified internal applicants and/or selectees for promotions to supervisory positions? (The appropriate benchmarks are the relevant applicant pool for qualified internal applicants and the qualified applicant pool for selectees.) If “yes”, describe the trigger(s) in the text box. Select “n/a” if the applicant data is not available for your agency, and describe your plan to provide the data in the text box.

| c. Supervisors | | |
| i. Qualified Internal Applicants (PWD) | Answer | No |
| ii. Internal Selections (PWD) | Answer | Yes |

At the time that the FY20 Agency EEO Program Status Report was developed, no data was available relating to Internal Competitive Promotions to Manager or Executive Management Positions. The AEPM will collaborate with the Human Capital Analytics Branch Analytics and Strategy Division to develop the missing data in time to support the FY21 reporting cycle. For Supervisors, the rate of PWTD among Qualified Internal Applicants was 7 percent; however, the rate of PWTD Selections was only 3.9 percent.

6. Does your agency have a trigger involving PWTD among the qualified internal applicants and/or selectees for promotions to supervisory positions? (The appropriate benchmarks are the relevant applicant pool for qualified internal applicants and the qualified applicant pool for selectees.) If “yes”, describe the trigger(s) in the text box. Select “n/a” if the applicant data is not available for your agency, and describe your plan to provide the data in the text box.

- c. Supervisors
 - i. Qualified Internal Applicants (PWTD) Answer No
 - ii. Internal Selections (PWTD) Answer Yes

At the time that the FY20 Agency EEO Program Status Report was developed, no data was available relating to Internal Competitive Promotions to Manager or Executive Management Positions. The Affirmative Employment Program Manager will collaborate with Human Capital Analytics Branch Analytics and Strategy Division to develop the missing data in time to support the FY21 reporting cycle. For Supervisors, the rate of PWTD among Qualified Internal Applicants was 3.9 percent; however, the rate of PWTD Selections was only 2 percent.

7. Using the qualified applicant pool as the benchmark, does your agency have a trigger involving PWD among the selectees for new hires to supervisory positions? If “yes”, describe the trigger(s) in the text box. Select “n/a” if the applicant data is not available for your agency, and describe your plan to provide the data in the text box.

- a. New Hires for Executives (PWD) Answer Yes
- b. New Hires for Managers (PWD) Answer Yes
- c. New Hires for Supervisors (PWD) Answer Yes

For Executives, the Qualified pool was 8.1 percent PWD; however, no PWD were among the Selections. For Managers, the Qualified pool was 8.6 percent PWD; however, no PWD were among the Selections. For Supervisors, the Qualified pool was 13.8 percent PWD; however, the PWD Selection rate was only 7 percent.

8. Using the qualified applicant pool as the benchmark, does your agency have a trigger involving PWTD among the selectees for new hires to supervisory positions? If “yes”, describe the trigger(s) in the text box. Select “n/a” if the applicant data is not available for your agency, and describe your plan to provide the data in the text box.

- a. New Hires for Executives (PWTD) Answer Yes
- b. New Hires for Managers (PWTD) Answer Yes
- c. New Hires for Supervisors (PWTD) Answer Yes

For Executives, the Qualified pool was 2.4 percent PWTD; however, no PWTD were among the Selections. For Managers, the Qualified pool was 3.3 percent PWTD; however, no PWTD were among the Selections. For Supervisors, the Qualified pool was 5.6 percent PWD; however, the PWD Selection rate was only 4.7 percent.

Section V: Plan to Improve Retention of Persons with Disabilities

To be model employer for persons with disabilities, agencies must have policies and programs in place to retain employees with disabilities. In this section, agencies should: (1) analyze workforce separation data to identify barriers retaining employees with disabilities; (2) describe efforts to ensure accessibility of technology and facilities; and (3) provide information on the reasonable accommodation program and workplace assistance services.

A. VOLUNTARY AND INVOLUNTARY SEPARATIONS

1. In this reporting period, did the agency convert all eligible Schedule A employees with a disability into the competitive service after two years of satisfactory service (5 CFR § 213.3102(u)(6)(i))? If “no”, please explain why the agency did not convert all eligible Schedule A employees.

Answer No

At the time this Part J was drafted, the agency did not have statistics available regarding conversions of Schedule A(u) employees. The AEPM is collaborating with the Human Capital Analytics Branch Analytics and Strategy Division to develop the missing data in time to support the FY21 reporting cycle. Additionally, the data will be used to support associated barrier analyses and agency efforts to supplement self-identified disability status data with data on appointments using hiring authorities that take disability into account.

2. Using the inclusion rate as the benchmark, did the percentage of PWD among voluntary and involuntary separations exceed that of persons without disabilities? If “yes”, describe the trigger below.

- | | | |
|----------------------------------|--------|-----|
| a. Voluntary Separations (PWD) | Answer | Yes |
| b. Involuntary Separations (PWD) | Answer | Yes |

Among Voluntary Separations, People without Disabilities (PWoD) had an Inclusion Rate (IR) of 5.1 percent; however, PWD had an inclusion rate of 5.8 percent. Among Involuntary Separations, PWoD had an IR of 0.11 percent; however, PWD had an IR of 0.41 percent.

3. Using the inclusion rate as the benchmark, did the percentage of PWTD among voluntary and involuntary separations exceed that of persons without targeted disabilities? If “yes”, describe the trigger below.

- | | | |
|-----------------------------------|--------|-----|
| a. Voluntary Separations (PWTD) | Answer | No |
| b. Involuntary Separations (PWTD) | Answer | Yes |

Among Involuntary Separations, PWoD had an IR of 0.11 percent; however, PWTD had an IR of 1.3 percent.

4. If a trigger exists involving the separation rate of PWD and/or PWTD, please explain why they left the agency using exit interview results and other data sources.

Analyses of the FY20 Statistical Report of Discrimination Complaints data and data on requests for Reasonable Accommodations were inconclusive. During FY20, the GSA Exit Survey lacked questions that would help explain why PWD and/or PWTD left the agency, and Exit Interviews were not conducted. OCR is collaborating with OHRM to expand the scope of the exit survey to include relevant questions pertaining to hiring, advancement, and retention of PWD and PWTD.

B. ACCESSIBILITY OF TECHNOLOGY AND FACILITIES

Pursuant to 29 CFR §1614.203(d)(4), federal agencies are required to inform applicants and employees of their rights under Section 508 of the Rehabilitation Act of 1973 (29 U.S.C. § 794(b), concerning the accessibility of agency technology, and the Architectural Barriers Act of 1968 (42 U.S.C. § 4151-4157), concerning the accessibility of agency facilities. In addition, agencies are required to inform individuals where to file complaints if other agencies are responsible for a violation.

1. Please provide the internet address on the agency’s public website for its notice explaining employees’ and applicants’ rights under Section 508 of the Rehabilitation Act, including a description of how to file a complaint.

The address <https://www.gsa.gov/policy-regulations/policy/information-integrity-and-access/it-accessibilitysection-508> contains information on rights associated with Section 508 of the Rehabilitation Act; however, the site does not include information on how to file a related complaint.

2. Please provide the internet address on the agency’s public website for its notice explaining employees’ and applicants’ rights under the Architectural Barriers Act, including a description of how to file a complaint.

<https://www.gsa.gov/real-estate/design-construction/accessible-facility-design>; however, the site does not include information on how to file a related complaint.

3. Describe any programs, policies, or practices that the agency has undertaken, or plans on undertaking over the next fiscal year, designed to improve accessibility of agency facilities and/or technology.

GSA's Office of Administrative Services (OAS) provides the Center for IT Access (CITA), a centrally funded program that provides Assistive Technology Needs Assessments and expertise for all employees with disabilities as well as their management. CITA also maintained an inter-agency agreement with the Department of Defense's (DoD) Computer Accommodation Program (CAP), which provided many kinds of assistive technology and related training. In addition, centralized funds are provided by the OAS to cover the same items when CAP was unable to do so. Note: Effective October 1, 2020 (FY21) CAP no longer provides funding to procure or provide Assistive Technology (AT) and AT devices to Non-DoD agencies; however CAP continues to conduct assessments, provides information and referrals, and assists Non-DoD agencies in determining the appropriate AT and AT devices to purchase by their agency. OAS also provides workplace modifications, when needed, from a centralized budget. There is no central funding for interpreters or Communication Access Realtime Translation (CART) services at this time; however, OCR is exploring establishment of an agency-level central fund . OCR's External Programs Branch will partner with the Public Buildings Service to develop a system to assess GSA-owned, managed and leased space for accessibility purposes, pursuant to applicable Federal civil rights laws. Development of this system will allow building management staffs to assess their respective buildings to ensure accessibility to PWD.

C. REASONABLE ACCOMMODATION PROGRAM

Pursuant to 29 C.F.R. § 1614.203(d)(3), agencies must adopt, post on their public website, and make available to all job applicants and employees, reasonable accommodation procedures.

1. Please provide the average time frame for processing initial requests for reasonable accommodations during the reporting period. (Please do not include previously approved requests with repetitive accommodations, such as interpreting services.)

A total of 161 requests for accommodation were processed (or were being processed) at the end of FY20. Of those requests, 103 were timely processed, and the average processing time was approximately 37 days. Approved requests and requests that were approved with modifications both took an average of 28 days; however, requests that were denied took an average of 60 days. All figures reflect total Days in Process, minus time between when medical documentation was requested and when medical documentation was received.

2. Describe the effectiveness of the policies, procedures, or practices to implement the agency's reasonable accommodation program. Some examples of an effective program include timely processing requests, timely providing approved accommodations, conducting training for managers and supervisors, and monitoring accommodation requests for trends.

GSA's Policy and Procedures for Providing Reasonable Accommodation for Individuals with Disabilities (GSA Order HRM 2300.1 of June 6, 2018) was updated on January 14, 2021 to incorporate feedback received from the EEOC and to address reductions to the DoD CAP after FY20. The changes enhance communications between Reasonable Accommodation requesters and Local Reasonable Accommodations Coordinators (LRACs), clarify the calculation of Days in Process when medical documentation has been requested, and seek to improve the speed with which Reasonable Accommodations are made. Analysis of Reasonable Accommodations data for FY20 identified possible issues with the data system and/or the procedures used to populate the data system. These issues, along with the untimely processing of roughly 36 percent of requests and an increase in complaints related to Reasonable Accommodations resulted in greater collaboration between OCR and OHRM, in order to analyze the situation and to identify and eliminate or mitigate the root causes. At the time of the drafting of the EEO Program Status Report, those efforts were ongoing. Furthermore, an Employee Relations Program Manager is planned to be in place by July, 2021 to oversee the associated Human Resources Management (HRM) Case Management System, which houses the reasonable accommodations data. Lastly, it is notable that GSA maintains two separate Reasonable Accommodations programs, one which covers the whole agency, with the exception of the Office of the Inspector General (OIG), and a separate OIG accommodation program. To date, data from the OIG program has not been included in the agency report or analyzed as part of its ongoing program of barrier investigation. The AEPM and OHRM are collaborating to identify relevant points of contact and establish mechanisms for capturing, maintaining, analyzing, and reporting relevant information.

D. PERSONAL ASSISTANCE SERVICES ALLOWING EMPLOYEES TO PARTICIPATE IN THE WORKPLACE

Pursuant to 29 CFR §1614.203(d)(5), federal agencies, as an aspect of affirmative action, are required to provide personal assistance services (PAS) to employees who need them because of a targeted disability, unless doing so would impose an undue hardship on the agency.

Describe the effectiveness of the policies, procedures, or practices to implement the PAS requirement. Some examples of an effective program include timely processing requests for PAS, timely providing approved services, conducting training for managers and supervisors, and monitoring PAS requests for trends.

The PAS requirement is understood by the cohort of LRACs. Additionally, OHRM coordinated with a program analyst from OCR to obtain a sample job description/Position Description from another agency (one that has provided PAS before it was required) as an example of a PAS-related Administrative Assistant/contact person to use at GSA, should the need arise. GSA has had no requests for PAS.

Section VI: EEO Complaint and Findings Data

A. EEO COMPLAINT DATA INVOLVING HARASSMENT

1. During the last fiscal year, did a higher percentage of PWD file a formal EEO complaint alleging harassment, as compared to the government-wide average?

Answer No

2. During the last fiscal year, did any complaints alleging harassment based on disability status result in a finding of discrimination or a settlement agreement?

Answer Yes

3. If the agency had one or more findings of discrimination alleging harassment based on disability status during the last fiscal year, please describe the corrective measures taken by the agency.

Three settlements for three cases; one case had disability as its only basis; two cases had disability as one basis of multiple claimed.

B. EEO COMPLAINT DATA INVOLVING REASONABLE ACCOMMODATION

1. During the last fiscal year, did a higher percentage of PWD file a formal EEO complaint alleging failure to provide a reasonable accommodation, as compared to the government-wide average?

Answer No

2. During the last fiscal year, did any complaints alleging failure to provide reasonable accommodation result in a finding of discrimination or a settlement agreement?

Answer Yes

3. If the agency had one or more findings of discrimination involving the failure to provide a reasonable accommodation during the last fiscal year, please describe the corrective measures taken by the agency.

One settlement for one case; disability was one basis of five claimed; complaint is one of the complaints from above with harassment allegation.

Section VII: Identification and Removal of Barriers

Element D of MD-715 requires agencies to conduct a barrier analysis when a trigger suggests that a policy, procedure, or practice may be impeding the employment opportunities of a protected EEO group.

1. Has the agency identified any barriers (policies, procedures, and/or practices) that affect employment opportunities for PWD and/or PWTD?

Answer No

2. Has the agency established a plan to correct the barrier(s) involving PWD and/or PWTD?

Answer N/A

3. Identify each trigger and plan to remove the barrier(s), including the identified barrier(s), objective(s), responsible official(s), planned activities, and, where applicable, accomplishments

4. Please explain the factor(s) that prevented the agency from timely completing any of the planned activities.

While no barriers have yet been identified, PWD and PWTD-related triggers are the single highest priority of the five trigger areas being investigated in FY21 (four of which are identified in Part I). The PWD/PWTD triggers related to low participation of PWD and PWTD in all MCOs are described in Part J. One overarching factor that impacts the ability of the agency to conduct effective barrier analyses of PWD and PWTD is the accuracy of its disability status data.

5. For the planned activities that were completed, please describe the actual impact of those activities toward eliminating the barrier(s).

While no barriers have yet been identified, PWD and PWTD-related triggers are the single highest priority of the five trigger areas being investigated in FY21 (four of which are identified in Part I). The PWD/PWTD triggers related to low participation of PWD and PWTD in all MCOs are described in Part J.

6. If the planned activities did not correct the trigger(s) and/or barrier(s), please describe how the agency intends to improve the plan for the next fiscal year.
