

# The IAE Systems

The IAE manages, operates, or maintains the legacy systems responsible for federal award processes. Those Systems include:

**CFDA:** the Catalog of Federal Domestic Assistance, is a database of all assistance programs, including grants and loans. **This system was migrated to beta.SAM.gov under the Assistance Listings domain name.**

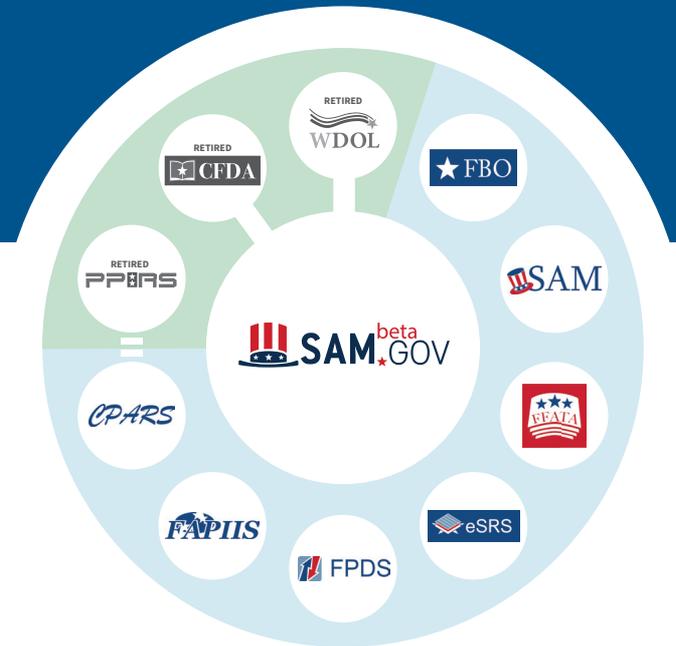

**WDOL:** Wage Determination Online, provides Service Contract Act and Davis-Bacon Act wage determinations required for contract. **This system was migrated to beta.SAM.gov under the Wage Determinations domain name.**

**FBO:** FedBizOpps.Gov, allows vendors and government buyers to post, search, monitor, and retrieve opportunities that are over \$25,000.

**SAM:** the System for Award Management, is where entities register to do business with the federal government, and includes annual Representations and Certifications and Exclusions.

**FPDS-NG:** the Federal Procurement Data System – Next Generation, contains detailed information on federal contract actions over \$3000.

**eSRS:** the Electronic Subcontracting Reporting System, contains subcontracting reporting data.

**FSRS:** the FFATA Sub-award Reporting System captures and reports sub-award and executive compensation data for first-tier sub-awards.

**FAPIIS:** the Federal Awardee Performance and Integrity Information System, contains integrity performance information.

**CPARS:** the Contractor Performance Assessment Reporting System, documents contractor performance.

## Did you know?

The IAE also manages the Federal Service Desk that provides support for SAM, CFDA, eSRS, FBO, and FSRS
