

Assisted Acquisition Services (AAS)

What We Do

Assisted Acquisition Services (AAS) provides custom acquisition-, project-, and financial-management support services to agencies across the federal government. Working closely with you, AAS develops comprehensive and scalable approaches that reduce risk on even the most-complex projects.

This collaborative approach enables AAS to craft innovative, streamlined, compliant solutions that meet changing market conditions – on time and within budget. We can address almost any government need, including:

- ❖ IT services
- ❖ Professional services
- ❖ Research and development
- ❖ Facilities maintenance

Maximizing Your Mission

In government, maximizing your agency's ability to meet its mission is of utmost importance. When you use AAS to manage your projects, you free up time and energy to focus more on your agency's core mission activities. Our expertise makes it easier for you to implement some of the most-complex and important programs in government. AAS supports programs that:

- ❖ Provide soldiers with better access to cutting-edge battlefield intelligence
- ❖ Ensure that Americans receive critical services such as guaranteed mortgage payments and information on MIA/POW family members
- ❖ Equip warfighters with the best technology to meet current and future needs

AAS Acquisition Expertise Delivers Solutions

Our skilled workforce delivers solutions to meet the demands of clients' missions.

Our AAS workforce includes:

- ❖ 12 Client Support Centers (CSCs) that offer national and worldwide support
- ❖ Staff with security clearance that can support secure and classified environments
- ❖ Federal Acquisition Certification in Contracting (FAC-C) certified
- ❖ Federal Acquisition Certification Contracting Officer Representative (FAC-COR) certified
- ❖ Project Management Professional (PMP) certified

AAS Provides Excellent Project and Financial Management

AAS focuses on project and financial management so your agency's funds are managed in accordance with your appropriation, authorization, and bona fide need.

- ❖ Contract administration includes invoice payment upon your acceptance of goods and services
- ❖ Expenditure tracking results in a monthly line-item detail report

AAS Saves Taxpayer Dollars

On average, AAS negotiates a 10 percent savings below Independent Government Cost Estimates – achieved in compliance with all governmentwide and agency-specific regulations and policies.

Contract vehicles used:

- ❖ Governmentwide Acquisition Contracts (GWACs)
- ❖ GSA Multiple Award Schedules (MAS)
- ❖ Blanket Purchase Agreements (BPAs)
- ❖ Agency-specific contracts
- ❖ Open market

Our Acquisition Process

AAS provides advisory and consulting services, in addition to end-to-end support throughout your project's lifecycle.

- ❖ Step 1: Market research and acquisition planning
- ❖ Step 2: Solicitation
- ❖ Step 3: Negotiation and award
- ❖ Step 4: Post-award management

Customer Testimonials

At AAS, we take pride in our commitment to excellence and ability to repeatedly achieve success in some of the most-complex programs in government. See what our customers say about us and the services we provide:

"AAS is definitely our preferred contract support provider. Their skill, ease of interaction, and responsiveness are all second to none! We hope to continue to partner with GSA long into the future."

– Air Force Materiel Command (AFMC)

"We continue to receive legendary and outstanding services from the AAS team. Clone the Contracting Officers!"

– Defense Contract Audit Agency (DCAA)

"The assisted acquisition that we are working on with AAS FEDSIM has been impressive, to say the least. Everything is perfectly organized, and we are staying on schedule. Great experience all around – and I have been recommending them to my colleagues."

– United States Customs and Border Protection (CBP)

"AAS met my aggressive timelines with professionalism and respect and did a great job as the acquisition method went through various transformations, making my job a lot easier. I hope I can work with them in the future for my IT needs."

– Air Force Materiel Command (AFMC)
