MEMORANDUM FOR ALL TENANTS
FEDERAL BUILDING
300 N. LOS ANGELES ST.

FROM: *Myrna G. Barragan*
MYRNA G. BARRAGAN
BUILDING MANAGER

SUBJECT: REGULATION THAT GOVERNS ASBESTOS
CONTAINING MATERIAL

This notification is to advise you that GSA is required to send out a notification informing tenant agencies that the building contains Asbestos Containing Material (ACM) per the GSA Public Building Service Asbestos Management Policy dated March 25, 2015. The ACM is not newly discovered ACM; the material has been present in the building since it was built. Per GSA policy, this is an annual reminder that Asbestos Containing Material exists in the Federal Building.

Please contact GSA prior to any building alterations to ensure that no potential ACM exposure exists. All work must be performed in accordance with applicable Federal, State, and local regulations governing asbestos related projects and will be conducted in such a manner as to minimize any disruption of normal building activities. GSA conducts bi-annual asbestos inspections to assess the condition of ACM and takes all necessary actions if warranted to eradicate ACM exposure. As a reminder, GSA maintains the Asbestos Management Plan in the GSA North Los Angeles Field Office located on the 4th floor, Suite 4300.

If you have any questions, please contact me at (213) 479-7579.
