- (1) Definition: "Work" includes, but is not limited to materials, workmanship, and manufacture and fabrication of components.
- (2) The Lessor shall maintain an adequate inspection system and perform such inspections as will ensure that the work performed is required under the contract requirements. The Lessor shall maintain complete inspection records and make them available to the Government upon request. All work is subject to Government inspection and test at all reasonable times before acceptance, to ensure strict compliance with terms of the contract.
- (3) Government inspecting and tests are for the sole benefit of the Government and do not—
 - (a) Relieve the Lessor of responsibility for providing adequate control measures;
 - (b) Relieve the Lessor of responsibility for damage to or loss of the material before acceptance;
 - (c) Constitute or imply acceptance or;
 - (d) Affect the continuing rights of the Government after acceptance of the completed work under paragraph (9) below.
- (4) The presence or absence of a Government inspector does not relieve the Lessor from any contract requirements, nor is the inspector authorized to change any term or condition of the specification without the Government Contracting Officer's written authorization.
- (5) The Lessor shall, without charge, replace or correct work found by the Government not to conform to contract requirements, unless in the policy interest the Government consents to accept the work with an appropriate adjustment in contract price. The Lessor shall promptly segregate and remove rejected material from the job site.
- (6) If the Lessor does not promptly replace or correct rejected work, the Government may: (1) by contract or otherwise, replace or correct the work and charge the cost to the Lessor or; (2) terminate for default the Lessor's right to proceed.
- (7) If, before acceptance of the entire work, the Government decides to examine already completed work by removing it or tearing it out, the Lessor, on request shall promptly furnish all necessary facilities, labor and material. If the work is found to be defective or non-conforming in any material respect due to the fault of the Lessor or its subcontractors, the Lessor shall defray the expenses of the examination and of satisfactory reconstruction. However, if the work is found to meet contract requirements, the Government Contracting Officer shall make an equitable adjustment for the additional services involved in the examination and reconstruction, including, if completion of the work was thereby delayed, an extension of time.
- (8) Unless otherwise specified in the contract, the Government shall accept, as promptly as practicable after completion and inspection, all work required by the contract or that portion of the work Government/Contracting Officer determines can be accepted separately. Acceptance shall be final and conclusive except for latent defects, fraud, gross mistakes amounting to fraud, or the Government's rights under any warranty or guarantee.

2. SPECIFICATIONS.

In any case of discrepancy in the specifications, the matter shall be immediately submitted to the Contracting Officer, without whose decision said discrepancy shall not be adjusted by the Lessor, save only at his own risk and expense.
