This Supplemental lease Agreement is to modify the sprinkler systems for Stack Rooms 1 & 2 and the Computer Room to include the following:

1. Remove single interlock trim from two (2) pre-action valves serving Stack Room 2. Install new double interlock trim package. Add mechanical air maintenance device and adjust air compressor regulator to proper range for air maintenance device.

2. Relocate three (3) 2 1/2" standpipes presently tied into pre-action systems in Stack Rooms 1 & 2 to roadway sprinkler systems. All piping will be installed in roadway with hose valves inside stack rooms.

3. Fire Alarm modifications necessary to reprogram system and control wiring for double interlock trim for two (2) pre-action valves.

4. Labor and material to demo/patch/paint/cleanup areas related to this project.

5. NFPA 13 requirements for double-interlock pre-action systems based on system volumes apply to the modifications and to the final acceptance testing of the systems. Acceptance testing of the systems is included in accordance with NFPA 13 after modifications are completed.

IN WITNESS WHEREOF, the parties subscribed their names as of the above date.

LEASER: Space Center Kansas City, Inc.
GeoSpace Joint venture

LESSOR: General Services Administration, Public Buildings Service
East Leasing Services Branch
Contracting Officer

(See attached Sheet 2A)
6. The work shall be performed during regular working hours of 8:00 A.M. to 4:30 P.M., Monday through Friday.

7. The Lessor is not required to provide a Fire Watch. The Government is responsible for staffing and training of Fire Watch personnel if necessitated by Lessee.

8. After the completion of the above work, double interlock systems in all 3 stack rooms and the Computer Room shall be maintained by the Lessor. NFPA 25 is the applicable standard for testing and maintenance of water based fire protection systems.

9. The requirements in the existing lease that are applicable for pre-action systems must be met for the modified systems.

10. The Lessor's sprinkler contractor shall attend a pre-work conference with GSA and INS on-site to discuss the work and scheduling.

11. The total cost of the work listed above is $14,820.00.

12. In addition, the Lessor has performed a pressure test of all systems for 24 hours to locate leaks with a pressure of 40 psi. The cost of this pressure test is $1,650.00.

Upon satisfactory completion of the work described in this SLA and the submission of an acceptable invoice by the Lessor, the Government shall pay the Lessor a one-time lump sum total of $16,470.00. Payment for the items will become due thirty (30) days after the completion of the work, acceptance by the Government, and receipt of the invoice from the Lessor.

The original invoice is to be sent to:
GSA, Finance Division (7BCP)
P.O. Box 17181
Fort Worth, TX 76102-0181

A copy of the invoice is to be sent to:
GSA, Property Acquisition and Realty Services (6PEL)
Attn: Brian K. Dunlay
1500 E. Bannister Road
Kansas City, MO 64131-3088

The invoice must include:
- PON #PS0002689
- Name of the Lessor as shown on the Lease and invoice date
- Lease contract number, building address, and a description, price and quantity, of the items delivered.

If the invoice is not submitted on company letterhead, it must be signed by the person(s) with whom the Lease contract is made.
