PART I - SOLICITATION/DESCRIPTION OF REQUIREMENTS

A. REQUIREMENTS

The Government of the United States of America is seeking to lease 1,585 rentable square feet of space located in Greenville, SC for occupancy not later than February 1, 2011, for a term of 10 years with a 5 year firm term. Rentable space must yield a minimum of 1,378 ANSI/BOMA Office Area square feet.

B. STANDARD CONDITIONS AND REQUIREMENTS

The following standard conditions and requirements shall apply to any premises offered for lease to the UNITED STATES OF AMERICA (hereinafter called the GOVERNMENT):

Space offered must be in a quality building of sound and substantial construction, either a new, modern building or one that has undergone restoration or rehabilitation for the intended use.

The Lessor shall provide a valid Certificate of Occupancy for the intended use of the Government and shall meet, maintain, and operate the building in conformance with all applicable current (as of the date of this solicitation) codes and ordinances. If space is offered in a building to be constructed for lease to the Government, the building must be in compliance with the most recent edition of the building code, fire code, and ordinances adopted by the jurisdiction in which the building is located.

Offered space shall meet or be upgraded to meet the applicable egress requirements in National Fire Protection Association (NFPA) 101, Life Safety Code or an alternative approach or method for achieving a level of safety deemed equivalent and acceptable by the Government. Offered space located below-grade, including parking garage areas, and all areas referred to as "hazardous areas" (defined in NFPA 101) within the entire building (including non-Government areas), shall be protected by an automatic sprinkler system or an equivalent level of safety. Additional automatic fire sprinkler requirements will apply when offered space is located on or above the 6th floor. Unrestricted access to a minimum of two remote exits shall be provided on each floor of Government occupancy. Scissor stairs shall be counted as only one approved exit. Open-air exterior fire escapes will not be counted as an approved exit. Additional fire alarm system requirements will apply when offered space is located 2 or more stories in height above the lowest level of exit discharge.

The leased space shall be free of all asbestos containing materials, except undamaged asbestos flooring in the space or undamaged boiler or pipe insulation outside the space, in which case an asbestos management program conforming to Environmental Protection Agency guidance shall be implemented. The space shall be free of other hazardous materials according to applicable Federal, State, and local environmental regulations.

Services, utilities, and maintenance will be provided daily, extending from 7:30 a.m. to 5:30 p.m. except Saturday, Sunday, and Federal holidays. The Government shall have access to the leased space at all times, including the use of electrical services, toilets, lights, elevators, and Government office machines without additional payment.

The Lessor shall complete any necessary alterations within 60 days after receipt of approved layout drawings.

The Common Area Factor is 16.00 %

DEFINITIONS

RENTABLE SPACE
Rentable space is the area for which a tenant is charged rent. It is determined by the building owner and may vary by city or by building within the same city. The rentable space may include a share of building support/common areas such as elevator lobbies, building corridors, and floor service areas. Floor service areas typically include restrooms, janitor rooms, telephone closets, electrical closets, and mechanical rooms. The rentable space does not include vertical building penetrations and their enclosing walls, such as stairs, elevator shafts, and vertical ducts.

ANSI/BOMA USABLE SPACE
For the purposes of this SFO, the Government recognizes the American National Standards Institute/Building Owners and Managers Association (ANSI/BOMA) International standard (Z65.1-1966) definition for Office Area, which means "the area where a tenant normally houses personnel and/or furniture, for which a measurement is to be computed."

ANSI/BOMA Office Area square feet shall be computed by measuring the area enclosed by the finished surface of the room side of corridors (corridors in place as well as those required by local codes and ordinances to provide an acceptable level of safety and/or to provide access to essential building elements) and other permanent walls, the dominant portion (refer to Z65.1) of building exterior walls, and the center of tenant-separating partitions. Where alcoves, recessed entrances, or similar deviations from the corridor are present, ANSI/BOMA Office Area square feet shall be computed as if the deviation were not present.

COMMON AREA FACTOR (CAF)
If applicable, Offerors shall provide the Common Area Factor (a conversion factor(s) determined by the building owner and applied by the owner to the ANSI/BOMA Office Area square feet to determine the rentable square feet for the offered space).

PERCENTAGE OF OCCUPANCY
The percent of the building occupied by the Government, for purposes of tax adjustments.

PRICE EVALUATION
Evaluation of the offered prices will be on the basis of the annual price per ANSI/BOMA Office Area square foot, including any option periods. The Government will perform present value price evaluation by reducing the prices per ANSI/BOMA Office Area square foot to a composite annual ANSI/BOMA Office Area square foot price, as follows:
