MEMORANDUM FOR THE GSA ACQUISITION WORKFORCE

FROM: JEFFREY A. KOSES
SENIOR PROCUREMENT EXECUTIVE
OFFICE OF ACQUISITION POLICY (MV)

SUBJECT: Retention and Deletion of Federal Supply Schedule (FSS) Clauses - Supplement 3

1. Purpose.

This Supplement cancels FSS clause I-FSS-163, Option to Extend the Term of the Contract (Evergreen) and updates FSS provision A-FSS-011, Consideration of Offers Under Standing Solicitation.

2. Background.

On February 27, 2020, GSA issued Acquisition Letter (AL) MV-20-03 in order to provide guidance and establish consistent clauses for the FSS program (i.e., conforming the clauses that may be used, and clarifying those clauses that were deleted)\(^1\). Both FSS clause I-FSS-163 and FSS provision A-FSS-011 are included in this AL.

On March 28, 2022, the GSAR was amended to make several revisions to the GSAR based on GSAR Case 2020-G509\(^2\). One of the revisions was the incorporation of the following new GSAR Clause: 552.238-116, Option to Extend the Term of the FSS Contract. This new GSAR clause replaces FSS clause I-FSS-163. As a result, FSS clause I-FSS-163 is no longer needed and FSS provision A-FSS-011 needs to be updated to reference the new GSAR clause.

3. Effective Date.

This Supplement is effective immediately and remains in effect until rescinded or incorporated into the FAR or GSAM.

\(^1\)Supplement 1 dated April 9, 2021 and Supplement 2 dated September 2, 2021 were also issued.
\(^2\)See 87 FR 10313 dated February 24, 2022 reference GSAR case 2020-G509
This Supplement makes the following changes to AL MV-20-03:

a. FSS clause I-FSS-163, Option to Extend the Term of the Contract (Evergreen), is hereby canceled.

b. FSS provision A-FSS-011, Consideration of Offers Under Standing Solicitation, is revised to reference GSAR clause 552.238-116, Option to Extend the Term of the FSS Contract instead of I-FSS-163 (see Attachment A of this Supplement for the updated provision)

6. Point of Contact.

Questions regarding this Supplement may be directed to GSARPolicy@gsa.gov.

7. Attachment.

Attachment A - Updated FSS provision A-FSS-011, Consideration of Offers Under Standing Solicitation
A-FSS-011 CONSIDERATION OF OFFERS UNDER STANDING SOLICITATION (MAR 2022)

(a) This solicitation is a standing solicitation from which the Government contemplates award of contracts for supplies/services listed in the Schedule of Items. This solicitation will remain in effect unless replaced by an updated solicitation.

(b) There is no closing date for receipt of offers; therefore, offers may be submitted for consideration at any time.

(c) An offer may be rejected if an offeror fails to meet timeframes established by the Contracting Officer either to address deficiencies in the offer or to submit a final proposal revision. A resubmission(s) is permitted; however, it may be rejected immediately if it is still deficient in the area(s) that caused its initial rejection.

(d) Contracts awarded under this solicitation will be in effect for 5 years from the date of award, unless further extended, pursuant to GSAR clause 552.238-116, Option to Extend the Term of the FSS Contract, canceled pursuant to the Cancellation clause, or terminated pursuant to the termination provisions of the contract.

OFFICE OF ACQUISITION POLICY (MV)

SUBJECT: Retention and Deletion of Federal Supply Schedule (FSS) Clauses - Supplement 2

1. Purpose. The purpose of this letter is to cancel Acquisition Letter (AL) V-06-07 and retain only the policies noted herein that are still active. AL V-06-07 referenced multiple policy letters that are now obsolete due to changes in business practices, reorganization within the agency, or incorporation into regulation.

2. Background. AL V-06-07 was issued on November 22, 2006 to retain 32 Federal Supply Schedule policies issued from 1992 through 2005 until they could be incorporated into the General Services Administration Regulations (GSAR) or manual (GSAM).

Each of these documents have been reviewed to determine currency. Of the 32 referenced policy documents GSA has determined that two are still needed. This AL authorizes the continued use of those policies.

3. Effective Date. This AL is effective immediately and remains in effect until rescinded or incorporated into the GSAM.

4. Cancellation. AL V-06-07 is hereby cancelled and replaced by this acquisition letter supplement.

5. Applicability. This policy applies to all FAS acquisition activities awarding or administering Federal Supply Schedule contracts.

6. Requirements. The expiration date for the policies below is extended. These policies are considered active until incorporated into the GSAM or cancelled.

FSS ACQUISITION LETTER FX-05-3
MEMORANDUM FOR ALL ACQUISITION ACTIVITIES
(FC DISTRIBUTION LIST)

FROM: JEFFREY A. KOSES
ACTING ASSISTANT COMMISSIONER
OFFICE OF ACQUISITION MANAGEMENT (FX) (FXA)

SUBJECT: Security of Contract Files

1. **Purpose.** This acquisition letter provides instructions concerning the security of contract files for FSS personnel who participate in flexible workplace arrangements. These instructions are in addition to the requirements of GSAM 503.104-5, "Disclosure, protection, and marking of contractor bid or proposal information and source selection information." Flexible workplace arrangements, also referred to as Telecommuting and Telework, allow employees to work away from the principal office (e.g., home or telecommuting center). Contract files, i.e., "contractor bid or proposal information" may include but are not limited to documents listed in FAR 4.803, Contents of contract files. This acquisition letter also advises contracting personnel of 18 USC 2071, "Concealment, removal, or mutilation generally," that provides for criminal sanctions, under certain circumstances, for the removal or destruction of public documents.

2. **Background.** GSAM 503.104-5 does not address flexible workplace arrangements. Increased numbers of FSS employees are participating in flexible workplace arrangements as technology improves and commuting areas expand. Therefore, specific instructions concerning the security of contract files for these employees are necessary.

3. **Effective Date.** This acquisition letter is effective upon signature.

4. **Expiration Date.** This acquisition letter expires one year from the date of signature, unless otherwise extended or canceled.

5. **Applicability.** This acquisition letter applies to all FSS personnel with access to the material described in GSAM 503.104-5 who are participating in flexible workplace arrangements.

6. **Reference to Regulations.** The procedures in AL FX-05-3 will be included in Chapter 38 of the Supply Operations Handbook, FSS P 2901.2A.

7. **Instructions/Procedures.**
   (a) In addition to complying with instructions set forth in GSAM 503.104-5, and observing the prohibitions set forth in 18 USC 2071, "Concealment, removal, or mutilation generally," FSS personnel who are working with contract files away from their principal duty stations, e.g., at home or in telecommuting centers, must do the following:
   1. Obtain their supervisor's permission in writing to transport contract files to their telework offices, e.g., home or telecommuting centers, and identify with specificity the files to be transported.
2. Every attempt should be made to transport copies rather than original documents. When this is not possible, the period of time during which the original documents will be away from the office should be kept to a minimum. In all cases involving the transport of contract files, whether originals or copies, the period of time during which they will be removed from the office for telework purposes should be clearly stated.

3. Use "check-in/check-out" procedures implemented by individual acquisition centers to record removal and return of contract files. These procedures would apply to both original and copies of original documents.

4. Secure the documents to be transported in an appropriate container, e.g., unmarked envelope or folder inside of a briefcase, and maintain strict control of the documents while they are being transported.

5. Provide appropriate physical security for the contract files while they are outside the office environment. Documents must never be left unattended, even briefly, in the presence of others, and must be kept under lock and key whenever they are not being used. Proper precautions must be taken to ensure that contract files are not exposed to conditions that might cause damage or deterioration, such as dampness, excessive heat, pests and vermin, or chemicals.

6. Provide appropriate security when conducting discussions with contractors or potential contractors via telephone or cell phone, to ensure privacy and confidentiality between the parties. Face to face negotiations may be conducted only at principal duty stations or other locations specifically authorized by management.

(b) Electronic security of contract files is protected by the following means:
   1. Individuals accessing contract files from home or other remote locations must possess current and valid user IDs, passwords, and/or Digital Certificates; these are required for Virtual Office and for Virtual Private Network (VPN) accounts.
   2. All FSS personnel are required to take annual computer security training.
   3. Other information concerning GSA electronic security policies and procedures can be viewed on the IT Security Website on GSA Insite.

(c) Supplemental procedures. Acquisition activities may issue supplemental procedures regarding the security of contract files if required to support the particular circumstance of the acquisition activity or as needed on an individual basis. Any procedures that are supplemental to this acquisition letter should be commensurate with actual needs for additional safeguards and should not be unduly restrictive or burdensome.

FSS ACQUISITION LETTER FC-96-6

MEMORANDUM FOR ALL FSS PROGRAM OFFICES, ALL FSS BUREAU DIRECTORS

FROM: WILLIAM N. GORMLEY
CPPO ASSISTANT COMMISSIONER
OFFICE OF ACQUISITION (FC)(FCO)

SUBJECT: Multiyear Contracting-Mandatory Sources of Supply

1. Purpose. The purpose of this Acquisition Letter is to provide guidance and procedures in the establishment of a multiyear contract period for up to 5-years, with renewal periods up to 5 years.
each, with the mandatory sources of supply, the Federal Prison Industries (FPI), and the National Industries for the Blind (NIB) and NISH (previously the National Industries for the Severely Handicapped) under the Javits-Wagner-O'Day Act (JWOD). The total contract period, inclusive of the renewals, may not exceed 20 years.

2. Background. The Federal Supply Service (FSS) is looking at ways to streamline and simplify the procurement process. The use of 5-year contracts has helped in the past to ease the workload of our procurement personnel. The Federal Acquisition Streamlining Act (FASA) provided additional authority for multiyear contracting, and with the use of options, we can now establish long-term contracts to provide continuous contract coverage without the administrative costs associated with a new procurement.

4. Effective Date. This Acquisition Letter is effective immediately.

5. Expiration Date. Unless extended, this letter expires 1 year from the effective date.

7. Approvals. The Federal Acquisition Streamlining Act (FASA), Section 1072, provides authority to establish contracts with a base period up to 5 years. However, neither the Federal Acquisition Regulation (FAR), nor the General Services Administration Acquisition Regulation (GSAR) has been revised to reflect this change. In order to exceed the 5 year limit, the FSS Acquisition Management Center (FCO) has received blanket approval from the Deputy Associate Administrator for Acquisition Policy (MV) to exceed the 5-year limit for all mandatory source contracts (in accordance with GSAR 517.204) (copy attached). This approval should be referenced in the contract file documentation if renewal periods are exercised that extend the contract period beyond 5- years.

8. Procedures. See the Attachment.
Required Sources of Supply

(To be incorporated in Chapter 8 of the Supply Operations Handbook, FSS P 2901.2A)

Procedures. Contracts may be established for up to a 5-year period with the mandatory sources of supply, the Federal Prison Industries (FPI) and the nonprofit agencies of the National Industries for the Blind (NIB) and NISH performing under the Javits-Wagner-O'Day Act (JWOD). Contracts are established on a noncompetitive basis. The following procedures are to be followed to establish the contracts.

Federal Prison Industries. Contracts may be established with the FPI for an initial period of up to 5 years, with multiple renewal periods of up to 5 years each. The total contract period, inclusive of renewals, may not exceed 20 years. Prior to the establishment of a new contract, or at the time of renewal of an existing contract, the contracting officer should review the requirements and any circumstances which impact the item(s) or service(s) (such as market fluctuations which affect the price) to determine what length contract period is appropriate.

Prices for the initial contract should be negotiated in accordance with the procedures at FAR 8.6 and GSAR 508.6. The greatest emphasis will be placed on establishing a price through market analysis. Cost analysis will be performed only when no adequate market data is available. Commercial prices of similar products, adjusted for different terms and conditions, will be considered. Cost data, when used, need not be certified. Inclusion of an Economic Price Adjustment (EPA) will depend on the length of the contract period, and negotiations with the FPI. Clause I-FSS-967, Pricing of FPI Contracts, may be included in the contract to provide for price adjustments at 1 or 2 year intervals. Prior to issuing a renewal, a price review should be performed to compare the price with the commercial market to determine if the price should be adjusted.

At any time, either party may request a modification of the terms and conditions of the contract, if warranted. The purchase description should be continually reviewed by the Government, as well as the contractor, to assure that the item keeps pace with the marketplace and that improvements are considered that may make the manufacturing process more cost effective. The GSA Form 1584, Contract Summary, will be used to establish the contract with FPI. Modifications will be made with Amendments to the GSA Form 1584. Reference to the approval from the Deputy Associate Administrator for Acquisition Policy (MV) to extend beyond a 5-year period (copy at Figure 1), should be included in the contract file documentation.

Following is the EPA to be used with FPI contracts.

I-FSS-967, Pricing of FPI Contracts with an Economic Price Adjustment (EPA) Prices will be negotiated based on market prices. An economic price adjustment will be allowed based on the following.

(a) "Producer Price Index" (PPI), as used in this clause, means the originally released index, not seasonally adjusted, published by the Bureau of Labor Statistics, U.S. Department of Labor (Labor) for product code* ______* found under Table* ______*
(b) During the term of the contract, the price may be adjusted upward or downward a maximum of * ______ *percent every * 12 or 24 *months.

(1) Any price adjustment for the product code shall be based upon the percentage change in the PPI for the base index (the PPI released 2 months before the first month of the initial contract) and the updated index (PPI released * 12 or 24 * months later). The formula for determining the Adjusted Agreement Price (AAP) applicable to shipments for the subsequent * 12 or 24 *months is --AAP = Updated Index x Award Price Base Index

(2) For subsequent periods, the price adjustment shall be the percentage change between the previously updated index (the new base index) and the PPI released * 12 or 24 * months later (the most recent updated index). This percentage shall be applied to the Current Agreement Price (CAP). The formula for determining the AAP applicable to shipments for the subsequent option period(s) is -- AAP = Most Recent Updated Index x CAP New Base Index

(c) If the PPI is not available for the month of the base index or the updated index, the month with the most recently published PPI prior to the month determining the base index or updated index shall be used.

(d) If a product code is discontinued, the Government and the FPI will mutually agree to substitute a similar product code. If Labor designates an index with a new title and/or code number as continuous with the product code specified above, the new index shall be used.

(e) The FPI must submit a written request for a price change under the EPA to the Contracting Officer 30 days prior to the end date of the * 12 or 24 *month period. If no written request is received, FPI will have waived their right to a price adjustment for the next * 12 or 24 *month period. Alternatively, the Contracting Officer will unilaterally adjust the price downward when appropriate, using the updated index defined in paragraph (b) above.

(f) Price adjustments shall be effective by execution of an amendment of the Contract Summary (GSA Form 1584), indicating the most recent updated index and percent of change and shall apply to delivery orders placed on or after the first day of the * 12 or 24 *month renewal date.

(End of clause)

**JWOD Program.**

Contracts may be established with the NIB/NISH nonprofit agencies for an initial period of up to 5 years, with multiple renewal periods of up to 5 years each. The total contract period, inclusive of renewals, may not exceed 20 years. Prior to the establishment of a new contract, or at the time of renewal of an existing contract, the contracting officer should review the requirements for item(s) or service(s) to determine what length of contract period is appropriate.

At any time, either party may request a modification of the terms and conditions of the contract, if warranted. The purchase description should be continually reviewed by the Government, as well as the contractor, to assure that the item keeps pace with the marketplace and that improvements are considered that may make the manufacturing process more cost effective. Other terms and conditions should be reviewed at the end of each 5-year period, and modified
as required. Any significant change to the projected requirements should be communicated to the appropriate NIB or NISH Nonprofit Agency.

The GSA Form 1584, Contract Summary, will be used to establish contracts with the NIB and NISH nonprofit agencies. An amended GSA Form 1584 will be prepared when a significant change occurs, such as a change to the specification or purchase description. Price changes will be accomplished through the initiation of contract NSN file updates. Reference to the approval from the Deputy Associate Administrator for Acquisition Policy (MV) to extend beyond a 5-year period (copy at Figure 1), should be included in the contract file documentation. Pricing of JWOD items is in accordance with the procedures established by the Committee for Purchase From People Who Are Blind or Severely Disabled.

MEMORANDUM FOR IDA M. USTAD DEPUTY ASSOCIATE ADMINISTRATOR FOR ACQUISITION POLICY (MV)

FROM: WILLIAM N. GORMLEY, CPPO /s/ ASSISTANT COMMISSIONER OFFICE OF ACQUISITION (FC)(FCO)

SUBJECT: Request for Exceeding the 5-Year Contract Limitation for Contracts with the Mandatory Sources of Supply

The Federal Supply Service (FSS) has been looking at our contracting programs with a view toward streamlining procedures and reducing the paperwork on contracting personnel. In this regard, we have been considering different avenues of contracting with the mandatory sources of supply, the Federal Prison Industries (FPI) and the nonprofit agencies of the National Industries for the Blind (NIB) and NISH under the Javits-Wagner-O'Day Act (JWOD).

Currently, most contracts with the mandatory sources are for a 2-year period. These contracts are established on a noncompetitive basis. Prices of FPI items are set by the marketplace. Prices of NIB/NISH items and services are established by the Committee for Purchase From People Who Are Blind or Severely Disabled (Committee) under their procedures.

Section 1072 of the Federal Acquisition Streamlining Act (FASA), provides multiyear contract authority for up to 5 years. Additionally, we recently provided contracting personnel with guidance on establishing Stock and Special Order Program (SOP) contracts for up to 10 years with the use of options, and are in the concurrence stage to provide for options to extend contracts up to 20 years.

We have decided to provide for contracts with the mandatory sources for an initial base period up to 5 years, with renewal periods that can span from 1 to 5 years each. The total contract period, inclusive of renewals, may not exceed 20 years. Changes in price, or any other term or condition, will be made by amendments to the initial contract document. An economic price adjustment clause will be incorporated in the FPI contracts to allow for price increases during the contract period. Prices will be reviewed and compared with the commercial market before renewal of the contract, and price negotiations conducted if needed. NIB/NISH prices will be adjusted by the Committee's pricing procedures. Periodic review of the purchase description,
delivery terms, or other terms and conditions will be required.

We have referred to the contract extension with the mandatory sources as a "renewal" versus "option" as the contracting personnel do not have the option to conduct a new acquisition to contract with another vendor. While the price and other terms and conditions will be reviewed at the time of the renewal, there is no option to find another source.

Therefore, in accordance with GSAR 517.204, we request your approval to exceed the 5-year contract limitation established at Federal Acquisition Regulation (FAR) 17.204(e) for all mandatory source contracts. Long-term contracts with the mandatory sources will lesson the paperwork burden on our contracting personnel and save on administrative costs, while maintaining continuous contract coverage.

MEMORANDUM FOR THE GSA ACQUISITION WORKFORCE

FROM: JEFFREY A. KOSES

SUBJECT: Retention and Deletion of Federal Supply Schedule (FSS) Clauses

1. Purpose.

This Acquisition Letter revises the following clauses from Acquisition Letter (AL) MV-20-03, I-FSS-600 and I-FSS-644 for use in the FSS program.

2. Background.

On February 27, 2020, GSA issued AL MV-20-03 in order to provide guidance and establish consistent clauses for the FSS program (conforming the clauses that may be used, and clarifying those clauses that were deleted).

Since the publication of AL MV-20-03, the FSS program has made updates to clauses I-FSS-600 and I-FSS-644. Updates to the I-FSS-600 clause include reference to the “GSA Starmark” and corrections to improve readability. Clause I-FSS-644 is updated to align with the “Verified Vendor Portal”, bring greater clarity to manufacturer agreements, and to require the contractor to maintain an uninterrupted source of supply.
3. **Effective Date.**

This Acquisition Letter Supplement (this Supplement) is effective immediately upon signature and remains in effect until rescinded or incorporated into the GSAM.

4. **Cancellation.**

Except for the changed clauses herein, AL MV-20-03, remains in full effect.

5. **Applicability.**

This policy applies to all acquisition activities awarding and administering FSS contracts.

6. **Requirements.**

Requirements are unchanged from AL MV-20-03.

7. **Contracting Officer Actions**

Insert the updated clauses below in solicitations for new awards. Include the updated clauses in modifications to exercise an option to extend an FSS contract.

Updated FSS Clauses

Prescription: Insert the clause at I-FSS-600 in all FSS solicitations and resultant contracts.

As prescribed above, use the following clause in all FSS solicitations and resultant contracts:

I-FSS-600 CONTRACT PRICE LISTS (APR 2021)

(a) Electronic Contract Data.

(1) At the time of award, the Contractor will be provided instructions for submitting electronic contract data in a prescribed electronic format as required by clause 552.238-77, Submission and Distribution of Authorized Federal Supply Schedule (FSS) Price Lists.

(2) The Contractor will have a choice to transmit its file submissions electronically through Electronic Data Interchange (EDI) in accordance with the Federal Implementation Convention (IC) or use the application made available at the time of award. The Contractor’s electronic files must be complete; correct; readable; virus free; and contain only those supplies and services, prices, and terms and conditions that were accepted by the Government. They will be added to GSA’s electronic ordering system known as GSA Advantage!®, a menu driven database system that provides online access to contract ordering information, terms and conditions, up to date pricing, and the option to create an electronic order. The Contractor’s electronic files must be received no later than 30 days after award. Contractors should refer to clause 552.238-88 GSA Advantage!® for further information.

The identifier URL is located at http://www.gsa.gov/logos. Please note that the GSA Starmark may not be used/displayed alone but only in conjunction as a Schedule Contract holder. All resultant “web price lists” shown on the Contractor’s web site must be in accordance with section (b)(3)(ii) of this clause and nothing other than what was accepted/awarded by the Government may be included. (5) The Contractor is responsible for keeping all electronic catalogs data up to date; e.g., prices, product deletions and replacements, etc.

(b) Federal Supply Schedule Price Lists.

A-FSS-011 CONSIDERATION OF OFFERS UNDER STANDING SOLICITATION  
(JAN 2016)

(a) This solicitation is a standing solicitation from which the Government contemplates 
award of contracts for supplies/services listed in the Schedule of Items. This solicitation will 
remain in effect unless replaced by an updated solicitation.

(b) There is no closing date for receipt of offers; therefore, offers may be submitted for 
consideration at any time.

(c) An offer may be rejected if an offeror fails to meet timeframes established by the 
Contracting Officer either to address deficiencies in the offer or to submit a final proposal 
revision. A resubmission(s) is permitted; however, it may be rejected immediately if it is still 
deficient in the area(s) that caused its initial rejection.

(d) Contracts awarded under this solicitation will be in effect for 5 years from the date of 
award, unless further extended, pursuant to clause I-FSS-163, Option to Extend the Term of the 
Contract (Evergreen), canceled pursuant to the Cancellation clause, or terminated pursuant to the 
termination provisions of the contract.

C-FSS-370 CONTRACTOR TASKS / SPECIAL REQUIREMENTS (NOV 2003)

(a) Security Clearances: The Contractor may be required to obtain/possess varying levels of

this contract. Allowable travel and per diem charges are governed by Pub L. 99-234 and FAR 
Part 31, and are reimbursable by the ordering agency or can be priced as a fixed price item on 
orders placed under the Multiple Award Schedule. Travel in performance of a task order will 
only be reimbursable to the extent authorized by the ordering agency. The Industrial Funding 
Fee does NOT apply to travel and per diem charges.

(c) Certifications, Licenses and Accreditations: As a commercial practice, the Contractor 
may be required to obtain/possess any variety of certifications, licenses and accreditations for 
specific FSC/service code classifications offered. All costs associated with obtaining/ possessing 
such certifications, licenses and accreditations should be factored into the price offered under the 
Multiple Award Schedule program.

(i) Government-Furnished Property: As specified by the agency’s order, the Government may provide property, equipment, materials or resources as necessary.

(j) Availability of Funds: Many Government agencies’ operating funds are appropriated for a specific fiscal year. Funds may not be presently available for any orders placed under the contract or any option year. The Government’s obligation on orders placed under this contract is contingent upon the availability of appropriated funds from which payment for ordering purposes can be made. No legal liability on the part of the Government for any payment may arise until funds are available to the ordering Contracting Officer.

(k) Overtime: For professional services, the labor rates in the Schedule should not vary by virtue of the Contractor having worked overtime. For services applicable to the Service Contract Act (as identified in the Schedule), the labor rates in the Schedule will vary as governed by labor laws (usually assessed a time and a half of the labor rate).

CI-FSS-053 INDEMNIFICATION AND LIABILITY (DEC 2009)

For disposal, recycling or salvage services performed under SINs cited in this solicitation, it is understood that the General Services Administration (GSA) does not become an owner, operator, generator, arranger, or transporter of hazardous substances or wastes by executing a schedule contract or by the award of a task order by an ordering agency against a schedule contract for remediation, reclamation, recycling, and disposal services. As a result, GSA shall not incur any liability under any environmental laws for contamination to the extent resulting from the negligent acts or omissions of a schedule contractor performing the services. In addition, the contractor shall be liable for, and shall indemnify and hold harmless the GSA against, all actions or claims for loss of or damage to property or the injury or death of persons to the extent
resulting from the fault, negligence, or wrongful act or omission of the contractor, its agents, or employees.

EXCEPTION: The aforementioned does not apply when GSA is the ordering agency and is procuring remediation, reclamation, recycling and/or disposal services for property it owns and/or for which it has legal jurisdiction.

CP-FSS-002 SIGNIFICANT CHANGES (OCT 1988)

The attention of offeror is invited to the following changes made since the issuance of the last solicitation for the supplies/services covered herein:

This provision is intended solely to facilitate unloading by forklift truck at destination. Under no circumstances should scheduled shipment be delayed due to non-availability of double-door cars.

The contract administrator is also the responsible official for issues concerning 552.238-80, Industrial Funding Fee and Sales Reporting (JUL 2003), including reviews of contractor records.
