Instructions and Standard Operating Procedures. Instructions and procedures are in Attachment 1.
Attachment 1 – Instructions and Standard Operating Procedures
Attachment 1 – Instructions and Standard Operating Procedures

**Instructions:**

GSA will conduct annual Post Award delegated lease file compliance reviews on a pool of projects from the G-REX system selected based on the three risk factors outlined below.

1. Lease value - based on total annual rent
2. Lease size - based on RSF (Rentable Square Footage)
3. Procurement complexity

**Annual Compliance Review Standard Operating Procedures:**

1. GSA will select an audit sample size of 5% of current year actions for review based on highest risk.
2. GSA will review the selected files to assess the following:
   a. Whether the agency failed to submit required documentation to GSA within 30 days of lease award, as outlined in FMR Bulletin C-2, section 5 (c).
   b. Whether the files are in compliance with the conditions of their delegation of authority, as required by FMR Bulletin C-2.
   c. Whether the files indicate any significant violations of procurement regulations.
3. GSA will document this review in a report and transmit this report to the affected agency’s Senior Real Property Officer for information and possible corrective action.
4. All major delegation authority violations or procurement violations cited in the report require a response back to GSA with a corrective action plan as appropriate.

Note that GSA’s post award audit review does not replace the need for the delegated agency to conduct its own program audits and procurement management reviews (PMR).
