D. ETS2 is fully deployed; ETS task order closed.

An MOU template will be available within 15 business days of the date of this Bulletin.

Agencies are urged to aggressively pursue transition to ETS2, as anticipated contract extensions will have significantly higher transaction fees for agencies that use them. The GSA Center for Travel Management will assist agencies as they transition to ETS2.

4. Whom should I call for further information?

For further information, please contact Mr. Frank Robinson, ETS Program Manager Center for Travel Management (QMCD), Office of Travel and Transportation Services (QMC), Federal Acquisition Service, U. S. General Services Administration at frank.robinson@gsa.gov or (703) 605–2151.

Steven Kempf, Commissioner, Federal Acquisition Service, U.S. General Services Administration.

[supplementary information]

[agency information collection request 60-day public comment request]

AGENCY: Office of the Secretary, HHS. In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Office of the Secretary (OS), Department of Health and Human Services, is publishing the following summary of a proposed information collection request for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency’s functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

To obtain copies of the supporting statement and any related forms for the proposed paperwork collections referenced above, email your request, including your address, phone number, OMB number, and OS document identifier, to Sherette.funncoleman@hhs.gov, or call the Reports Clearance Office on (202) 690–6100. Comments and recommendations for the proposed information collections must be directed to the OS Paperwork Clearance Officer at the above email address within 60 days.

**Proposed Project:** The Children’s Health Insurance Program Reauthorization Act (CHIPRA) Express Lane Eligibility (ELE) Evaluation—OMB No. 0990–NEW—Assistant Secretary Planning and Evaluation (ASPE).

**Abstract:** The Office of the Assistant Secretary for Planning and Evaluation (ASPE) is requesting the Office of Management and Budget (OMB) approval on a new collection to evaluate the implementation of a new policy known as Express Lane Eligibility (ELE). With ELE, a state’s Medicaid and/or Children’s Health Insurance Program (CHIP) can rely on another agency’s eligibility findings to qualify children for health coverage, despite their different methods of assessing income or otherwise determining eligibility. CHIPRA authorized an extensive, rigorous evaluation of ELE, creating an exceptional opportunity to document ELE implementation across states and to assess the changes to coverage or administrative costs that may have resulted. The evaluation also provides an opportunity to understand other methods of simplified enrollment that states have been pursuing and to assess the benefits and potential costs of these methods compared to those of ELE. To answer key research questions, ASPE will draw on 5 primary data collections including (1) collecting administrative cost data from ELE and non-ELE states, (2) collecting enrollment data from ELE and non-ELE states, (3) conducting case studies in ELE and non-ELE states, including key informant interviews and focus groups, (4) conducting a 51-state survey (50 states and the District of Columbia) survey, and (5) holding quarterly monitoring calls with 30 states. This request seeks clearance on all data collections except the collection of administrative cost and enrollment data for CHIPRA authorized an extensive, rigorous evaluation of ELE, creating an exceptional opportunity to document ELE implementation across states and to assess the changes to coverage or administrative costs that may have resulted. The evaluation also provides an opportunity to understand other methods of simplified enrollment that states have been pursuing and to assess the benefits and potential costs of these methods compared to those of ELE. To answer key research questions, ASPE will draw on 5 primary data collections including (1) collecting administrative cost data from ELE and non-ELE states, (2) collecting enrollment data from ELE and non-ELE states, (3) conducting case studies in ELE and non-ELE states, including key informant interviews and focus groups, (4) conducting a 51-state survey (50 states and the District of Columbia) survey, and (5) holding quarterly monitoring calls with 30 states. This request seeks clearance on all data collections except the collection of administrative cost and enrollment data for ELE states. The administrative cost data, enrollment data, case studies, and 51-state survey will take place only once over the course of the two year evaluation. The quarterly monitoring calls will take place take place 5 times over the course of the 13 months and will include an initial call of up to an hour in length and 4 shorter follow-up calls of about 15 minutes in length each. The administrative cost and enrollment data collection includes contact with key informants and state-level computer programmers and will be collected using Microsoft document templates. The qualitative case studies will include site visit interviews and senior level key informants in 8 ELE states and 6 non-ELE states, plus focus groups with
