

GSA VETS 2 GWAC

Supporting Your Mission with Government-wide Acquisition Contracts

Coming Soon!

Introduction to VETS 2

Veterans Technology Services 2 (VETS 2) will be a Service-Disabled, Veteran-Owned Small Business (SDVOSB) set-aside that provides federal customers access to customized IT solutions from a highly qualified pool of industry partners. VETS 2 will allow for long-term planning of large-scale program requirements, while maximizing opportunities for SDVOSBs.

Meet Your Socio-economic Goals

VETS 2 will enable your agency to achieve its socio-economic goals and objectives without the time and expense of an open-market procurement. Because VETS 2 is set-aside exclusively for SDVOSBs, agencies can receive SDVOSB credit from awarded task orders.

Contract Scope

In addition to common IT services regularly purchased by the federal government, VETS 2 will also support projects that require new or emerging IT services. Examples of IT services within scope include: Data Management, Information and Communications Technology, IT Operations and Maintenance, IT Security, Software Development, and Systems Design.
