ePM is a web-based project management tool which provides GSA’s Public Buildings Service with an automated workflow, collaboration, document management and project management solution to help manage GSA design and construction projects. ePM consists of several components:

- **Collaboration**: Facilitates collaboration between project team members for all design & construction projects
- **Project Efficiency**: Streamlines the way GSA conducts business by providing project teams with standard process workflows
- **Integration**: Captures project data which can be used by other GSA systems and Business Lines
- **Data Security**: Stores Sensitive but Unclassified (SBU) Building Information in a secure system
- **Claims**: “Activity Log” assists GSA with claims for audit purposes (shows who has read and responded to project information)
- **File Repository**: ePM serves as the electronic filing cabinet for all project related documentation (studies, drawings & specs, meetings minutes, etc.)

**Benefits to GSA Project Managers?**

- ePM is a secure, web-based system for all project information and documents
- Collaborative Tool for the Project Team (GSA, Customers, AEs, CMs, and GCs)
- Provides Regional and National reporting
- Maintains consistency across business lines and regions

**Benefits to Customers & Contractors?**

- Consistent Processes
- Single Point of Entry for Information
- Training and licenses provided to all team members by GSA

**Where do I find ePM information?**

**Internal Users:**
ePM on InSite: [http://insite.gsa.gov/epm](http://insite.gsa.gov/epm)
Follow us on Chatter: PBS electronic Project Management (ePM)

**External Users:**
ePM on GSA.gov: [http://www.gsa.gov/epm](http://www.gsa.gov/epm)

**ePM Help Desk:**
Help Desk: 1 (866) 367-7878
E-mail: epmsupport@gsa.gov
