EXECUTIVE SUMMARY

In accordance with the Inspector General Act of 1987, as amended, the Administrator of the General Services Administration (GSA) submits this report to Congress on final actions regarding audit recommendations. The report covers the period from October 1, 2007, through March 31, 2008. The Act requires the Administrator to report directly to the Congress on management decisions and final actions taken on audit recommendations. The report must also explain why final action on any audit has not been taken one year after the date of the management decision. This report statistically summarizes management's implementation of the recommendations contained in audit reports issued by the General Services Administration's Office of Inspector General. The results achieved clearly demonstrate that GSA's audit follow-up efforts continue to play a significant role in the effective management of the agency's operations and the accomplishment of its mission.

During the reporting period, GSA issued management decisions on 68 audit reports. These included management decisions on 35 audit reports that identified a total of \$1,406,933 in disallowed costs and \$272,849,322 in funds that could be put to better use. The latter category is comprised of estimated and actual cost avoidance determined to have no impact on the agency's budget. The other 33 management decisions did not identify any disallowed costs or funds to be put to better use. There were no management decisions this period that involved actual cost avoidance determined to have a potential impact on the budget.

During the six-month period, final action was taken on 49 audits with management decisions identifying disallowed costs or funds to be put to better use. These actions resulted in the recovery of \$1,652,341 and the implementation of \$1,858,094 of actual cost avoidance that has no impact on the agency's budget.

As of March 31, 2008, 53 internal and contract audit reports remained open without final action one year after the management decision. Of this total, 19 were under formal administrative or judicial appeal. Explanations as to why final actions on the remaining 34 audits that have not been taken are provided in the report.

INTRODUCTION

Overview

This report, submitted pursuant to the Inspector General Act of 1978, as amended, presents management's perspective on audit resolution and follow-up activity at the General Services Administration (GSA) for the period October 1, 2007, through March 31, 2008. This is the agency's 38th report to the Congress since the implementation of the Act (Public Law 100-504). The data in the report indicates that GSA's audit follow-up efforts continue to play a significant role in the effective management of the agency's operations and the accomplishment of its mission.

General Services Administration Organization

GSA is organized around two major business functions represented by the Federal Acquisition Service and the Public Buildings Service. In addition, there are 11 Regions and a number of Staff Offices that provide support to the other GSA organizations.

The Administrator of GSA directs the execution of all functions pertaining to the agency. Members of the Administrator's office, as well as Regional Administrators and Heads of Services and Staff Offices, advise and make recommendations on policy or operational issues of national scope.

Each Service is led by a Commissioner located in the Central Office in Washington, DC. The Commissioners are responsible in their respective functional areas for policy development, program direction, funding, and interfacing with Congressional staffs, clients and other constituents regarding issues of policy of national scope.

Each Region has a Regional Administrator who reports directly to the Administrator and is responsible for managing the Regional functions. GSA's structure requires a matrixed approach to management where communication between the Regions and Central Office organizations is critical to the effective management of the agency.

Agency Audit Follow-up Process

GSA has effective systems in place for keeping track of audit recommendations. It also has senior management commitment to ensure that appropriate corrective action is taken and agency managers have an unambiguous responsibility to act upon the audit recommendations. The following provides a description of the responsibilities of GSA officials involved in the audit follow-up process.

Senior Agency Official

The Deputy Administrator is the Senior Agency Official responsible for audit follow-up in the agency. As such, he has overall responsibility for ensuring the adequacy of the agency's follow-up system, monitoring the resolution of audit recommendations, and ensuring the prompt implementation of corrective actions. He is also responsible for final resolution of any differences between agency management and the Office of Inspector General.

The Chief Financial Officer

The Chief Financial Officer provides administrative direction to the officials in the Office of the Chief Financial Officer who manage GSA's Audit Resolution and Follow-up System. Their responsibilities include:

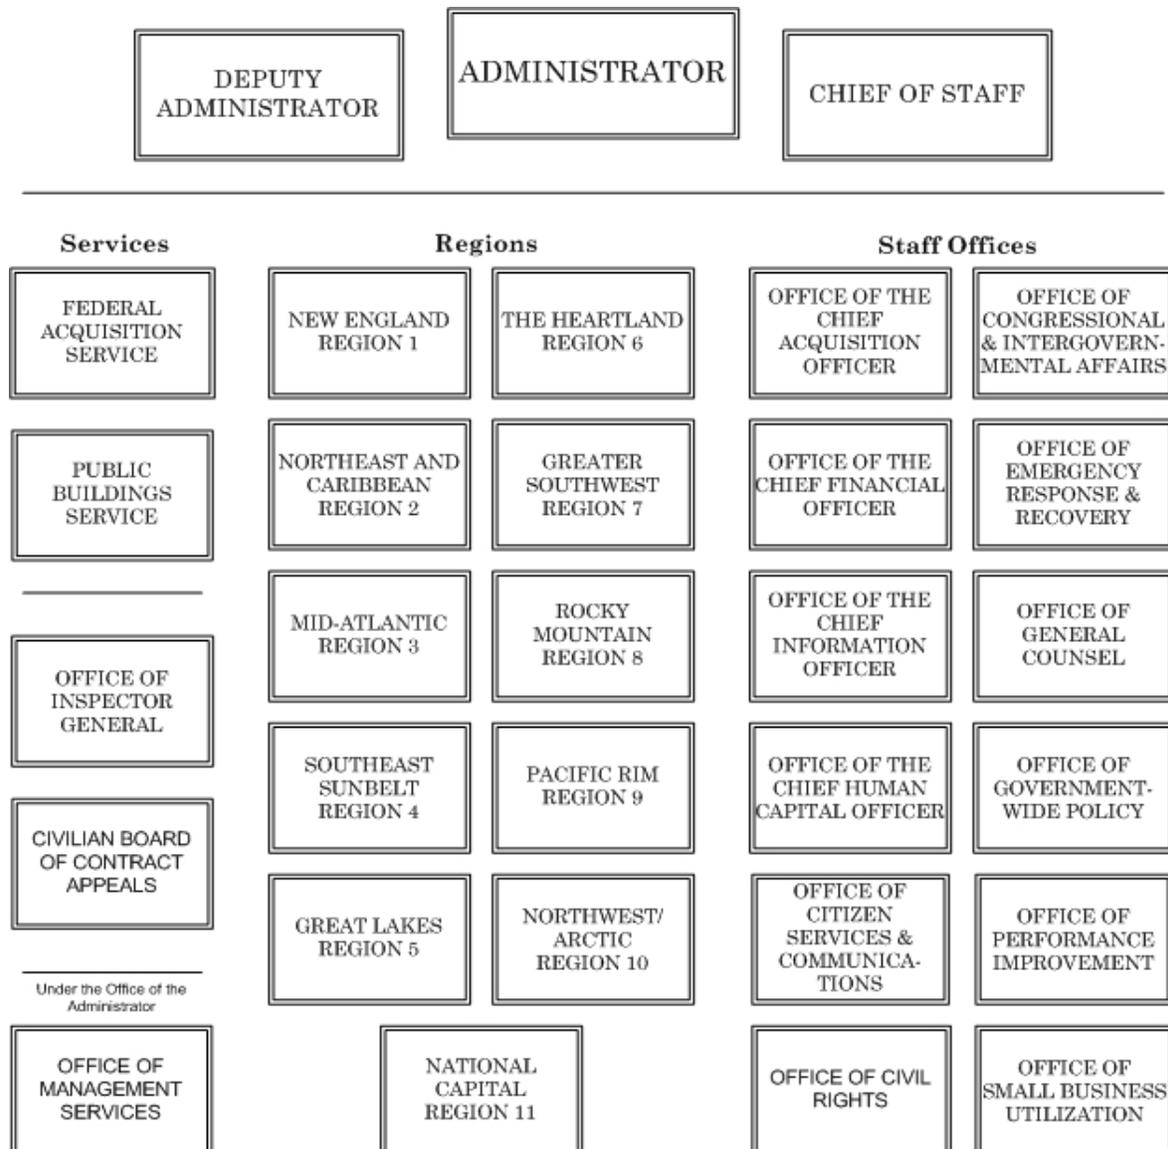

- Acting as the liaison with the Government Accountability Office (GAO) for the coordination of GAO audits in progress within GSA and for coordination of responses to reports for the signature of the Administrator on GAO recommendations as required by law;
- Ensuring timely resolution and implementation of internal and external audit recommendations made by the Office of Inspector General and GAO;
- Overseeing the collection and proper accounting of amounts determined due to the Government as the result of audit-related claims; and
- Maintaining an automated report control system for both internal and external audits that provides an accurate means for tracking and documenting actions taken in implementing audit recommendations.

Heads of Services and Staff Offices and Regional Administrators

Heads of Services and Staff Offices and Regional Administrators to whom audit recommendations pertain have primary responsibility for resolving and implementing recommendations promptly. Their responsibilities include:

- Ensuring controls are implemented to provide timely, accurate, and complete responses to audit reports;
- Developing, advocating, and documenting agency positions on audit recommendations;
- Preparing responses to draft and final GAO reports in coordination with the Office of the Chief Financial Officer; and
- Providing comments on audit decision papers prepared by the Office of Inspector General to ensure that management's position on unresolved audit recommendations is properly stated.

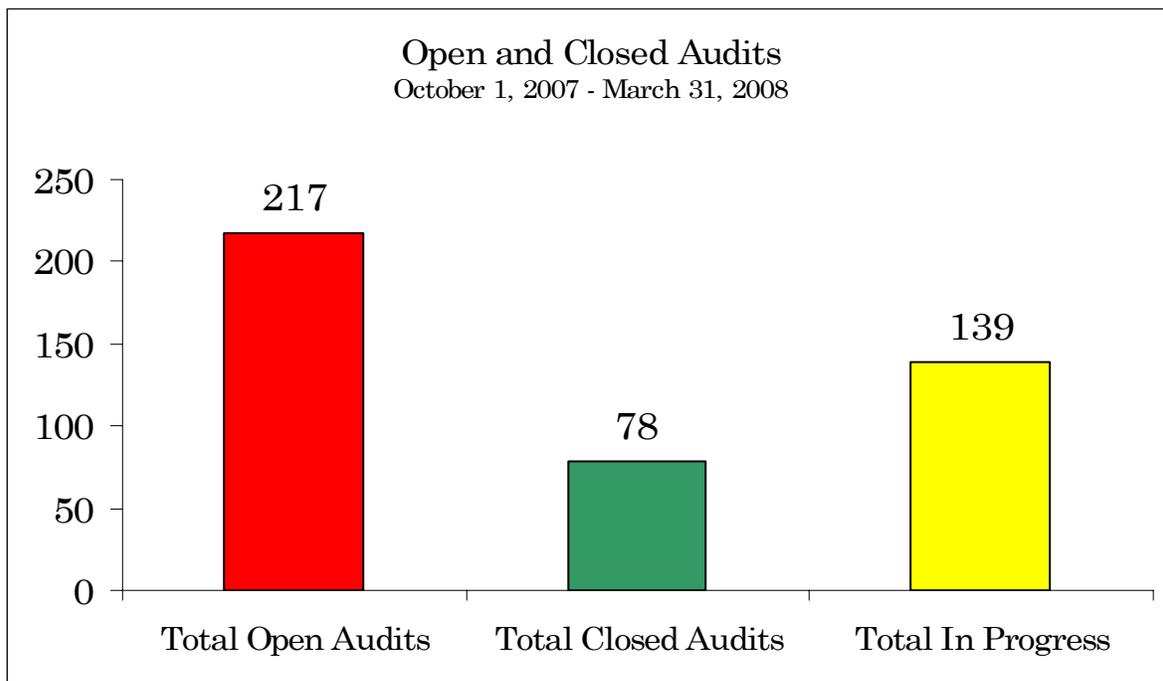

Organization Chart

PROGRESS OF AUDIT CLOSURE

FOR THE SIX-MONTH PERIOD ENDING MARCH 31, 2008

Timely closing of open audits remains a priority for the General Services Administration. In keeping with that focus, the Office of the Chief Financial Officer (OCFO) successfully closed out a substantial number of internal and contract audits during the reporting period of October 1, 2007, through March 31, 2008. During this period, the OCFO successfully closed 36 percent, or 78 internal and contract audits out of 217 audits that were reported as open. The remaining 139 audits could not be closed due to litigation, negotiations, collections, and implementation of corrective actions.

AUDITS WITH DISALLOWED COSTS

<u>Final action for the six-month period ending March 31, 2008</u>	<u>Number of Audit Reports</u>	<u>Disallowed Costs</u>
A. Audit reports for which final action had not been taken by the commencement of the reporting period.	17	\$17,220,546
B. Audit reports on which management decisions were made during the reporting period.	4	\$1,406,933
C. Audit reports on which final action was taken during the reporting period.	6	\$4,613,468
<i>(i) the dollar value of disallowed costs that were recovered by management through:</i>		<i>\$1,652,341</i>
- collections.....\$1,569,831		
- offset.....\$82,510		
- property in lieu of cash.....\$0		
- other..... \$0		
<i>(ii) the dollar value of disallowed costs that were written off by management.**</i>		<i>\$2,961,127</i>
D. Audit reports for which no final action has been taken by the end of the reporting period.	15	\$14,014,011

** For the purposes of this report, write-offs are interpreted to represent the difference between the amount successfully recovered and the disallowed cost, which is a questioned cost that GSA management in a management decision sustained or agreed should not be charged to the Government. However, during negotiations management might have agreed to a smaller amount in order to settle the case with the contractor.

AUDITS WITH BETTER USE FUNDS

<u>Final action for the six-month period ending March 31, 2008</u>	<u>Number of Audit Reports</u>	<u>No Budget Impact – Actual and Estimated</u>	<u>Budget Impact</u>
A. Audit reports for which final action had not been taken by the commencement of the reporting period.	81	\$596,337,871	\$0
B. Audit reports on which management decisions were made during the reporting period.	31	\$272,849,322	\$0
C. Audit reports for which final action was taken during the reporting period.	43	\$409,214,511	\$0
<i>(i) the actual dollar value of recommendations that were actually completed.</i>		\$1,858,094	\$0
<i>(ii) the actual dollar value of recommendations that management has subsequently concluded should not or could not be implemented or completed.</i>		\$771,721	\$0
<i>(iii) the actual dollar value of recommendations that management has subsequently concluded should not or could not be determined (calculated).</i>		\$0	\$0
<i>(iv) the estimated dollar value of “funds to be put to better use” as agreed to by GSA management and the OIG.</i>		\$406,584,696	N/A
D. Audit reports for which no final action had been taken by the end of the reporting period.	69	\$459,972,682	\$0

GLOSSARY OF TERMS

The following definitions, based on the Inspector General Act Amendment of 1988, apply to terms used in this Semiannual Management Report:

Questioned Costs. Costs questioned by the Office of Inspector General (OIG) as a result of:

- an alleged violation of a provision of a law, regulation, contract, grant, cooperative agreement, or other agreement or document governing the expenditure of funds;
- a finding that, at the time of an audit, such cost is not supported by adequate documentation; or
- a finding that the expenditure of funds for the intended purpose is unnecessary or unreasonable.

Disallowed Cost. Questioned costs that General Services Administration management in a management decision sustained or agreed should not be charged to the Government.

Recommendation that Funds be Put to Better Use. A recommendation by the OIG that funds could be used more efficiently if management took action to implement and complete the recommendations, including:

- reductions in outlays;
- de-obligation of funds from programs or operations;
- costs not incurred by implementing recommended improvements related to the operations of the establishment, a contractor or grantee;
- avoidance of unnecessary expenditures noted in pre-award reviews of contract or grant agreements; or
- any other savings that are identified specifically.

Management Decision. The evaluation by management of the findings and recommendations included in an audit report and the issuance of a final decision by management concerning its response to such findings and recommendations, including planned corrective actions to remedy weaknesses identified in the report.

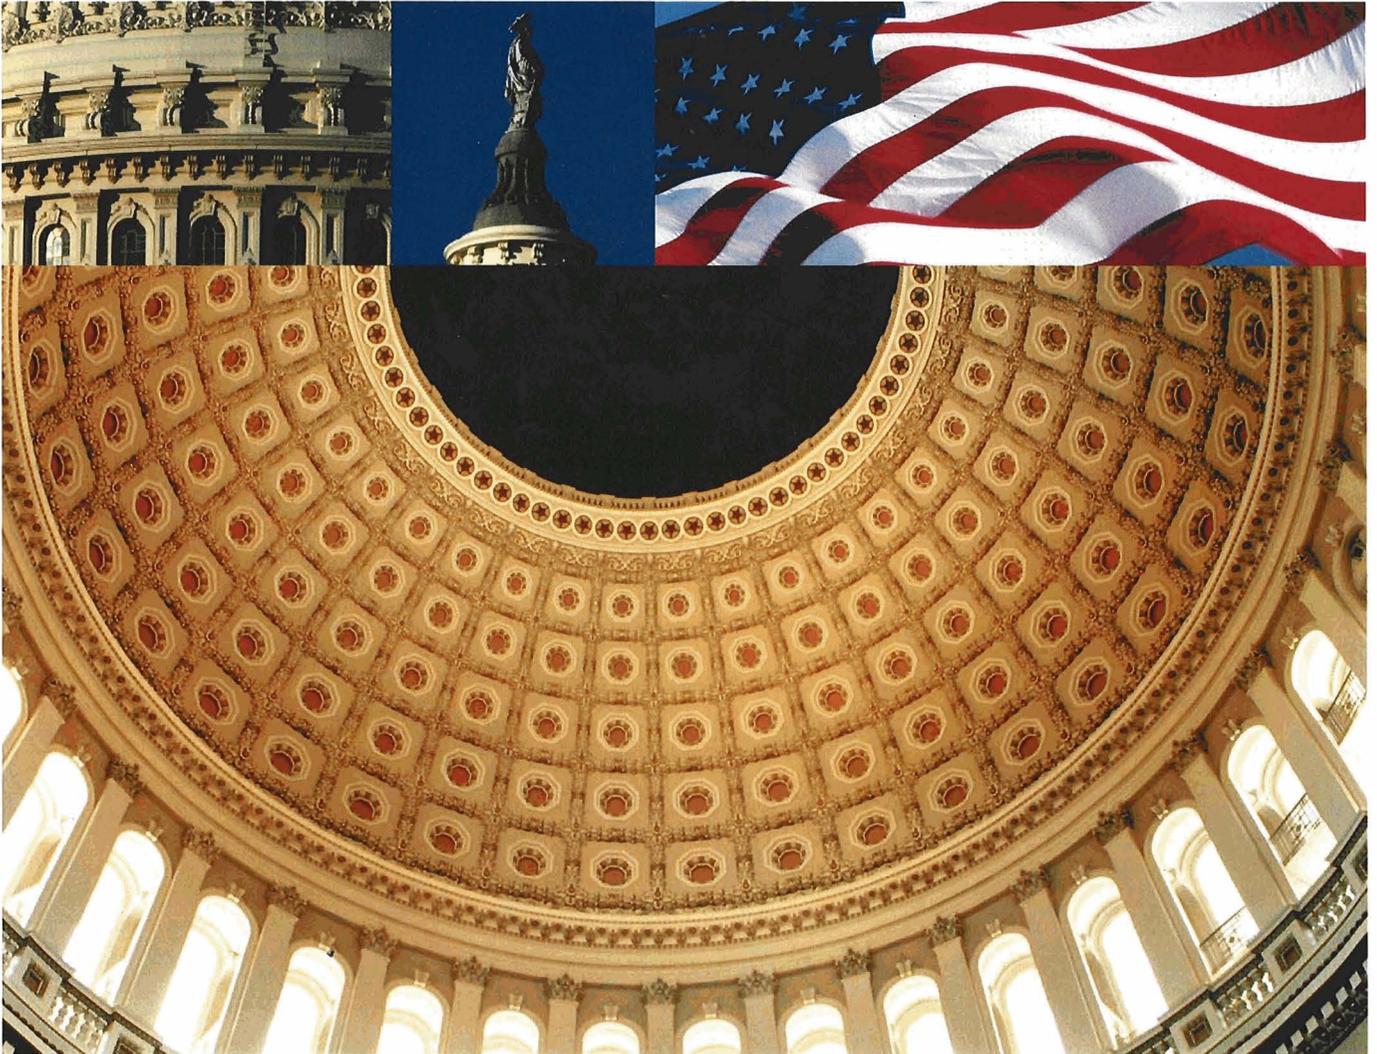

Final Action. The completion of all actions that General Services Administration (GSA) management concluded in its management decision were necessary with respect to the findings and recommendations included in the audit report. In the event that GSA management concluded no action was necessary, final action occurred when the management decision was made.

Management Actions – Questioned Costs. The following is a list of the different management actions used by GSA management to resolve questioned costs in an audit report:

- **Audit reports where management decisions were made during the period.** The number of audit reports on which management decisions were made during the period and the associated amount of disallowed costs were furnished by the Office of Inspector General (OIG).
- **Write-offs.** The difference between the disallowed cost and the amount successfully recovered.

Management Actions – Better Use Funds. The following is a list of the different management actions used by GSA management to resolve the “better use” of funds in an audit report:

- **Better Use Funds.** The figure that represents amounts cited as “cost avoidance” and “funds to be put to better use,” as agreed to by GSA management and the OIG.
- **Budget Impact Funds.** Funds identified as “budget impact” involve the obligation process. Audit-related savings of these funds, depending on the particular fund involved, may be available for reprogramming.
- **No Budget Impact Funds.** Funds identified as “no budget impact” are composed of estimated and actual amounts, and do not involve obligated monies, and, therefore, cannot be construed as having a material effect on GSA’s appropriated funds.
- **Audit reports where management decisions were made during the period.** Data pertaining to the number of audit reports on which management decisions were made during the period and the associated dollar amounts agreed to by management were furnished by the OIG.
- **Value of recommendations that management concluded should not or could not be calculable.** Management was unable to determine the award amounts and “better use funds” implemented since the amount is included in the overall award to the prime contractor and savings could not be determined.
