

U.S. General Services Administration

# Federal Acquisition Service

## Procurement Impact of EO 13514 *Federal Leadership in Environmental, Energy, and Economic Performance*

**Adam Jones**  
**Procurement Analyst**  
**Program Analysis Division**

**March 23, 2010**

## Executive Order 13514

- Covers all components of sustainability, including GHG management
- Section 2: Goals for agencies
  - Advancing sustainable acquisition
- Section 13: Recommendations for creating a sustainable supply chain

# Sustainable Acquisition

- Defining sustainable acquisition
- Current acquisition flexibilities (FAR Part 23)
- Impact on GHG emissions
  - Scopes 1 & 2
  - Scope 3

## Creating a Sustainable Supply Chain

- Must explore feasibility of:
  - Requiring vendors to report GHG emissions through voluntary registries or other organizations
  - Mandating GHG emissions inventory disclosure
  - Purchasing preferences for GHG disclosure/reduction
