<p>SUMMARY OF FAIR OPPORTUNITY DECISIONS MADE ON NETWORK CONTRACTS</p> <p>The Networkx contracts allow individual agencies to place, as a result of fair opportunity (FO) decisions, delivery/task orders under these contracts to satisfy the Agencies' requirements. GSA does not collect specific information correlating Agencies' fair opportunity decisions and delivery or task orders, including "Estimated FTS2001 Value (\$M); that information may be available only from the Agencies themselves. Agencies are, however, required to notify GSA's Networkx Contracting Officers when the Agencies make each FO decision.</p> <p>The attached report lists FO decisions the Agencies have reported to GSA. • Column (1) – Letter Date: The date of the Agency's FO notification to GSA. • Column (2) – Agency Bureau Name (Subagency): The name of the Agency or sub-Agency that made the FO decision. • Column (3) – Networkx Contractor Selected: The Networkx contractor the Agency selected in its FO decision and the respective contract number. • Column (4) – Contract Number • Column (5) – Services Selected: The Agency's description of its FO decision.</p>
