

AMENDED (SEPTEMBER 14, 2006)

SPECIAL FILING INSTRUCTIONS

2006 - 2007

**National Industries for the Blind & Severely Handicapped,
Western Distribution Center, Eastern Distribution Center
& Federal Correctional Institution**

SECTION 1

TERMS AND CONDITIONS

GENERAL: The following Request for Offers (RFO) and its Special Filing Instructions (SFI) are provided in addition to the terms and conditions of the General Services Administration's (GSA's) Standard Tender of Service (STOS), General Freight Traffic Management Program, GSA General Freight Tender of Service No. 1-F (GSA TOS No. 1-F) dated December 04, 2001, supplements and reissues thereto. However, certain provisions and requirements of this RFO and this SFI may deviate from and supersede those published in the STOS, GSA TOS No. 1-F.

Traffic to be included under this RFO and this SFI will be freight-all-kinds (FAK) shipments moving via closed van for all less than truckload (LTL) (0 pounds to 10,000 pounds) shipments and all truckload (TL) (20,000 pounds to 40,000 pounds and over) shipments. Rates will be applicable only to interstate shipments moving in the Continental United States (CONUS) and the identified intrastate shipments within CONUS.

Non-alternating Standing Route Orders (SRO) rate offers are being requested where SRO is defined as the normal, repetitive movement of two or more shipments per month of specific items between specified points. The non-alternating SRO rate offers being requested will apply specifically to those agencies/locations identified in Sections 8, 9 and 10 of this RFO and this SFI and WILL NOT alternate with any other accepted rate offer and the accepted rates and charges MAY NOT be used in the construction of combination through rates, charges or other provisions.

Non-alternating SRO rate offers will be accepted for the following facilities:

1. Section 8 Non-alternating SRO's for the National Industries for the Blind & Severely Handicapped (NIB/NISH):

Various NIB/NISH work shops located within CONUS shipping to the Western Distribution Center, French Camp, CA, Eastern Distribution Center, Burlington, NJ, CONUS, and Intrastate.

2. Section 9 Non-alternating SRO's for the Western Distribution Center (WDC), French Camp, CA:

LTL and TL shipments from French Camp, CA to CONUS and intrastate CA.

3. Section 10 Non-alternating SRO's for the Eastern Distribution Center (EDC), Burlington, NJ:

LTL and TL shipments from Burlington, NJ to CONUS, intrastate NJ, and Guaranteed Zone traffic.

1-1. **EFFECTIVE PERIOD:** Acceptable rate offers submitted in response to this RFO and this SFI for Section 8 will be for the period **November 1, 2006 through October 31, 2007**; and for Section 9 & 10 will be for the period **November 1, 2006 through October 31, 2008 with an option for the WDC/EDC to extend from November 1, 2008 through October 31, 2009**.

1-2. **FILING PERIOD:**

A. **INITIAL FILINGS:** Rate offers made by Transportation Service Providers (TSPs) approved to participate in GSA's Freight Management Program are due by 4:30 p.m. Central Standard Time, **October 02, 2009**, and will be processed in accordance with 1-2.C.

B. REFILINGS OF ELECTRONICALLY SUBMITTED FILING DEFICIENCIES: Electronic rate filings received between **September 1, 2006, through October 02, 2006**, which do not meet the requirements as stated in this RFO and this SFI will be considered unacceptable and rates will not be included in GSA's Transportation Management Services Solution (TMSS) system. TSPs utilizing the FTP will be notified daily of any deficiencies submitted per **Section 12-4** by an e-mail confirmation acknowledging the receipt and processing of the file. The e-mail will contain the number of records processed and the number of errors encountered. If a firm's rate offer is submitted in accordance with this RFO and this SFI by a Rate Filing Service Provider (RFSP), the RFSP will be notified of the deficiencies and not the firm. Corrected rate offers **must be** resubmitted no later than **October 2, 2006**. In those instances where corrections are not received by **October 2, 2006**, rate offers will be considered unacceptable and the firm will not be allowed to re-file. TSP's utilizing TMSS online rate filing will **NOT** receive error reports on the FTP since the validation notifies the TSP in real time of any errors encountered.

RATE OFFERS SUBMITTED BY FTP WILL BE VALIDATED DAILY, ALLOWING TSP'S TO RESUBMIT CORRECTIONS AFTER EACH VALIDATION. RATE FILES AND ERROR CORRECTIONS SUBMITTED ON THE CLOSING DATE OF OCTOBER 2, 2006, WILL BE VALIDATED AT 10:00AM, 1:00PM AND 4:30PM CST. TSPS AND RFSPS WILL NOT HAVE AN OPPORTUNITY TO CORRECT ANY ERRORS FOUND DURING THE 4:30PM VALIDATION.

RATE OFFERS CREATED WITHIN TMSS ONLINE RATE FILING ARE VALIDATED IN REAL TIME.

C. ACCEPTED/EFFECTIVE DATE: Initial rate offers allowable under Paragraph 1-2.A. will be accepted into TMSS by November 1, 2006, except in those instances of a failure to meet the resubmission requirements of corrected Rate Filing Deficiencies as identified in Paragraph 1-2.B

D. TSP NOTIFICATIONS: If the submitting TSP or RFSP receives no communication from GSA pursuant to Paragraph 1-2.B. by November 1, 2006, the TSP or RFSP is on notice that its rate offer(s) has been offered to GSA's Office of Transportation Audits.

E. ACCEPTED/EFFECTIVE DATE: Rate offers will be accepted and entered into TMSS on the date indicated below or the first working day of the month, whichever occurs later.

F. INITIAL FILINGS: Initial rate offers allowable under Paragraph 1-2.A. will be processed as shown below, except in those instances of a failure to meet the resubmission requirements of corrected Rate Filing Deficiencies as identified in Paragraph 1-2.B:

SRO	DATE RECEIVED	COMPUTER ENTRY DATE	ACCEPTED/EFFECTIVE DATES
Section 8 NIB/NISH	09/01/06 through 10/02/2006	11/01/2006 or before	11/01/2006 through 10/31/2007
Section 9 WDC with option to extend	09/01/06 through 10/02/2006	11/01/2006 or before 11/01/2008	11/01/2006 through 10/31/2008 11/01/2008 through 10/31/2009
Section 10 EDC with option to extend	09/01/06 through 10/02/2006	11/01/2006 or before 11/01/2008	11/01/2006 through 10/31/2008 11/01/2008 through 10/31/2009

1-3. APPLICABILITY OF RATE OFFERS: By submission of a rate offer to GSA for the traffic identified in this RFO and this SFI, the offeror agrees that it can and will service the identified origin facility for which a rate is offered and all points within each identified destination State and/or destination service area for which a rate is offered.

Note: As a TSP submitting a rate offer in accordance with this RFO and this SFI for the support of NIB/NISH, WDC and/or EDC traffic, you are stating you will honor that rate. Failure to do so could result in Temporary Nonuse, Debarment, or Suspension within GSA's Freight Management Program.

1-4. OPTION TO EXTEND: The Government reserves the right to extend the expiration date of all or part of the rate offers accepted in accordance with this RFO and this SFI for up to ninety (90) days.

1-5. TERMINATION:

A. The following provision will apply in addition to Item 18.e. of the Optional Form 280 (REV. 6/2003):

1. Accepted rate offers may be terminated upon determination that a TSP has failed to satisfactorily respond to a show cause notice(s); and accepted rate offers may be terminated by the Government immediately upon the debarment or suspension of the TSP in accordance with the 41 Code of Federal Regulation (CFR) 102-117.

B. Upon termination of the rate offer under 1-5.A.1 and/or 2 above, the TSP shall be paid any sum due the TSP for services performed under this RFO and this SFI to the date of such termination; and in the event of partial termination, shall be paid in accordance with the terms of this rate offer for any services furnished under the portion of the rate offer that is not terminated; provided any such payments shall be without prejudice to any claim which the Government may have against the TSP and the Government shall have the right to offset any such claims against such payment.

1-6. **TERMINATION FOR CONVENIENCE OF THE GOVERNMENT:** The Government, by written notice, may terminate all or part of the rate offers accepted in accordance with this RFO and this SFI when it is in the Government's best interest. If a rate offer(s) is terminated, the Government shall only be liable for payment for services rendered before the effective date of the termination.

1-7. **CONTACTS:** Questions dealing with the identified NIB/NISH & WDC traffic should be directed to Maria Gutierrez at (415) 522-2846 or by e-mail at maria.gutierrez@gsa.gov. Questions dealing with the identified EDC traffic should be directed to Mathis Gardner at (202) 619-8933 or by e-mail at mathis.gardner@gsa.gov. Questions dealing with the submission of electronic rate offers should be directed to Jim Stroup at (816) 823-3646 or by e-mail at jim.stroup@gsa.gov.

SECTION 2 EVALUATION AND ACCEPTANCE

2-1. **EVALUATION:** The GSA Transportation Management Branch, San Francisco, CA, will conduct all evaluations of rate offers submitted for the identified WDC and NIB/NISH traffic. The GSA Transportation Management Branch, Washington, DC will conduct all evaluations of rate offers submitted for the identified EDC traffic. TSP notification of acceptance will be in accordance with Paragraph 1-2.D.

2-2. **ACCEPTANCE:** Accepted rate offers will be contained in GSA's Transportation Management Services Solution (TMSS) system. When identified in TMSS, the acceptable rate offers will be listed based on price only. The listing of TSP's and their rate offers will be based on the anticipated shipping date, the origin of the shipment, the destination of the shipment, the weight of the shipment, the number of miles between the origin and destination of the shipment, and any accessorial services requested by the customer agency. TSP's with applicable rates for the requested shipment will be listed on the cost comparison in cost ascending order. In the case of brokers and shippers agents/Intermodal Marketing Companies, please note that the broker's name and/or the shipper agent's/Intermodal Marketing Company's name and not the names of its underlying TSP's will be identified on cost comparisons. However, when rate information is made available to GSA's Office of Transportation Audits, rate information will be submitted in the name of the broker's and/or a shipper agent's/Intermodal Marketing Company's underlying TSP's and not in the name of the broker and/or the shipper agent/Intermodal Marketing Company. If the occasion arises when two or more TSP's have offered the exact same rate offer (both for transportation and the requested accessorial services), then the TSP's will be listed on the cost comparison in alphabetical order according to the TSP's names.

PLEASE NOTE: The GSA Transportation Management Branch, San Francisco, CA and the GSA Transportation Management Branch, Washington, DC may consider other factors when routing shipments other than just price. As a result, the listing of TSP's on a cost comparison is for viewing/verification purposes only and does not guarantee any traffic will be awarded.

SECTION 3
LETTER OF INTENT CERTIFICATION

By the submission of a rate offer to GSA in accordance with this RFO and this SFI, the submitting TSP certifies that:

I have read and will comply with all the provisions contained in this request dated September 1, 2006, as well as any supplements, changes, and/or reissues thereto and the GSA Standard Tender of Service (STOS), GSA General Freight Tender of Service No. 1-F, the GSA National Rules Tender No. 100-D, and the GSA Baseline Rate Publication No. 1000-D, all effective December 4, 2001, as well as any supplements, changes, and/or reissues thereto and I further certify that the company for which rate offers have been submitted has the operating authority and insurance required by Item 1-6 (See Below) and Section 2 of the GSA General Freight Tender of Service No. 1-F.

Item 1-6 of the GSA General Freight Tender of Service No. 1-F reads as follows:

“LAWFUL PERFORMANCE, OPERATING AUTHORITY, AND INSURANCE. All service shall be performed in accordance with applicable Federal, State, and local laws and regulations. Common motor carriers or brokers, freight forwarders, rail carriers, shippers agents, or shippers associations shall possess the required carrier or Surface Transportation Board (STB) broker operating authority and maintain cargo as well as public liability insurance as required by Federal, State, and local regulatory agencies.”

SECTION 4
SUBSTITUTED SERVICE – RAIL FOR MOTOR

If a TSP utilized Item 1125, Substituted Service – Rail for Motor, of the GSA National Rules Tender No. 100-D for shipments moving under this RFO and this SFI, the submission of a rate offer(s) constitutes agreement to the terms and conditions of Item 1125 and that rates submitted include for the proper blocking and bracing by the TSP for Trailer-On-Flat-Car (TOFC) or Road Railer movement to preclude damage to the material.

SECTION 5
**TERMS & CONDITIONS OF THE UNIFORM TENDER OF RATES AND/OR CHARGES FOR
TRANSPORTATION SERVICES**

By submission of a rate offer(s) to GSA in accordance with this RFO and this SFI, the submitting TSP agrees to and/or meets the terms and conditions of the Uniform Tender of Rates And/Or Charges For Transportation Services, Optional Form 280 (REV. 06/2003), except as provided in Paragraph 1-5.

SECTION 6
TERMS AND CONDITIONS FOR BILLS OF LADING ISSUED FOR GOVERNMENT SHIPMENTS

Per this RFO and this SFI, all Government shipments handled pursuant to the STOS will be subject to the terms/conditions contained in [41 CFR §§102-117 and 102-118](#). These terms and conditions have been incorporated into the Optional Form 280 (OF280). Therefore, any shipment moving under an accepted rate offer submitted on an OF280 is automatically subject to the Government’s shipping “terms and conditions.” In accordance with [Section 5](#) rate offers accepted in accordance with this RFO and this SFI are also automatically subject to the Government’s shipping “terms and conditions.” The bill of lading for any such shipment must contain the statement “This is a U.S. Government shipment.” For a complete description of the Government’s shipping terms/conditions, please visit <http://www.gpoaccess.gov/cfr/> search for “[Transportation Management](#)” (41 CFR § 102-117) or “[Transportation Payment and Audit](#)” (41 CFR § 102-118), as appropriate.

AMENDED (SEPTEMBER 14, 2006) SECTION 7A
BASIS FOR DETERMINING APPLICABLE DISTANCE/MILEAGE

Per this RFO and this SFI, auditing of freight shipments identified herein and handled pursuant to the STOS will be based on mileage provided by ALK Technologies, Inc., 5 digit Zip Code, Version 20 (coincides with PC*Miler 20.) ALK Technologies, Inc., 5 digit Zip, Version 20 will be used to determine highway mileages for all surface freight shipments between any two locations within the Contiguous United States (CONUS) (i.e., the lower 48 states and the District of Columbia). Exceptions to the use of ALK Technologies, Inc., mileage are domestic non-express small package shipments. The TSP industry will be notified of any future Version updates. Below is the basis to be used when constructing mileage for shipments moving within the contiguous United States:

GENERAL: borders closed, shortest mileage, ferry on.

OW/OD: borders closed, practical miles, ferry on.

HAZMAT; borders closed, practical miles, ferry on.

For a full description of Default Settings, please refer to: <http://dtod.sddc.army.mil/>.

AMENDED (SEPTEMBER 14, 2006) SECTION 7B
APPLICATION OF 4% TRANSACTION FEE

As identified in the Federal Register Notice dated August 25, 2006, effective January 1, 2007, TSPs will be required to remit directly to GSA a 4% transaction fee (applicable to the total net transportation charges, including the fuel surcharge) on all transportation invoices paid after December 31, 2006, for those shipments identified in this Request for Offers and Special Filing Instructions. TSP's will be able to access the Transportation Management Services Solution (TMSS) system to generate quarterly reports that list each transaction, total transportation charges, and the applicable transaction fee owed. As a reminder: While the 4% transaction fee does not go into effect until January 1, 2007, TSPs should consider the 4% when filing rates for the November 1, 2006, effective date as there will be no opportunity to adjust rates when the 4% becomes effective on January 1, 2007.

SECTION 8

IDENTIFICATION OF NON-ALTERNATING, STANDING ROUTE ORDER TRAFFIC FOR THE NATIONAL INDUSTRIES FOR THE BLIND AND SEVERELY HANDICAPPED (NIB/NISH)

8-1. IDENTIFICATION OF NON-ALTERNATING STANDING ROUTE ORDER (SRO) TRAFFIC: Listed below are the NIB/NISH Work Centers for which the General Services Administration (GSA) is requesting **non-alternating** SRO rate offers. Rate offers may only be submitted for non-alternating SRO rate requests when specifically requested and/or authorized by GSA. Rate offers submitted in response to this RFO and this SFI for the identified NIB/NISH traffic **WILL NOT** alternate with any other accepted rate offer and the accepted rates and charges **MAY NOT** be used as factors in the construction of any combination rates or charges. A **SEPARATE RATE OFFER MUST** be submitted for **EACH** NIB/NISH - Agency Code for which a TSP intends to submit a rate offer. Rates will only be accepted for the origins/destinations identified below. Rates submitted for any other origin/destination will automatically be rejected. An offering TSP must be able to service all points within each destination state or destination code for which a rate is offered. Rates may be, but are not required to be, submitted for all origins/destinations requested. **If the origin/destination is a particular city or cities, the accepted rate offer will only be applicable to the identified city or cities and not the entire state in which the city or cities are located.**

PLEASE NOTE: **STATE TO STATE RATE OFFERS WILL NOT** be applicable from a NIB/NISH Work Center to the Western Distribution Center or Eastern Distribution Center.

Only those rate offers submitted by the Initial Filing due date identified in Paragraph 1-2.A will be considered for acceptance. **THERE WILL BE NO SUPPLEMENTAL FILINGS.**

Truckload rate offers **MUST** be submitted as cents per mile with a minimum charge per vehicle used;

NIB/NISH Work Centers most frequently ship to the GSA Distribution Centers located in French Camp, CA and Burlington, NJ

The Table provided in Paragraph 8-1.A. identifies destination service areas, Table 8-1.B. identifies partial commodities and whether the facility ships predominately LTL, TL, or both types of shipments; however, we are requesting that rate offers be submitted for both LTL and TL if the TSP can provide the required service.

8-2. HISTORICAL TRAFFIC VOLUME: Identified on the following pages is historical traffic volume for fiscal year 2006 for the identified NIB/NISH Work Centers. These figures are the combination of both Less Than Truckload and Truckload shipments. The data provided should not be interpreted as a guarantee to the TSP that future traffic will amount to these quantities. The Government makes no guarantee that these quantities or any quantities will be shipped. Failure of estimates to materialize will not constitute a basis for rate adjustments.

A. The table below identifies historical traffic volume as it relates to shipments moving from the identified Work Centers to the GSA Distribution Centers located in French Camp, CA, and Burlington, NJ.

****NOTE****
Historical traffic volume listed in “RED” was not available at time of RFO and was brought forward from previous historical traffic volume as it relates to shipments moving from the identified Work Centers and therefore not included in the “GRAND TOTAL”.

SECTION 9
IDENTIFICATION OF NON-ALTERNATING, STANDING ROUTE ORDER (SRO) TRAFFIC FOR
THE WESTERN DISTRIBUTION CENTER (WDC), FRENCH CAMP, CA

9-1 IDENTIFICATION OF NON-ALTERNATING STANDING ROUTE ORDER (SRO) TRAFFIC:

Listed below are the Western Distribution Center (WDC) SRO's for which the General Services Administration (GSA) is requesting **non-alternating** rate offers. Rate offers may only be submitted for non-alternating SRO rate requests when specifically requested and/or authorized by GSA. Please note that **"BETWEEN"** rate offers are being requested for the WDC. By **"BETWEEN"** it is meant that the same rate offered from the WDC to a destination will **ALSO** apply from that destination to the WDC. A firm is not required to offer rates to each of the identified Destination Service Area Codes. Offers received that contain origins/destinations not identified below will be found unacceptable. An offering firm must be able to service all points within an identified Destination Service Area Description. Rate offers submitted in response to this Request for Offers (RFO) and its Special Filing Instructions (SFI) for the identified WDC traffic **WILL NOT** alternate with any other accepted rate offer and the accepted rates and charges **MAY NOT** be used as factors in the construction of any combination rates or charges. An offering TSP must be able to service all points within each destination service area for which a rate is offered. GSA'S WDC, is located at **700 E Roth Road, Bldg 230, French Camp, CA 95231**.

Please note the following reminders and/or significant items:

- A. Carriers may submit less than truckload and truckload rate offers for the WDC; however, **ALL** truckload rate offers must be submitted in cents per mile per vehicle used along with a minimum truckload charge.
- B. Carriers who are selected for WDC assignments may also be offered freight shipments weighing 350 pounds or more from the Customer Supply Center, Building 510B. Charges will be based on the selected TSP's tender for the WDC shipments; however, service requirements for transit time, beginning the day after pickup, will be:
 - A. Overnight Service for Travis Air Force Base
 - B. Two (2) days for points within California,
 - C. Three (3) days for points to AZ, CO, ID, OR, NM, NV, UT, WA.
 - D. Four (4) days for points to OK and TX
 - E. All other states are normal industry transit times
- C. Carriers who submit rate offers for California intrastate shipments and less than truckload interstate shipments **MUST** have the capability to pickup the shipments in company owned/operated equipment. Use of pickup agents will not be allowed. Carriers **MUST** also have carrier owned/operated terminal facilities in the Sacramento and/or San Joaquin Valley areas and/or the San Francisco Bay Area.

PLEASE NOTE: Only those rate offers submitted by the Initial Filing due date identified in Paragraph 1-2.A will be considered for acceptance. THERE WILL BE NO SUPPLEMENTAL FILINGS.

AMENDED (SEPTEMBER 14, 2006) SECTION 10
IDENTIFICATION OF NON-ALTERNATING, STANDING ROUTE ORDER TRAFFIC FOR THE
EASTERN DISTRIBUTION CENTER (EDC), BURLINGTON, NJ

10-1. IDENTIFICATION OF NON-ALTERNATING STANDING ROUTE ORDER (SRO) TRAFFIC: Listed below are the Eastern Distribution Center (EDC) SRO's for which the General Services Administration (GSA) is requesting **non-alternating** rate offers. Rate offers may only be submitted for non-alternating SRO rate requests when specifically requested and/or authorized by GSA. Please note that **"BETWEEN"** rate offers are being requested for the EDC, Burlington, NJ. By **"BETWEEN"** it is meant that the same rate offered from the EDC to a destination city would also apply from the destination city to the EDC. Rate offers submitted in response to this Request for Offers (RFO) and its Special Filing Instructions (SFI) for the identified EDC traffic **WILL NOT** alternate with any other accepted rate offer and the accepted rates and charges **MAY NOT** be used as factors in the construction of any combination rates or charges. An offering TSP must be able to service all points within each destination service area for which a rate is offered.

PLEASE NOTE: Only those rate offers submitted by the Initial Filing due date identified in Paragraph 1-2.A will be considered for acceptance. THERE WILL BE NO SUPPLEMENTAL FILINGS.

10-2. COMMODITY APPLICATION: Shipments shall consist of FAK, including hazardous material, excluding Class A, B, and C explosives. Hazardous materials will be specifically described on the shipping document in accordance with 49 CFR 172.202.

10-3. HAZARDOUS MATERIALS:

A. Each TSP that picks up and/or transports a hazardous material shipment must maintain emergency response information as specified in 49 CFR 172.602 in the same manner as prescribed for shipping papers. The TSP must have in its possession a copy of the current Department of Transportation Emergency Response Guidebook when picking up and/or transporting a shipment of hazardous material. This information must be immediately accessible to a transport vehicle operator or crew in the event of an accident involving hazardous materials.

B. If placarding is required by the American Trucking Association, Inc., Hazardous Material Tariff, ICC ATA-111 series (current version) or BOE-6000 (current version), supplements thereto and revisions thereof, shipper will provide the placards and TSPs will affix placards at no additional cost.

10-4. LIABILITY OF TSP AND GOVERNMENT:

A. Notwithstanding the provisions of 41 CFR 102-117 and 102-118 and 41 CFR 102-1 through 102-220, property transported under the provisions of this RFO and this SFI and the Standard Tender of Service (STOS) shall be valued at full value.

B. Shipments will normally be loaded by the TSP at origin and unloaded by the TSP at destination.

C. The TSP agrees that offered rates and charges include securing of loads and protection from the elements. TSP will be responsible for the proper blocking, bracing, and placarding of those shipments which move in Trailer on Flat Car (TOFC) service.

10-5. SERVICE REQUIREMENTS:

A. The TSP shall furnish suitable and sufficient personnel and equipment to perform pickup, sorting, and delivery services of freight which may be required each day. Vehicle requirements may vary on a daily basis depending on such factors as type of shipment, quantity, and destination unloading conditions (loading dock height, street unloading, etc...).

B. All freight must be transported in clean and sound closed vehicles of sufficient size to accommodate the shipment and must be of a type that can be locked during transit.

10-6. RESPONSIVE SERVICE:

A. The TSP agrees to have sufficient equipment and personnel in the EDC prior to the effective date of the rate offers and to respond to pickup requirements within 4 hours from time of request for services. TSPs will be required to maintain sufficient equipment and personnel to furnish responsive pickup service and backup support in the event of equipment breakdown or personnel failure to meet pickup and delivery schedule.

B. The TSP will have an acceptable terminal approved by GSA. The minimum features of an acceptable terminal will be: Dock and Floor Space sufficient to handle the volumes of freight to be transported.

10-7. EQUIPMENT POOL:

A. The TSP agrees to supply a pool of at least one empty van-type trailer at the EDC as required.

B. Detention charges will not apply to pool equipment.

C. The TSP will deliver its trailers or vans for the specific purpose of transporting freight to be shipped.

D. The TSP agrees to spot trailers for loading at the warehouse within 4 hours notice from the shipper.

E. The TSP agrees that it will exercise ordinary care and diligence to ensure that all trailers and vans are suitable for the purpose intended and warrants that all trailers and vans it supplies are either owned, or if not, are those which the TSP has a legal right to use and operate.

F. TSP agrees to indemnify and hold shipper harmless from claims for damages which do not result from negligence of the shipper.

G. The Government agrees to furnish storage space and normal security without cost to the TSP.

H. The TSP will assume liability for damage to its equipment due to movement with normal care and safety in operation.

10-8. EQUIPMENT INSPECTION: The TSP's equipment is subject to inspection by the shipper at the time of placement for loading. Equipment found unsuitable for loading the material to be shipped will be rejected by the shipper. The rejected TSP's equipment will not relieve the TSP from meeting pickup and delivery requirements. Failure to meet pickup and/or delivery requirements constitutes unsatisfactory service under the terms of this RFO.

10-9. QUALIFICATION OF DRIVERS: By submission of rate offers under this RFO, the TSP certifies compliance with 49 CFR 391 and all other rules and regulations governing the movement of traffic described in this RFO.

10-10. ON-SITE SURVEY: GSA reserves the option to conduct an on-site survey of the TSP's origin facilities and equipment prior to selection for traffic. Pre-award surveys may also entail TSP meetings with the shipper at the shipper's location. The purpose of on-site surveys and meetings is to determine if the TSP has the facilities, equipment, and operation expertise to satisfactorily perform movement requirements. The TSP may not be selected for traffic movement if, in the opinion of GSA, pre-award surveys or meetings indicate that requirements cannot be performed satisfactorily.

10-11. **TRUCKLOAD** REQUIRED TRANSIT TIME (RTT): The TSP will deliver all **TRUCKLOAD** shipments within a 1,000 mile radius of the agency shipping facility within 2 calendar days and will deliver all shipments exceeding a 1,000 mile radius of the agency shipping facility within 5 calendar days. For less-than-truckload shipments, the required transit times and application thereof will be in accordance with Item 5-1. of the STOS, General Freight Tender of Service, No. 1-F.

On TRUCKLOAD shipments for the EDC GUARANTEED ZONE (identified in paragraph 10-23) the TSP will deliver within the required transit time of 24 hours and on less than truckload shipments within two (2) days or less, with occasional week end pick up and delivery, RTT means working day (s) excluding Saturdays, Sundays and federal Holidays.

- A. The TSP agrees to meet the RTT except when expedited service (exclusive use) of vehicle is requested.
- B. On-time performance is required at least 95 percent of the time.
- C. When exclusive use of the vehicle is requested, transit time will be governed by the required delivery date shown on the Bill of Lading (BL).
- D. Transit time will begin on the day of pickup and end on the day of delivery or the day shipment is offered for delivery. If the TSP is required to schedule a delivery it must accept the first available delivery appointment on a working day, regardless of time. TSP, if requested, will be required to furnish proof of delivery date/time requested by consignee. Proof will include person's name, phone number, date, time of phone call placed or delivery attempted and disposition. Failure of TSP to honor first available appointment time or to provide the information stated in this paragraph upon request, shall be construed as unsatisfactory service.
- E. Failure to meet RTT constitutes unsatisfactory service.

10-12. **SATISFACTORY SERVICE:** Satisfactory service will be understood to include delivery of shipment intact, or offer of delivery intact, without loss or damage on at least 95 percent of all shipments within the identified time frame.

10-13. **UNSATISFACTORY SERVICE:**

- A. The Government reserves the right to immediately remove the primary TSP for the duration of this RFO for unsatisfactory service.
- B. The selected TSP will be responsible for providing fully satisfactory service from origin to destination, whether by direct or joint-line service.
- C. Unsatisfactory service will be handled in the following manner: First service failure will result in written notification from the government; any failure after this written notification may result in immediate removal from further participation in the traffic named in this RFO.

10-14. **WITHDRAWAL AND/OR REMOVAL OF SELECTED TSPS:**

- A. After the selection and notice is given to the primary TSP, the Government will require that the selected TSP honor the arrangement under this RFO until the 2 year expiration date of the RFO.
- B. When a situation requires that the selected TSP be removed or the TSP voluntarily decides to withdraw from participation in traffic movements identified in this RFO, the TSP will remain obligated as primary TSP until such time as GSA assigns alternate TSP responsibility and has established a definite start-up date.

10-15. **NOTIFICATION PRIOR TO DELIVERY:** As an exception to Item 40, Prelodging, of the 100-D, National Rules Tender, GSA Standard Tender of Service, when notification prior to delivery is required, TSP will, without additional charge,

provide notice of arrival to the various ordering activities in accordance with instructions provided on the BL and/or as is required by the requesting activity.

10-16. PROOF OF DELIVERY:

A. TSP agrees to furnish a report of delivery of all shipments to Mr. Mark Dooley, on a monthly basis, at no additional cost. The report will be submitted within ten calendar days of the following month. The report may be submitted via:

e-mail: mark.dooley@gsa.gov
fax: 609-499-4904
regular mail: Traffic Department
Attn: Mark Dooley
1900 River Road
Burlington, NJ 08016

B. The report will be in BL number sequence and include delivery and/or offer date in calendar month, day, and year format.

C. Monthly, at no additional cost, TSP will provide no more than 5 percent legible, hard copy Proof of Deliveries (PODs) to Mr. Mark Dooley at the above e-mail, fax, or regular mail address. PODs will be selected randomly by Mr. Dooley.

10-17. NOTIFICATION OF SHIPMENT DISCREPANCIES: The TSP agrees to notify consignor of any shipment discrepancies (overages and shortages) within 24 hours from first 7:00 a.m. after date of delivery, excluding Saturday, Sundays, and Federal Holidays.

10-18. EXCLUSIVE USE OF VEHICLE:

A. Upon request of the shipper and by mutual agreement with the TSP, the TSP will furnish a vehicle assigned to and exclusively used by the TSP for transportation of shipment. BLs bearing a notation indicating that the shipper requests exclusive use must be provided for each vehicle.

B. The shipment will be transported in the same vehicle from origin to destination without transfer of lading, except in case of mechanical breakdown. Shipper, at own option, may apply seals to the vehicle with instructions that vehicle remain sealed until delivery.

C. The charge for exclusive use of vehicle will be subject to the actual weight at the applicable rate.

D. The TSP agrees that failure to meet Required Delivery Dates may result in removal as primary TSP.

10-19. EXPEDITED SERVICE:

A. The weight estimates in this RFO and this SFI include only routine movement requirements. Estimates shown do not include high-priority shipments requiring expedited service (exclusive use of vehicle). However, GSA, by mutual agreement with the TSP, may utilize a TSP to any destination in CONUS requiring expedited service under exclusive use of vehicle provisions named in Paragraph 10-18.

B. If the primary TSP does not wish to provide expedited service (exclusive use), an alternate TSP may be offered shipments under the conditions of Paragraph 10-19.A., above.

10-20. SEALING OF VEHICLE:

A. Except shipments for which the BL is annotated "Exclusive use of vehicle requested by the Government" or "Do

not break seal except in case of emergency or upon prior authority of the consignor or consignee. If broken for emergency reasons, apply TSP seals as soon as possible and immediately notify the consignor and consignee,” the application of seals/locks and the recording of seal numbers in the block provided on the BL will not, in itself, require exclusive use of the vehicle.

B. When a seal or lock is applied to TSP conveyance, exclusive use will not be accorded the shipment unless the BL is annotated as shown in Paragraph 10-20.A. Seals or locks may be removed at TSP option.

C. Vehicles sealed either by the shipper or by the TSP, for TSP convenience, may not be construed as requiring exclusive use.

10-21. DETENTION TIME FOR TRAILERS SPOTTED WITH POWER UNITS: In addition to the terms, conditions, and charges identified in Item 325, Detention – Vehicles with Power Units, of the 100-D, National Rules Tender, of the Standard Tender of Service, the following apply:

A. The TSP agrees to arrive at the EDC loading door at times specified by the shipper. Normal arrival times will be between 7:30 a.m. and 3:30 p.m., Monday through Friday.

B. The TSP agrees to allow an additional 60 minutes added to the time allowed above for preparation of documents when necessary at no extra charge.

C. Loading time will consist of any time required to load after vehicle is positioned to load, as requested, at the designated loading door and ends when all freight consigned has been loaded in vehicle and billed.

D. Detention at origin shall consist of any time TSP’s vehicle is required to be at terminal location in excess of time allowance stated in Item 325 (1) B. of the 100-D, plus additional time under Paragraph 10-21.B. Charges for detention will be billed and submitted separately and not included on the BL tendered for shipment. These bills will be properly certified for payment by GSA Depot Traffic Manager.

10-22. IDENTIFICATION OF NON-ALTERNATING SERVICE AREA CODES: Only those rate offers submitted by the Initial Filing due date identified in Section 1, Paragraph 1-2.A will be considered for acceptance. **THERE WILL BE NO SUPPLEMENTAL FILINGS.**

A. Identification of Truckload Routes: Only Truckload rate offers will be accepted for the following EDC Service Area Codes.

10-24. HISTORICAL TRAFFIC VOLUME AND INFORMATION:

A. Below is historical traffic volume for 2003 (approximately) for the identified EDC destinations. These figures represent LTL shipments. The data provided should not be interpreted as a guarantee to the TSP that future traffic will amount to these quantities. The Government makes no guarantee that these quantities or any quantities will be shipped. Failure of estimates to materialize will not constitute a basis for rate adjustments.

SECTION 11

FORMAT REQUIREMENTS FOR THE SUBMISSION OF ELECTRONIC RATE OFFERS VIA FTP

11-1. FILE FORMAT REQUIREMENTS FOR THE SUBMISSION OF ELECTRONIC RATE OFFERS: TSPs or RFSPs submitting rate offers for the identified NIB/NISH Work Centers, WDC & the EDC **MUST** submit their rate offers electronically via the File Transfer Protocol (FTP) instructions located in Section 12 or via the rate filing capabilities of the Transportation Management Services Solution (TMSS) system. TSPs or RFSPs submitting rate offers via FTP must also adhere to format requirements contained in this Section 11. TSPs filing rate offers via TMSS can use the TMSS help screens. Please note that this Section 11 can also provide general information to those TSP's utilizing TMSS to create their rate offers within TMSS online rate filing. Submissions received from TSPs or RFSPs not conforming to FTP or TMSS record requirements will not be accepted by TMSS and the TSP or RFSP will be notified as identified in Section 1-2.B.

11-2. HEADER RECORD FORMAT REQUIREMENTS: In addition to each TSP's rate records, for all rate offers filed in accordance with this RFO TSP's must file ONE SET of the following "F Records" at the beginning of EVERY RATE FILE submitted to GSA.

➤ **Important Notes:**

Mandatory E-mail Address: Booking office e-mails contained in the rate offer have become **MANDATORY** for the purpose of online booking within TMSS;

The TSP must provide an Email address and are encouraged to provide a fax number for each rate record. The e-mail address provided in the rate record will be used by TMSS for automated booking notification. The e-mail is expected to be associated with the booking office at the route level. If no such e-mail can be provided at the route level, a corporate level e-mail must be provided in this record. For automated booking notifications to be sent by TMSS to the TSP's, the government will consider offering a system-to-system level information exchange between TMSS and the TSP's system, in lieu of sending a booking request via e-mail. TSP's interested in this feature of TMSS are required to contact GSA's program office (FBL) at (703) 605-5618 and the Government will evaluate such requests for implementation.

NOTE: When the rate file is complete, it MUST be saved as an unformatted ASCII (Text Only) flat file (e.g. no tab characters, etc.) before attempting to transfer the file.

A. List of Header Record Types and their Usage

Record Type	Description
F1	Mandatory record. This record will contain TSP's specific information, Rate offer will be rejected if this record is not submitted
F2	Optional record. A Rate Filing Service Provider (RFSP) when filing rates on behalf of a TSP must submit this record. All rate filing related communications will use the RFSP's Email address specified in this record.
F3	Optional record. Must be submitted when TSP is a Broker/ Shipping Agent/ Intermodal marketing company. This record is used to submit the underlying TSP's represented by a Broker. Underlying carriers must also be approved within the TMSS system. Each 'F3' record can accommodate 50 SCACS. If you represent more than 50 TSPs use an additional 'F3' record.

B. Header Information of TSP (Mandatory Record)

Record Field	Maximum Positions	Positions	Contents
Record ID	2	1-2	Must be the letters ' F1 '

SECTION 12

ELECTRONIC RATE TRANSMISSION SPECIAL INSTRUCTIONS

12-1. SUBMISSION INSTRUCTIONS: All electronic rate transmissions submitted in accordance with Sections 8, 9, 10, & 11 of this RFO and its Special Filing Instructions (SFI) **MUST** be via the rate filing capabilities of TMSS or via the Internet, utilizing the File Transfer Protocol (FTP). Below are the instructions for accessing the FTP.

NOTE: If your company intends to transmit its rate offer(s) via FTP without utilizing the services of a Rate Filing Service Provider (RFSP) and your company does not already have an assigned **User ID and Password** to access the FTP server, you will need to notify the PMO in order to receive a User ID and Password to access the FTP. Requests for a User ID and Password may be emailed or faxed to the attention of Jim Stroup at jim.stroup@gsa.gov or (816) 823-3656. The response from GSA assigning your company a User ID and Password will be emailed, so please be sure to include your company's email address when submitting your request. Please be aware that it will take several days upon the receipt of your request to process and assign a User ID and Password to the FTP server.

A. **FORMAT REQUIREMENTS:** Electronic format requirements as set out in this RFO and this SFI must be strictly adhered to. Submissions received from TSPs and RFSPs not conforming to format requirements identified in Section 8, 10, and 11 will be found unacceptable.

B. **FILE PREPARATION:**

In order to transfer the file via the FTP, the file must be saved and transmitted as an unformatted ASCII (TEXT ONLY) flat file (i.e. no tab characters, etc.). The file must not have a top, bottom, right, or left margin.

Note: The type of software you will be utilizing will determine what must be done to prepare the file for transmission.

12-2. FILE NAMING CONVENTION:

Implementation of the Transportation Management Services Solution (TMSS) has created the need for the development of a File Naming Convention. This File Naming Convention applies to any initial, new, late, or supplemental rate offer(s) transmitted in accordance with this RFO and this SFI. Extensions (**.FRT**) to file names are **NOT** permitted.

FILE NAME	MAXIMUM POSITIONS	POSTIONS	CONTENTS
Prefix	3	1-3	Must be FRT
TSP's SCAC	4	1-4	RFSP: If transmitting rates on behalf of a TSP, enter TSP's SCAC. Do not append any characters if the SCAC assigned to you is less than four (4) positions.
Rate File Number	3	5-8	A running serial number starting with 001
Extension			File Extensions will NOT be supported.

Examples of filenames for SCAC with different number of positions:

File name where assigned SCAC has four positions: **FRTABCD001** where 'ABCD' is the SCAC

File name where assigned SCAC has three positions: **FRTABC001** where 'ABC' is the SCAC

File name where assigned SCAC has two positions: **FRTAB001** where 'AB' is the SCAC

The TSP can send one or more files for rate filing. The TSP can send one or more rate types in a single file. It is strongly recommended that the number of files be kept to a minimum by combining multiple rate types. Irrespective of the number of files transmitted a 3-digit file number is required.

Examples of multiple filenames for a SCAC:

TSP transmitting only one file: File Name: **FRTABCD001**

TSP transmitting two files: First File Name: **FRTABCD001**, Second File Name: **FRTABCD002**

TSP transmitting three files: First File Name: **FRTABCD001**, Second File Name: **FRTABCD002**, Third File Name: **FRTABCD003**.

If as a TSP or RFSP, you are unsure as to your TSP's SCAC/RFSP Code (up to 4 positions) in GSA's Freight Management Program, please contact Jim Stroup at (816) 823-3646 or via e-mail at jim.stroup@gsa.gov, respectively, for verification.

The file naming convention identified above MUST be strictly adhered to. Failure to do so will result in the rate offer(s) not being picked up from your TSP's directory on the FTP and/or automatic rejection of the rate offer(s). Furthermore, if your company submits multiple rate files on the same day, files named the same will be overwritten; therefore, it is extremely important that files submitted on the same day have different names.

12-3. ACCESSING THE FTP:

GSA is unable to provide specific instructions on how to access the FTP, how to upload a file onto the FTP, how to download a file from the FTP, or how to move around in the FTP due to the fact that accessing and operating within the FTP are dependent upon the type of FTP software utilized by a TSP. Consequently, a TSP will need to contact their FTP provider for assistance. FTP utilities such as WS_FTP95LE are widely used and could serve the purpose, however, GSA does not mandate these products and you are free to choose your own FTP software. Listed below is information GSA can provide. The address to GSA's FTP directory and two different methods (there are others) by which to access a TSP's individual directory in which a TSP's rate file(s) will need to be uploaded.

A. FTP ADDRESS:

Existing user codes/passwords will be carried over from ITMS to TMSS. However, the letters FTP will prefix the new user codes. Example: If your existing user code was ABCD the new user code will be FTPABCD. The password will remain the same.

The FTP server address to be used for transmitting files to TMSS is: **159.142.4.2**

B. DIRECTORY ACCESS:

Once you have placed a file within your TSP's directory using FTP, you may verify that your company's file was successfully transmitted. If the file doesn't appear in your directory, you will need to "Upload" the file again. This will only assist you in verifying that your rate offer/file was transferred successfully and WILL NOT verify that the contents of your rate offer/file have been formatted correctly.

12-4. CONFIRMING RATE TRANSMISSIONS:

At the end of each business day during the rate filing period, an automated process will search the FTP for rate files submitted from TSPs and process them. An email confirmation acknowledging the receipt and processing of the file will be sent to the TSP's email address OR the RFSP's email address if an RFSP has filed on behalf of the TSP. The email will contain the number of records processed and the number of errors encountered. In order to receive timely notifications on the outcome of file processing it is essential that a correct email address be kept on file. Error files will be generated and placed in the TSP's or RFSP's FTP directory and will be named as FRTSCAC999ERR where SCAC is the SCAC of the TSP (Not the RFSP), 999 is the original file number assigned by the TSP. You need to connect to FTP to download the error file(s), if any. If appropriate, TSP's will receive notification of rate filing deficiencies in accordance with Section 1, Paragraph 1-2.B. of this RFO and this SFI.
