With respect to my participation in and performance of duties related to the Federal Technology Service procurement effort, **FTS2001, Contract No. GS00T99NRD2002**, I hereby certify that:

1. I am familiar with the pertinent GSA or my agency's/employer's Standards of Conduct relating to ethical conduct and conflict of interests or the appearance thereof.
2. To the best of my knowledge, neither I nor any member of my immediate family (spouse, minor child, or relative who is a member of my household) has any direct or indirect financial interest in, or personal business, or professional affiliation with, any telecommunications firm or other entity that (a) is a potential offeror, including subcontractor, for any RFP issued under the Federal Technology Service procurement(s); and (b) which would create a conflict of interest, or the appearance of conflict of interest, with my duties related to the Federal Technology Service procurement effort. For purposes of this certification, I understand that financial interests include, but are not limited to, stocks and other securities regardless of value or amount, e.g., bonds or debentures; current employment; and arrangements or negotiations for future employment.
3. I am not aware of any other circumstances which would impair my exercise of independent judgment or impartiality with respect to my duties concerning the Federal Technology Service procurement effort.
4. I understand that I have a continuing obligation to disclose any circumstances that may create an actual or apparent conflict. In the event that I become aware of any such conflict of interest, I agree to immediately report this fact to the Contracting Officer for the Federal Technology Service procurement effort, and to take no further action to participate in duties related to the Federal Technology Service procurement(s) pending receipt of any instructions which may be given me in this matter.
5. I understand this is not a substitute or replacement for procurement integrity restrictions or obligations which may be applicable either now or at a future date.
