Washington, D.C. 20407

In cooperation with the
National Capital Planning Commission
U.S. Department of Homeland Security

Nebraska Avenue Complex Master Plan

The U.S. General Services Administration (GSA) is studying the impacts resulting from the proposed development of a Master Plan for the consolidation of a portion of U.S. Department of Homeland Security (DHS) functions at the Nebraska Avenue Complex (NAC) at 3801 Nebraska Avenue NW, Washington D.C. The No Action Alternative and three action alternatives are studied in detail in the Draft Environmental Impact Statement (EIS).

Comments must be postmarked no later than March 1, 2010. Questions or comments on the Draft EIS should be addressed to:

Ms. Suzanne Hill, NEPA Lead
Office of Planning and Design Quality
Public Buildings Service

Table of Contents

ES	Executive Summary	
ES	Executive summary	i
ES.1	Proposed Action	ii
ES.2	Location	ii
ES.3	Alternatives	iii
ES.4	Impacts	vi
1.0	Introduction	1-1
1.1	Why Is This Document Being Prepared?	1-1
1.2	What Is Being Considered in This Document?	1-3
1.3	What Other Environmental Laws and Regulations Are Relevant To This Project?	1-4
1.4	What is the Nebraska Avenue Complex Master Plan?	1-6
1.5	Where is the Site Located?	1-6
1.6	Which Federal Agency is Leading this Project?	1-9
1.7	Who are the Cooperating Agencies?	1-9
1.8	What is the Background and History of the Project?	1-10
1.9	What is the Purpose of and Need for the Nebraska Avenue Complex Master Plan?	1-10
1.10	How have the Public and Stakeholder Agencies Been Involved?	1-12
1.11	What Issues Were Raised During the Scoping Process?	1-15
1.12	What Resource Issues have Been Considered in this Document?	1-17
2.0	Alternatives	2-1
2.1	How were the alternatives developed for the Nebraska Avenue Complex Master Plan?	2-1
2.2	What alternatives are being considered?	2-4
2.2.1	Elements Common to the Action Alternatives	2-4
2.2.2	Alternative A: Low Density Development	2-13
2.2.3	Alternative B: Mid-Density Development	2-23
2.2.4	Alternative C: High Density Development	2-32
2.2.5	No Action Alternative	2-42
2.2.6	Summary of Master Plan Alternatives	2-46

2.3	What is the Preferred Alternative and Why Was It Selected?	2-55
2.4	What Other Alternatives Were Considered But Dismissed?	2-55
3.0	Affected Environment and Impacts to the Human Environment	3-1
3.1	What is the Affected Environment and How are the Impacts Evaluated?	3-1
3.2	What Topics Have Been Eliminated from Further Analysis?	3-3
3.2.1	Economic/Fiscal	3-3
3.2.2	Floodplains	3-4
3.2.3	Threatened and Endangered Species	3-4
3.2.4	Wildlife	3-5
3.2.5	Demographics and Environmental Justice Populations	3-6
3.3	Land Use	3-8
3.3.1	What Land Uses Currently Exist on the Project site?	3-8
3.3.2	What Land Uses are Currently Found Adjacent to the Project Site?	3-11
3.3.3	How Would Land Use be Affected by the NAC Project?	3-14
3.4	Plans and Policies	3-16
3.4.1	What Federal and Local Plans and Policies are Applicable to the Proposed Master Plan?	3-16
3.4.2	Would the NAC Master Plan Comply with these Plans and Policies?	3-25
3.4.3	What Measures Should be Taken to Improve Compliance with Applicable Plans and Policies?	3-32
3.5	Community Facilities	3-33
3.5.1	What Community Facilities and Services Are Present in the Area?	3-33
3.5.2	How Would Community Facilities and Services be Affected?	3-35
3.5.3	What Would be Done to Prevent Impacts on Community Services and Community Facilities?	3-38
3.6	Visual Resources	3-39
3.6.1	What are the Existing Visual Conditions at the Site?	3-39
3.6.2	How Would Key Viewsheds be Affected by the Project?	3-60
3.6.3	What Measures Should Be Undertaken to Reduce Visual Impacts?	3-72
3.7	Cultural and Historic Resources	3-73
3.7.1	How are Impacts to Cultural Resources Evaluated?	3-73
3.7.2	What is the Area of Potential Effects for the Proposed Action?	3-74
3.7.3	What is the History of the Site?	3-76
3.7.4	What is the Significance of the Site?	3-78
3.7.5	What Historic Buildings are located within the Primary APE?	3-81

3.7.6	What Contributing Landscape Features are Located within the Primary APE?	3-88
3.7.7	What Historic Resources Lie Outside the NAC Site, but Within the Secondary APE?	3-100
3.7.8	How Would Historic Resources be Affected?	3-100
3.7.9	What Efforts Would be Taken to Minimize the Effects on Cultural and Historic Resources?	3-106
3.8	Archeological Resources	3-107
3.8.1	What Archaeological Resources are Located Within the APE?	3-107
3.8.2	How Could Archaeological Resources be Affected?	3-107
3.8.3	What Efforts Would be Taken to Minimize the Effects on Archaeological Resources?	3-108
3.9	Geologic Resources	3-109
3.9.1	What are the Geology Conditions on the Project Site?	3-109
3.9.2	How Would Geology Conditions on the Project Site be Affected?	3-110
3.9.3	What Measures Would be Taken to Reduce Impacts to Geology?	3-112
3.10	Soil Resources	3-112
3.10.1	What are the Soil Conditions on the Project Site?	3-112
3.10.2	How Would the Soil Conditions on the Project Site be Affected?	3-117
3.10.3	What Measures Would be Taken to Reduce Impacts to Soils?	3-120
3.11	Topographic Conditions	3-121
3.11.1	What are the Topography Conditions on the Project Site?	3-121
3.11.2	How Would Topography Conditions on the Project Site be Affected?	3-123
3.11.3	What Measures Would be Taken to Reduce Impacts to Topography?	3-125
3.12	Water Resources and Water Quality	3-126
3.12.1	What are the Water Resources and Water Quality Conditions on the Project Site?	3-126
3.12.2	How Would Water Resources and Water Quality Conditions be Affected?	3-134
3.12.3	What Measures Would be Taken to Protect Water Resources and Water Quality?	3-143
3.13	Stormwater Management	3-145
3.13.1	What are the Current Stormwater Management Conditions on the Project Site?	3-145
3.13.2	How Would Stormwater Management Conditions on the Project Site be Affected?	3-145
3.13.3	What Measures Would be Put into Place to Mitigate Impacts on Stormwater Management?	3-150
3.14	Vegetation	3-151
3.14.1	What Vegetation Exists on the Project Site?	3-151
3.14.2	How Would Vegetation be Affected?	3-152
3.14.3	What Measures Should be Undertaken to Reduce Impacts to Vegetation and Wildlife?	3-155

3.15	Hazardous Materials, Waste and Contamination	3-156
	3.15.1 What are the Existing Hazardous Materials, Waste and Contamination Conditions of the Site?	3-156
	3.15.2 How Would Hazardous Materials, Waste, and Contamination Conditions on the Project Site be Affected?	3-181
	3.15.3 What Measures Would be Put into Place to Mitigate Hazardous Materials, Waste and Contamination Conditions?	3-185
3.16	Transportation	3-187
	3.16.1 What are the Current Vehicular Traffic Conditions on and near the Project Site?	3-187
	3.16.2 What are the Current Public Transportation Access Conditions Near the Project Site?	3-196
	3.16.3 What is the Current Parking Inventory and Utilization Rate on the Project Site?	3-201
	3.16.4 What are the Current Pedestrian and Bicycle Infrastructure Conditions Near the Project Site?	3-205
	3.16.5 What is the Current Travel Mode Split for Users who Access the Project Site?	3-206
	3.16.6 What are the Existing Transportation Management Measures being Employed on the Project Site?	3-207
	3.16.7 How Would Transportation Within and Around the Project Site be Affected?	3-208
	3.16.8 What Measures Should be Undertaken to Reduce Impacts to Traffic and Transportation?	3-233
3.17	Infrastructure/Utilities	3-235
	3.17.1 What is the Status and Condition of the Chilled Water System on Site?	3-235
	3.17.2 How Would the Chilled Water System be Affected?	3-235
	3.17.3 What is the Status and Condition of the High Temperature Hot Water System on Site?	3-237
	3.17.4 How Would the High Temperature Hot Water System be Affected?	3-237
	3.17.5 What is the Status and Condition of the Electrical System on Site?	3-238
	3.17.6 How Would the Electrical System be Affected?	3-239
	3.17.7 What is the Status and Condition of the Water Service and Fire Protection System on Site?	3-240
	3.17.8 How Would the Water Service System and the Fire Protection System on the site be Affected?	3-242
	3.17.9 What is the Status and Condition of the Wastewater System on Site?	3-243
	3.17.10 How Would the Wastewater System be Affected?	3-244
	3.17.11 What is the Status and Condition of the Natural Gas System on Site?	3-244
	3.17.12 How Would the Natural Gas System be Affected?	3-245
	3.17.13 What Measures Should be Undertaken to Reduce Impacts to Infrastructure/Utilities?	3-246
3.18	Air Quality	3-247
	3.18.1 What is the Status of National Air Quality Standards Attainment in Washington D.C.?	3-247
	3.18.2 What Air Emissions are Produced by the Operation of the Project Site?	3-250
	3.18.3 How Would Local and Regional Air Quality be Affected?	3-253

	3.18.4 How Would the Project Air Emissions Affect Global Climate Change?	3-260
	3.18.5 What Measures Should be Undertaken to Reduce Impacts to Air Quality?	3-261
3.19	Noise Assessment	3-261
	3.19.1 What are the Major Sources of Noise Surrounding the Nebraska Avenue Complex?	3-261
	3.19.2 How were Noise Impacts Determined?	3-262
	3.19.3 What are the Sensitive Noise Receptors in the Vicinity of the Site?	3-265
	3.19.4 Would the Project Cause an Increase in Noise?	3-265
	3.19.5 What Would be Done During Construction to Prevent Disruption to the Community?	3-268
3.20	Climate Change and Sustainability	3-269
	3.20.1 What are Greenhouse Gases and Why is Climate Change Important?	3-269
	3.20.2 What is Executive Order 13514 and What Does it Require?	3-270
	3.20.3 What are the Sources of Carbon Dioxide and Other Greenhouse Gas on the Project Site?	3-273
	3.20.4 What Measures and Policies are Currently in Place at the Project Site that Reduce GHG Emissions and Contribute to Greater Site Sustainability?	3-275
	3.20.5 How Would Global Climate Change and Sustainability Be Affected by the Proposed Action?	3-276
	3.20.6 What Measures Should be Put into Place to Mitigate Impacts on Climate Change and Sustainability?	3-279
3.21	Cumulative Impacts	3-280
	3.21.1 What are the Cumulative Impacts and Why are They Discussed?	3-280
	3.21.2 What Past, Present, and Future Projects Could Contribute to Cumulative Impacts?	3-280
	3.21.3 What Cumulative Impacts Could Result from the Proposed Action?	3-283
3.22	Are There Any Unavoidable Adverse Impacts Associated with this Project?	3-285
3.23	What Relationships Exist Between the Short-term Uses of this Project and the Maintenance and Enhancement of Long-term Productivity?	3-285
3.24	Are There Any Irreversible and Irretrievable Commitments of Resources Associated with this Project?	3-286
4.0	References	4-1
5.0	List of Preparers	5-1
6.0	Distribution List	6-1
7.0	Acronyms and Abbreviations	7-1
