

Cooperative Purchasing Program Safer Schools, Stronger Communities

The Cooperative Purchasing program allows GSA to serve our country's school communities by providing public school districts, colleges, and other institutions of higher learning access to Federal Supply Schedule contracts to purchase safety and security products and services at affordable prices. These products and services include: Security Cameras and Surveillance Systems, Emergency Communications Equipment, Security Consulting Services, Security Design and Support Services, Alarm and Access Control Systems, and Personal Identity Verification (PIV) Credentialing Services.

GSA is proud to deliver better value and savings to local school communities as they work to secure the safety of our youth.

Program Features:

- A centralized source for safety and security solutions
- Negotiated fair and reasonable pricing
- Direct contractor and customer relationship
- Online contractor search and purchasing capabilities
- Significant procurement time and cost savings

To learn more about safety and security solutions available through GSA's Cooperative Purchasing program, visit www.gsa.gov/saferschools or contact your local Customer Service Director (CSD).
