TDY Travel Allowance (Taxes); Relocation Allowance (Taxes)	December 2013	The rule will allow agencies to incorporate the administrative savings by doing a one year Relocation Income Tax Allowance (RITA) like private industry instead of a two year RITA as is done now. The rule will also allow for the use of standard tax tables instead of special tables GSA publishes each year.	The Office of Asset and Transportation Management is rewriting the references in part 302-17 of the Federal Travel Regulation to reflect many changes made in a Chapter 302 final rule that were the results of the Government-wide Relocation Advisory Board.

As a result, provisions and clauses are being reviewed for potential burden reduction along with other Part 515 content that could result in extraneous proposal requirements.	The decision has been made to proceed with the rewrite of GSAR Part 515 independently from 538 (Schedules), so that the two parts do not delay each other. GSA/OGP/MV	RIN 3090-AI81	GSAR Case 2008-G509, Rewrite GSAR Part 536, Construction and Architect-Engineer Contracts	December 2013	There are currently no information collections that directly fall under GSAR Part 536. Form 2419, Certification of Progress Payments Under Fixed-Price Construction Contracts, and Form 1142, Release of Claims, are prescribed under GSAR Part 532. The proposed rule for the rewrite of GSAR Part 536 (73 FR 73199) included the deletion of several GSAR clauses. In addition, outdated guidance and a clause covering project labor agreements (PLAs) were proposed for deletion.	The final work plan includes three phases. First a GSAR class deviation will be processed to remove Form 2419 and coverage associated with the Clinton-era executive order on PLAs. The Federal Acquisition Regulation includes all of the information necessary to document construction payments and to implement the current executive order on PLAs issued by President Obama. The second phase will be to process a GSAR final rule to permanently delete Form 2419 and the PLA coverage along with the clauses at 552.236-72 Specialist and 552.236-79 Samples. The third and final phase will be to reduce the public burden associated with Form 1142. A new proposed for GSAR Part 536 is also contemplated, but is considered to be outside the scope of this retrospective review.
