Building 810 Hours

Building 810 is a level 3 secure building.

- Building hours are **7 a.m. - 4:30 p.m.** The building is locked and requires PIV access.
- Secured access points are identified by the proximity keypad/card readers used to unlock them. Secured access points can be unlocked by using one of your two credentials: by entering your private PIN on the proximity keypad or by placing your government ID near the proximity keypad reader. Outside building public hours, all entrances are locked and require dual credentials for access. At any proximity card/keypad reader, enter both your private PIN and place your government ID near the reader. *If you are having issues with your access, please stop by the GSA Security Office in Building 41, Suite 110, during their office hours: Monday - Friday 7:30 - 11:30 a.m. and 12 - 4 p.m.*
- The Building 810 amenities map shows building amenities including restrooms, break areas, vending area, recycling and lactation room.
- Visit www.gsa.gov/r8dfc for a full list of DFC Amenities.
