**2.2.** Subject to FAR 41.204 (GSA Areawide Contracts), Authorizations may be executed under this Areawide Contract at any time during the Term of this Areawide Contract, up to and including the last date this Areawide Contract is effective. ## **ARTICLE 3. EXISTING CONTRACTS**

**3.2.** Existing special rates and services of a special nature currently provided under a separate written contract may be continued under the Authorizations described in Article 3.1 if requested by the Ordering Agency and agreed upon by the Contractor.

**3.3.** Upon the effective date of this Areawide, it shall not be necessary for the Government and the Contractor to execute new Authorizations under this Areawide for existing Authorizations for Services being or to be performed. Upon the request of the Ordering Agency, the Contractor shall endeavor to provide reasonable assistance to the Ordering Agency in selecting the Service Classification which may be most favorable to the Ordering Agency. The date of initiation or change in Service shall be effective as of the date specified in the Authorization. In the event a date is not specified in the Authorization as the effective date, the later date on which the Authorization was signed by the Ordering Agency, or the Contractor shall be the effective date of the Authorization. An executed copy of the Authorization shall be transmitted by the Ordering Agency to GSA at the address provided in Article 16.1.

**4.2.** During the Term of this Areawide Contract, effective Authorizations need not be amended, modified, or changed by an Ordering Agency to reflect changes in accounting and appropriation data, the requirements of Contractor's Tariff, Contractor's Terms and Conditions, the Contractor's cost of purchased fuel, or the estimated annual cost of Service. Such changes are considered internal to the party involved. Where changes are required in effective Authorizations because of a change in the Service requirements of an Ordering Agency, an amended Authorization shall be mutually agreed upon and executed.

**4.3.** An Ordering Agency or the Contractor may discontinue Service provided pursuant to this Areawide Contract to a particular Federal facility or installation by, if terminated by the Government, delivering a written Termination Authorization to Contractor, and, if terminated by Contractor, delivering a written notice to the Government. Such discontinuance of Service by an Ordering Agency or the Contractor shall be implemented in accordance with the Contractor's Tariff, Contractor's Terms and Conditions, or as otherwise provided under a particular Authorization (but for the sake of clarity, excluding a Termination Authorization).

**4.4.** Prior to entering into an Authorization for goods and/or services generally available from other sources on a competitive basis, the Contracting Officer shall obtain a justification for utilizing other than full and open competition in accordance with the policies and procedures prescribed by Subpart 6.3 of the Federal Acquisition Regulations (48 C.F.R 6.301).

**4.5** In the event the Areawide Contract is not renewed at the expiration of the contract term, any active Authorizations for services shall be controlled by the Areawide Contract terms and conditions in effect at the time of award of the Authorization.

**4.6.** The Contracting Officer shall select for inclusion in the applicable Authorization, any applicable GSAR and FAR clauses in **Exhibit "A"** AUTHORIZATION FOR NATURAL GAS SERVICE, CHANGE IN NATURAL GAS SERVICE, OR DISCONNECTION AND/OR TERMINATION OF NATURAL GAS SERVICE, **Exhibit "B"** AUTHORIZATION FOR ENERGY MANAGEMENT SERVICE, OR DISCONNECTION OF ENERGY MANAGEMENT SERVICE, or **Exhibit "C"** AUTHORIZATION FOR THE PROVISION OF SERVICES PROVIDED UNDER THE APPROPRIATE REGULATORY AUTHORITY. In addition to the applicable GSAR and FAR clauses in Article 14 and the applicable Exhibits, the Government may add additional clauses to any Authorization but will use best efforts to limit the incorporation of additional GSAR, FAR, and other agency supplemental clauses in an Authorization.

#### **ARTICLE 5. RATES, CHARGES, AND PUBLIC REGULATION**

**5.1.** A complete listing of all Contractor's Tariff schedules, as amended, supplemented, modified and revised from time to time, is available to the Government and any Ordering Agency electronically at the Contractor's website accessible via <https://www.atlantagaslight.com/business/pricing-and-rate-plans-for-businesses.html>.

**5.2.** Subject to the provisions of Article 2.3, all Services purchased under this Areawide Contract, as well as any other actions taken under this Areawide Contract shall be in accordance with, and subject to, applicable provisions of the

Contractor's Tariffs, Contractor's Terms and Conditions, and any other terms and conditions set forth in an Authorization, except to the extent that the same are preempted by Federal law. Throughout the Term of the Areawide Contract, the Government shall have full access to the currently effective Contractor Tariffs. In the event the Contractor's Tariffs become inaccessible via the internet or the Ordering Agency does not have access to the internet, the Contractor, at the Government's request, agrees to provide the current Contractor Tariffs in accordance with the Contractor's Tariff distribution practices, policies and procedures applicable to other customers.

**5.3.** If, during the Term of this Areawide Contract, a Commission approves a change in rates for Services obtained under an Authorization in effect hereunder, the Contractor agrees to continue to furnish, and the Ordering Agency agrees to continue to pay for, those Services at the newly approved rates from and after the date such a rate change is made effective. As provided in Article 4.2, modification of any Authorization hereunder is not necessary to implement higher or lower rates.

**5.4.** The Contractor hereby represents and warrants to the Government that the Service rates available to any Ordering Agency for services whose rates are subject to the oversight and regulation of the Commission hereunder shall at all times not exceed those available to any other customer served under the same Service Classification for the same or comparable service, under like conditions or circumstances of use. Nothing herein shall require the Contractor to apply a Service rate that is inapplicable to the Ordering Agency.

**5.5.** Reasonable written notice via an Authorization shall be given by the Ordering Agency to the Contractor, at the address provided in Article 16.2, of any material changes proposed in the volume or characteristic of Services required by the Ordering Agency.

**5.6.** To the extent required by the Contractor's Tariffs, the Contractor's Terms and Conditions, or any other terms and conditions set forth in an Authorization, and in accordance therewith, any necessary extension, alteration, relocation, or reinforcement of the Contractor's transmission and/or distribution facilities, related special facilities, service arrangements, Energy Management Services (including any rebates to which the Ordering Agency may be entitled), or other Services required or requested by an Ordering Agency shall be provided and, as applicable, billed for, by the Contractor. To the extent available from the Contractor, the Contractor shall provide and, as applicable, bill for such technical assistance on or concerning an Ordering Agency's equipment (such as the inspection or repair of such equipment) as may be requested by such Ordering Agency. The charges for such technical assistance shall be calculated at the time the technical assistance is rendered, in accordance with the Contractor's applicable billing schedule in effect at the time the technical assistance is rendered (except as otherwise mutually agreed upon by the Contractor and the Ordering Agency in writing), and the assistance shall comply with Contractor's Tariffs, Contractor's Terms and Conditions, and any other terms and conditions set forth in an Authorization, as applicable. The Authorization used to obtain and provide the matters, Services, or technical assistance described in this Article 5.6 shall contain information descriptive of the matters, Services, or technical assistance required or requested, including the amount of (or method to determine) any payment to be made by the Ordering Agency to the Contractor for the provision of said matters, Services, or technical assistance.

**5.7.** Any charges for matters or Services referenced in Article 5.6 hereof which are not established by the Contractor's Tariffs and Contractor's Terms and Conditions shall be subject to audit by the Ordering Agency for a period of one (1) year after the provision of matters or services rendered. Payment for the matters and Services referenced in Article 5.6 thereof shall not be unreasonably withheld or denied.

**5.8.** The requirements of the Disputes clause at FAR 52.233-1 are supplemented to provide that matters involving the interpretation of Contractor's Tariffs are subject to the jurisdiction and regulation of the applicable Commission having jurisdiction.

## **ARTICLE 6. BILLS AND BILLING DATA**

**6.1** The Natural Gas Service, Energy Management Service and/or Services provided under the Appropriate Regulatory Authority supplied hereunder shall be billed to the Ordering Agency at the address specified in each Authorization. Bills shall be submitted in the same manner as provided to other customers of the Contractor, unless otherwise specified in the Authorization. All bills for Natural Gas Service shall contain such data as is required by the applicable Commission to substantiate the billing, and all bills for Services shall contain such reasonable and available data as may be requested by the Ordering Agency, provided that such other data are contained in bills provided to other customers of the Contractor served under the same Service Classification as the Ordering Agency.

## **ARTICLE 7. PAYMENTS FOR SERVICES**

**7.1.** The Ordering Agency shall affect payment of all bills for Services rendered under this Areawide Contract in accordance with the currently effective payment terms of Contractor's Tariffs, Contractor's Terms and Conditions and any other payment terms and conditions set forth in an Authorization.

**7.2.** The Ordering Agency will make invoice payments for Services not subject to the direct oversight or approval of the applicable Commission in accordance with the provisions of the FAR 52.232-25 (Prompt Payment). Subject to any financing arrangement described in an Authorization, the interest rate for late or under payments made pursuant to this clause shall be computed in accordance with the Office of Management and Budget prompt payment regulations at 5 CFR part 1315. The Ordering Agency will make invoice payments for Services subject to Contractor's Tariffs, including interest rates for late payments, in accordance with Contractor's Tariffs.

**7.3.** Payments hereunder shall not normally be made in advance of services rendered in accordance with FAR 32.4, unless set forth in an Authorization, required by the Contractor's Tariffs, or required Contractor's Terms and Conditions as approved by the Commission. The applicability of this provision is generally limited to Connection Charge and line extension payments specifically cited and provided for in the Contractor's Tariff.

**7.4.** Each payment made by Treasury check to the Contractor shall include the Contractor's billing stub(s), or a Government or Ordering Agency payment document, that clearly and correctly lists all of the Contractor's account numbers to which the payment applies and the dollar amount applicable to each account. If payment is by Electronic Funds Transfer either through the Automated Clearing House (ACH) or the Federal Reserve Wire Transfer System, the provisions of FAR Subpart 52.232-33 shall apply (See Article 14) and the Ordering Agency must specify the method of payment and the designated payment office on the Authorization.

GSA's inability to assist Contractor shall not be deemed a breach of contract.

## **ARTICLE 8. CONTRACTOR-OWNED METERS**

**8.1.** Metering equipment of standard manufacture suitable to measure all applicable Services supplied by the Contractor hereunder shall be furnished, installed, calibrated and maintained by the Contractor at its expense (unless otherwise provided in Contractor's Tariffs and/or the Commission's regulations). Upon notice that a meter is failing to register correctly, the Contractor shall take steps to effect replacement or repair in accordance with approved regulatory requirements. Ordering Agencies shall have the right to request a meter test in accordance with the procedures prescribed in the Contractor's Tariffs and/or applicable Commission's regulations. The tests and applicable meter accuracy standards are those set forth in the Contractor's Tariffs and/or the applicable Commission's regulations. The expense of meter tests shall be borne by the party designated as responsible therefore in the Contractor's Tariffs and/or the applicable Commission's regulations.

**8.4.** For the purposes of Article 8, references to meters shall apply only to Contractor-owned metering devices installed and maintained by the Contractor in accordance with the Contractor's Tariffs and/or the applicable Commission's regulations for regulated utility services. References to meters under this Article shall not apply to meters that are to be installed by the Contractor at the request of an Ordering Agency, to be owned by the Government as a part of an Authorization for Energy Management Service or other service unregulated by the applicable Commission.

- (5) The National Geospatial-Intelligence Agency;
- (6) The National Reconnaissance Office;
- (7) Other offices within the Department of Defense for the collection of specialized national intelligence through reconnaissance programs;
- (8) The intelligence elements of the Army, the Navy, the Air Force, the Marine Corps, the Coast Guard, the Federal Bureau of Investigation, the Drug Enforcement Administration, and the Department of Energy;
- (9) The Bureau of Intelligence and Research of the Department of State;
- (10) The Office of Intelligence and Analysis of the Department of the Treasury;
- (11) The Office of Intelligence and Analysis of the Department of Homeland Security; or

(12) Such other elements of any department or agency as may be designated by the President or designated jointly by the Director of National Intelligence and the head of the department or agency concerned, as an element of the intelligence community.

National security system, as defined in 44 U.S.C. 3552, means any information system (including any telecommunications system) used or operated by an agency or by a contractor of an agency, or other organization on behalf of an agency—

(1) The function, operation, or use of which involves intelligence activities; involves cryptologic activities related to national security; involves command and control of military forces; involves equipment that is an integral part of a weapon or weapons system; or is critical to the direct fulfillment of military or intelligence missions, but does not include a system that is to be used for routine administrative and business applications (including payroll, finance, logistics, and personnel management applications); or

(2) Is protected at all times by procedures established for information that have been specifically authorized under criteria established by an Executive order or an Act of Congress to be kept classified in the interest of national defense or foreign policy.

Reasonable inquiry means an inquiry designed to uncover any information in the entity's possession about the identity of any covered articles, or any products or services produced or provided by a source. This applies when the covered article or the source is subject to an applicable FASCSA order. A reasonable inquiry excludes the need to include an internal or third-party audit.

Sensitive compartmented information means classified information concerning or derived from intelligence sources, methods, or analytical processes, which is required to be handled within formal access control systems established by the Director of National Intelligence.

Sensitive compartmented information system means a national security system authorized to process or store sensitive compartmented information.

Source means a non-Federal supplier, or potential supplier, of products or services, at any tier.

(b) Prohibition. (1) Unless an applicable waiver has been issued by the issuing official, Contractors shall not provide or use as part of the performance of the contract any covered article, or any products or services produced or provided by a source, if the covered article or the source is prohibited by an applicable FASCSA orders as follows:

(i) For solicitations and contracts awarded by a Department of Defense contracting office, DoD FASCSA orders apply.

(ii) For all other solicitations and contracts DHS FASCSA orders apply.

(2) The Contractor shall search for the phrase "FASCSA order" in the System for Award Management (SAM) at <https://www.sam.gov> to locate applicable FASCSA orders identified in paragraph (b)(1).

(3) The Government may identify in the solicitation additional FASCSA orders that are not in SAM, which are effective and apply to the solicitation and resultant contract.

(4) A FASCSA order issued after the date of solicitation applies to this contract only if added by an amendment to the solicitation or modification to the contract (see FAR 4.2304(c)). However, see paragraph (c) of this clause.

(5) (i) If the contractor wishes to ask for a waiver of the requirements of a new FASCSA order being applied through modification, then the Contractor shall disclose the following:

(A) Name of the product or service provided to the Government;

(B) Name of the covered article or source subject to a FASCSA order;

(C) If applicable, name of the vendor, including the Commercial and Government Entity code and unique entity identifier (if known), that supplied or supplies the covered article or the product or service to the Offeror;

(D) Brand;

(E) Model number (original equipment manufacturer number, manufacturer part number, or wholesaler number);

(F) Item description;

(G) Reason why the applicable covered article or the product or service is being provided or used;

(ii) Executive agency review of disclosures. The contracting officer will review disclosures provided in paragraph (b)(5)(i) to determine if any waiver is warranted. A contracting officer may choose not to pursue a waiver for covered articles or sources otherwise covered by a FASCSA order and to instead pursue other appropriate action.

(c) Notice and reporting requirement. (1) During contract performance, the Contractor shall review SAM.gov at least once every three months, or as advised by the Contracting Officer, to check for covered articles subject to FASCSA order(s), or for products or services produced by a source subject to FASCSA order(s) not currently identified under paragraph (b) of this clause.

(2) If the Contractor identifies a new FASCSA order(s) that could impact their supply chain, then the Contractor shall conduct a reasonable inquiry to identify whether a covered article or product or service produced or provided by a source subject to the FASCSA order(s) was provided to the Government or used during contract performance.

(3) (i) The Contractor shall submit a report to the contracting office as identified in paragraph (c)(3)(ii) of this clause, if the Contractor identifies, including through any notification by a subcontractor at any tier, that a covered article or product or service produced or provided by a source was provided to the Government or used during contract performance and is subject to a FASCSA order(s) identified in paragraph (b) of this clause, or a new FASCSA order identified in paragraph (c)(2) of this clause. For indefinite delivery contracts, the Contractor shall report to both the contracting office for the indefinite delivery contract and the contracting office for any affected order.

(ii) If a report is required to be submitted to a contracting office under (c)(3)(i) of this clause, the Contractor shall submit the report as follows:

(A) If a Department of Defense contracting office, the Contractor shall report to the website at <https://dibnet.dod.mil>.

(B) For all other contracting offices, the Contractor shall report to the Contracting Officer.

(4) The Contractor shall report the following information for each covered article, or each product or service produced or provided by a source, where the covered article or source is subject to a FASCSA order, pursuant to paragraph (c)(3)(i) of this clause:

(i) Within 3 business days from the date of such identification or notification:

(A) Contract number;

(B) Order number(s), if applicable;

(C) Name of the product or service provided to the Government or used during performance of the contract;

(D) Name of the covered article or source subject to a FASCSA order;

(E) If applicable, name of the vendor, including the Commercial and Government Entity code and unique entity identifier (if known), that supplied the covered article or the product or service to the Contractor;

(F) Brand;

(G) Model number (original equipment manufacturer number, manufacturer part number, or wholesaler number);

(H) Item description; and

(I) Any readily available information about mitigation actions undertaken or recommended.

(ii) Within 10 business days of submitting the information in paragraph (c)(4)(i) of this clause:

(A) Any further available information about mitigation actions undertaken or recommended.

(B) In addition, the Contractor shall describe the efforts it undertook to prevent submission or use of the covered article or the product or service produced or provided by a source subject to an applicable FASCSA order, and any additional efforts that will be incorporated to prevent future submission or use of the covered article or the product or service produced or provided by a source that is subject to an applicable FASCSA order.

(d) Removal. For Federal Supply Schedules, Governmentwide acquisition contracts, multi-agency contracts or any other procurement instrument intended for use by multiple agencies, upon notification from the Contracting Officer, during the performance of the contract, the Contractor shall promptly make any necessary changes or modifications to remove any product or service produced or provided by a source that is subject to an applicable FASCSA order.

(e) Subcontracts. (1) The Contractor shall insert the substance of this clause, including this paragraph (e) and excluding paragraph (c)(1) of this clause, in all subcontracts and other contractual instruments, including subcontracts for the acquisition of commercial products and commercial services.

(2) The Government may identify in the solicitation additional FASCSA orders that are not in SAM, which are effective and apply to the contract and any subcontracts and other contractual instruments under the contract. The Contractor or higher-tier subcontractor shall notify their subcontractors, and suppliers under other contractual instruments, that the FASCSA orders in the solicitation that are not in SAM apply to the contract and all subcontracts.

(End of clause)

Alternate I (Dec 2023). As prescribed in 4.2306(c), substitute the following paragraph (b)(1) for paragraph (b)(1) of the basic clause:

(b) Prohibition. (1) Contractors are prohibited from providing or using as part of the performance of the contract any covered article, or any products or services produced or provided by a source, if the covered article or the source is prohibited by any applicable FASCSA orders identified by the checkbox(es) in this paragraph (b)(1).

[ Contracting Officer must select either "yes" or "no" for each of the following types of FASCSA orders:]

Yes ☒ No . DHS FASCSA Order

Yes ☒ No . DoD FASCSA Order

Yes ☒ No . DNI FASCSA Order

#### **14.5 State Taxes.**

The contract price excludes all state and local taxes levied on or measured by the Areawide Contract or sales price of the Services or completed supplies furnished under this Areawide Contract. The Government agrees either to pay the amount of the state or local taxes to the Contractor or provide evidence necessary to sustain an exemption from such taxes.

### **ARTICLE 15. SMALL BUSINESS SUBCONTRACTING PLAN**

The report shall be submitted electronically utilizing the Small Business Administration's Electronic Subcontracting Reporting System. The website address of the reporting system can be found at <http://www.esrs.gov>.

#### **ARTICLE 18. UTILITY ENERGY SERVICE CONTRACTS**

**18.1.** Performance Assurance: Energy Conservation Measures (ECMs) will not normally be included within a project unless a net overall energy usage or cost reduction can be demonstrated and verified. When ECM construction is complete, the commissioning process provides data for this verification. UESCs that include a savings guarantee will require additional measurement and verification (M&V) activities during the performance period. Verification standards for energy projects are established in the M&V Guidelines: Measurement and Verification for Performance Based Contracts, published by the Department of Energy's Federal Energy Management Program (FEMP). All UESCs, regardless of whether they include a savings guarantee, will include a Performance Assurance Plan with key performance indicators identified.

**18.2.** Unless otherwise provided by law, UESC performance assurances or guarantees of the savings generated by the ECMs must equal or exceed the total task order value.

**18.3.** Subcontracting: The Contractor may perform any or all of its requested Services through subcontractors, including unregulated affiliates of Contractor. Other than circumstances where Contractor can show, but subject in all cases to contracting officer approval, that utilization of one of its unregulated affiliates provides a reduction in total costs resulting in considerable cost savings (as well as evidencing satisfactory past performance, sufficient experience, and/or other relevant factors), Contractor may perform any or the entire EMS requested by an Ordering Agency through subcontractors, including unregulated affiliates of Contractor (each an "EMS Subcontractor"). EMS Subcontractors shall be competitively selected in accordance with FAR 52.244-5. EMS Subcontractor selection shall be based on cost, experience, past performance and other such factors as Contractor and the Ordering Agency may mutually deem appropriate and reasonably related to the Government's minimum requirements. Upon request by the Ordering Agency, the Contractor shall make available to the Contracting Officer all documents related to the selection of an EMS Subcontractor. In no event shall the service be provided by an EMS Subcontractor listed as excluded from Federal Procurement Programs maintained by GSA pursuant to FAR 9.404.

**18.4.** For all Authorizations involving ECMs, it is desirable to have a warranty clause that addresses the specific needs and requirements of the work being performed and equipment that is to be provided by the Contractor; however, in the absence of a warranty clause in the Authorization, the following language will serve as the default clause:

If applicable and to the extent permitted by the applicable subcontractors, the Contractor shall pass through to the Ordering Agency all warranties on equipment installed or provided by it or its subcontractors on Government property with the following representation:

CONTRACTOR ACKNOWLEDGES IF SET FORTH IN THE AUTHORIZATION THAT THE UNITED STATES OF AMERICA WILL OWN OR LEASE THE EQUIPMENT AND/OR MATERIALS BEING INSTALLED OR SUPPLIED HEREUNDER, AND, ACCORDINGLY, AGREES THAT ALL WARRANTIES SET FORTH HEREIN, OR OTHERWISE PROVIDED BY LAW IN FAVOR OF THE COMPANY SHALL INURE, IF APPLICABLE, ALSO TO THE BENEFIT OF THE UNITED STATES AND THAT ALL CLAIMS ARISING FROM ANY BREACH OF SUCH WARRANTIES OR AS A RESULT OF DEFECTS IN OR REPAIRS TO SUCH EQUIPMENT OR SUPPLIES MAY BE ASSERTED AGAINST CONTRACTOR OR MANUFACTURER DIRECTLY BY THE UNITED STATES OF AMERICA.

**18.5.** The Ordering Agency shall provide GSA with copies of fully executed Exhibit "[C][B]" Authorizations for any EMS resulting from approved energy audits, including any applicable attachments, at the address provided in Article 16.1. To the extent specified in an Authorization, the Contractor shall provide financial schedules at interim delivery points as required by the ordering agency. Financial schedules, if required, are based upon the eProject Builder system and final financial schedules shall be submitted through the eProject Builder system <https://eprojectbuilder.lbl.gov>.

**18.6. Contractor's Responsibilities under this Areawide Contract:**

- (a) The Contractor shall not provide EMS to Federal facilities under this Areawide Agreement unless the facility is a current customer or prospective customer of the regulated utility within the franchised service territory of the utility company providing such services.
- (b) The work that is to be performed under the Authorization for EMS shall be limited to work intending to produce a direct reduction in, or management of, demand, cost, or energy security or safety of, energy or water usage (see Article 1.1) and any modifications or repairs that are necessary as a direct result of the installation of the ECM.

**18.7. Guaranteed Savings and Scoring of Utility Energy Service Contracts (UESCs) by the Ordering Agency(ies):**

UESC's that meet the definition of "Energy Management Service" ("EMS") prescribed in Article 1.1 of this Areawide Contract, and which follow the guidance prescribed in OMB Memoranda M-12-21 and M-98-13, may be scored for budgetary purposes by the Ordering Agency(ies) on an annual basis if the UESC requires:

- (a) Energy savings performance assurances or guarantees of the savings to be generated by improvements, which must cover the full cost of the Federal investment for the improvements;
- (b) Measurement and verification (M&V) of savings through commissioning and retro-commissioning; and
- (c) Competition or an alternatives analysis as part of the selection process prior to entering into a UESC.

Ordering Agencies should consult applicable law and guidance to determine proper scoring treatment for these projects. For Ordering Agencies within the Department of Defense, note that 10 U.S.C. § 2913(d)(4) provides that title vesting for energy-saving devices or technology installed at a military installation may occur "at such time during the term of the agreement, or upon expiration of the agreement, as determined to be in the best interests of the United States."

**18.8. Performance Verification Plan:** In order to assure the necessary fiscal responsibility consistent with sound program management, alternatively financed UESCs should include a plan for continued action during the contract to assure continued accomplishment of expected performance (this is referred to as a Performance Assurance or Performance Verification Plan). The level of performance assurance and its associated costs should be worth the level of certainty of cost savings that the Ordering Agency reasonably deems to be necessary. Each alternatively financed UESC should have a performance assurance plan to accomplish this. Such plans should provide for the separate evaluation of each energy conservation measure and combination of measures in order to identify the appropriate level of needed performance assurance activity based on the technical complexity, potential savings magnitude, and specific situation. (See Overview of the Measurement and Verification for Federal Energy Projects Guidelines Version 2.2 or FEMP Fact Sheet - Performance Assurance for Multi-Year Contracts Under the Utility Incentive Program for further guidance.) Inclusion of and compliance with the performance assurance plan in the specific project task order satisfies the requirements of Contractor under section 18.1 and 18.7.

**18.9** For Ordering Agencies within the Department of Defense, Section 2811 of the National Defense Authorization Act for Fiscal Year 2024 (codified at 10 U.S.C. § 2920 note) provides authority to utilize areawide contracts for identified utility service objectives, including for energy resilience. At the time of issuance of this Areawide Contract, the authority under this subsection is scheduled to sunset on September 30, 2032. Ordering Agencies are encouraged to review applicable legal authorities, as may be updated from time to time, in order to identify the most advantageous approach to executing projects.

## **ARTICLE 19. MISCELLANEOUS**

**19.1. Contract Administration:** The Ordering Agency shall assist in the day-to-day administration of the Service being provided to it under an Authorization.

**19.2. Anti-Deficiency:** Unless otherwise authorized by Public Law or Federal Regulation, nothing contained herein shall be construed as binding the Government to expend, in any one fiscal year, any sum in excess of the appropriation made by Congress for that fiscal year in furtherance of the matter of any Authorization executed in accordance with this Areawide Contract or to involve the Government in an obligation for the future expenditure of monies before an appropriation is made (Anti-Deficiency Act, 31 U.S.C. 1341.A.1).

**19.3. Obligation to Serve:** Nothing contained in this Areawide Contract shall obligate the Contractor to take any action which it may consider to be detrimental to its obligations as a public utility.

**19.4 Term of Authorizations:** It is recognized that during the Term of this Areawide Contract, situations and/or requirements may arise where it may be desirable that the term of service to an Ordering Agency's facility extend beyond the Term of this Areawide Contract. In such event, the particular Authorization involved may specify a term extending beyond the Term of this Areawide Contract, provided that it is within the contracting authority of the Ordering Agency and, if applicable, appropriate termination liability provisions have been negotiated between the Contractor and Ordering Agency to address unamortized balances for connection charges and/or financing charges associated with EMS projects.

**19.5. Indemnification:** Any indemnification language contained in standard form agreements executed between the Ordering Agency and the Contractor shall be binding upon the Federal Government only to the extent authorized by law, opinions of the Government Accountability Office and the Federal Torts Claims Act.

**19.6. Authorization Procedure:** The execution of an Authorization by Contractor and an Ordering Agency shall not supersede a previously executed Authorization addressing the same service unless specifically stated. Allowable terms of Authorizations shall be consistent with the guidance and policy set forth in Article 2.2 of this Areawide Contract.

**19.7. Reserved.**

IN WITNESS WHEREOF, the parties have executed this Areawide Contract as of the day and the first year above written.
