

Explore the architectural beauty of downtown Casper with a visit to the Dick Cheney Federal Building and U.S. Post Office. Originally constructed in 1970, this building is a stunning example of late Modern-Era architecture, blending elements of the New Formalist style with the rawness of Brutalism. Designed by local firm Engstrom & Deines, it stands as a testament to modern design principles and Casper's architectural evolution. Experience the historic charm and modern allure of downtown Casper at the Dick Cheney Federal Building and U.S. Post Office!

Casper, Wyoming

Experience the timeless elegance of the Fargo Federal Building and Post Office, a masterpiece of architectural excellence. Constructed in 1969 by the GSA, this iconic structure comprises three distinct sections, each crafted with precision and adorned with quality materials like black granite and white quartz. Designed by the local architecture firm Foss Engelstad & Foss of Fargo, Inc., it showcases Fargo's impressive architectural abilities. Located in the historic Roberts Street District, it's a beacon of heritage and modernity, offering visitors a glimpse into Fargo's rich history.
