PBS-P100

Facilities Standards for the Public Buildings Service

Manual of Procedures

Approved July 20, 2020

1. Purpose

- 1.1. This Manual of Procedures defines the organizational structures and procedures that will be used for the drafting, editing, updating, reviewing, and issuance of the PBS-P100, "*Facilities Standards for the Public Buildings Service*"

2. Scope

- 2.1. Committee structures, authorities, responsibilities, processes, and budgetary activities are defined and specified.
- 2.2. Procedures for receiving, tracking, and responding to comments from sources both internal and external to GSA are specified.
- 2.3. Procedures for producing and editing P100 technical content are described.
- 2.4. Approval processes are specified.

3. Steering Committee

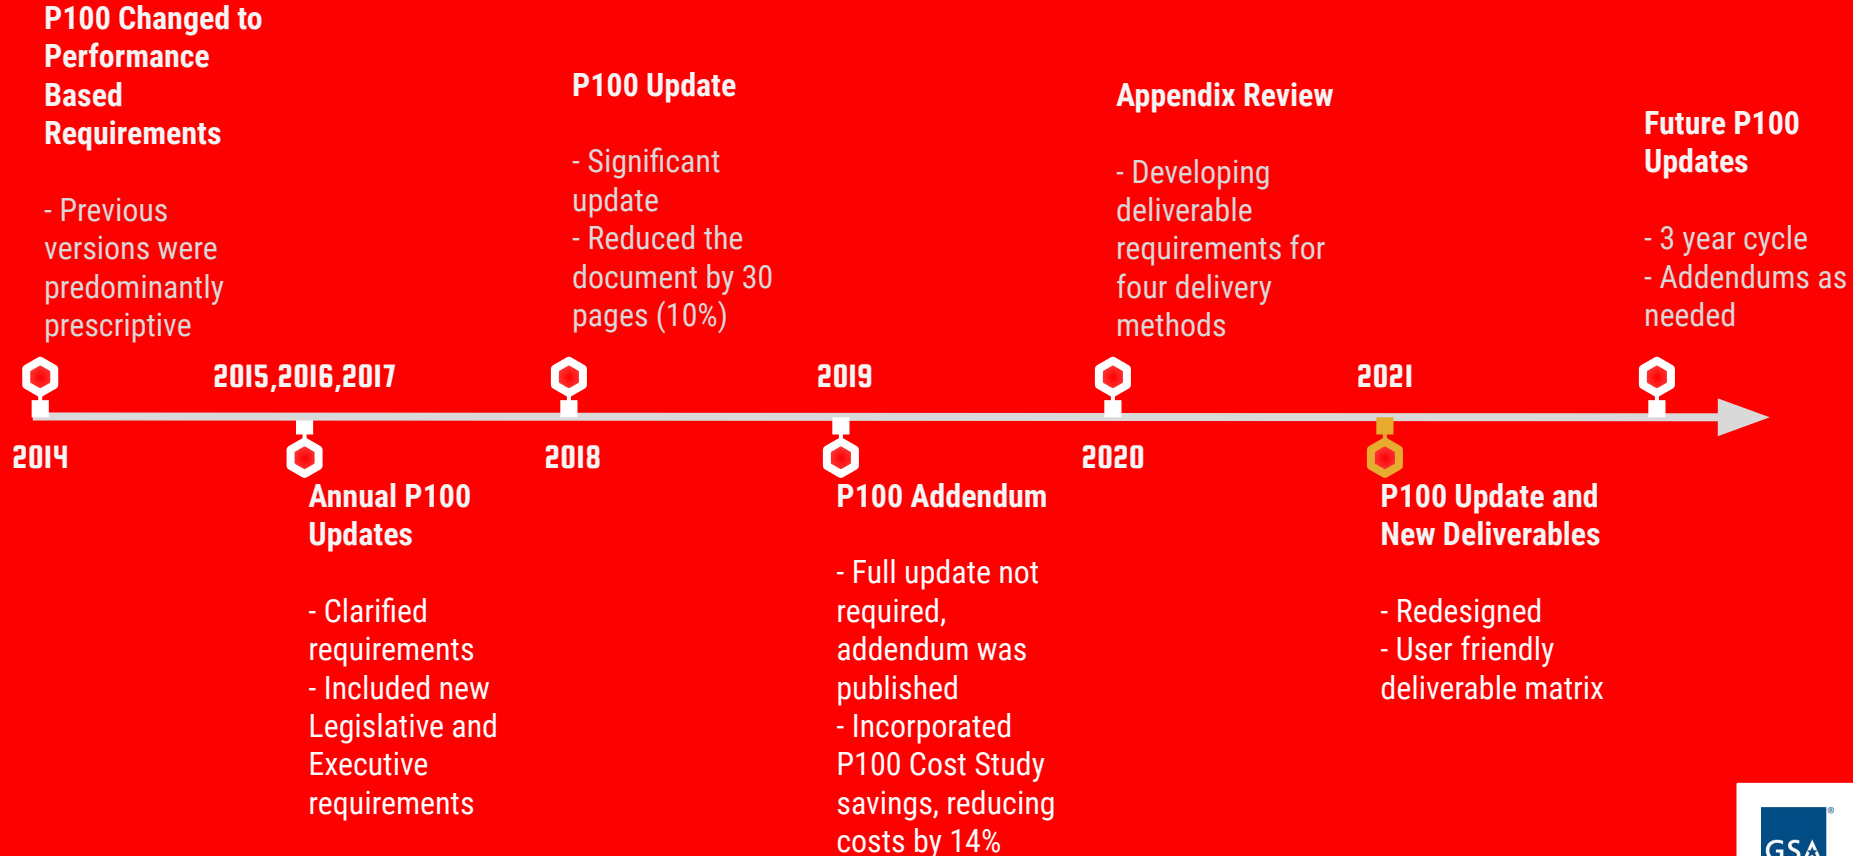

3.1. Sponsor

- 3.1.1. The P100 Steering Committee is sponsored by the Chief Engineer in the Office of the Chief Architect (OCA).

3.2. P100 Program Manager

- 3.2.1. The Chief Engineer appoints a P100 Program Manager who is a voting member. The program manager shall have a single vote even if performing more than one membership responsibility.
