FEDERAL BUREAU OF INVESTIGATION  
CHARLOTTE, NC**

**Background**

The mission of the FBI is to protect and defend the United States against terrorist and foreign intelligence threats; to uphold and enforce the criminal laws of the United States; to provide leadership and criminal justice services to Federal, State, municipal, and international agencies and partners; and to perform these responsibilities in a manner that is responsive to the needs of the public and is faithful to the Constitution of the United States.

The FBI has 56 field offices located in metropolitan areas throughout the United States. Field office locations carry out investigations, assess regional crime threats, and work with partners on cases and operations. This Charlotte, NC, location serves as the main office of eight satellite resident agencies in Asheville, Fayetteville, Greensboro, Greenville, Manteo, Hickory, Raleigh, and Wilmington.

**Justification**

The FBI is currently housed at 7915 Microsoft Way, Charlotte, NC, in a lease that expires June 16, 2026. The agency requires continued housing to carry out its mission and anticipates this need to continue beyond the 20-year term of this proposed lease.

GSA will consider whether the FBI's continued housing needs should be satisfied in the existing location based on an analysis of other potential locations within the delineated area. If other potential locations are identified, a cost-benefit analysis will be conducted to determine whether the Government can expect to recover the relocation and duplication costs of real and personal property needed for the FBI to accomplish its mission.

**Summary of Energy Compliance**

GSA will incorporate energy efficiency requirements into the Request for Lease Proposals and other documents related to the procurement of space based on the approved prospectus. GSA encourages offerors to exceed minimum requirements set forth in the procurement and to achieve an Energy Star performance rating of 75 or higher.

**Resolutions of Approval**

Resolutions adopted by the House Committee on Transportation and Infrastructure, and the Senate Committee on Environment and Public Works approving this prospectus will constitute approval to make appropriations to lease space in a facility that will yield the required rentable area.

**Interim Leasing**

GSA will execute such interim leasing actions as are necessary to ensure continued housing of the tenant agency prior to the effective date of the new lease. It is in the best interest of the Government to avert the financial risk of holdover tenancy.

**OMB Memorandum M-21-25 Implementations and Long-Term Space Requirements**

The requirements within this prospectus reflect the known space needs prior to its submission to Congress. Agencies continue to develop their return to physical workplaces strategies consistent with OMB Memorandum M-21-25, incorporate lessons learned while working both in-person and under maximum telework during the COVID-19 pandemic, and determine each agency's long-term space posture. Accordingly, the requirements outlined in this prospectus may change prior to award of a lease. In the event that a change results in a revised requirement that makes a material change and does not fit within the acceptable parameters of the congressional resolutions, GSA will submit an amended prospectus for consideration by the House Committee on Transportation and Infrastructure and Senate Committee on Environment and Public Works.

**Certification of Need**

The proposed project is the best solution to meet a validated Government need.
