Asset Manager assembles Project Team

Team Members
1. Customer
2. Asset Manager
3. Project Manager
4. Contracting Officer
5. Property Manager(s)
6. Realty Specialist
7. Regional Account Manager(s)
8. GSA Specialists*
9. DHS/FPS Representative
10. FTS and FSS Representatives
11. Regional NEPA Program Coordination
12. Regional Historic Preservation Officer

*GSA Specialist - including, but not limited to:
Regional Accessibility Officer
Regional Fire Protection Engineer
Regional Industrial Hygienist
Regional Appraiser
Regional Energy Coordinator
Regional HVAC Design Advocate

The Project Team evolves over the life of the project. Initially, the Asset Manager assembles and leads the Asset Business Team (ABT) or Project Team through completion of the FS and preparation of Site and Design Prospectus. The PM will chair the Project Team after the Site and Design Prospectus is submitted to Congress.

7.0.0.0.0.0 Construction
8.0.0.0.0.0 Tenant Occupancy

The PPT contains WBS and detailed project tasks for Cx and QAPs

Project Team determines level of CMa and Cx services required during each stage of the project IAW current guidelines

Programmatic discussion may be found in The Building Cx Guide

Planning

Project Team will need Cx assistance during preparation of the FS

Design

The CMa must be on board at the same time as the A/E for maximum benefit/input starting with design concepts

Construction

CMa will perform services as detailed in the SOW and IAW CMAA Construction Management Standards of Practice

Post Construction

CMa will close out project as detailed in SOW. If also completing Cx services, the CMa will conduct all post-construction activities.

Develop preliminary Cx Plan and required budget in FS

CxA services will also be maximized if on board at design concepts

CxA executes Cx Plan as to performance, checklists, testing and progress reports

Cx Plan will be updated for the PDS and as needed by the Project Team

The needs of the project will dictate the level of information study required

Project Team will examine project needs and determine the level of informal investigation to be completed prior to formal Site Selection process

Site studies are typically funded in BA61. Regional policy and funding levels will determine when certain studies are completed.

Project Team assigns team roles and responsibilities

The process commences with the FS and continues through site selection, design and construction as project needs dictate

Project Team coordinates scope for FS to address site needs of the project for Due Diligence, NHPA, NEPA, et al. Refer to DEP&P and PBS-P100 for site considerations.

Concurrent Activities

Concurrent Activities

NHPA
RHPO coordinates with SHPO. RHPO briefs Project Team on progress of consultation(s)
2.2.0.0.0.0

Allow 6-12 months in project schedule

Special Studies Due Diligence
Regional NEPA Program Coordinator manages/ coordinates studies (Due Diligence) with Site Acquisition Specialist

NEPA
Regional NEPA Program Coordinator manages NEPA studies, public meetings, and mitigation measures. Coordinator provides regular updates to Project Team
2.3.0.0.0.0

Allow 6-15 months in project schedule

Site Acquisition
Site Acquisition Specialist coordinates with RHPO and NEPA Coordinator as needed. Specialist manages technical studies, appraisals and relocation estimates and updates Project Team on costs and status
4.0.0.0.0.0.a

All data is utilized in FS (or PDS if D/B) for determination of viable alternatives and associated cost impacts

Site Investigation - 12-18 months with FS and PDS
Site Acquisition - 12-18 months from Site Directive to Closing

7.0.0.0.0.0 Construction
8.0.0.0.0.0 Tenant Occupancy

The PPT contains WBS and detailed project tasks for Cx

Project Team determines level of Commissioning (Cx) required during each phase of the project IAW current guidelines

Programmatic discussion may be found in the Building Cx Guide

Planning	Design	Construction	Post Construction
Project Team identifies lead on Cx task/team	Include Cx services in A/E, CMa and/or CxA Scopes of Work as determined by Project Team	CMa or CxA executes Cx Plan as to performance, checklists, testing and progress reports	CMa or CxA performs deferred/seasonal testing, warranty inspections, and completes Final Cx Report
Develop preliminary Cx Plan and required budget in FS	**Update Cx Plan as building systems are identified and designed**	**Conduct owner training and Turnover Cx Record**	**Perform Satisfaction Review with tenants and submit findings to Project Team**
Cx integrated into FS and updated in PDS	**Contract documents aligned with GSA/PBS' Project Requirements**	**Systems performance documented and accepted**	**System performance sustained**

8.0.0.0.0.0 Tenant Occupancy

Site Selection includes complex compliance issues to include but not be limited to EOs, NEPA, NHPA, Due Diligence, NAGPRA, CERCLA, et al. Special technical studies are typically required for site evaluation/cost impacts. Project Team must rely upon regional/national specialists to address this complex process.

Monitor MOA/PAs and mitigation throughout project delivery. This is an ongoing rather than an ending process.

The Project Team evolves over the life of the project. As contractors (A/E, CMa, CMc, Cx, GC/CC) and special consultants are hired, they become a part of the Project Team.

CMa must be on contract concurrent with Design A/E to maximize their input early in the Design Concepts and DDs. This would apply to CMc.

On-board reviews are usually informal and discretionary. They are conducted to check the progress status of various disciplines. Attendees will vary depending upon issues to be reviewed. Separate breakout sessions by discipline, e.g., fire protection, mechanical, electrical, architectural, may be effective.

Option A: Holding partnering concurrently with kick-off:

Pros: Enhances team building.
Captures the early enthusiasm for a new project.
Logistics and scheduling are simplified with one meeting.

Cons: Duration and intensity could tire stakeholders and team members; information overload.
Agenda is more generic in format than actual, as construction has not started yet.

Option B: Delaying partnering until after kick-off:

Pros: Real construction issues can be addressed.
Real relationship issues can be addressed.
Can determine if communications and processes established at the Kick-off Meeting are working correctly.

Cons: Logistics in scheduling: not being able to assemble all the stakeholders at the same time.
kick-off enthusiasm has waned.
Personality conflicts may have already arisen and may be causing problems.
Project has already begun, which may make it difficult for project staff to break away from the site and attend the meeting.

A/E Meeting: Discuss with the A/E team planning trigger for whether the team feels an outside consultant for the Partnering Meeting is necessary.
