GSA 3516A, SOLICITATION PROVISIONS (For Simplified Acquisition of Leasehold Interests in Real Property) are attached to this RLP.

2.02 FLOOD PLAINS (OCT 2022)

- A. A Lease will not be awarded for any offered Property located within a 1-percent-annual-chance floodplain (formerly referred to as 100-year floodplain) unless the Government has determined that there is no practicable alternative. An Offeror may offer less than its entire site in order to exclude a portion of the site that falls within a floodplain, so long as the portion offered meets all the requirements of this RLP and does not impact the Government's full use and enjoyment of the Premises. If an Offeror intends that the offered Property that will become the Premises for purposes of this Lease will be something other than the entire site as recorded in tax or other property records the Offeror shall clearly demarcate the offered Property on its site plan/map submissions and shall propose an adjustment to property taxes on an appropriate pro rata basis. For such an offer, the Government may determine that the offered Property does not adequately avoid development in a 1-percent-annual-chance floodplain.
- B. In addition, a Lease will not be awarded for any offered Property adjacent to 1-percent-annual-chance floodplain, where such an adjacency would, as determined by the Government, restrict ingress or egress to the Premises in the event of a flood, unless there is no practicable alternative.

SECTION 3 - ELIGIBILITY AND PREFERENCES FOR AWARD

3.01 BASIS OF AWARD (OCT 2023)

- A. Lowest Price Technically Acceptable Approach. The Lease will be awarded to the responsible Offeror whose offer conforms to the requirements of this RLP and Lease documents and is the lowest priced technically acceptable offer submitted, based on the lowest price per square foot, according to the ANSI/BOMA Z65.1-2017 definition for Occupant Area, which means "the total aggregated area used by an Occupant before Load Factors are applied, consisting of Tenant Area and Tenant Ancillary Area." The Method A – Multiple Load Factor Method shall apply.
- A. Best Value Tradeoff Approach. The Lease will be awarded to the responsible Offeror whose offer will be most advantageous to the Government.
1. The combination of factors below is **significantly more important than price** [approximately equal in importance to price] **significantly less important than price**. As proposals become more equal in price, their technical merit becomes more important. Likewise, as technical factors become more equalized, price becomes the most important component.
 2. The following evaluation factor(s) will be considered:

Factor 1 _____
Factor 2 _____
Factor 3 _____
Factor 4 _____
- B. Price evaluation will be based on the lowest price per square foot, according to the ANSI/BOMA Z65.1-2017 definition for Occupant Area, which means "the total aggregated area used by an Occupant before Load Factors are applied, consisting of Tenant Area and Tenant Ancillary Area." The Method A – Multiple Load Factor Method shall apply.
- C. See FAR Clause 52.219-4 Notice of Price Evaluation Preference for HUBZone Small Business Concerns, as listed under the attached GSA 3517A, General Clauses.
- D. If an offer contains terms taking exception to or modifying any Lease provision, the Government will not be under any obligation to award a Lease in response to that offer.

If none of the offers is in compliance with the Seismic Standards, the LCO will make the award to the Offeror whose offer meets the other requirements of this RLP and provides the best value to the Government, taking into account price, seismic safety and any other evaluation factors specified in this RLP.
- B. An offered Building will be considered to be in compliance with the Seismic Standards if it meets one of the following conditions:
