

Richford

Land Port of Entry

Border crossing station in Richford, Vermont
Budget: \$25 - \$35 million

Primary Tenants

Project Overview

The project scope includes the modernization of a Land Port of Entry (LPOE) to meet the Program of Requirements of space and facilities in support of Custom and Border Protections (CBP) agency missions at the international border, between Richford, Vermont and Abercorn, Quebec. The current facility no longer meets the Custom and Border Protection’s current LPOE design standards. The project will help improve traffic flow, enhance security, and facilitate trade and travel in the region.

Current Status

A Design Statement of Work is completed and pre-design efforts were awarded with an anticipated completion date of January 2024 - full design services anticipated award of September 2024.

Project Timeline

The Bipartisan Infrastructure Law includes \$3.4 billion for GSA to modernize and construct land ports of entry along the nation’s borders. These projects will strengthen supply chains, create good-paying jobs, enhance safety and security, and serve as models of sustainability.
