The **Integrated Award Environment (IAE)** is a program within GSA's Federal Acquisition Service (FAS). We manage the suite of systems that enable people to navigate the federal award lifecycle. The ***beta.SAM.gov Update*** delivers the latest information about system modernization efforts and other updates to IAE systems.

This is the final edition of the *beta.SAM.gov Update*! In the future, our newsletter will simply be called the *SAM.gov Update*.

What's Changing with the SAM.gov and beta.SAM.gov Integration?

On May 24th, 2021, SAM.gov will merge with beta.SAM.gov, becoming one system. This milestone marks the culmination of significant work with IAE system users and stakeholders across the board who all have helped create what will be the new SAM.gov. The new SAM.gov—that will now be much more than a registration system—incorporates customer-focused functionality changes, improving the overall experience for you.

The SAM.gov that you experience today is where entities register to do business with the federal government, find exclusion records, search entity registrations, and perform other tasks. That functionality will move into the new system along with all the functionality from beta.SAM.gov—contract opportunities, assistance listings, wage determinations, and the federal hierarchy. We published a series of blogs on our [Interact space](#) detailing changes users will see on May 24, as well as what will *not* change:

- [What's changing with search](#)
- [What's changing in your Workspace](#)
- [What's changing with non-federal roles](#)
- [What's changing with SCR and BioPreferred reporting](#)
- [What's changing with SAM.gov data](#)
- [What's NOT changing at SAM.gov integration](#)

RECAPS: IAE Stakeholder Forum and Federal Training Webinar

Thank you, SAM.gov stakeholders, for joining our recent webinars hosted by GSA's Integrated Award Environment (IAE) about what's changing (and what's not changing) when SAM.gov integrates with beta.SAM.gov. On May 5 and May 12, IAE subject matter experts reviewed details about the integration of SAM.gov into the beta.SAM.gov environment, tailoring presentations for our non-federal (May 5) and federal (May 12) stakeholders. To view our slides, written answers to stakeholder questions, and a recording of the events, please visit our space on Interact. Materials from the [May 5th event may be accessed here](#). Materials from the [May 12th event may be accessed here](#).

Follow [our community on Interact](#) and be notified about the latest news and information about IAE.
